JUNE.

Building grant.

Sanctioning, with remarks, a grant of Rs. 3,000 towards the cost of constructing a building for the Wesleyan Mission Hindu Girls' School at Tiruvallúr, Chingleput district.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following paper :—

G.O., No. 747, Educational, dated 19th December 1904.

Read—the following paper :—

From the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras, to the Secretary to Government, Educational Department, Ref. on Cur. No. 6370, dated 22nd October 1904.

I have the honour to submit for the favourable consideration of Government the enclosed plan with estimate amounting to Rs. 8,422, towards the cost of constructing a building for the Wesleyan Mission Hindu Girls' School, Tiruvallúr, Chingleput district, together with an application for aid in the form prescribed in the Grant-in-Aid Code.

2. This school which is intended for the education of caste Hindu girls would be the best of its kind in Tiruvallúr, but for the unsuitable and unsatisfactory accommodation with which it is provided. This defect has been the subject of frequent comments on the part of the Inspecting officers, and as the result of this, the manager has resolved to provide the institution with the proposed building.

3. From the particulars given in column 4 of the application it will be seen that for a Hindu girls' school it is fairly well attended; but with the improved accommodation which it is now proposed to supply, the strength is sure to increase, and there is every likelihood of the school developing into a good Lower Secondary institution.

4. The highest class in the school which has secured the privileges of recognition is the fourth. The first and second forms would have been recognised long ago but for the difficulty the manager found in providing the school with a suitable building.

5. The manager reports that on the 6th November next, a Commission from the Wesleyan Mission Home Committee is to visit Tiruvallúr on which occasion he is very anxious to have the foundation laid. As the plan and estimate have yet to be approved by the Public Works Department authorities, and as it is not possible to forecast what modifications in the design they are likely to suggest, the manager's request cannot be conveniently complied with. But I am assured by the manager that, whatever may be the suggestions of the Public Works officers, he is prepared to carry them out in toto and begs therefore that premission may be given him to lay that portion of the foundation alone that will support the corner stone. I beg to recommend that the manager's request be granted, as he is prepared to undertake this part of the work at his own risk, promising to remove any part, or the whole, of the portion laid, if such removal is required to meet any modification of plan decided on by Government.

6. Out of the allotment for building grant in the current year's budget estimate payment of Rs. 4,183 has been authorized up to date.

7. The building is to be constructed on a site which appears to have been purchased for Rs. 1,135. This amount has been included in Rs. 8,422, the estimated cost of the proposed building. The manager will be required to produce the sale deed and all other documents required to establish that his title to the site is good and in order.

8. The grant if sanctioned will be paid on the completion of the building and after the execution by the authorized attorney of the Wesleyan Mission Trust Association of the necessary mortgage deed.

Note by the Chief Engineer, Public Works Department, dated 13th December 1904.

The estimate for constructing a Wesleyan Mission Hindu Girls' School at Tiruvallúr, in the Chingleput district, is recommended for sanction with the following remarks :—

The floor should be laid with 6″ concrete and the course of wall bricks omitted.

Eight ventilators are deducted in the item of brickwork in superstructure, but ten are provided under doors and windows.

The scantlings of the wood-work have been altered as follows :—

Common rafters from 2″ × 3″ to 2″ × $3\frac{1}{2}''$.
Purlins from $3\frac{1}{2}''$ × 5″ to 5″ × $6\frac{1}{2}''$.
Principal rafters from 4″ × 5″ to $3\frac{1}{2}''$ × 5″.
Tie beam from 4″ × 6″ to 4″ × $5\frac{1}{2}''$.
Struts from 4″ × 4″ to $3\frac{1}{2}''$ × 4″.
Joists, front rooms, from 3″ × 8″ to $3\frac{1}{2}''$ × 8″.
Joists, central rooms, from 3″ × 5″ to 3″ × $5\frac{1}{2}''$.
Joists, rear rooms, from 3″ × 6″ to 3″ × $6\frac{1}{2}''$.
Rolled steel girders from 10″ × 5″ × 29 lb. to B.S.B. No. 17 of 10″ × 5″ × 30 lb.

