Building grant.

Sanctioning, with remarks, a grant not exceeding Rs. 6,000 towards the cost of constructing an additional building for the Hindu High School, Triplicane.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers:—

I

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 31st January 1905.

No.—Ref. on Cur. No. 5138 of 1903.

I have the honour to submit the accompanying plan and estimate for the construction of an additional building for the Hindu High School, Triplicane, Madras, and to recommend that, under rule 118 of the Grant-in-Aid Code, a grant of Rs. 6,709 which is a third of the estimated cost of the proposed work be sanctioned to be paid after the completion of the building.

2. The school traces its origin and growth to a Patasala which was established about half a century ago. In 1870 it was raised to the status of a High school and with the abolition of the High school classes in the Presidency College it became very popular and almost self-supporting. It is now under the able management of an influential Committee of Indian gentlemen.

3. The building in which the school is now held was constructed in 1899 with the help of a grant of Rs. 19,209 sanctioned in G.O., No. 409, Educational, dated 7th July 1896. Since then the strength of the institution has risen from 592 to 740 in March last. The statement below gives the strength of the different classes during the past eleven years:—

Year.	Upper Secondary Forms.			Lower Secondary Forms.			Total.
	Sixth.	Fifth.	Fourth.	Third.	Second.	First.	
1894	91	67	58	56	60	88	420
1895	105	55	53	84	81	79	457
1896	97	70	45	102	72	87	473
1897	95	74	78	101	84	110	542
1898	103	57	94	94	119	108	575
1899	92	84	69	110	121	116	592
1900	112	73	88	136	100	115	624
1901	143	66	117	121	127	136	710
1902	122	178	121	117	128	120	686
1903	122	104	116	135	110	111	698
1904	151	107	127	109	101	145	740

During the last four years especially the insufficiency of the accommodation has been keenly felt. Some of the classes are held in verandahs and temporary sheds and the discipline and efficiency of the school are likely to suffer if this state of things is allowed to continue.

4. The school is not in receipt of salary grants as it is more than self-supporting from fees alone. The accompanying statement indicates its financial condition during the past eleven years.

The Committee proposes utilizing the surpluses of the past years in providing the necessary extra accommodation but it will be seen from the above statement that these surpluses do not go far towards meeting the extra expenditure involved.

5. The plan and estimates were referred to the Public Works Department previous to the receipt of the orders contained in G.O., No. 597, Educational, dated 27th September 1904 and they have been approved. Some of the suggestions of the Consulting Architect have been carried out by the Committee in the revised estimate.

6. The Committee is prepared to execute the deed of agreement required under the rules in case the building grant is sanctioned, but I would suggest that the Committee should be called upon to have itself registered under the Indian Companies Act in order to safeguard the interests of Government not only with reference to the large building grant that it has already received but in view of any other grants that it may receive in future. Apart from this, the step proposed will give the Committee a definite constitution and legal status.

Memorandum No. 105, Educational, dated 21st February 1905.

With reference to his letter No. 5138, dated the 31st ultimo, the Director of Public Instruction is requested to be so good as to inform the Committee of the Hindu High School, Triplicane, that registration of the managing body under the Indian Companies Act, 1882, will be one of the conditions precedent to the sanction of a grant.

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction.

III

Note by the Chief Engineer, Public Works Department, dated 16th May 1905.

The estimate for constructing an additional building for the Hindu High School, Triplicane, may be approved with the following remarks:—

(1) It should be ascertained whether the depth of foundation allowed is the same as that for the existing building; if not, it should be made so.

(2) The thickness of the arches should be 1' 6" and 1' 1½" instead of 1' 8" and 1' 3", respectively.

(3) For the passage, double-rolled steel joists 4" × 8" and weighing 19 lbs. per foot should be substituted for heavy wooden beams 1' 3" × 1' 3" allowed in the estimate.

(4) Rolled steel girders 15' x 6" x 56 lbs. should be used for all the rooms in the new building.

(5) The width of concrete should be 5' 6" instead of 4' 6" so as to reduce the pressure on foundations to 1 ton per square foot.

(6) The rate for cement plastering should be reduced to Rs. 5-12-0 per square.

By the above alterations, the amount of estimate has been reduced from Rupees 20,128-7-8 to Rs. 19,525.

