GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—the following papers:—

I

Letter—from the Hon'ble Mr. A. G. Bourne, D.Sc., F.R.S., Director of Public Instruction.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 30th January 1906.
No.—C. No. 496.

Referring to paragraph 2 of G.O., No. 769, Educational, dated 23rd November 1905, and the enclosed copy of my letter R. on C. No. 4238, dated 30th November 1905, to the President of the District Board, Anantapur, communicating this Government order, I have the honour to submit a copy of his letter No. 993, dated 3rd January 1906, in which he states that Rs. 8,870 will be spent in the current year on six school buildings and that it will not be possible to spend a larger amount. If he has not already made any arrangements for so doing it will be useless to propose them now. The President may therefore be considered to have surrendered Rs. 3,130.

2. The President of the District Board, North Arcot, has applied for an additional allotment of Rs. 1,000 and I have wired to say that the amount will be placed at his disposal. I beg therefore that Government may be pleased to sanction the transfer of the amount to that Board out of the savings pointed out above. The balance that will be still left over I may be able to utilize in Gódávari or Kistna. I hope to learn about this in a day or two.

Enclosures.

Letter—from the Hon'ble Mr. A. G. Bourne, D.Sc., F.R.S., Director of Public Instruction.
To—the President, District Board, Anantapur.
Dated—the 30th November 1905.
No.—Ref. on C. No. 4238.

In continuation of my letter R. on C. No. 4238, dated 17th November 1905, I have the honour to forward an extract from G.O., No. 769, Educational, dated 23rd November 1905, and to request that you will be so good as to arrange to construct as many buildings as can be built with the allotment of Rs. 12,000 placed at your disposal.

2. I forward for your information a rough sketch of the Edward's Coronation school building, Hindupur, which I am informed was constructed at a cost of Rs. 720 as per the enclosed estimate. You have yourself proposed a building for the Kottacheruvu school at a cost of Rs. 850. Judging from these two estimates, the opinions of my inspecting officers and the opinion expressed to Mr. Mayhew by the Rev. L. M. Marler, who, it is said, has had considerable experience of school buildings in your district, I hope it will be possible to build suitable school houses at a cost ranging from Rs. 700 to Rs. 1,000, so that between 12 and 15 or 15 and 20 buildings may be constructed out of the allotment Government have placed at your disposal.

Letter—from E. Scott, Esq., I.C.S., President, District Board, Anantapur.
To—the Director of Public Instruction, Madras.
Dated—the 3rd January 1906.
No.—R.C. 993.

With reference to your letter R. on C. No. 4238, dated 30th November 1905, I have the honour to state that Rs. 8,870 will be spent in the current year on school buildings in the marginally-noted places. It will not be possible to spend a larger sum.

II

Letter—from the Hon'ble Mr. A. G. Bourne, D.Sc., F.R.S., Director of Public Instruction.
To—the Secretary to Government, Educational Department.
Dated—the 7th February 1906.
No.—R.C. 8419 of 1905.

The system of results grants was given up in July 1905 and the grants to schools examined after that date have been provisionally allotted, in the case of old schools on the basis of the average earnings of the last three years, and in the case of new schools on the basis of the allotment to similar schools existing in the locality, in both cases subject to final confirmation at the conference of the inspecting officers to be held in February. It is now found that the amount provided in the current year's budget as subsidy to Local Boards, viz., Rs. 1,86,900 is not enough to enable them to pay these grants in full and that an additional sum of Rs. 33,000 is required for the purpose. The increase is due to the fact that the sum of Rs. 1,86,900 was an under estimate being based rigidly on previous actuals and sufficient allowance was not made for the increase in the number of aided schools which the policy of paying grants in full has produced in unexpected numbers. Since 31st March 1904 the number of Lower Primary aided schools has increased from 7,486 to 8,406, while from 31st March 1903 to 31st March 1904 the increase was from 7,444 to 7,486 only. Some part of the expenditure required to meet this increase should properly be borne by Local funds but no provision was made for it in most of the sanctioned budgets and the increase must either be met from Provincial subsidy or the grants paid at less than full rates. To provide for these schools I anticipate that an additional subsidy of Rs. 33,000 will be required and I accordingly request that this sum may be sanctioned in addition to Rs. 1,86,900 already provided in the current year's budget.

With regard to the sources from which this amount may be met, the following are indicated:—

(1) The sum of Rs. 13,800 resumed by Government in G.O., No. 694, Financial, dated 12th October 1905, from 22. Education on account of the transfer of the Vizagapatam Agency schools from Government control.

(2) There is a sum of Rs. 9,500 under 26 S. Scientific, etc. Departments—Miscellaneous—Carpentry department—which is not required and is available for transfer. This will be formally surrendered shortly.

(3) From the Miscellaneous (carpet-weaving, metal works, etc.,) departments of the School of Arts, a sum of Rs. 11,000 was resumed by Government in G.O., No. 722, Financial, dated 27th October 1905, and out of this a sum of Rs. 5,355 has been allotted for "Pumping experiments." The balance, about Rs. 5,500, does not appear to have been allotted for any other purpose.

(4) Under 24-F. Medical College and Schools there is likely to be a saving of about Rs. 5,000. This will be formally surrendered shortly.

If the above sums are regarded as available the proposed increase can be fully met. If the grant of Rs. 45,000 to the University provided in my revised estimate is to be paid in the current year, the expenditure under 22. Education is likely to exceed the budget estimate and I shall be under the necessity of applying for an additional allotment to meet the expenditure. I am not however in a position to say whether the instruments the cost of which this grant was intended to meet will be delivered in India in sufficient time to allow of payment being made in the current year. If it is not paid I anticipate savings under 22. Education to the extent of

Rs. 11,000 only, so that in either case the increased expenditure proposed cannot be met from 22. Education.

2. If the additional sum of Rs. 33,000 applied for is sanctioned, I request that the subsidy for the current year may be distributed among the districts as shown in the appended list in lieu of the amounts for which credit has been taken in the sanctioned budgets of the District Boards for the current year. No subsidy is proposed to be given on account of results-stipends. The inspecting officers will be instructed to distribute the amount for each district among the several Taluk Boards according to their requirements and to advise the Presidents of District Boards concerned of the same so that the amounts may be drawn from the treasuries as soon as the sanction of Government is received.