The rates, for excavating foundations at Rs. 4 per 1,000 cubic feet and for concrete at Rs. 12-14-0 per 100 cubic feet, appear high. The former should be reduced to Rs. 2-8-0 per 1,000 cubic feet. For the latter a data should be submitted.

For the latrine type design No. 93 of the Sanitary Board should be adopted.

In the detailed estimate for the compound wall and latrine the length for concrete and excavation is 222 feet, but for the brick work it is only 166 feet 9 inches. The difference should be explained.

Order—No. 747, Educational, dated 19th December 1904.

The remarks of the Chief Engineer on the estimate forwarded with the Director's letter read above will be communicated to the Director. The authorities of the Wesleyan Mission Hindu Girls' School, Tiruvallúr, should be required to revise the estimate with reference to those remarks.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction, with plan and estimate and copy of Chief Engineer's note.

READ—also the following papers :—

From the Manager, Wesleyan Mission Girls' School, Tiruvallúr, to the Director of Public Instruction, dated 27th February 1905.

In reply to your Proceedings No. C. 6370 of 1904, dated 10th January 1905, I have the honour to state that I return the plans and estimates of the above school buildings as proposed and have made the alterations required with the following exception, viz., the rolled steel girders, British section, which are not to be had in India at the dimensions required; this I have on the authority of Messrs. Massey & Co., Madras, in reply to a communication regarding a private building. Were it possible to buy the sizes required in Madras in B.S. the cost would be Rs. 7-6-0 per cwt., while that charged for C.S. which I propose to use, and which are commonly used all over will be Rs. 5-12-0. In accepting the other alterations suggested I would make the following remarks: (1) In regard to the laying of cement over concrete, as compared with laying the same over a course of wall bricks, the latter suggestion was that of an architect, and my experience has been, in working with a course of wall bricks in immediate contact with the cement during the past 15 years, that the cement grips the brick more firmly than it does the concrete and a better floor is the result; I submit however under protest. (2) With regard to the latrine I have adopted the pattern suggested, but again under protest holding that the style is costly, not necessary and not suited to the needs of a mufassal school.

2. I have the honour to request that you will be good enough to expedite the order to commence work.

3. I have the honour further to state that the Rev. James Cooling, Attorney to the Wesleyan Mission Trust Association, will be quite prepared to execute the mortgage deed required by the Educational Code and to leave the deeds, etc., relating to the site at the disposal of Government for twenty years from the date of the grant.

4. I have the honour to state with regard to the suggestion of the Engineer on the subject that I have been unable to obtain data for the work of excavating and the rates quoted are the lowest that I can get a contractor to accept; but I shall be glad to execute the work according to the recognized data for the district if the same can be furnished to me.

Ref. on Cur. No. 6370 of 1904, dated 11th April 1905.

Submitted with enclosures to Government, Educational Department, with reference to Order No. 747, dated 19th December 1904.

A. G. BOURNE,
Director of Public Instruction.

Note by the Chief Engineer, Public Works Department, dated 10th June 1905.

The estimate for constructing a Wesleyan Mission Girls' School at Tiruvallúr, in the Chingleput district, is returned to the Educational Department with the following remarks:—

(1) The undersigned considers that the floor estimated for, namely, 4″ concrete with a layer of wall bricks above and plastered with ½″ cement is more inelastic, and is therefore more liable to break up than a floor of 6″ concrete plastered with cement, which is therefore considered preferable.

(2) In regard to the design for the latrine, Sanitary Board design No. 93 is suggested as it was adopted by the Sanitary Board after exhaustive discussion and experiment.

W. B. DEWINTON,
Chief Engineer, P.W.D.

ORDER—No. 434, Educational, dated 22nd June 1905.

The Government are pleased to sanction a maximum grant of Rs. 3,000 towards the cost of constructing a building for the Wesleyan Mission Hindu Girls' School at Tiruvallúr subject to the following conditions:—

(1) that the manager of the school carries out the work in accordance with the plans and estimates now approved;

(2) that the work is completed before the 31st of March 1906;

(3) that a certificate of the actual expenditure incurred on the work is submitted before the 30th of April 1906;

4

(4) that all other conditions prescribed in the Grant-in-Aid Code have been duly complied with.

2. On the above conditions being fulfilled the grant will be paid.