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 9th September 1905.

No.—Ref. on Cur. No. 5138 of 1903.

With reference to your Memorandum No. 443, Educational, dated 9th August 1905, I have the honour to say that the Secretary, Hindu High School, Triplicane, reports that a meeting of the members of the Managing Committee will be held on Sunday next to discuss the question of registering the Committee under the Indian Companies Act and that their decision in the matter will be communicated at an early date. The meeting, it is stated, could not be convened earlier as some of the members were away from Madras.

Letter—from M. R. Ry. M. O. PARTHASARATHI AIYANGAR AVARGAL, M.A., M.L., Honorary Secretary, Hindu High School, Triplicane.

To—the Director of Public Instruction, Madras.

Dated—the — 1905.

In continuation of my reply to you by telephone on the 6th September 1905, I have the honour to report to you that a meeting of the Committee was held on the 10th September 1905. As the association should consist at least of seven members to enable it to get into the Companies Act, it was resolved that M. R. Ry. M. Rangachariar Avargal, M.A., Professor, Presidency College, Madras, be requested to join the Committee and that the Committee be registered under the Indian Companies Act as ordered by the Government. M. R. Ry. M. Rangachariar Avargal has consented to join us, and the terms of the memorandum of association and of the articles of association are being finally settled. I shall have the honour to forward to you at an early date the memorandum of association and the articles of association for favour of any suggestion you may think fit to make for our guidance.

Ref. on Cur. No. 5138 of 1903, dated 12th October 1905.

A. G. BOURNE,
Director of Public Instruction.

Order—No. 30, Educational, dated 18th January 1906.

The Government are pleased to sanction a grant not exceeding Rs. 6,000 towards the cost of constructing an additional building for the Hindu High School, Triplicane, Madras, subject to the following conditions:—

(1) that the authorities of the school carry out the work in accordance with the remarks of the Chief Engineer, Public Works Department, in his note read above;

(2) that the work is completed before 30th September 1906;

(3) that a certificate of the actual expenditure incurred on the work is submitted before 31st October 1906;

(4) that the actual expenditure does not fall short of Rs. 19,525; and

(5) that all other conditions prescribed in the Grant-in-Aid Code have been duly complied with.

2. On the above conditions being fulfilled; the grant will be paid.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 30, EDUCATIONAL, DATED
18TH JANUARY 1906.

[SUBJECT.—*Building grant for the Hindu High school, Triplicane.*]

From the Director of Public Instruction, dated 31st January 1905, No. 5138.

The points for orders are—

(1) whether the plans and estimate received with the Director's letter read above should be forwarded to the Public Works Department for scrutiny before the question of the grant of Rs. 6,709 recommended by him is considered ;

(2) what grant should now be paid ; and

(3) whether, as suggested by the Director of Public Instruction, the Committee of the school in question should be called upon to have itself registered under the Indian Companies Act, and if so, whether the payment of the grant should be conditional on registry.

2. It is submitted that in G.Os., No. 409, Educational, dated 7th July 1896, and No. 748, Educational, dated 21st December 1904, a building grant of Rs. 19,209 and of Rs. 2,000, respectively, was sanctioned for the Hindu High School, Triplicane. The amount, if any, of the grant to be now paid, will depend on the report of the Public Works Department on the plans and estimates.

N.L.R.—5-2-05.

P. T. THARYAN—6-2-05.

A. GALLETT—6-2-05.

For orders in the first instance whether the question of any additional building grant should be considered. These large grants to high schools may be gradually withdrawn. This school has already had over Rs. 21,000 of Government money for building grants. The sum might be better devoted to primary education. If any grant is to be considered, the Committee may be called upon to register itself under the Indian Companies Act.

H. D. TAYLOR—7-2-05.

If I saw any immediate prospect of utilizing for primary education the large sums that are now made available for "education," I would stop these building grants for high schools.

But when we do, we ought to give notice of our intentions. At present I think there is a necessity to show expenditure.

What does the Director say?

J. T[OMSON]—8-2-05.

To the Director of Public Instruction.

We must have some high schools and this is one of the best and it "feeds" the Presidency College. I am opposed to multiplying the number of high schools—particularly small ones, and I would not recommend a grant for an inefficient one, but I think the best ought to be developed.

