Sir,

In the D.P.?

I have the honour to lay before you the following facts. The above is the only Boarding and High school for native girls in this part of Madras, and boarders are received from all over India, as well as from Burma. The numbers have considerably increased since the enlargement of the school in 1900 for which a grant was sanctioned. No. 14144 Dec:22/1899. There are now 250 on the rolls against 149 in 1900; 15 girls have attended the sixth form during the present year, & of the 5 sent up for matriculation for 1904 all passed. For several years passed, a large number of girls each year have been declined for want of space, and many classes are crowded and noisy. It has been an imperative necessity that ^{greater} ~~greater~~ space should be provided. The remarks of the Inspectress in the reports for 1904 and 1905 confirm these statements. Vide the enclosed application form. In April 1904 plans and estimates to supply the much felt need were drawn out by Mr. John Lewis (late of the Government Architect's office) and were submitted through the Inspectress Miss Carr, who, with Mrs. Brander, was much interested in the rapid development of the school. Copies were sent to the Municipality who approved and gave the necessary permit.

In the D.P.?

At the office of the Director of Public Instruction the question of handing over the title deeds had just arisen, and the plans were returned to the Manager, who should be asked to state whether in the event of the grant being sanctioned she will

execute

Grant-in-Aid
Case for 1905-06

execute the deed of agreement prescribed in rule 119. Ref. on C. No. 3714/04, May 7th. This could not be done, for the following reasons among others. (1) I had not the power. The property belongs ^{to} the whole London Missionary Society and the Directors must have sent out a power of attorney had they consented to hand over the deeds. (2) I could not feel justified in asking them for the necessary powers to hand over the title deeds of the whole property for the sake of part of one of the many buildings on the compound, most of which have been built with private funds. (3) Even had the Directors been asked and they had consented, as the property has belonged to the Society for fully 50 years, it is quite possible the title deeds would not be accepted by Government, which would mean further delay and expense. I trust you will see from the foregoing that we fulfilled all the usual conditions for receiving a grant, and applied for it on the old rules, under the old conditions and agreement, the latter of which could be signed without difficulty. We were stopped only by the new agreement, which very many others found themselves unable to sign. After the reply sent to the Director nothing was done for nearly a year, during which time large numbers were refused admission, space was over crowded, and the permit of the Municipality would elapse if the building was not begun in the *specific* time. In March 1905 the work, therefore, was begun ^{in the} hope that the agreement concerning the title deeds would be

rescinded, and under the exceptional circumstances the grant would be sanctioned. In July, when the question was modified another application was made, and the reply has been received from the Director "Under Rule 118 of the G-in-Aid the building is ineligible for building grant. Dis. No. 6145 of 1905.

Under these circumstances I beg most respectfully to ask that one third grant of the accompanying estimate may be sanctioned, for had we not gone forward the efficiency of the school would have been marred for next year, and its usefulness again curtailed.

2. There does not seem to be much ground for relaxation of the provisions of Rule 113 (ii) of the Grant-in-aid Code in favour of the management, as when a building is started without any promise of a grant the presumption is that aid from Government is not required. In this case the presumption is strengthened by the fact that the prospect of a grant was remote as the management were not prepared to accept the terms on which it would be given.
3. The plans and estimates will be submitted if required.
