Under rule 118 of the Grant-in-Aid Code, I have the honour to submit, for the consideration of Government, the enclosed plan with estimate amounting to Rs. 6,500 for the construction of a building for the Roman Catholic Convent Girls' school, Tuticorin.

2. This is one of the oldest institutions in the locality. It was started in 1864 and was admitted to aid on the results grant system in 1898. The amount of results grants drawn during the last five years is as shown below:—

5. The present accommodation is reported to be inadequate for the growing strength of the school.

6. Out of the allotment for building grants in the current year's budget estimate, payment of Rs. 2,272 has been authorized up to date.

Memorandum No. 573, Educational, dated 29th September 1905.

In his letter read above the Director of Public Instruction makes no specific recommendation for a grant towards the construction of a building for the Roman Catholic Convent Girls' school at Tuticorin. He is now requested to be so good as to state definitely whether or no he recommends a grant.

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 12th October 1905.

No.—Ref. on Cur. No. 4016.

With reference to memorandum No. 573, Educational, dated 29th September 1905, I have the honour to recommend that the maximum grant contemplated in rule 118 of the Grant-in-Aid Code may be sanctioned towards the cost of the building proposed to be constructed for the Roman Catholic Convent Girls' school, Tuticorin.

IV

Note by the Chief Engineer, Public Works Department, dated 21st November 1905.

The estimate for constructing a Catholic Girls' school at Tuticorin in the Tinnevely district is recommended for sanction, with the following remarks:—

Surki mortar should be used for the foundations and basement.

It would be a great improvement to have a ridge ventilator throughout, and omit the ventilators in walls. The Mangalore tiles should be laid over the flat tiles with air spaces between.

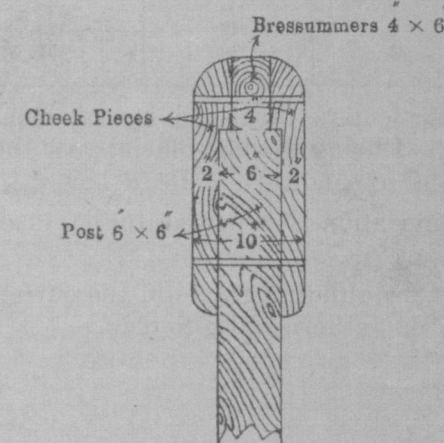

The exterior should be pointed or plastered.

The exposed woodwork should be painted two coats and the rest wood oiled two coats.

The verandah posts should be fixed 8 feet apart.

The woodwork throughout should be teak which can probably be obtained for the rate of Rs. 3-8-0 per cubic foot allowed in the estimate.

The pillar plates should be omitted and check pieces provided as per sketch below:—

Eave boards should be provided all round the buildings.

The following alterations have been made in the scantlings of the roof timbers :—

					From	To
Common rafters	..	..	..	..	2" x 5"	3" x 5"
Collars, large	..	..	..	..	2" x 5"	2½" x 5"
Do. small	..	..	..	..	2" x 5"	2½" x 4"
Hip rafters	..	..	..	..	2" x 5"	3½" x 6½"
Verandah rafters	..	..	..	..	2" x 5"	3" x 4½"
Brussummers	..	..	..	..	6" x 9"	4" x 6"

The amount of the estimate, corrected as per alterations noted above, is increased from Rs. 6,500 to Rs. 7,300.

The work can be completed in eight months.

W. B. DEWINTON,
Chief Engineer, P.W.D.

Order—No. 789, Educational, dated 1st December 1905.

The Government are pleased to sanction a grant of Rs. 2,400 (Rs. 2,433 being the maximum admissible under rule 118 of the Grant-in-Aid Code) towards the cost of constructing a building for the Roman Catholic Convent Girls' school, Tuticorin, subject to the following conditions :—

- (1) that the authorities of the school carry out the work in accordance with the Chief Engineer's note read above ;

2. On the above conditions being fulfilled the grant will be paid.

NOTES CONNECTED WITH G.O., No. 789, EDUCATIONAL,
DATED 1st DECEMBER 1905.

[SUBJECT.—Grant towards the construction of a building for the Roman Catholic Convent Girls' School, Tuticorin.]

From the Director of Public Instruction, dated 18th September 1905, No. 4016.

The question to be first considered is whether any grant will be paid towards the construction of a building for the Roman Catholic Convent Girls' school, Tuticorin, in which case the plan and estimate will have to be forwarded to the Public Works department for scrutiny. It is, however, submitted that the Director has not countersigned the plan and estimate. For orders as to whether they should be returned to him for countersignature, or whether they should be forwarded to the Public Works Department for scrutiny.

R.N.—23-9-05.

P. T. THARYAN—23-9-05.

Submitted that the Director of Public Instruction's countersignature is a meaningless formality and that if the making of a grant is approved the papers may go on at once to the Public Works Department.

A. GALLETTI—26-9-05.

The Director of Public Instruction makes no specific recommendation, but from the general tone of his letter he appears to be in favour of a grant. The papers may go on to Public Works Department for scrutiny and meanwhile Director of Public Instruction may be asked to state definitely whether or no he recommends a grant.

H. D. TAYLOR—27-9-05.

A draft memorandum to the Director of Public Instruction is submitted below for approval. After issue the file may go to Public Works Department.

EDUCATIONAL DEPARTMENT.

The question for consideration at present is what is the amount of grant to be paid. The amount of the estimate as revised by Public Works is Rs. 7,500 and under rule 118 of the Grant-in-Aid-Code the maximum grant admissible is Rs. 2,433. The Director recommends the payment of the maximum grant—*vide* his letter of the 12th October 1905.

P. T. THARYAN—23-11-05.

A. GALLETTI—24-11-05.

A full grant of Rs. 2,433 may be sanctioned—the work to be completed and account submitted by 31st December 1906.

H. D. TAYLOR—25-11-05.

A grant of Rs. 2,400 being slightly below a maximum grant may be promised in respect of an expenditure of Rs. 7,300; before it is fully disbursed care must be taken to see that *bona fide* expenditure up to Rs. 7,300 has been actually made and the other conditions fully complied with. The draft should notice that the grant is not quite maximum.
