Letter—from the Hon'ble Mr. A. G. Bourne, D.Sc., F.R.S., Director of Public Instruction, Madras.
To—the Secretary to Government, Educational Department.
Dated—the 3rd August 1905.
No.—Ref. on Cur. 5498 of 1904.

With reference to the correspondence ending with G.O., No. 409, dated 4th July 1904, I have the honour to submit applications from the following seven institutions for their recognition by the Board of Education, London, for the purposes of registration of teachers by the Teachers' Registration Council in England :—

(1) Lawrence Asylum, Ootacumund (Male Branch).
(2) Baldwin Boys' High School, Bangalore.
(3) Doveton Protestant College, Madras.
(4) Doveton Girls' High School, Madras.
(5) Bishop Cotton's Boys' School, Bangalore.
(6) Bishop Cotton's Girls' School, Bangalore.
(7) Stanes' High School, Coimbatore.

The applications furnish the particulars required under paragraph 6 of the letter of the Board of Education, London, communicated with G.O., No. 456, Educational, dated 19th September 1903.

2. With reference to G.O., No. 713, Educational, dated 3rd December 1904, information as to the numbers of the scholars in the various forms and classes of the school is furnished below :—

Name of school.	VI Form.	V Form.	IV Form.	III Form.	II Form.	I Form.	IV Standard.	III Standard.	II Standard.	I Standard.	Infant Standard.	Total.
Lawrence Asylum, Ootacamund ..	2	3	13	26	25	30	47	38	30	19	32	265

(a) Senior F.A.—10 ; Junior F.A.—8.

3. All the institutions follow the courses of instruction laid down in Chapter V of the Madras Educational Rules, a copy of which is herewith submitted for transmission to the Board of Education. There is therefore no necessity to forward separate syllabuses for each institution.

4. I beg to submit a copy of the latest inspection report on each institution and to state that the information furnished in each application for recognition may be accepted as correct.

5. The institutions mentioned above are all European institutions. Applications from non-European institutions have been called for and will be submitted in due course.

6. I have not called for applications from lower secondary schools as in my opinion no school below the rank of an upper secondary school can be considered a secondary school in the meaning attached to the term by the English Board of Education.

7. With reference to the endorsement of Government, No. 403, dated 20th July 1905, I beg to say that the report called for therein will be submitted on receipt of certain particulars which the Manager, Collegiate Girls' School, Vepery, has been requested to furnish.

III.—Doveton Protestant College.

Letter—from the Honorary Secretary, Deveton Protestant College and Girls' High School, Madras.
To—the Inspector of European and Training Schools.
Dated—Madras, the 12th July 1904.

Agreeably to Proceedings of the Director of Public Instruction, No. 6910, dated 10th November 1903, I have the honour to forward, through you, for the favourable consideration of the Government of Madras and eventual transmission by the Government of India, an application for the recognition of these institutions by the Board of Education of England, under sections 3 (3) and 4 of its regulations, for the purpose of enabling teachers who satisfy the conditions therein laid down to be admitted to the register kept by the Teachers' Registration Council. I submit information on the following points specified by the Board :—

1. *Name and address.*—Doveton Protestant College, Madras, India.

2. *Administration.*—By a Committee elected from among themselves by members of the "Doveton Society". Membership is obtained by payment of a monthly subscription of one rupee.

3. *Whether inspected.*—The institution is inspected by Government officers.

4. *Number of pupils.*—At present 174; of whom 165 are males and 9 females (admitted in the College department only, there being a separate school of a high school grade, under the same management, for girls). All the females are over twelve. Of the 165 males, 131 are over twelve, and 34 under twelve.

5. *Number and qualification of staff.*—(*a*) The Principal must, by the deed, be a graduate of a British or Irish University. (The Present Principal is a graduate of Oxford and London Universities.)

(*b*) The first assistant is a B.A. and Untrained Licentiate of Teaching of the Madras University.

The second is a First-in-Arts of the Madras University with Untrained Teachers' certificate. He has passed the English and Latin Branches of the B.A. degree.

(*c*) The third is a graduate of the Calcutta University.

(*d*) The fourth is a B.A. and Licentiate of Teaching (untrained) of the Madras University.

(*e*) There are two other masters and three mistresses. Of the latter one was trained at Queen's College, London; another trained at Madras with Higher Examination for Women certificate, and the third is untrained.

(*f*) There are two Tamil masters, of whom one is a graduate, and the other is completing his degree—the B.A. of the Madras University.

(*g*) There is a Drawing Master and also a Gymnastic and Drill Instructor (the latter, a Sergeant of the British Army).

6. *Character of curriculum.*—The curriculum follows that laid down in the Educational rules published by the Madras Government. The lowest standard in the institution is the third.

