G.O., No. 841, 22nd December 1905.

N. P.

Approving the proposal of the Director of Public Instruction to extend the course of study for the Sanitary Inspectors at the — from five to six months, and stating that orders regarding the modification of the rules for the appointment of Sanitary and Assistant Sanitary Inspectors will issue in the Local and Municipal Department.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper:—

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 20th November 1905.

No.—R.C. 4587.

Under G.O., No. 1131 L., dated 11th September 1903, the course for the training of Sanitary Inspectors at the Madras Medical College is held for five months in each year—from November to March. The Professor of Hygiene and the Lecturer on Physiology consider that a period of five months does not admit of sufficient instruction being imparted in the subjects prescribed for the course and that, owing to pressure of work at the college during the whole of the spring session, it is desirable to hold the Sanitary Inspectors' class from July to December. The Principal of the college and the Sanitary Commissioner approve of these proposals; and I have the honour to recommend accordingly that sanction may be accorded to the class being held, in future, for six months—from July to December—instead of for five months as heretofore. This will not involve any extra cost to Government.

Order—No. 841, Educational, dated 22nd December 1905.

The Director's proposals are approved.

2. Orders will issue in the Local and Municipal Department concerning the alteration of rule 1 (1) of the rules in G.O., No. 1131 L., dated 11th September 1903, regarding the qualifications required for the appointment of Sanitary and Assistant Sanitary Inspectors.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 841, EDUCATIONAL, DATED
22ND DECEMBER 1905.

[SUBJECT.—*Extension of the course for the training of Sanitary Inspectors at the Madras Medical College from five to six months and the holding of the class from July to December instead of from November to March.*]

From the Director of Public Instruction, dated 20th November 1905, No. 4587.

Under the rules framed for regulating the appointment of Sanitary and Assistant Sanitary Inspectors, confirmed in G.O., No. 1131 L., dated 11th September 1903, no person shall be appointed, from and after the 1st of January 1906, to the post of Assistant Sanitary Inspector unless he has undergone a five months' course at the Medical College in Physiology, Hygiene and Bacteriological demonstrations and then passed the Intermediate Technical Examination in Physiology and Hygiene. Similarly in the case of candidates for the post of Sanitary Inspector, they should possess the qualifications prescribed for the post of Assistant Sanitary Inspector and should in addition have passed the Engineer Subordinate class at the class of Engineering or possess—

(a) a certificate from the Sanitary Engineer or the Assistant Sanitary Engineer that he has undergone a five months' course in Minor Sanitary Engineering; and

(b) a certificate from the Commissioner for Government Examinations that he has passed a special examination in Minor Sanitary Engineering.

2. The Director now recommends that the course of instruction at the Medical College for the Sanitary Inspectors should be extended from five to six months. For orders as to whether the recommendation may be approved with the concurrence of Local and Municipal.

3. The Director further recommends that the Sanitary Inspectors' class which is now held from November to March should in future be held from July to December. The reason given for the change is pressure of work at the Medical College during the whole of the spring session. During the same period, except in the month of December, a class in Minor Sanitary Engineering is held at Guindy; there is no information as to the hours of instruction given in this subject.

N. LAKSHMANA RAO—24-11-05.

At present the course in Physiology, Hygiene and Bacteriological demonstrations is between November and March, both months inclusive—the opening sentence of the Director's letter, and the course in Minor Sanitary Engineering between July and November—both months inclusive—G.O., No. 813 L., dated 11th July 1904. The course in Minor Sanitary Engineering is intended for those who have passed in Hygiene and Physiology—rule 1 on page 13 of G.O., No. 1131 L., dated 11th September 1903. The Local and Municipal Department may, however, be asked unofficially whether there is any objection to the adoption of the Director's suggestion to have the course in Physiology and Hygiene between July and December. That Department may consult the Sanitary Commissioner if it finds it necessary. If the Director's suggestion is adopted, Local and Municipal will have to alter rule 1 (1) in G.O., No. 1131 L., dated 11th September 1903, substituting "six months' course" for "five months' course."

P. T. THARYAN—24-11-05.

A. GALLETTI—27-11-05.

To the Local and Municipal Department.

LOCAL AND MUNICIPAL DEPARTMENT.

From the Director's letter it appears that the Sanitary Commissioner has approved of the proposals to extend the period of training for Assistant Sanitary Inspectors at the Medical College from five to six months, and to hold the class from July to December instead of November to March as at present. It does not therefore appear to be necessary now to consult the Sanitary Commissioner in this matter.

2. Under G.O., No. 813 L., dated 11th July 1904, the course of Minor Sanitary Engineering at the King Institute for Sanitary Inspectors begins on 1st July and continues till the 30th November with reference to paragraph 2 of the Sanitary Commissioner's letter on page 2 of the Government Order. The Sanitary Commissioner may, it is submitted, be consulted u.o. whether the change in the period during which the class for Assistant Sanitary Inspectors is held at the Medical College will render any alteration necessary in the arrangements in regard to the course in Minor Sanitary Engineering.

N. CHENGAL RAO—28-11-05.

V. RAGHAVA CHARLU—30-11-05.

Yes.

H. D. TAYLOR—1-12-05.

To the Sanitary Commissioner.

OFFICE OF THE SANITARY COMMISSIONER.

No alteration is necessary in the arrangement for conducting the Minor Sanitary Engineering class. The lectures for this course are given in the mornings (7—8-30) while those in Hygiene and Physiology are given either in the forenoon or afternoon in the Madras Medical College.

H. THOMSON—6-12-05.

To the Local and Municipal Department.

LOCAL AND MUNICIPAL DEPARTMENT.

The file may now be returned to the Educational Department u.o. with the remark that there is no objection in this department to the proposal of the Director of Public Instruction that the class for Assistant Sanitary Inspectors at the Medical College should in future be held from July to December.
