FURTHER PAPERS.

To

The Secretary to Government,

Educational Department.

Sir,

I have the honour to submit, for the favo ble consideration of Government, the enclosed application for aid towards the cost of constructing a hostel in connection with the S.P.G. College, Trichinopoly together with the necessary accompaniments. The necessity for the proposed wo is explained by the Manager in the following words.

"It is almost impossible for students to find proper lodging in this town. Our present rooms will hol only 74 and most of the others who do not live with their parents occupy rooms either insanitary or otherwise objectiona

2. Since 1899-1900 the strength of the Coll as will be seen from the particulars given in the margin has

steadily increasing, from 133 on the 31st March 1900 to 250 on the same date in 1904, but during this period the hostel accommodation provided by the College has remained the same. Attached to this college there are two hostels---"the colony" Brahmans and other caste Hindus and the "Caldwell Hostel" tians. The one provides accommodation for 36 38; that is to say out of 250 pu

on the rolls, of whom a major portion is reported to have no relatives or guardians with whom they can find board and lodging, the College provides hostel accommodation for 74 students, leaving a large number to resort to the so called hotels or "eating houses", which are not licensed as required by the University Regulations, and which are extremely unsuitable for students. The proposed hostel, which is for the exclusive use of the Brahmans, besides providing accommodation for a larger number, will enable the College authorities to set apart the "Colony" wholly for the use of the non-Brahman caste Hindus, for whom there is no such separate accommodation at present. With the proposed hostel the college will be able to provide fairly good hostel accommodation for the different communities from which it draws its students. It may be noted here that of the 250 students 180 are Brahmans, 47 Native Christians, 21 non-Brahman Caste Hindus and 2 Muhammadans.

3. The original plan of the building was rejected, as the rooms proposed to be built were too small for the accommodation of two students each. The present plan herewith submitted has been completely modified so as to provide single rooms, each measuring on an average 9'.0" x 12'.0" for the majority of students; but on each floor one room will be for two students and one for three and these will measure 9'.4½" x 12'.0" and 12'.4½" x 12'.4½". The hostel will be in charge of a European superintendent who will reside on the premises, and for whom accommodation will be provided in the third storey.

4. The college receives from provincial funds a salary grant of Rs 537-8-0 per mensem, besides scholarship and other grants from Rs 400/ to 500/ per annum. During the last official year the college worked on a deficit balance of Rs 1646-8-1, the total receipts and expenditure being Rs 21515-7-5 and 23161-15-6 respectively. The amount of aid received from Government during the last official year was Rs 6902-13-5.

5. The title of th

site on which the proposed building is to be constructed is reported to be good and in order, but in the event of the aid sought for being sanctioned the title deeds &c will be called for and duly examined, prior to the execution of the mortgage deed required under Rule 119 of the Grant-in-Aid Code.

6. The grant if sanctioned may be paid in two instalments, the first just after the execution of the deed, and the second after the completion of the building.

7. Out of the allotment for building grant in the current year's budget estimate payment of Rs 4183/ has been authorized up to date.

I have the honour to be,

Sir,

Your most obedient servant,

S. Sathianadhan

For Director of Public Instruction.

Note by the Chief Engineer P.

The plans & estimate recei
from the Educational Dept. with
Government No. 553 B dated 15th No
1904, for constructing a Hostel
connection with the S.P.G. College
Trichinopoly are returned duly cou
=tersigned, with the following remarks:

(a) The foundations should be car
=ried through the "made" soil to th
clay formation, and notice should
be given to the Executive Engineer
when the founds have been opened
out & before concrete work is commenced.

(b) A floor of 4" concrete laid
over 12 inches of sand filling is n
a good one. It should be of square
tiles set on 4½" of concrete, & pointed with
cement.

(c) Rolled steel girders of a section
8" × 4" weighing 18 lbs per ft
should be substituted for the wooden beams in the corner rooms near the stairs.

(d) The following scantlings for
roof timbers should be as below

2. The Director ~~says that~~ recommends that the grant, if sanctioned, may be paid in two instalments, the first just after the execution of the deed and the second after the completion of the building. The system of payment on account has however now been abolished & the whole amount will be payable after the building has been completed, a certificate of actual expenditure has been furnished and the mortgage deed executed.

3. As soon as the amount of grant is settled the file may be sent back to the P.W.D. for information as to the period within which the work can be completed. That depart may perhaps be also asked to furnish this information in future in the case of all estimates scrutinized by it.
