ORIGINAL

G.O., No. 695, 28th October 1905.

N. P.

Reformatory School, Chingleput.

Requesting the Director of Public Instruction to invite the remarks of the Superintendent of the — on the letter from the Acting District Magistrate of Trichinopoly forwarding an extract from a letter received from the Chief Engineer, South Indian Railway, on the subject of the training given to pupils in the Reformatory School.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper :—

Letter—from E. L. THORNTON, Esq., I.C.S., Acting District Magistrate, Trichinopoly.
To—the Secretary to Government, Educational Department.
Dated—the 12th October 1905.
No.—Ref. (b) on Cur. 283-O.M.

I have the honour to bring to the notice of Government that considerable difficulty is experienced in finding work for ex-reformatory boys in the Railway workshops here owing to their deficiency in knowledge of the details of any specific trade. I append an extract from a letter I have received from the Chief Engineer, South Indian Railway, and request, if it meet with the approval of Government, that instructions may be issued to the Reformatory authorities to prepare the boys on the lines indicated.

ENCLOSURE.

Extract—from a letter from F. F. SMITH, Esq., M.I.C.E., Chief Engineer, South Indian Railway.
To—the District Magistrate, Trichinopoly.
Dated—Trichinopoly, the 11th October 1905.
No.—S.P. 5008/104.

With regard to Reformatory School pupils, their work appears to be miscellaneous and although this may be a good thing in some respects, yet it results in ex-pupils only knowing very little of any one trade and although the abovementioned pupil was said to have been trained in smith's work, it was found necessary to teach him how to make a pair of tongs with which to work. I should therefore suggest that any boys who intend to become smiths should, if possible, be given the opportunity of working up to the standard of being able to make or mend most of the tools with which they work, as well as being able to make a sound job of simple welds. If it is found possible to follow this slight specialisation in the trade in which each boy hopes to be employed, I think the boys would find it easier to get occupation on leaving the school.

Order—No. 695, Educational, dated 28th October 1905.

Communicated to the Director of Public Instruction with the request that he will invite the remarks of the Superintendent of the Reformatory School, Chingleput.