It seems unnecessary to give the full curriculum in detail for every class in the institution. It is enough to say that Latin is begun in Class IV (last but one) and is taught in every class to the top. Some of the girls take French in place of Latin in the College classes. Elementary Science—the simple machines, etc.—is begun in Form II (Standard 6). Object lessons take the place of this subject in Standards 3—5.

The upper classes of the High school follow the regulations for the Madras University Matriculation examination, which are as follows :—

I. English Language.

"There shall be three papers set upon the English Language: one paper, of three hours' duration, on the grammar, structure, and idiom of the language, which shall test the candidate's ability to analyse sentences, to explain and recast forms of expression, and to explain figures of speech, and to express them in unfigurative language; one paper, of two hours' duration, on paraphrase and composition; and one paper, of one hour's duration, on translation into English from any one of the vernacular languages mentioned in this by-law. In the case of candidates whose vernacular language is English the third paper shall be on English composition.

II. Second Language.

One of the following at the option of the candidate—

Sanskrit, Arabic, Hindustani, Canarese, Greek, Persian, Marathi, Malayalam, Latin, French, Tamil, Uriya, Hebrew, German, Telugu and Burmese.

In the second language there shall be two papers, of which one shall contain questions on the text-books and on the grammar and idiom of the language, while the other shall consist wholly of passages for translation from English into the second language and from the second language into English."

[*Note.*—The text-book set may be a book of Cæsar a portion of Ovid, Cornelius Nepos, etc. The Doveton, of course selects Latin from the above languages. Some further details about the papers are omitted.]

III. Mathematics.

(*a*) *Arithmetic.*—Addition, subtraction, multiplication, division, reduction, vulgar and decimal fractions, square and cubic measures, ratio, proportion, applications of the term *per cent.*, interest, present-worth and discount, stocks and shares, profit and loss, exchange, square root and cube root.

(*b*) *Algebra.*—Addition, subtraction, multiplication, division, involution and evolution, G.C.M. and L.C.M., simple equations, with easy problems and quadratic equations.

(*c*) Geometry. The first three books of Euclid with easy deductions.

IV. Elementary Science, History and Geography.

(*a*) Elementary physics.

(*b*) Elementary chemistry.

(*c*) The History of India, including an elementary knowledge of the present system of administration in British India, and the Geography of India.

(*d*) The outlines of the History of England from 1485 to the end of the 19th century, general geography "with special reference to the geography of the British Empire".

[*Note.*—In conformity with the above regulations, Euclid and Algebra are begun in Form IV (standard 8), and continued in Forms V and VI so that a boy completes the assigned portions after a stay of one year in Form VI.]

The standard of physics and chemistry is a little above that of Roscoe's Science Primer and Balfour Stewart's Primer in Macmillan's elementary series. These are begun in Form IV (standard 8) and completed in Form VI (standard 10). Similarly the geography and histories are so studied in Forms IV, V, VI, that the VI Form in one year completes the portions required.]

Collegiate Department.

Class VII, Junior F.A., standard 11.
„ VIII Senior „ „ 12.

Studies are regulated by the syllabus of the F.A. (First in Arts) Examination of the Madras University.

"Candidates for the First Examination in Arts shall be examined in the following branches of knowledge :—

I. English Language.

There shall be four papers on the English Language—the first shall bear exclusively upon the texts prescribed for the examination. The second paper shall be upon the grammar, structure and idiom of the language; the analysis of sentences; the explanation and recasting of forms of expression; the explanation of figures of speech and their transformation into unfigurative language; punctuation; the proper selection, number and order of words in a sentence; the structure of paragraphs; and the ordinary metres used in English verse. The third paper shall be in composition. The fourth paper shall contain a passage for translation from the candidate's second language into English.

[*Note.*—The texts chosen are usually (1) a play of Shakespeare; (2) selections from Tennyson, Gray, etc; (3) a prose work; (4) another prose work, *e.g.*, two essays from Macaulay.]

II. A Second Language.

[*Note.*—As in Matric—several languages to choose from: Doveton selects Latin or French. The Latin books are usually one book selected from Horace, one from Virgil, one book of Livy, one of Cicero's works. The French—two poetry, two prose books: a play by Moliere, Racine or Corneille is always given, sometimes two are given, or Boileau is given.]

III. Mathematics.

(*a*) *Algebra.*—Addition, subtraction, multiplication, and division, involution and evolution; G.C.M. and L.C.M.; simple and quadratic equations, with problems; proportion and variation; permutations and combinations; Arithmetical, Geometrical and Harmonical progressions; Binomial Theorem for a positive integral exponent.

(*b*) *Geometry.*—Euclid: Books I, II, III, IV and VI with deductions.