The amount of subsidy sanctioned for 1904–1905 is also given in the list referred to above for purposes of comparison. On account of the territorial changes in the districts of Gódávari, Kistna, Guntúr and Nellore it is not possible to compare the figures proposed for the current year with those sanctioned for 1904–1905 for the individual districts, but the totals for the four districts taken together show a close agreement; with regard to most of the others there is a fair agreement except in the case of Ganjám, Vizagapatam and Malabar. In the case of Ganjám and Vizagapatam the increase is due to the aiding of 230 and 150 additional schools respectively. The actual amount of subsidy for fixed and results grants paid to Malabar district in 1904–1905 was about Rs. 15,600 so that the variation between the last year's figure and that proposed for the current year is not so great as it appears.

3. As the conference of the inspecting officers for the final assignment of annual grants and the issue of grant-in-aid bills is to be held about the middle of February, I request that this letter may be treated as urgent and that very early orders may be passed. I request also that the Accountant-General may be authorized, as usual, to obtain after the close of the official year a statement showing the total payments under the head "fixed and results grants" and the budget allotments for the purpose from the Local Fund boards and to call for the refund, if any, of the subsidy drawn in excess of the payments and to advise me of the same.

With reference to your letter R. on C. No. 4238, dated 30th November 1905, I have the honour to state that Rs. 8,870 will be spent in the current year on school buildings in the marginally-noted places. It will not be possible to spend a larger sum.

Letter—from the Hon'ble Mr. A. G. Bourne, D.Sc., F.R.S., Director of Public Instruction.
To—the Secretary to Government, Educational Department.
Dated—the 7th February 1906.
No.—R.C. 8419 of 1905.

The system of results grants was given up in July 1905 and the grants to schools examined after that date have been provisionally allotted, in the case of old schools on the basis of the average earnings of the last three years, and in the case of new schools on the basis of the allotment to similar schools existing in the locality, in both cases subject to final confirmation at the conference of the inspecting officers to be held in February. It is now found that the amount provided in the current year's budget as subsidy to Local Boards, viz., Rs. 1,86,900 is not enough to enable them to pay these grants in full and that an additional sum of Rs. 33,000 is required for the purpose. The increase is due to the fact that the sum of Rs. 1,86,900 was an under estimate being based rigidly on previous actuals and sufficient allowance was not made for the increase in the number of aided schools which the policy of paying grants in full has produced in unexpected numbers. Since 31st March 1904 the number of Lower Primary aided schools has increased from 7,486 to 8,406, while from 31st March 1903 to 31st March 1904 the increase was from 7,444 to 7,486 only. Some part of the expenditure required to meet this increase should properly be borne by Local funds but no provision was made for it in most of the sanctioned budgets and the increase must either be met from Provincial subsidy or the grants paid at less than full rates. To provide for these schools I anticipate that an additional subsidy of Rs. 33,000 will be required and I accordingly request that this sum may be sanctioned in addition to Rs. 1,86,900 already provided in the current year's budget.

With regard to the sources from which this amount may be met, the following are indicated:—

(1) The sum of Rs. 13,800 resumed by Government in G.O., No. 694, Financial, dated 12th October 1905, from 22. Education on account of the transfer of the Vizagapatam Agency schools from Government control.

(2) There is a sum of Rs. 9,500 under 26 S. Scientific, etc. Departments—Miscellaneous—Carpentry department—which is not required and is available for transfer. This will be formally surrendered shortly.

(3) From the Miscellaneous (carpet-weaving, metal works, etc.,) departments of the School of Arts, a sum of Rs. 11,000 was resumed by Government in G.O., No. 722, Financial, dated 27th October 1905, and out of this a sum of Rs. 5,355 has been allotted for "Pumping experiments." The balance, about Rs. 5,500, does not appear to have been allotted for any other purpose.

(4) Under 24-F. Medical College and Schools there is likely to be a saving of about Rs. 5,000. This will be formally surrendered shortly.

If the above sums are regarded as available the proposed increase can be fully met. If the grant of Rs. 45,000 to the University provided in my revised estimate is to be paid in the current year, the expenditure under 22. Education is likely to exceed the budget estimate and I shall be under the necessity of applying for an additional allotment to meet the expenditure. I am not however in a position to say whether the instruments the cost of which this grant was intended to meet will be delivered in India in sufficient time to allow of payment being made in the current year. If it is not paid I anticipate savings under 22. Education to the extent of

Rs. 11,000 only, so that in either case the increased expenditure proposed cannot be met from 22. Education.

2. If the additional sum of Rs. 33,000 applied for is sanctioned, I request that the subsidy for the current year may be distributed among the districts as shown in the appended list in lieu of the amounts for which credit has been taken in the sanctioned budgets of the District Boards for the current year. No subsidy is proposed to be given on account of results-stipends. The inspecting officers will be instructed to distribute the amount for each district among the several Taluk Boards according to their requirements and to advise the Presidents of District Boards concerned of the same so that the amounts may be drawn from the treasuries as soon as the sanction of Government is received.

The amount of subsidy sanctioned for 1904–1905 is also given in the list referred to above for purposes of comparison. On account of the territorial changes in the districts of Gódávari, Kistna, Guntúr and Nellore it is not possible to compare the figures proposed for the current year with those sanctioned for 1904–1905 for the individual districts, but the totals for the four districts taken together show a close agreement; with regard to most of the others there is a fair agreement except in the case of Ganjám, Vizagapatam and Malabar. In the case of Ganjám and Vizagapatam the increase is due to the aiding of 230 and 150 additional schools respectively. The actual amount of subsidy for fixed and results grants paid to Malabar district in 1904–1905 was about Rs. 15,600 so that the variation between the last year's figure and that proposed for the current year is not so great as it appears.

