G.O., No. 342, 20th May 1905.

P.

MAY.

Informing the Director of Public Instruction that the Government of India have approved of the introduction of an extended course of study of four years for all native military pupils entering the medical schools on or after 1st April 1906.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following papers :—

G.O., Nos. 640, 641, Educational, dated 22nd December 1903.

ABSTRACT.—Sanctioning, with remarks, the abolition of the precollegiate course for hospital assistant students and the extension to four years of the school course of students other than military pupils, and addressing the Government of India regarding the extension of the course of the military pupils to four years.

G.O., No. 475, Educational, dated 3rd August 1904.

ABSTRACT.—Recording letter from the Government of India stating that they are taking steps to extend the course of training of military hospital assistant pupils from three to four years

READ—also the following paper :—

From Major W. A. LIDDELL, R.E., Officiating Deputy Secretary to the Government of India, Military Department (Medical Department—Subordinate), to the Director-General, Indian Medical Service, dated Simla, the 26th April 1905, No. 1914-D.

I am directed to acknowledge the receipt of your letter No. ^{5147,}_{5148,}^{5149,}_{5150,} dated the 30th

August 1904, regarding the extension of the course of training of native military medical pupils.

2. Under the system now in force these pupils undergo a collegiate training for three years before admission to the hospital assistant branch of the Indian Subordinate Medical Department. In the present state of medical knowledge this period is held to be too short a time to acquire the standard of efficiency required of military hospital assistants, and it is therefore considered desirable to extend the period of training from three to four years. It is calculated that in order to carry out this change it will be necessary to add about 84 pupils annually to the number now admitted, and it is understood that no difficulty would be experienced in accommodating the increased number of pupils in the medical schools.

3. In reply I am to say that the Government of India approve of the introduction of an extended course of study of four years for all native military pupils entering the medical schools on or after the 1st April 1906. These pupils will receive during the whole period of their instruction stipends of Rs. 7 per mensem, *plus* Rs. 2 per mensem for English qualification, in lieu of the present incremental rates of pay.

4. The extra cost of the measure now sanctioned is estimated at Rs. 12,000 *per annum*.

Copy to the Secretary to the Government of Madras, Educational Department, in continuation of Military Department No. 4057-D., dated 22nd July 1904.

(By Order.)

H. H. F. TURNER, Captain,
Offg. Asst. Secy. to the Govt. of India.

ORDER—No. 342, Educational, dated 20th May 1905.

With reference to his letter No. 4730, dated 30th June 1903, the Director of Public Instruction is informed that the Government of India have approved of the introduction of an extended course of study of four years for all native military pupils entering the medical schools on or after the 1st April 1906, and that these pupils will receive during the whole period of their instruction stipends of Rs. 7 per mensem, *plus* Rs. 2 per mensem for English qualification, in lieu of the present incremental rates of pay.