(*c*) *Trigonometry* (*Plane*).—Measurement of angles. Trigonometrical functions and the solution of trigonometrical equations. Addition, multiplication and division formulæ. The use of Logarithms. Properties and solution of triangles. Measurement of heights and distances."

IV.

One of the following at the opinion of the candidate.—A. Physiology. B. Physiography.

[*Note.*—Doveton teaches Physiology only.]

"The rudiments of animal chemistry, combustion—the parts of which the body is made up, the tissues, the cavities of the trunk, the general structure of the head and neck, the skeleton, the disposition of the viscera.

The nature of waste. The need of oxygen, compensation for waste, the character of foods, the blood as a medium of communication, the nature and use of secreting glands.

The physiological properties of muscular tissue. The modes in which muscle gives rise to movements.

The physiological properties of nervous tissue. The nature of sensory organs. The relation of the nervous system to muscles and to sensory organs. The general structure and functions of the brain and spinal cord.

A general account of the circulatory, respiratory, urinary and alimentary systems. The functions of the liver, the structure and functions of the sweat glands. The regulation of the temperature of the body."

7. *Character of school premises.*—A large central hall capable of accommodating far more than the present number of pupils; nine class rooms; a science laboratory; a room used as library and masters' room; the principal's room, and the clerk's room. Apart from the main building are (1) a drill shed, (2) luncheon room with store rooms, (3) latrine, (4) sergeant's quarters, (5) quarters for menial servants, and (6) the largest playground in Madras.

IV.—Doveton Girls' High School.

Recognition is also sought for this institution. It teaches from the Primary to the Matriculation standard. This is laid down by the University and it therefore follows that, in the main, the course in the upper classes is the same as that detailed for the corresponding classes in the College. In addition to the subjects required by the University, Music, Drawing and Calisthenics are taught.

1. *Name and Address.*—Doveton Girls' High School, Madras, India.

2. *Administration.*—Under the same management as the Boys' School. For details see that paragraph.

3. *Whether inspected.*—Inspected by Government officers.

4. *Number of pupils.*—123: 31 are males; 92 are females. 75 are under 12 years of age; 48 are over 12.

5. *Number and qualifications of staff.*—The Lady Superintendent is a first-class Trained (Homerton New College, Cambridge) Mistress.

The First Assistant has taken the Madras University B.A. Degree in Physical Science, the M.A. in English and the Degree of Licentiate in Teaching. She is untrained.

The Second Assistant is untrained and has passed the First in Arts of the Madras University.

The Third Mistress is a Matriculate and was trained at the Presidency Training School for Mistresses, and therefore holds a trained teachers' certificate of the Upper Secondary Grade.

The qualifications of the Fourth and Fifth Mistresses are identical with those of the Third.

The Sixth Mistress and infant class teachers have similar qualifications, having undergone the same training but passed the Higher Examination for Women (Government Examination) instead of the Matriculation.

The Music Mistress holds a certificate of the College of Preceptors, England, and a senior certificate for Music (Practical) from Trinity College, London.

For Tamil and Drawing Masters, see the staff of the Boys' school.

6. The general curriculum is in accordance with the Educational Rules and in the upper classes is, with the addition of Calisthenics, Domestic Economy and Music, the same as that in the corresponding classes of the Boys' institution.

7. The premises are certified by the Madras Educational Department as suitable for a school. Adequate class-room accommodation is provided; also a latrine, etc. The school stands in the same spacious compound as the Boys' school.

The work in Forms IV—VI (standards 8—10) is regulated by the University Regulations, the VI Form appearing for Matriculation. The Madras University thus prescribes for Matriculation :—

"The Matriculation Examination shall comprise four divisions: (1) English language, (2) Second language, (3) Mathematics, (4) Elementary Physical Science, History and Geography."

I trust that the information given above will lead to the recognition of the school, and that I may be informed in due course of the result of this application.

V.—Bishop Cotton's Boys' School, Bangalore.

1. *Name and address of school.*—Bishop Cotton's Boys' School, Bangalore.

2. *Character of Institution.*—High School, managed by a Committee.

3. *Whether under Government inspection.*—Yes (Madras).

4. *Number and sex of pupils* (*number over* 12 *and under* 12).—Eighty-two boys (53 over 12; 29 under 12).

5. *Number of staff and qualifications.*—Particulars attached.

6. *Character of curriculum.*—Course of instruction is in accordance with the Madras Educational Rules.

7. *Character of school premises.*—Sufficient to accommodate 150 boys. Large boarding-house managed by the warden and his wife is now full accommodating 35 boys. Cricket field, tennis courts, laboratory badly needed.

Order—No. 774, Educational, dated 24th November 1905.

The applications will be forwarded to the Government of India.

(True Extract.)

H. D. Taylor,
Ag. Secretary to Government.

To the Director of Public Instruction.