3. As the conference of the inspecting officers for the final assignment of annual grants and the issue of grant-in-aid bills is to be held about the middle of February, I request that this letter may be treated as urgent and that very early orders may be passed. I request also that the Accountant-General may be authorized, as usual, to obtain after the close of the official year a statement showing the total payments under the head "fixed and results grants" and the budget allotments for the purpose from the Local Fund boards and to call for the refund, if any, of the subsidy drawn in excess of the payments and to advise me of the same.

Telephone message—from H. D. Taylor, Esq., Acting Secretary to Government, Educational Department.
To—the Director of Public Instruction.
Dated—the 10th February 1906.

Your letter No. 8419 of the 7th instant. Please send immediately a reappropriation statement for providing an additional subsidy of Rs. 33,000. In the statement the savings of Rs. 9,500 and Rs. 5,000 under the 2nd and 4th of the sources indicated in paragraph 1 of your letter may be entered as the sources from which the excess amount now required is to be met. The sources from which the balance is to be met may be left blank.

Salem	3,660
The Nilgiris	490
Malabar	13,790
South Canara	10,510
Total ..	2,19,900

2. To meet these payments there is a provision of Rs. 1,86,900 under Adjusting Heads in the current year's budget. The balance of Rs. 33,000 will be provided out of the following resumptions from the grant for primary school buildings :—

District Board from whom amount is resumed.	Grant from which amount is resumed.	Government order sanctioning the grant.	Amount now resumed.
	Rs.		Rs.
Nellore	23,000	G.O., No. 543, Educational, dated 8th August 1905, as modified by G.O., No. 1836, Educational, dated 21st December 1905.	10,000

Anantapur	12,000	G.O., No. 769, Educational, dated 23rd November 1905.	3,000
		Total ..	34,000

The excess amount of Rs. 1,000 now resumed will be paid to the District Board of North Arcot with reference to the Director's letter No. 496 of the 30th January 1906.

3. The Accountant-General will be requested to comply with the request contained in paragraph 3 of the Director's letter No. 8419 of the 7th February 1906 in regard to the refund of the subsidy drawn in excess of the payments actually made by local bodies.

NOTES CONNECTED WITH G.O., No. 139, EDUCATIONAL, DATED 3RD MARCH 1906.

[SUBJECT.—*Payment of subsidy to District Boards.*]

Please send the following message (telephone) to Director of Public Instruction :—

"Please do not issue orders for the transfer of any grant from one district to another under the special grant of 6 lakhs without the special sanction of Government previously obtained as this will lead to serious account difficulties."

H. D. TAYLOR—31-1-06.

Telephonic message from the Director of Public Instruction, to the Secretary to Government, Educational Department, dated 31st January 1906.

I note that the previous sanction of Government should be obtained in future to any transfer of the 6 lakhs grant.

From the Director of Public Instruction, dated 30th January 1906, *No.* 496.

The money is no longer at Director of Public Instruction's disposal.

2. The Director of Public Instruction should not alter arrangements after funds have been allotted. He is quite unaware of the actual difficulties involved and we shall get into a fearful mess if we try to transfer money from one Board to another. Any unexpended funds must lapse and account will be taken of the same in making next year's allotments.

H. D. TAYLOR—31-1-06.

The Director of Public Instruction may be informed in the above terms—please see draft placed below.

2. The Director has recently been instructed by telephone not to sanction transfers to other District Boards of any portion of the grant made to one District Board without the prior approval of Government. The Director has promised that he would not sanction such transfers.

* Telephonic message to and from the Director of Public Instruction, dated 31st January 1906.

3. The President, District Board, Anantapur, has reported that out of the allotment † of Rs. 12,000 made to that District Board he cannot spend more than Rs. 8,870 in the current year. The Local and Municipal department therefore propose to reallot the balance of Rupees 3,130 in the budget for 1906-1907 under Grant 1. New Works—Buildings.

† G.O., No. 769, Educational, dated 23rd November 1905.

N.L.R.—2-2-06.

P. T. THARYAN—2-2-06.

C. A. SOUTER—3-2-06.

I issued instructions to Director of Public Instruction by telephone as soon as I got the letter. I have since seen him. He was under the impression that the money, if not expended in the current year, would lapse to Provincial, and that his credit was at stake to prevent such lapses, but the money was formally allotted to District Boards and will lapse to the District Board balances. It is hopeless to expect that the allotment for each district will be exactly and completely expended. A statement of actual expenditure will be called for at the end of the current year, and steps will be taken to see that the money is reallotted for the purpose for which it was granted.

The Local Fund budgets are now going in and the figures must possess some finality and hence any transfer from one district to another at this stage is likely to land us in considerable difficulties.

In the present case the Director of Public Instruction and President may be informed that the transfer will be cancelled.

H. D. Taylor—7-2-06.

G. S. F[orbes]—14-2-06.

In a separate file Financial proposes to resume any balance of the 6 lakhs which cannot be expended by Local Boards. Orders on this point should be awaited.

H. D. Taylor—17-2-06.

Local and Municipal Department.

From the Director of Public Instruction, dated 7th February 1906, *No.* 8419.

Orders sanctioning the distribution of the subsidy among the several District Boards have to be issued in the Educational department to whom this current may be transferred un-officially.

V. Raghava Charlu—9-2-06.

H. D. Taylor—9-2-06.

To the Educational Department.

Educational Department.

Please check and see what provision can be made. Is there any provision in the Revised Estimate for training schools reorganization? This is not likely to come into effect this year.

Item 4 in paragraph 1 of Director of Public Instruction's letter is the only real item still standing under Education which could be reappropriated (Rs. 5,000).

We have cabled to Director-General of Stores to know if the Rs. 45,000 for University Education will be adjusted this year.

H. D. Taylor—9-2-06.

Submitted that there is no provision in the revised estimate for the reorganization of Training Schools—please see note (*e*) on page 136, Civil Budget Estimate (Preliminary issue).

2. Submitted that items (2) and (4) in paragraph 1 of the Director of Public Instruction's letter are still under the Director's control—G.O., No. 644, Financial, dated 24th September 1905. The amount available under these is Rs. 9,500 + 5,000 or Rs. 14,500.

From the provision under 24-F. Medical College and Schools, Rs. 3,300 has already been resumed—G.Os., No. 387, Financial, dated 26th May 1905, and No 578, Financial, dated 4th September 1905. It is presumed that the Rs. 5,000 which the Director is now going to surrender is an additional amount.

