Sir,

I have the honour to forward the enclosed application from Mr. C. E. M. Barrett, the manager of the Malabar Cotton Mill, who requests that he may be given a Govt. of India Scholarship to enable him to proceed to England to study weaving and designing. Mr. Barrett appears to be a domiciled European and it may be presumed from the fact that he is now the manager of a cotton mill that he has considerable knowledge of cotton spinning. If he were a native of India I should certainly recommend that his application be granted but it is not clear to me that the Govt. of India intended that these scholarships should be granted to men of this class. I have no doubt that Mr. Barrett will make a good use of the scholarship if he is given one and that he would personally benefit thereby, but it seems to me more than questionable whether the granting of the scholarship will in any way tend to encourage industrial enterprise amongst the people of this country. It seems to me desirable that Government should express some opinion upon this point and I therefore forward to you his application.

I have the honour to be,
Sir,
Your most obedient servant,

Sir.

In reply to your letter dated 24th Inst: informing me that only natives of India are eligible for the Govt: of India: Technical Scholarships, I have the honour to state that members of domiciled communities are included in Section 6 of the Statute, 33 Vic; Cap. 3.

Kindly refer to the Educational Department Bombay and it will be found that out of 3 Gentlemen selected for the Govt: of India Technical Scholarships only one is a Hindu.

As regards myself I was born in India & my parents are domiciled in India I trust my explanation will be found satisfactory

any further information you may require on this point or any other to enable you to decide the matter I shall be only too glad to supply.

Sir.

In respectfully soliciting the aid of Government in the shape of a Technical Scholarship as recently established, to enable me to proceed to England and study "weaving & designing" I have the honour, as requested by you in your letter of the 1st June 05 No 459, to give sketch of my career.

the Ma

In February 1897 I was sent to England to gain English experience of cotton spinning machinery. I was in England for 18 months. I worked at Messrs Howard & Bullough's, Accrington, & Messrs Taylor Lang & Co, Stalybridge. I enclose copies of certificates.

I returned to India in 1898 (November) and in June 1899 was appointed Actg. Manager of the Gulam Baba Cotton Mill for six months. I enclose copy of certificate.

I joined as Manager of the Lakshmi Cotton Mill in January 1900 which post I still hold. I enclose copy of certificate of appreciation of service

shall probably not to able
to do so as it means loss of
salary for the time taken up
in studying.
In conclusion I would
respectfully submit that it
is not a new line I wish to
strike out in but to further
qualify myself in my own
line of work, and I respectfully
solicit that Govt: be pleased
to accept my application &
grant me the aid prayed for

I have the honour to be Sir

THE MALABAR SPG. & WG. CO., LTD.,

Kallai, *13th October, 1900.*

We have great pleasure in certifying that Mr. C. E. M. Barrett has served the above Mill as Manager and Superintendent Engineer and also had the supervision of the Carding and Spinning Departments for the last ten months. During this period he has discharged his numerous and responsible duties to our entire satisfaction.

We have found him to possess considerable experience in Cotton and in Mill Works. He is in every respect honest and straightforward. We are glad to note that our yarn has improved to a considerable extent since his appointment. We have given this to express our satisfaction towards his duties.

HOWARD & BULLOUGH, LTD.,
GLOBE WORKS, Accrington, *March 31st, 1898.*

We have pleasure in certifying that Mr. Charles E. M. Barrett has been engaged in our Works for the last twelve months as Fitter, giving every satisfaction as to his conduct, application to his work and attendance.

Mr. Barrett has successively passed through our various Fitting Departments and has also had the advantage of assisting in the erection of Machinery in neighbouring Cotton Mills, thus having had the opportunity of making himself well acquainted with the various kinds of Machines which we construct. In his attendance at the Cotton Spinning Class in our Technical School, he has also evinced his interest in the technical questions affecting the Cotton Spinning industry.

We wish Mr. Barrett every success in his future career.

C. E. M. BARRETT, ESQ.,

DEAR SIR,

Your favour of the 25th ultimo has been handed to me by Mr. Tasker and I have pleasure in saying that you were successful at the City and Guilds of London Institutes' Examination held in May last, and passed 1st class in the ordinary grade, 1st year's course in Cotton Spinning.

I was very pleased, when the list of successful students came, to see your name amongst those who had passed 1st class which success is a credit to you.

With best wishes for your success.

I remain,
Yours faithfully,
(Signed) J. N. ROBINSON,
Secretary.

Surat, *1st January, 1900.*

This is to certify that Mr. C. E. M. Barrett was employed by the above Co. from 1st June to 31st December, 1899, as acting Mill-Manager and Superintendent of the Engines and Boilers, etc. He conducted the work of the Carding and Spinning Departments without the assistance of either Carding or Spinning Masters and also selected cotton for the Mill consumption. During the period of seven months Mr. Barrett discharged his duties to our entire satisfaction. He gave over charge of the said duties as the former Mill-Manager has returned from leave.

Dear Sir

I have the honour to acknowledge receipt of your memo No 550 dated 26th ultimo, and beg to point out that the three applicants selected by the Bombay Educational Department, all held responsible posts. Two were weaving masters in cotton mills, and the other was an assistant to a mercantile traveller in an European firm.

It is acknowledged that the Government of India desire that men who have already shown ability & aptitude in Technical work and study should be selected.

Notwithstanding the fact that I now hold an appointment and am drawing a salary; I will not be able to spend two years in the required study of "Weaving & designing" in England, drawing no salary. I beg to request that you will be good as to give the points I have raised due consideration.

I have the honour to be Sir