Letter—from H. D. TAYLOR, Esq., I.C.S., Acting Secretary to the Government of Madras, Educational Department.
To—the Secretary to the Government of India, Home Department.
Dated—Fort St. George, the 24th November 1905.
No.—775, Educational.

With reference to paragraph 6 of Home Department letter Nos. 539, 546, Education, dated the 7th September 1903, I am directed to forward applications from seven secondary schools in this Presidency for recognition by the Board of Education, London, for the purposes of registration of teachers by the Teachers Registration Council in England.

2. These applications are all from European schools and are prepared in the form prescribed in paragraph 6 of the letter from the Board of Education to the Director-General of Education, India, No. S. 1013, dated 8th June 1903, forwarded with the Home Department's letter quoted above. The information furnished in them may be accepted as correct. All the institutions follow the courses of instruction laid down in Chapter V of the Madras Educational Rules, a copy of which is herewith forwarded for transmission to the Board of Education.

3. A statement showing the numbers of scholars in the various forms and classes of each institution and a copy of the latest inspection report on each school are enclosed.

NOTES CONNECTED WITH G.O., No. 774, EDUCATIONAL, DATED 24TH NOVEMBER 1905.

[SUBJECT.—*Applications for recognition by the Board of Education, London, for the purposes of registration of teachers by the Teachers' Registration Council in England.*]

From the Director of Public Instruction, dated 3rd August 1905, *No.* 5498.

These applications are in the form prescribed in paragraph 6 of the letter of the Board of Education, London, on page 4 of G.O., No. 456, Educational, dated 19th September 1903. Under paragraph 6 of the letter from the Government of India on page 3 of the same Government Order, they have to be forwarded to the Government of India.

2. The applications are all from institutions for Europeans. Under the letter from the Government of India in G.O., No. 456, Educational, dated 19th September 1903, only such institutions were eligible for recognition, but in the letter from the Government of India in G.O., No. 381, Educational, dated 20th June 1904, the concession has been extended to Upper Secondary Schools for natives.

3. Under the instructions contained in G.O., No. 409, Educational, dated 4th July 1904, the Director has to state whether the information furnished in applications is correct and has to submit a copy of the latest inspection report of the institution concerned. The Director says that the information furnished by the seven institutions which have now applied for recognition may be accepted as correct and has furnished copies of the latest inspection reports on the schools.

4. Under the instructions contained in G.O., No. 713, Educational, dated 3rd December 1904, information regarding the numbers of scholars in the various forms and the courses of instruction pursued has also to be furnished. The Director has furnished this, but the number of pupils, as stated by him, differs from the number given in the applications, as follows :—

	Director's total.	Application total.
Lawrence Asylum	265	291
Baldwin High School	72	78
Doveton College	140	174
Doveton Girls' School	124	123
Bishop Cotton's Boys' School	52	82
Do. Girls' School	84	83
Stanes' High School	110	85

Should not these figures be reconciled before the applications are forwarded? If so, the Director may be asked to do so.

[Memorandum No. 471, dated 19th August 1905.]

From the Director of Public Instruction, dated 26th October 1905, No. 5498.

In reply to the memorandum above, the Director states that the total number of scholars in the various institutions, as given by him, represented their strength as it stood on the 17th February 1905, the date of the Inspector's communication, while that given in the applications showed the number on the rolls on the dates of the applications in June 1904. A statement showing the details for the totals given therein is also submitted. The Director's figures, being the latest, may perhaps be adopted and furnished to the Board.

For orders. It does not seem desirable to submit two sets of figures. Either the applications may be corrected or the figures now furnished by the Director may be adopted.

2. The applications may now be forwarded to the Government of India with reference to paragraph 6 of their letter on page 3 of G.O., No. 456, Educational, dated 19th September 1903. A draft is submitted below for approval.

H. D. TAYLOR—7-11-05.

Under paragraph 6 (4) of the letter from the Board of Education, printed on page 4 of G.O., No. 456, Educational, dated 19th September 1903, we have in furnishing information as to the number and sex of pupils in attendance, to specify the number over 12 years of age and the number under 12. The applications contain these particulars; but the Director of Public Instruction's figures represent the total strength only without these details and the Public Instruction reports do not give them. In correcting, therefore, the figures entered in the applications with reference to the Director's totals, difficulty is felt in specifying the number of pupils above 12 or under 12 years of age. For orders as to whether the Director of Public Instruction may be asked to furnish the information.

R.N.—8-11-05.

Submitted that this is unnecessary. The Director of Public Instruction gives details of the figures in the application. These figures may be reported to the Government of India. In that case, however, the words "corrected up to date" added by the Secretary in the last paragraph of the draft letter will have to be omitted.

P. T. THARYAN—8-11-05.

Yes: omit them and issue.