3. Excluding the two items mentioned, a further sum of Rs. 18,500 is now required by the Director and the whole of this amount will have to be found by Financial. The amount now remaining in the Educational budget for 1905-1906 after deducting resumptions is 23·62 and this is the amount of the Revised Estimate as prepared by the Accountant General. No reappropriation from any of the minor heads under 22. Education is thus possible.

4. The first thing to be done is, however, to get a reappropriation statement from the Director The whole file may then go to Financial and on the reappropriation being sanctioned or *promised* the distribution of the subsidy proposed by the Director may be sanctioned in Educational.

C. A. Souter.

P. T. Tharyan—10-2-06.

C. A. Souter—10-2-06.

Director of Public Instruction may be asked to forward a reappropriation statement. Meanwhile let Financial see the file.

H. D. Taylor—10-2-06.

The telephone message placed below may issue. After issue the file may go to Financial.

P. T. Tharyan—10-2-06.

C. A. Souter—10-2-06.

[Telephonic message from the Secretary to Government, Educational Department, to the Director of Public Instruction, dated 10th February 1906.]

To the Financial Department.

Financial Department.

I don't quite follow. What obligation is there on Financial to find Rs. 33,000 for the Director of Public Instruction for subsidy to Local Boards? The fact that sums placed in the Educational budget for totally different objects and not utilized for such objects have been resumed according to rule does not validate such a claim. It is not necessary to examine the Director's proposed reappropriations which are outside the grant for the major head 22. Education. If the money is to be allotted from outside the major head Financial will do what is necessary. But please examine the claim itself.

C. M. Schmidt—10-2-06.

The Director of Public Instruction reports that the amount provided in the budget for the current year as subsidy to Local Boards on account of Education, *viz.*, Rs. 1,86,900, is not enough to enable them to pay the grants to schools in full as this provision was an under estimate based rigidly on previous actuals and as sufficient allowance was not made for the increase in the number of aided schools which the policy of paying grants in full has produced in unexpected numbers. He adds: "some part of the expenditure required to meet this increase should properly be borne by "*Local funds*, but no provision was made for it in most of the sanctioned budgets and "the increase must (*a*) either be met from Provincial subsidy or (*b*) the grants paid at "less than full rates". The Director recommends the first alternative and requests that an additional allotment of Rs. 33,000 may be sanctioned under the head "Contributions from Provincial to Local Funds—*To Local Funds* (*Act V of* 1884)—Provision for subsidy to Local Boards on account of Education."

2. It is submitted that the absence of budget provision in the Local Boards' budget does not justify the transfer to Provincial funds of the charges to be legitimately borne by Local funds. The amount can be reappropriated from the budget grants for services other than "Education" in the Local section.

Attention is also solicited to the Hon'ble Mr. Forbes's marginal note on page 4 of the budget notes for 1906–1907 under 22. EDUCATION in which he remarked:—

"We . . . . must take care that Local Bodies do their duty and do not "take advantage of the subsidy . . . . ".

3. If it is found that Local Boards cannot pay more than what has already been provided for in the budget, the additional sum of Rs. 33,000 required should apparently be met from Provincial funds *if the grants are to be paid in full.* Orders are solicited.

4. In regard to the four items pointed out by the Director of Public Instruction from which the allotment (Rs. 33,000) can be met. it is submitted that items (1)—Rs. 13,800—and (3)—Rs. 11,000—have already been resumed by Government. The Director has been asked* to surrender the amounts aggregating Rs. 14,500 suggested by him under the heads 26-S. SCIENTIFIC, ETC., DEPARTMENTS—MISCELLANEOUS—Carpentry department and 24-F. MEDICAL COLLEGE AND SCHOOLS. The balance required, *viz.* (Rs. 33,000 — 14,500 =), Rs. 18,500, can be found from the † reserve with "Financial".

V. GOPALAKRISHNAN—13-2-06.

In another connection Local and Municipal have sent over a file in which they express doubts as to whether the whole of the 6 lakhs special grant for primary education will be utilized this year. This grant has been transferred to the same head as that which it is now proposed to increase, *viz.*, "CONTRIBUTIONS FROM PROVINCIAL TO LOCAL—For Educational Grants-in-Aid."‡ These contributions are all for primary education and the proper course seems to be to divert portion of the anticipated saving in the 6 lakhs grant to these grants-in-aid which the Director of Public Instruction cannot meet. If we were to make an additional grant from Provincial, we would merely be swelling the allotment under local expenditure heads when it is known that there will be savings.

‡ Including subsidy to Local Boards on account of dEucation.

Page 215, Civil Budget Estimate.

C. M. SCHMIDT—13-2-06.

What does Educational say to this?

It seems wrong to supplement the sum contributed to Local in one direction and not spend a similar grant also made to Local in another.

M. HAMMICK—14-2-06.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

It is quite impossible to form any accurate forecast as to what portion, if any, of the special grant of 6 lakhs allotted for school buildings will remain unexpended. I submit that no portion of the 6 lakhs grant, which has been already allotted to Local Boards for school buildings and the like, should be diverted or resumed in view of the many practical difficulties involved. The revised budgets of Local Boards have been drawn up so as to embody the grants already made: it is quite impossible to say exactly to what extent the grants will be utilised in the current year, but allotments were only made to the extent to which Presidents guaranteed that they could spend the funds. There *may* be lapses: in fact that there should be such lapses is inevitable, but a special report will be called for in Local and Municipal from all District Boards as to the expenditure incurred in the year out of the special grants, and care will be taken to see that any sums remaining unexpended are not diverted to general purposes, but are reallotted in succeeding years for the same object.

2. I would urge most strongly that all grants made to Local Bodies should possess finality at any rate within the financial year to which they relate or any attempt at budgetting will become hopeless. The Local Fund budgets are, as it is, becoming very complex.

If any resumption of such grants is to be made, I would ask that there be no readjustment or withdrawals within the year. When the final figures for 1905–1906 are definitely known, any unexpended balances can be noted, if Financial insist on it, for surrender and adjustment in 1907–1908.

