P. W. Department

note by the Chief Engineer, P. W. D.

The estimate for constructing All Saints Boys Industrial School at Puthur, Trichinopoly, has been ^{duly} scrutinised and ~~may be~~ returned with the following remarks :-

1. The floor which is proposed to be laid with 4" of concrete is a very unsuitable one for workshops, Cuddapah slabs 2" thick laid on sand filling and pointed with Portland cement would be far preferable if funds permit.

2. The tie beams should not be made to abut against one another.

3. The scantlings for roof timbers should be as follows :-

Tie beams — 4" x 6" against 4" x 7½"

Principal rafters — 4" x 6" do 4" x 6½"

Common rafters — 2½" x 3½" do 3" x 4"

By the above alterations, the amount of the estimate would be increased from Rs 4,560 to Rs 5,400.
