GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

G.O., No. 46, Educational, dated 23rd January 1906.

ABSTRACT.—Directing the attention of the public to the scheme of the Government of India technical scholarships, and explaining their object and setting out the conditions under which they will be offered and held.

II

Letter—from P. N. KRISHNASWAMI NAYUDU, B.A., B.L., Acting Clerk, Settlement Department, Board of Revenue.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 13th February 1906.

Being given to read G.O., No. 46, Educational, dated 23rd January 1906, I beg to undertake the offer therein and hold one of the Government of India technical scholarships.

2. As best considered by the Governor in Council, I am prepared to take up the study of Industrial Chemistry in one or two of its branches, with the tanning industry. I am aged just two and twenty while I took my B.L. Degree last year, hence best suited just at this time. I am of strong constitution and peculiarly given up to technical understanding.

3. By caste I am a non-Brahman, while I belong to a respectable family of retired Military officers and decently situated servants in the Government of Madras. As to my character, a formal reference may be made, if necessary, to the Secretary to the Board of Revenue (Revenue Settlement) where I am at present employed. I have the consent of my family and as to the educational qualifications required, I think, perhaps, I have the best for this line. As to the preliminary training that is to be given to me, if so directed, I should be very glad to learn from Mr. Chatterton who will be most willing to have me under him properly instructed. Hoping this application will duly be considered and never to be disappointed in an attempt so honest as this.

Order—No. 104, Educational, dated 22nd February 1906.

With reference to his application for a State technical scholarship, dated the 13th instant, P. N. Krishnaswami Nayudu will be informed that, as he does not satisfy the conditions, required by G.O., No. 46, Educational, dated 23rd January 1906, his application cannot be entertained.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To P. N. Krishnaswami Nayudu, Acting Clerk, Settlement
Department, Board of Revenue.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 104, EDUCATIONAL, DATED 22ND FEBRUARY 1906.

[SUBJECT.—*Application for a State Technical Scholarship.*]

From P. N. Krishnaswami Nayudu, dated 13th February 1906.

Submitted for orders.

N.L.R.—14-2-06.
P. T. THARYAN—15-2-06.

C. A. SOUTER—15-2-06.

The applicant does not state what previous training he has had in "chemistry". There is nothing to show that the degrees which he holds are calculated in any way to qualify him for a scholarship, nor does he state the classes in which he passed.

2. He has not specified, as directed in the last sentence of paragraph 7 of G.O., No. 46, Educational, dated 23rd January 1906, what particular branches of industrial chemistry he desires to study. Nor does he appear to have had any technical training in this Presidency (paragraph 8 of Government order) though he is willing to undergo this.

Of course at the expense of the State.
G. S. F[ORBES].

3. Otherwise this seems a more promising applicant than any who has hitherto come forward.

This seems to imply a wrong idea of the object of the Technical scholarships.
G. S F[ORBES].

Director of Public Instruction may be asked to report upon the applicant's qualifications with reference to paragraphs 7, 8 and 9 of G.O., No. 46, dated 23rd January 1906.

H. D. TAYLOR—16-2-06.

The applicant does not satisfy the conditions required and his application cannot therefore be entertained.

2. The object of these scholarships is to enable a person engaged in an industry or who has applied himself to its *practical* study to obtain a knowledge of its technical, scientific or theoretical basis so as to be able to return and apply such knowledge to the development and improvement of the industry.

The applicant must have first a practical acquaintance with some industry and secondly the necessary educational equipment to assimilate the scientific course (*e.g.*, if the industry is connected with engineering or machinery, etc., he must have a considerable knowledge of mathematics (say up to differential calculus) as well as of freehand and geometrical drawing ; if the industry is the manufacture of soaps, or tanning or dyeing, etc., he should be a fairly expert chemist, theoretical and practical).

3. The technical scholarships are not meant to train apprentices to a trade, etc.

G. S. F[ORBES]—17-2-06.

Please draft.
This note should be printed.

H. D. TAYLOR—20-2-06.

The draft order placed below is submitted for approval. After approval and issue the order and the notes will be printed.