3. There is no objection in future years to adopting a different method of distribution of the grant of 6 lakhs. Some portion may be kept in reserve for general needs of primary education, if necessary, but the present grants have been made for definite works, *e.g.*, school buildings, and those works *must* be carried through. In a recent letter on the Budget, India have hinted, in refusing additional aid, that the 6 lakhs grant need not be devoted solely to the objects referred to and the method of expenditure specified in their original letter making the grant.

For the current year, I would earnestly ask that no attempt at redistribution of the grant of 6 lakhs which has been already made and incorporated in the Local Fund budgets be attempted. It would not be possible to obtain *accurate* details as to the amounts likely to be surrendered, even if such sums are likely to be available while a great element of uncertainty and confusion would be introduced into the Local Fund accounts. If any such attempt at adjustment is to be made, it would be better, in future, to keep the 6 lakhs grant entirely apart, and distinct from the Local Fund budgets.

H. D. TAYLOR—15-2-06.

To the Hon'ble Mr. Forbes through Financial.

FINANCIAL DEPARTMENT.

Submitted.

The proposal in the previous office-note in this department was that the savings in the 6 lakhs grant should be utilized as a source of budget provision for the money now required by the Director of Public Instruction. The position is that 6 lakhs have been allotted to District Boards for building school-houses for primary schools; that the District Boards will not utilize this 6 lakhs fully this year; and that the Director of Public Instruction finds that the budget grants for subsidies to District Boards for primary education (apart from the grants for school-houses) will fall short of requirements by Rs. 33,000. Educational objects to the proposal made here on two main grounds:—

(i) the impossibility of framing an accurate forecast of the lapses from the special grant of 6 lakhs;

(ii) the desirability of ear-marking the 6 lakhs granted this year absolutely for buildings for primary schools.

With reference to objection (i) it is respectfully submitted that all that is required is an *approximate* forecast and seeing that only $1\frac{1}{2}$ months of the financial year have still to run, Presidents of District Boards should be in a position to give fairly approximate figures—this is all they need be asked for, by telegram.

As regards objection (ii), it is respectfully submitted that, even if portion of the 6 lakhs this year is diverted to the other needs of primary education, the allotments for buildings sanctioned this year to individual District Boards can be made up to their original amounts by further grants in subsequent years from the 6 lakhs grant. The Educational proposal virtually amounts to an enhancement of the grant for primary education this year by ·33 lakh—to be found from Provincial funds—whilst District Boards may be collectively adding to their balances this year this sum or more than this sum from the amounts placed at their disposal for primary education.

If in view of the difficulties anticipated in Educational it is decided to make the additional grant of ·33 lakh from Provincial, the amount can be found from the reserve with Financial.

Please see at **A** on page 4 of these notes.

C. M. SCHMIDT—15-2-06.

I do not see why we should not wire to Collectors and ascertain what their lapses from the 6 lakhs grant will be. If they are likely to exceed ·33 lakh, it seems to me sound to let the Director of Public Instruction have that sum from that grant.

H. BRADLEY—16-2-06.

On the whole, I think the small sum in question had best be made from the six lakhs grant as proposed in Financial and under the conditions there stated.

In most cases it will not improbably be found possible to supply the deficiency in the amount needed for results grants in any district from lapses from the six lakhs grant allotments.

G. S. F[ORBES]—17-2-06.

Send back to Educational.

H. BRADLEY—17-2-06.

EDUCATIONAL DEPARTMENT.

In another file, the Director of Public Instruction has stated that the allotments under the six lakhs grant are expected to be fully expended; so there will be no saving. He has also sent in a reappropriation statement for a portion of the amount required from other heads. Where are those two files please?

2. The following telegram will issue to all Presidents of District Boards :—

No. 9. "Wire urgently what portion of special grant for primary school buildings Rs.—, will be unexpended in current year and available for reappropriation."

H. D. TAYLOR—18-2-06.

3. The reappropriation statement submitted by the Director has gone to Financial un-officially.

P. T. THARYAN—19-2-06.

Before doing anything more the replies to the telegram may be awaited. I do not remember seeing any statement of the Director of Public Instruction that the six lakhs grant will be fully expended.

Vide file received back from Financial.
H. D. TAYLOR.

C. A. SOUTER—20-2-06

But Director of Public Instruction wants instructions so that he can order disbursement of subsidies which must be drawn without delay.

The Secretary of State cables that only a small portion of the grant for providing apparatus in colleges will be spent, and we may reappropriate from that source if Financial agree.

H. D. TAYLOR—20-2-06.

The file received back from Financial to day is placed below. It is an Local and Municipal file and Educational was not aware of it.

Out of the amount provided under 22. UNIVERSITY in the current year's *revised* estimate about Rs. 38,000 will be available for reappropriation.

P. T. THARYAN—20-2-06.

If Financial agree this will be the best plan.

C. A. SOUTER—20-2-06.

H. D. TAYLOR—21-2-06.

To the Financial Department.

FINANCIAL DEPARTMENT.

The objections taken in this department to reappropriation to the head CONTRIBUTION TO LOCAL to meet the subsidies of ·33 lakh to Local Boards are based on the fact that it is not certain that the budget provision already existing under that head will be utilized fully. If this ·33 lakh is met from the six lakhs grant, not only will there be less likelihood of lapses in that grant—which will go to swell local balances—but the Provincial grant for primary education will not be exceeded. The fact that the Educational department cannot spend ·38 lakh provided in the budget estimate for University education affords, it is submitted, no reason for increasing the grant for *primary* education—especially as Educational will look to us hereafter to replace this ·38 lakh for expenditure on University or Collegiate education. When the question assumes this phase it is purely a question of an *additional* grant. It is true that the Financial reserve will stand an extra grant of ·33 lakh but before such a grant is made it is, it is submitted, for Educational to prove that an enhancement of the existing grant is justifiable. So far as this department is concerned the budget allotment is, it is submitted, the limit to the working of the policy of paying grants in full.

C. M. SCHMIDT—22-2-06.

We may as well await the replies to the wires sent on the 19th. Can Educational show that the existing grant must be raised?

