JUNE.

Government Oriental Manuscripts Library.

Recording the report on the working of the — for 1904–1905.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—the following paper:—

From the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras, to the Secretary to Government, Educational Department, Cur. No. 5148, dated 9th June 1905.

I have honour to submit herewith three copies of my proceedings Dis. No. 3842, dated 1st June, reviewing the report on the working of the Oriental Manuscripts Library for 1904–1905.

Enclosure.

Proceedings of the Director of Public Instruction, Dis. No. 3842, dated 1st June 1905.

Read—the following letter from M.R.Ry. Rao Bahadur M. RANGACHARIYAR, M.A., Curator, Government Oriental Manuscripts Library, Madras, to the Director of Public Instruction, No. 91, dated 1st May 1905:—

I have the honour to submit the report on the working of the Government Oriental Manuscripts Library during 1904–1905.

2. *Staff.*—The probationary period of D. S. Satakopachari as acting clerk was extended for another year. K. Venkateswara Sastri, the Assistant Librarian, was on privilege leave for one month from 7th June 1904. During the first thirteen days of his absence, T. E. Govindachariyar, a Sanskrit Pandit, acted for him. The services of S. A. Sivachidambara Pillai, who was employed as a temporary clerk for preparing the descriptive catalogue of Tamil manuscripts, were dispensed with from 1st February 1905, from which date K. Gopala Rao has been employed in preparing a similar catalogue for the Telugu manuscripts in the library.

3. *Contingent expenses.*—The Director of Public Instruction, in his Dis. No. 4228, dated 5th July 1904, having sanctioned Rs. 2,200 instead of Rs. 600, as in the previous years, for the contingent expenses of the year 1904–1905, the expenditure under the heads of transcription, purchase of manuscripts and purchase of printed books has increased, resulting in a larger acquisition of manuscripts and in the purchase of some of the necessary books of reference. Moreover, charges for preparing the manuscripts of works to be printed have been incurred for the first time, in accordance with the provision made therefor in the above-mentioned Proceedings of the Director of Public Instruction. The making of additional furniture for the use of the members of the staff as well as of the copyists and the visitors at a cost of Rupees 216 is chiefly responsible for the increased charges shown under minor contingencies.

4. *Visitors and manuscripts consulted.*—The decrease in the number of visitors and in that of manuscripts consulted during 1904–1905, as compared with the numbers for 1903–1904, is due to the fact that there was then, as explained in paragraph 4 of my last annual report, a special influx of new comers to Madras; and this decrease does not therefore indicate any diminution in the popularity of the library. During the year under report scholars, European and Indian, took advantage of the library to a greater extent than in the previous year, as is evident from the fact that 66,000 *granthas* * of manuscript-matter was supplied to them as against 29,000 in the previous year.

* A grantha is a quantity of written or printed matter consisting of 32 syllables.

5. *Tours for the collection of manuscripts.*—During the year under report three tours were undertaken for the collection of manuscripts, one by each of the three members of the staff. The chief places visited are Tirupati, Venkatagiri, Máyavaram, Kumbakónam and Conjeeveram and the neighbouring villages. Over thirty collections of manuscripts were examined in the course of these tours; and the rare and otherwise valuable works found in the collections were purchased for the library, whenever the owners were willing to part with them. When the owners refused to sell such manuscripts, they were obtained on loan to be copied for the library. A number of comparatively less important works has been presented to the library by various donors. Last July when I was at Gooty for two or three days on private business, I received from Mr. V. V. S. Avadhani, B.A., the District Munsif of the place, eight manuscripts which he kindly gave away in presentation to the library. These manuscripts were almost all in good condition, and were found to contain valuable works. As in previous years, manuscripts were got copied for the library from outside stations also, such as Puri, Vizagapatam, Tirupati, Tallam, Sríperumbúdúr, Ikai, Kalyanapuram, Azhvár Tirunagari, Parur, Pattambi, etc. An amount of Rs. 300 has been provided in the budget for travelling allowances; but as the order sanctioning the increased allotment was received on the 21st July, after the summer vacation of the Presidency College, I could not go on tour personally to examine private libraries of manuscripts for the discovery and acquisition of rare and valuable manuscripts to the library. It is, however, hoped that a larger number of tours will be undertaken for this purpose during the current official year.

6. *Manuscripts acquired.*—During the year under report the number of manuscripts acquired is larger than in the previous year, and the increase has been as explained already made possible by the increased grant for the purchase and transcription of manuscripts. Fifteen collections of manuscripts were purchased, and twelve collections of manuscripts were received in presentation. The District Magistrate of Tanjore forwarded a collection of thirteen Tamil manuscripts containing 51 works, of which 16 works are such as have no other copies in the library. Among manuscripts purchased, there are a large number of works of importance and usefulness; and they were all in the possession of well-known pandits or their families.

7. *Catalogues*—(1) *Catalogue of the manuscripts acquired during the year* 1904–1905.—A list of the manuscripts acquired during the year giving information regarding the rarity and usefulness among other things of the works, and regarding also the place of their former deposit is appended to this report.

