I endorse Colonel Love's remark regarding the necessity for obtaining the services of a Professor of Civil Engineering at a very early date.

Copy of an extract from a letter from the Principal, College of Engineering, Madras No. 565/C dated 2nd instant.

Adverting to your Proceedings Ref on Cur No. 5672/05 dated 1st July 1905 I have the honour to state that Mr. Griffith's duties will as far as possible be distributed among the senior members of the staff. The system however of heaping additional work on officers who already have too much to do, and of assigning Professor's duties to assistants who are not qualified to perform them, is much to be deprecated, and I would invite your earnest attention to the necessity of obtaining the services of a second Professor of Engineering without delay. If, as seems to be the case, no suitable officer is available in India I hope that the India office will be indented on.