H. BRADLEY—23-2-06.

To the Educational Department.

Please put up précis of replies received up to date. Have all Presidents replied? There should be about Rs. 30,000 lapses in all, I think.

The reply of the President, District Board, Gódávari, has not yet been received. Taking all the other districts, the lapse is expected to be Rs. 35,673.

P. T. Tharyan—26-2-06.

We may take 36,000 as the amount of the balance. Vizagapatam, Kistna and Guntúr have *nil* balances and probably Gódávari will follow suit.

C. A. Souter—27-2-06.

I would take the figures rounded off to the 1,000. The following sums may then be surrendered :—

	Rs.
Anantapur	3,000
Arcot, South	4,000
Cuddapah	2,000
Ganjám	10,000
Madura	2,000
Nellore	10,000

Of this, the Director of Public Instruction proposes to transfer Rs. 1,000 to North Arcot as already advised by the Director of Public Instruction.

Rupees 33,000 will then be available for reappropriation and transfer as subsidy for payment of fixed and results grants.

Financial may be asked to issue orders, resuming Rs. 34,000, allotting Rs. 1,000 extra to North Arcot and Rs. 33,000 for subsidies.

Will Financial please say at once whether orders in Financial are necessary, or whether they may issue in Educational to the Accountant-General through Financial?

Sir,

Referring to para 2 of G.O. No. 769, Educational, dated 23rd November 1905 and the enclosed copy of my letter R. on C. No. 4258/05 dated 30th November 1905 to the President of the District Board, Anantapur communicating this G.O., I have the honour to submit a copy of his letter No. 99, dated 3rd January 1906 in which he states that Rs. 8870 will be spent in the current year on six school buildings and that it will not be possible to spend a larger amount. If he has not already made any arrangements for so doing it will be useless to propose them now. The President may therefore be considered to have surrendered Rs. 8870.

I have &c.

SIR,

In continuation of my letter R. on C. No. 4238/05 dated 17th November 1905, I have the honour to forward an extract from G.O. No. 769, Educational, dated 23rd November 1905 and to request that you will be so good as to arrange to construct as many buildings as can be built with the allotment of Rs. 12000 placed at your disposal.

2. I forward for your information a rough sketch of the Edwards Coronation school building, Hindupur which I am informed was constructed at a cost of Rs. 720 as per the enclosed estimate. You have yourself proposed a building for the Kottacheruvu school at a cost of Rs. 850. Judging from these two estimates, the opinions of my inspecting officers and the opinion expressed to Mr. Mayhew by the Rev. L.M. Marler, who, it is said, has had considerable experience of school buildings in your District, I hope it will be possible to build suitable school

houses at a cost ranging from Rs. 700 to Rs. 1000, so that between 12 and 15 15 or 20 buildings may be constructed out of the allotment Government have placed at your disposal.

Re. No. 841 of 1905

Station Madras , *Dated the* 7th February 1906.

From (Name) The Hon'ble Mr. A.G. Bourne, D.Sc., F.R.S.,

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
Local and Municipal Department.

Sir,

The system of results grants was given up in July 1905 and the grants to schools examined after that date have been provisionally allotted, in the case of old schools on the basis of the average earnings of the last three years, and in the case of new schools on the basis of the allotment to similar schools existing in the locality, in both cases subject to final confirmation at the conference of the inspecting officers to be held in February. It is now found that the amount provided in the current year's budget as subsidy to Local boards viz., Rs.186,900 is not enough to enable them to pay these grants in full and that an additional sum of Rs. 33000 is required for the purpose. The

increase

increase is due to the fact that the sum of Rs. 186900 was an under estimate being based rigidly on previous actuals and sufficient allowance was not made for the increase in the number of aided schools which the policy of paying grants in full has produced in unexpected numbers. Since March 31st 1904 the number of Lower Primary aided schools has increased from 7486 to 8406, while from March 31st 1903 to March 31st 1904 the increase was from 7444 to 7486 only. Some part of the expenditure required to meet this increase should properly be borne by Local funds but no provision was made for it in most of the sanctioned budgets and the increase must either be met from provincial subsidy or the grants paid at less than full rates. To provide for these schools I anticipate that an additional subsidy of Rs. 35000 will be required and I accordingly request that this sum may be sanctioned in addition to Rs. 1,86,900 already provided in the current year's budget.

With regard to the sources from which this amount may be met, the following are indicated

Rs. 13,800

(1) The sum of Rs. 13,800 resumed by Government in G.O. No. 694, Financial, dated 12th October 1905 from 22 Education on account of the transfer of the Vizagapatam Agency schools from Government control.

Rs. 9,500

(2) There is a sum of Rs. 9,500 under 26 S - Scientific &c. Departments - Miscellaneous- carpentry department which is not required and is available for transfer. This will be formally surrendered shortly.

Rs. 5,500

(3) From the Miscellaneous (carpet-weaving, metal works, &c.) departments of the School of Arts, a sum of Rs. 11,000 was resumed by Government in G.O. No. 722 Financial, dated 27th October 1905 and out of this a sum of Rs. 5,355 has been allotted for "Pumping experiments". The balance about Rs. 5,500 does not appear to have been allotted for any other purpose.

Rs. 5,000

(4) Under 24 F - Medical College and Schools there is likely to be a saving of about Rs. 5,000. This will be formally surrendered shortly.

Rs. 33,800

If the above sums are regarded as available the proposed increase can be fully met. If the grant of Rs. 45,000 to the University provided in my revised estimate is to be paid in the current year, the expenditure under 22 - Education is likely to exceed the budget estimate and I shall be under the necessity of applying for an additional allotment to meet the expenditure. I am not however in a position to say whether the instruments the cost of which this grant was intended to meet will be delivered in India in sufficient time to allow of payment being made in the current year. If it is not paid I anticipate savings under 22 Education — to the extent of Rs. 11000 only; so that in either case the increased expenditure proposed cannot be met from 22 - Education.