(2) *Descriptive catalogue of the manuscripts acquired since* 1899.—No considerable progress has been made in regard to this catalogue, as the work of printing the descriptive catalogue of the Sanskrit manuscripts kept the staff of the library fully engaged. However, it is hoped that the appointment of a temporary proof-reader will make it possible to show better progress in this work during the present year.

(3) *Descriptive catalogue of the Sanskrit manuscripts of the library.*—During the year under report the second part of volume I was issued with a table of contents and index; and 674 descriptive slips were revised and altered before they were sent to the press. Altogether 1,034 slips, relating to as many works, from No. 283 to No. 1,316 and covering 649 pages in print have been struck; and 210 slips are now in proof in various stages of correction. The third and last part of volume I describing 607 upanishadic works, from Nos. 246 to 852, will be shortly issued, as the table of contents and the index relating thereunto are in proof and undergoing correction. The second volume on "Vedalakshana and Kalpâ" describing 393 works from No. 853 to No. 1,245 will then be issued with the requisite table of contents and index, both of which are now under preparation. In addition to this the required extracts were copied into 365 descriptive slips from the various works which are therein described. I am glad to be able to bring to your notice that, after the manifestation of your personal interest in the matter of the printing to be done in connection with this institution, the Superintendent, Government Press, has generally co-operated with me in expediting the work of printing and has thus enabled me to carry out the intentions of the Government in respect of the printing of this descriptive catalogue, as expressed in G.O., No. 165, Educational, dated 10th March 1904. When a temporary proof-reader, for whose appointment sanction in solicited, is appointed it is hoped that this work of printing may be made to progress steadily without interfering with any of the other items of work to be done in the library.

(4) *Descriptive catalogue of the vernacular manuscripts of the library.*—In eleven months from 1st March 1904 to 31st January 1905, 546 works in Tamil were examined, and as many slips were prepared, thus bringing to a close the preparation of the descriptive slips for the catalogue of the Tamil manuscripts describing, 425 works. They were then classified and arranged according to subject-matter; and then as many as 1,291 slips were revised, which revision brought to light the need for further revision before the slips could be sent to the press; and steps are being taken to secure this needed revision as early as possible. Meanwhile the preparation of the descriptive catalogue of the Telugu manuscripts has been taken on hand; and at the close of March 1905, as many as 90 works had been examined and descriptive slips relating to them had been prepared.

8. *Publication of works.*—With the help of the financial provision for the preparation of manuscripts for the press, I have been able to commence the printing of the *Ganitasarasangraha*, an old and historically and even otherwise interesting work on arithmetic and geometry, in accordance with G.O., No. 2827, Public, dated 4th December 1885. A translation of this work, together with explanatory and critical notes thereon, is also being printed at the same time. Besides this the manuscripts relating to two works have been compared and collated with a view to their final publication.

9. *Preservation of manuscripts.*—Naptha oil was applied to 247 manuscripts, as against 339 in the previous year. The paper manuscripts in the Sanskrit collection, and the Hindustani, Persian and Arabic manuscripts were all dusted. The usual precautions against the attacks of white-ants and book-worms have been taken. The white-ants were found to be especially busy during the last year owing to the ruined state of the floor of the Library room. The Consulting Engineer was written to regarding this and the necessary repairs were arranged for.

10. *Printed books.*—A list of the printed books added to the library during the year is given as appendix A. As many as 134 works have been purchased at a cost of Rs. 565-15-5, and six works have been presented to the library. The Mysore Government have presented, as usual, the works published in their Bibliotheca Sanskritica series. Besides, six journals publishing original works in Sanskrit are being received in the library.

Proceedings Dis. No. 3842 of 1905.

Recorded.

2. The year under report showed a very large increase in the number of manuscripts acquired for the library which was rendered possible by the enhanced provision sanctioned for the purpose. Of the total number acquired, which was more than treble that of the previous year, 335 were obtained by presentation, 237 by purchase and 86 by transcription and restoration. The manuscripts were mostly in Sanskrit and Tamil, and "Religion" and "Philosophy" were more largely represented than other subjects.

3. The number of visitors to the library was 1,834 against 2,748 for last year, but, as observed by the Curator, the exceptionally high figure of last year was due to special causes. Compared with that for 1902–1903 the number during the year under report shows a fairly satisfactory increase. The largest demand was made on books dealing with medicine, religion the most popular subject of previous years coming next, followed by poetry.

4. It is observed that little progress was made in the preparation of the descriptive catalogue of the manuscripts acquired since 1899, as the work of printing the descriptive catalogue of Sanskrit Manuscripts kept the staff of the library fully engaged. It is hoped that the employment of a temporary proof-reader will help in improving the outturn of work in this direction during the current year. The advance achieved in the printing of the descriptive catalogue of Sanskrit manuscripts shows a marked improvement, which appears likely to be still more marked next year, and it is satisfactory to find that the preparation of the descriptive catalogue of Tamil manuscripts has been completed and that of the Telugu manuscripts taken in hand.

5. The Director is pleased to note that the library continues to gain in popularity and that scholars, European and Indian, took advantage of it to a greater extent than in the previous year. The Curator is requested to convey the thanks of the Director to the District Magistrate of Tanjore, the District Munsif of Gooty, and to the other gentlemen who by the gift or loan of manuscripts have helped to extend the usefulness of the library.
