To

The Secretary to Government,

Educational Department.

Sir,

I have the honour to submit for the favourable consideration of Government the enclosed plan with estimate amounting to Rs 8422, towards the cost of constructing a building for the Wesleyan Mission Hindu Girls' School, Tiruvallur, Chingleput District, together with an application for aid in the form prescribed in the Grant-in-Aid Code.

2. This school which is intended for the education of caste Hindu girls ^{would be} ~~is~~ the best of its kind in Tiruvallur, but for the unsuitable and unsatisfactory accommodation with which it is provided. This defect has been the subject of frequent comments on the part of the Inspecting officers, and ^{as} the result of this, the Manager has resolved to provide the institution with the proposed building.

3. From the particulars given in column 4 of the application it will be seen that for a Hindu Girls' school it is fairly well attended; but with ^{the} improved accommodation which it is now proposed to supply, the strength is sure to increase, and there is every likelihood of the school developing into a good Lower Secondary institution.

4. The highest class in the school which has secured the privileges of recognition is the 4th. The I and II forms would have been recognized long ago but for the difficulty the manager found in providing the school with a suitable building.

5. The Manager reports that on the 6th November

3
3-2-
2P

next Commission from the Wesleyan Mission Home Committee is to visit Tiruvallur on which occasion he is very anxious to have the foundation laid. As the plan and estimate have yet to be approved by the D.P.W authorities, and as it is not possible to forecast what modifications in the design they are likely to suggest, the manager's request cannot be conveniently complied with. But I am assured by the manager that, whatever may be the suggestions of the Public Works officers, he is prepared to carry them out in toto, and begs therefore that permission may be given him to lay that portion of the foundation alone that will support the corner stone. I beg to recommend that the manager's request be granted, as he is prepared to undertake ^{this} part of the work at his own risk, promising to remove any part, or the whole, of the portion laid, if such removal is required to meet any modification of plan decided on by Government.

6. Out of the allotment for building grant in the current year's budget estimate payment of Rs 4183/ has been authorized up to date.

7. The building is to be constructed on a site which appears to have been purchased for Rs 1135/. This amount has been included in Rs 8422/, the estimated cost of the proposed building. The manager will be required to produce the sale deed and all other documents required to establish that his title to the site is good and in order.

8. The grant if sanctioned will be paid on the completion of the building and after the execution by the authorized attorney of the Wesleyan Mission Trust Association of the necessary mortgage deed.

I have the honour to be,

Sir,

Your most obedient servant,

S. Sathianathan
Director of Public Instruction.

EDUCATIONAL DEPARTMENT.

SUBJECT. Building grant towards the cost of constructing a building for the Wesleyan mission Hindu Girls' School, Tiruvallur.

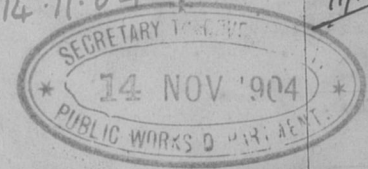

It is submitted that before the grant applied for is sanctioned the accompanying plan and estimate may be forwarded u.o. to the P.W.D. for scrutiny.

2. It is regretted that the request contained in para. 5 of the Director's letter was not noticed in the Office owing to the move of Govt. from the hills and as the current was not marked as urgent. It is now too late to take any action on it.

5
Note by ~~the~~ Chief Engineer P.W.D.

The Estimate for Con-
-Structing a Wesleyan Mission
Amenity Girls' School at Tiruvallur,
in the Chingleput District, is
recommended for sanction with
the following remarks

The floor should be
laid with 6" Concrete and the
Course of wall bricks omitted.

8 Ventilators are
deducted in the item of brick-
-work, in superstructure, but
to be provided under doors
and windows

The Scantlings of the
wood work have been altered
as follows.

Common rafters from 2×3 to $2 \times 3\frac{1}{2}$

Purlins — from $3\frac{1}{2} \times 5$ to $5 \times 6\frac{1}{2}$

Principal rafters from 4×5 to $3\frac{1}{2} \times 5$

Tie beam — from 4×6 to $4 \times 5\frac{1}{2}$

Shirts — from 4×4 to $3\frac{1}{2} \times 4$

Joints, port rooms from 3×8 to $3\frac{1}{2} \times 8$

Do - Central - do - from 3×5 to $3 \times 5\frac{1}{2}$

Do - Mar - do - from 3×6 to $3 \times 6\frac{1}{2}$

Roofed Stul firds from $10 \times 5 \times 2$ qtrs
to B & B 18 or 17 of $10 \times 5 \times 3$ qtrs.

The rates, for extra-
-ling foundations at Rs 4 per 1000
Cft and for Cement at Rs 12.14.0
per 100 Cft, appear high. The
former ^{should} ~~be~~ ^{be} reduced to
Rs 2/8/0 per 1000 Cft. For the
latter a data should be
submitted.

For the Latrine
Type design No 93 of the
Sanitary Board should be
adopted.

In the detailed
estimate for the Compound
wall and latrine the length
for Concrete and excavation
is 222 ft. but for the brick
work it is only 166 ft. 9 inches.
The difference should be explained.