2. I am withdrawing, and giving notice of intention to withdraw, grants (to high schools) for teaching. Building grants are different. Government may always be sure in these cases that the managers provide at least two-thirds of the expenditure unless the manager's contribution comes out of accumulated surplus due to Provincial teaching grants. We are trying to check such accumulations.

H. D. TAYLOR.

3. I certainly think that the ideal position just now is to have funds wherewith to give secondary education a sort of final impetus and which can be diverted, as wanted, for primary education.

A. G. BOURNE—10-2-05.

Circulated to the Honourable Member.

H. D. TAYLOR—14-2-05.

Give a grant if and when the conditions—proper and suggested—are satisfied.

J. T[HOMSON]—15-2-05.

Draft please. The Committee should first register itself under the Companies Act.

Memorandum No. 105, dated 21st February 1905, requesting the Director of Public Instruction to inform the Committee of the Hindu High School, Triplicane, that registration of the managing body of the institution under the Indian Companies Act, 1882, will be one of the conditions precedent to the sanction of a grant.

Why shown as pending (in the call book)?

It will come up as a fresh matter after registration.

H. D. TAYLOR—7-4-05.

Submitted that the current has not yet been finally disposed of and that the proper course was therefore to keep it in the arrear list instead of closing it there and showing a call here. This has now been done.

P. T. THARYAN—11-4-05.

We have refused sanction under existing conditions. The matter ends there so far as Government is concerned. If the Committee register, they can come up with a renewed application. If they don't, the matter will remain undisposed of for ever.

Let me see file.

H. D. TAYLOR—7-5-05.

Submitted that the application for grant is now with the Public Works Department; the plans and estimates are being scrutinized, the file went over with u.o. No.113, dated 20th February 1905.

Memorandum No. 105, dated 21st February 1905, is submitted.

2. On receipt of the remarks of the Public Works Department, the amount of the grant will be settled but the order promising it will issue only after the Committee promise to register themselves.

P. T. THARYAN—8-5-05.

I think Secretary ordered the file to be sent to Public Works Department?

A. GALLETTI—8-5-05.

Very well. Await return of file from Public Works Department when it will be recorded.

We cannot keep a file open indefinitely. The Committee may or may not register themselves. If they do, they can come up again and the application can be treated as a fresh one. All materials will then be ready to land for its disposal.

The Secretary to Government,

Sir,

I have the honour to submit the accompanying plan and estimate for the construction of an additional building for the Hindu High School, Triplicane, Madras and to recommend that, under Rule 118 of the Grant-in-Aid Code, a grant of Rs 6709/ which is a third of the estimated cost of the proposed work be sanctioned to be paid after the completion of the building.

2. The school traces its origin and growth to a Patasala which was established about half a century ago. In 1870 it was raised to the status of a High School and with the abolition of the High School classes in the Presidency College it became very popular and almost self-supporting. It is now under the able management of an influential Committee of Indian gentlemen.

3. The building in which the school is now held was constructed in 1899 with the help of a grant of Rs 19,209/ sanctioned in G.O. No. 4209 Educational dated 7th July 1896. Since then the strength of the institution has risen from 592 to 740 in March last. The statement below gives the strength of the different classes during the past 11 years.

During the last four years especially the insufficiency of the accommodation has been keenly felt. Some of the classes are held in verandahs and temporary sheds and the discipline and efficiency of the school are likely to suffer if this state of things is allowed to continue.

4. The school is not in receipt of salary grants as it is more than self-supporting from fees alone. The accompanying statement indicates its financial condition during the past 11 years.

The Committee proposes utilizing the surpluses of the past years in providing the necessary extra accommodation but it will be seen from the above statement that these surpluses do not go far towards meeting the extra expenditure involved.

5. The plan and estimates were referred to the Public Works Department previous to the receipt of the orders contained in G.O. No. 597 Educational d/27th September 1904 and they have been approved. Some of the suggestions of the Consulting Architect have been carried out by the Committee in the revised estimate.

