I

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 4th November 1905.

No.—Ref. on Cur. No. 7064.

I have the honour to submit the enclosed plan with estimate, amounting to Rs. 4,200, for the construction of a building for the C.M.S. Lower Secondary school, Tenkási, Tinnevely district, and to recommend that, under Rule 118 of the Grant-in-aid Code, a third grant may be sanctioned.

2. The school is held in a rented building which is unsuitable for educational purposes. This inconvenience has been felt from the date of establishment of the school about 15 years ago.

3. Out of the allotment for building grant in the current year's budget estimate, payment of Rs. 8,053 has been authorized up to date.

II

Memorandum No. 652, Educational, dated 14th November 1905.

With reference to his letter read above the Director of Public Instruction is requested to be so good as to state whether the C.M.S. Lower Secondary school, Tenkási, is intended for lower primary classes also and if so how much of the total cost of the building is debitable to the lower primary department and how much to the upper primary and lower secondary departments of the school.

III

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 5th December 1905.

No.—R. on C. No. 7064.

With reference to Memorandum No. 652, dated 14th November 1905, I have the honour to say that the C.M.S. Lower Secondary school, Tenkási, contains no lower primary classes and that therefore the whole grant is payable from Provincial funds.

IV

Note by the Chief Engineer, Public Works Department, dated 8th January 1906.

The estimate for constructing the C.M.S. Lower Secondary school at Tenkási, Tinnevely district, is recommended for sanction, with the following remarks :—

(a) With "hard gravel" at 1' 6" below ground, 3' founds are considered ample.

(b) The basement level should be reduced by 2' 6", and this would allow ventilators to be put above the verandah roof.

(c) Archwork over doors and windows should be made segmental.

(d) The concrete under the flooring should be 4½" thick instead of 3".

(e) The doors and windows may be batten instead of panel and venetian.

(f) Rolled steel girders of section 10" × 6", weighing 42 lb. per foot, should be used instead of teak beams for the roof.

(g) The scantlings of roof timbers should be altered as follows :—

	As per estimate.	As proposed.
Joists, side main room	3" × 6"	3½" × 7½"
Joists, main room	3" × 6"	3" × 7½"
Rafters, front verandah	2½" × 5"	2" × 3½"
Eave board	2" × 9"	¾" × 9"

J. P. DAVIDSON,
Chief Engineer.

Order—No. 34, Educational, dated 20th January 1906.

The Government are pleased to sanction a maximum grant of Rs. 1,400 towards the cost of constructing a building for the C.M.S. Lower Secondary school, Tenkási, Tinnevely district, subject to the following conditions :—

EDUCATIONAL DEPARTMENT.

The Chief Engineer's note, dated 8th January 1906, does not state whether by the alterations proposed the original estimate of Rs. 4,200 will be raised or lowered. In the absence of any such specific information it is presumed that there will be no variation in the original estimate. The question then for consideration is as to the amount of grant to be paid to the Church Missionary Society's Lower Secondary school, Tenkási. Under rule 118 of the Grant-in-Aid Code the maximum grant admissible is one-third of Rs. 4,200 or Rs. 1,400. Orders are solicited as to what amount should be sanctioned. When the amount is settled the Public Works Department may be asked to fix a period within which the work can be completed.

N.L.R.—10-1-06.

P. T. THARYAN—10-1-06.

I suppose the usual grant of one-third may be given.

C. A. SOUTER—11-1-06.

Rs. 1,400 may be sanctioned as a maximum subject to the condition that the expenditure actually incurred, and for which accounts are produced, does not fall short of Rs. 4,200.