2. If the additional sum of Rs. 55000 applied for is sanctioned, I request that the subsidy for the current year may be distributed among the districts as shown in the appended list in lieu of the amounts for which credit has been taken in the sanctioned budgets of the District boards for the current year. No subsidy is proposed to be given on account of results stipends. The inspecting officers will be instructed to distribute the amount for each district among the several taluk boards according to their requirements and to advise the Presidents of District Boards concerned of the same so that the amounts may be drawn from the treasuries as soon as the sanction of Government is received.

The amount of subsidy sanctioned for 1904-05 is also given in the list referred to above for purposes of comparison. On account of the territorial changes in the districts of Godavari, Kistna, Guntur and Nellore it is not possible to compare the figures proposed for the current year with those sanctioned for 1904-05 for the individual districts, but the totals for the four districts taken together show a close agreement; with regard to

most

most of the others there is a fair agreement except in the case of Ganjam, Vizagapatam and Malabar. In the case of Ganjam and Vizagapatam the increase is due to the aiding of 250 and 150 additional schools respectively. The actual amount of subsidy for fixed and results grants paid to Malabar district in 1904-05 was about Rs. 15600 so that the variation between the last year's figure and that proposed for the current year is not so great as it appears.

3. As the conference of the inspecting officers for the final assignment of annual grants and the issue of grant in aid bills is to be held about the middle of February, I request that this letter may be treated as urgent and that very early orders may be passed. I request also that the Accountant General may be authorized, as usual, to obtain after the close of the official year a statement showing the total payments under the head "fixed and results grants" and the budget allotments for the purpose from the local fund boards and to call for the refund, if any, of the subsidy drawn in excess of the payments and to advise me of the same.

I have the honour to be,

Sir,

Your most obedient servant,

E.C. Middlemast

† G.O. no. 769 Edl. dated 23rd November 1906.

I wired instructions to D.P.I. by telephone as soon as I got the letter. I have since seen him. He was under impression that the money, if not expended in the current year would lapse to Provincial, & that his credit was at stake to prevent such lapse. It is hopeless to expect that the allotment for each D^t will be exactly & completely expended. A statement of actual expenditure will be called for at the end of the current year, & steps will be taken to see that the money is reallotted for the purpose for which it was granted.

but the money was finally allotted to the D^ts and not lapsed to the D.B. Balance

The L.2. Budget are now going in & the figures must possess some finality. Hence any transfers from one District to another at this late stage likely to cause us considerable difficulties.

In the present case the D.P.I. Penticton may be informed that the transfer will be cancelled.

Submitted that there is no provision in the Revised Estimate for the re-organization of Training Schools - please see note (2) on page 136 CBR (preliminary issue).

2. Submitted that items (2) & (4) on page 2 of the D.P.I's letter are still under the Director's control - G.O. No 6044 Fin. dt 24th September 1905. The amounts available under these is Rs (9500 + 5000) or 14500.

C. From the provision under Rx. 7 - Medical College & Schools - Rs 3300 has already been resumed - G.O. No 387 Fin. dt 26th May 1905 and No 578 Fin. dt 4th September 1905. It is presumed that the Rs 5000 which the Director is now going to surrender is an additional amount.

E + F.

3. Excluding the two items mentioned, a further sum of Rs 18,500 is now required by the Director and the whole of this amount will have to be found by Financial. As stated in the note on page 9 of the notes in the linked file the amount now remaining in the Edl budget for 1905-06 after deducting resumptions is 23.62 and this is the amount of the revised Estimate as prepared by the Ag. Reappropriation from any of the minor heads under Rx - Education is then possible.

4. The first thing to be done is however to get a re-appropriation statet from the Director. The whole file may then go to Fin and on the re-appropriation being sanctioned or promised the distribution of the subsidy proposed by the Director may be sanctioned in Edl.

I dont quite follow. What obligation is there on Financial to find Rs 33,000 for the D.P.I. for subsidy to local boards? The fact that sums placed in the Edl. budget for totally different objects must utilized for such objects has been ~~mooted~~ accepted to rule does not validate such a claim. Page 215, CBR (Public) for 1906-07

The D.P.I. reports that the amount provided in the budget for the current year (on account of Education) as subsidy to Local Boards, viz Rs. 1,86,900 is not enough to enable them to pay the grants to schools in full as this provision was an underestimate based rigidly on previous actuals and no sufficient allowance was not made for the increase in the number of aided schools which the policy of paying grants in full has produced in unexpected numbers. He adds: "some part of the expenditure required to meet this increase should properly be borne by Local funds but no provision "was made for it in most of the sanctioned "budgets and the increase must "(a) either be met from Provincial subsidy "or (b) the grants paid at less than full "rates." The Director recommends the first alternative and requests that an additional of Rs. 33,000 may be sanctioned under the head Contributions from Prov. to local funds - To local Funds (Act V of 1879) - "Provision for subsidy to local Boards on acct. of education".

2 It is submitted that the absence of budget provision in the local Boards' budget does not justify the transfer to Provincial funds of the charges to be legitimately borne

borne by Local funds. The amount can be appropriated from the budget grants for services other than "Education" in the Local Section.

Attention is also solicited to the Hon'ble Mr. Forbes' marginal note of page 4 of the Budget notes for 1906-07 under 22. Education in which he remarked:—

"We . . . must take care that local bodies do their duty and do not take advantage of the subsidy . . . . . ".

3. If it is found that local boards cannot pay more than what has already been provided for in the budget, the additional sum of Rs. 33,000 required should apparently be met from Provincial funds if the grants are to be paid in full. Orders are solicited.

4. In regard to the four items pointed out by the D.P.I. from which the allotment (Rs 33,000) can be met, it is submitted that items (1) — Rs. 13,000 — and (3) — Rs. 11,000 — have already been resumed by Govt. The Director has been asked to surrender the amounts (aggregating Rs. 14,500) suggested by him under the heads 26 S. Scientific & Depts — Miscellaneous — Carpentry Dept & 24 E. Medical Colleges + Schools. The balance required viz (Rs. 33,000 − 14,500 = Rs. 18,500 can be found from the Director with 'Financial'.