6. The Committee is prepared to execute the deed of agreement required under the rules in case the building grant is sanctioned, but I would suggest that the Committee should be called upon to have itself registered under the Indian Companies Act in order to safeguard the interests of Government not only with reference to the large building grant that it has already received but in view of any other grants that it may receive in future. Apart from this, the step proposed will give the Committee a definite constitution and legal status.

Note for the Chief Engineer P.W.D.

The Estimate for ^{constructing an} ~~improvements~~ ^{to} Hindu High School.

Triplicane may be approved with the following remarks:-

- 1) It should be ascertained whether the depth of foundation allowed, is the same as that for the ^{existing} building; if not it should be made so.
- 2) The thickness of the Arches should be 1'6" and 1'1 1/2" instead of 1'8" and 1'3" respectively.
- 3) For the passage, double rolled steel joists 4" x 8" and weighing 19 lbs per ft, should be substituted for heavy wooden beams 1'3" x 1'3" allowed in the Estimate.
- 4) Rolled steel girders ^{15" x 6" x 56 lbs} should ^{be used for all the} ~~replace~~ ^{rooms in the new} ~~light~~ ^{building} girders.
- 5) The width of Concrete should be 5'6" instead of 4'6" so as to reduce the pressure on foundations to 1 ton per square foot.

+ be used for all the rooms in the new building

6)

"In continuation of my reply to you by telephone on
the 6th September 1905 I have the honour to report to you that
a meeting of the Committee was held on the 10th September 1905.
As the association should consist at least of seven members
to enable it to get into the Companies Act it was resolved that
M.R.Ry M. Rangachariar Avargal M.A. Professor Presidency
College, Madras, be requested to join the committee and that the
Committee be registered under the Indian Companies Act as
ordered by ^{the} Government. M.R.Ry M. Rangachariar Avargal has
consented to join us and the terms of the memorandum of
Association and of the articles of Association are being
finally settled. I shall have the honour to forward to you
at an early date the memorandum of Association and the articles

SUBJECT.
Building grant for the Hindu
High School, Triplicane.

The points for orders are

(1) whether the plans & estimate received with the Director's letter read above should be forwarded to the Public Works Department for scrutiny before the grant of Rs. 6,709 recommended by him is considered.

~~Sanctioned~~ (2) What grant should now be paid &

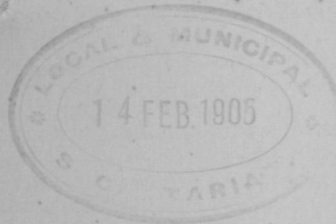

(3) whether, as suggested by the D. P. J., the Committee of the school in question should be called upon to have itself registered under the Indian Companies Act and if so whether the payment of the grant should be conditional on the plans & estimate are referred to P. W. D. for scrutiny.

2. It is submitted that in Gov. no. 409 Educational, dated 7th July 1896, and no. 748 Educational, dated 21st December 1904, a building grant of Rs. 19,209 + of Rs. 2000 respectively was sanctioned for the Hindu High School, Triplicane. The amount of the grant to be repaid will depend on the report of the P. W. D. on the plans & estimates.

Rs. 6145 Rs. 625

In view of the first instance whether the question of any additional building grant

33
 should be considered. The large grant
 to High Schools may be gradually withdrawn.
 This school has already had over Rs 21000
 of Govt. money for building grants. The
 sum might be better devoted to
 primary education. If any grant
 is to be considered the Committee
 may be called upon to register itself
 under the Indian Companies Act.

If I saw any immediate prospect
 of utilizing for Primary Education
 the large sums that are now made
 available for 'Education' I would
 stop them from being sent for
 High Schools.

But when we do we ought to
 give notice of our intention.
 At present I think there is
 a necessity to show the structure.
 What does the Director say?

I am opposed to multiplying the number of High Schools - particularly small ones and I would not recommend a grant for an inefficient one but I think the best ought to be developed.

I am withdrawing, and giving notice of intention to withdraw, grants (to High Schools) for teaching.

Building grants are different. Government may always be sure in these cases that the managers provide at least $\frac{2}{3}$ of the expenditure unless the Manager's Contribution comes out of accumulated surplus due to Provincial teaching grant. We are trying to check such accumulations.

I certainly think that the ideal position just now is to have funds wherewith to give secondary education a sort of final impetus and which can be diverted, as wanted, for primary education.
