SECRET

The Secretary to Government,

Educational Department.

Sir,

I have the honour to request that Government may be pleased to instruct the Collector of North Arcot to acquire the site shown in the accompanying tracing for the construction of a building for the Government Girls' School, Walajapet one of the works included under class B. Works in the public works budget for 1905-1906. The Executive Engineer considers that the site is well suited for a school house and is the best of the available sites in the place with an area sufficient for the construction of a building on the type-design. The cost of acquisition which is estimated at Rs 1314/- is also considered reasonable and must come from the Public Works budget.

2. The Consulting Architect to the Government is understood to be preparing fresh type designs and until they are ready the preparation of an estimate for this building must be deferred.

I have the honour to be,

Sir,

Your most obedient servant,

E. W. Middlemast

For Director of public instruction.

In the P.W.D., orders for the acquisition of land are issued only after funds have been provided for the work and an estimate sanctioned by the proper authority. In the case of the present work, no funds have been allotted, being only a B class work and the preparation of an estimate has to be deferred pending the elaboration of a fresh type design.

Under Review here are very special reasons for acquiring the site immediately, it seems it is submitted, as well that it should be postponed until an estimate has been sanctioned & funds allotted for the work.