In another connection I am sent over a file in which they express doubt as to whether the whole of the 6 Lakhs special grant for primary education will be utilized this year. This grant has been transferred to the same head as that which it is proposed to increase - viz "Contributions from Provl to Local - for Educational Grants in-Aid" - These contributions are all for primary education & the proper course seems to be to divert portion of the anticipated saving in the 6 lakhs grant to these grants in-aid which the D.P.I cannot meet - If we were to make an addl grant from Provincial we would merely be swelling the allotment under Local expendre heads when it is known that there will be savings

It is quite impossible to form any accurate forecast as to what portion, if any, of the special grant of 6 lakhs allotted for school buildings will remain unexpended. I submit that no portion of the 6 lakh grant, which has been already allotted to Local Boards for School Buildings and the like, should be diverted or resumed in view of the many practical difficulties involved. The revised Budget of Local Bs have so been drawn up so as to embody the grants already made: it is quite impossible to say exactly to what extent the grant will be utilised in the current year, but allotments were only made to the extent to which Presidents guaranteed that they could spend the funds. There may be lapses: in fact that there should be some lapse is inevitable, but a special report will be called for from all D.Bs as to the expenditure incurred in the year out of the special grants, and care will be taken to see that any sums remaining unexpended are not diverted to general purposes, but are reallotted in succeeding years for the same object.

13 P

2 I would urge most strongly that all grant made to Local Bodies should powers of finality at any rate within the financial year to which they relate - a any attempt at budgetting will become hopeless. The L.G. Budgets are as it is becoming very Complex

If any resumption of such grant is to be made, I would ask that there be no readjustment or withdrawals within the year. ~~Any~~ When the final figures definite, for 1905-6 are known, any suspended balances can be noted, if financial visit or ch, for surrender, ~~in~~ adjustment in 1907-8 -

3. There is no objection in future years to adopting a different method. ~~of~~ distribution of the grant of 6 lakhs. Some portion may be kept in reserve for general need of Primary Education of necessity but the present grant have been made for definite work, eg. School buildings and these works must be carried through. In a recent letter on the Budget Board have hinted ~~that~~ in refusing addl aid, that the 6 lakh grant need not be devoted solely to the objects referred to and the ~~method~~ of expenditure specified in

Clear

their original letter making the grant.

In the current year, I would comment that no attempt at redistribution of the grant of 6 lakhs which has been already made and incorporated in the L.T. Budget, be attempted. It would not be possible to obtain accurate details as to the amounts likely to be surrendered, even if such sums are likely to be available while a great element of uncertainty and confusion would be introduced into the L.T. Accounts. If any such attempt at adjustment is to be made, it would be better in future to keep the 6 lakh grant entirely apart, and distinct from the L.T Budget

The proposal in the previous office note in this dept was that the savings in the 6 lakhs grant should be utilized as a source of budget provision for the money now required by the D.P.I. The position is that 6 lakhs

have been allotted to dist boards for building school houses for primary schools; that the dist boards will not utilise this 6 lakhs this year fully; and that they the D.P.I. finds that the budget grants for subsidies to dist boards for primary edn (apart from the grants for school houses) will fall short of requirements by Rs 33,000/- Govt objects to the proposal made here on two main grounds:-

(i) the impossibility of framing an accurate forecast of the lapses from the special grant of 6 lakhs;

(ii) the desirability of ear-marking the 6 lakhs granted this year absolutely for buildings in primary schools.

With reference to objection (i) it is respectfully sub? that all that is required is an approximate forecast & seeing that only 1½ months of the financial year have still to run, Presidency dist: boards should be in a position to give fairly approximate figures. This is all they need be asked for, by telegram.

As regards objection (ii) it is respectfully sub?. that even if portion of the 6 lakhs this year is diverted to the other needs of primary education - the original allotment for buildings this year to individual dist boards can be

made up to their original amounts by further grants in subsequent years from the 6 lakhs grant. The Edl proposal virtually amounts to an enhancement of the grant for primary Education this year by .33 lakhs - to be found from Provincial funds - whilst District boards collectively may be adding to their balances this year this sum or more than this sum from the amounts placed at their disposal for primary Education

If in view of the difficulties anticipated in Edl it is decided to make the add. grant of .33 lakhs from Revl. the amount can be found from the reserve with Financial

Chief Secretary

The objections taken in this Dept. to reappropriation to the head Contributions to Local to meet the subsidies to local boards are based on this fact that it is not certain that the budget provision already existing under that head will be utilized fully. ~~The first [illegible]~~ If this '33 lakhs is met from the 6 lakhs grant not only will there be less likelihood of lapses in that grant but which will go to swell local balances but the Provincial grant for primary education will not be exceeded. The fact

that the Educational Department cannot spend .38 lakh provided in the B.E. for University Education affords it is submitted, no reason for increasing the grant for primary education - especially as Educational will look to us hereafter to replace this .38 lakh for expenditure on University or Collegiate Education. When the question assumes this phase it is purely a question of an additional grant. It is true that the Financial reserve will stand an extra grant of .33 lakh but before such a grant is made it is, it is submitted, for Educational to prove that an enhancement of the existing grant is justifiable. So far as this department is concerned the budget allotment is, it is submitted, the limit to the working of the policy of paying grants in full.

Please see Col. 9 of the reappropriation Statement at page 3 of C/F.

The file in connection with which the reappropriation Statement now submitted by the Director was called for was forwarded up to Financial on the 10th instant. It has not yet come back from that Department.

2. In his letter no. 983 dated 7th February 1906 and no. 9822 dated the 5th February 1906, the Director has proposed to surrender the savings of Rs 9,500 under 26 S. Scientific &c. Departments - Miscellaneous - Carpentry Department, and of Rs. 5,000 under 24 E. - Medical - Medical Schools and College, which he now proposes to transfer to Adjusting heads for additional Subsidy to Local Boards. Pending receipt of the present Communication the Director's letters were forwarded to the Financial Department on the 15th instant. The Director however stated in his letters quoted above that he would address Govt. separately to transfer these savings to Adjusting heads for meeting the additional expenditure in connection with the payment of subsidy to local Boards. Even if these transfers are acceptable, a further sum of Rs. 18,500 will be required. The reappropriation Statement may be forwarded to Financial for necessary action.
