Grant.

Specifying, with remarks, the objects to which the six lakhs — for the current year will be devoted and requesting the Director of Public Instruction to revise accordingly his proposals for the distribution of the grant.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—the following paper :—

Letter—from the Hon'ble Mr. A. G. Bourne, D.Sc., F.R.S., Director of Public Instruction.
To—the Secretary to Government, Local and Municipal department.
Dated—Madras, the 14th April 1906.
No.—Cur. 2777.

In compliance with G.O., No. 41 L., Mis., dated 12th January 1906, I have the honour to submit proposals for the distribution of 6 lakhs among the District Boards.

2. I regret that it has been impossible to do so at an earlier date and that even now the information which I have received from the Presidents of District Boards on the one hand and from the inspecting officers on the other as to the school buildings which were actually erected during the year ending 31st March last presents discrepancies. The greater portion of the work was actually carried out during the last few weeks of the year and there are apparently many cases in which proposals were abandoned at the eleventh hour and others in which buildings were determined upon and erected without the inspecting officers being consulted. This was doubtless necessary in order to avoid a lapse, and as there are so many places where school buildings are required the fact is of no importance except that in consequence of it my proposals for the current year must for the present be a little vague. The difficulty presents itself in this way, viz., that when buildings have been erected funds must be made available for maintenance while the balance only of the allotment will be available for new buildings. If however an allotment for the combined objects be now made, the distribution between them can be effected later, since the exact amount available for new buildings will be known in the course of a few weeks.

3. There is this further difficulty in apportioning the allotment in the case of each district that I have not submitted any proposals in regard to the maintenance of the new schools. This matter has been lying over pending the approval of Government to the new Grant-in-aid Code.

4. I assume that all the new buildings will be occupied by schools unde
management. I leave out of the calculation all those villages where there is at
a Board school, the maintenance of which can be met from the ordinary budge
sion and assume that the Boards cannot at present add to their expe
therefore provide all the funds required. I calculate for an average mon
the teachers of Rs. 8 and a yearly capitation allowance of Rupee 1 on ac
pupil and estimate the whole at Rs. 10 a month. For most of the schools
will suffice, the cost of any extra teachers required may be met from savings
head of grants as in some places the existing aided school will be taken over.
do more now than take a rough estimate of Rs. 120 a year for teaching staff.
for each school Rs. 80 for a compound wall or fence and a well and Rs. 75 for
ture and Rs. 25 for contingencies.

5. According to my present information there are about 780 new buildings excluding those built for existing Board schools and, according to the above calculations Rs. 2,34,000 will be absorbed by these schools leaving Rs. 3,66,000 for more new buildings.

2

6. In order to propose a suitable distribution of this amount I have had lists made of all the more important villages in each district which still lack schools and in which schools are likely to flourish. The cost of construction of these has been stimated as follows :—

	RS.
Ganjám	48,230
Vizagapatam	38,700
Koraput	(estimate awaited)
Gódávari	29,200
Kistna	39,950
Guntúr	50,000
Nellore	20,350
Bellary	49,600
Anantapur	17,000
Cuddapah	37,940
Kurnool	22,400
North Arcot	65,150
Chingleput	23,100
South Arcot	54,700
Tanjore	37,900
Trichinopoly	24,300
Madura	1,14,230
Tinnevelly	28,900
Coimbatore	21,250
The Nilgiris	...
Salem	46,300
Malabar	68,500
South Canara	38,400
Total	8,76,100

7. This gives a total of Rs. 8,76,100 and furnishes some idea of the proportionate equirements of each district.

There are however several other considerations; there is a number of existing Board schools still in urgent need of buildings of their own; it is impossible in some districts to get more than a certain amount of building work done in the year; and I have been instructed to propose proportionally larger amounts to the districts which had small amounts last year. Taking all these factors into consideration I propose that e following provisional allotments be made :—

Districts.	For schools opened in April 1906. (*a*) Establishment. (*b*) Equipment.	For buildings to be erected or completed in 1906–1907.
	RS.	RS.
Ganjám	20,700	17,000
Vizagapatam	22,500	16,000
Koraput	...	10,000
Gódávari	7,500	13,000
Kistna	18,600	16,000
Guntúr	6,300	18,000
Nellore	4,800	13,000
Bellary	9,300	20,000
Anantapur	300	10,000
Cuddapah	12,600	16,000
Kurnool	3,900	10,000
North Arcot	13,800	22,000
Chingleput	10,800	10,000
South Arcot	5,400	20,000
Tanjore	23,100	16,000
Trichinopoly	19,800	10,000
Madura	10,800	34,000
Tinnevelly	10,500	16,000
Coimbatore	14,100	10,000
The Nilgiris	...	10,000
Salem	15,900	18,000
Malabar	2,700	25,000
South Canara	600	16,000
Total	2,34,000	3,66,000

8. I have under consideration the feasibility of training another set of teachers from July onwards: if this can be done and the scheme is approved, the Board may contribute from savings to defray the cost of stipends.

Order—No. 304, Educational, dated 1st May 1906.

The Director's reply to G.O., No. 33, Educational, dated 19th January 1906, should be submitted at an early date.

2. Any unexpended balances of the special grant for 1905–1906 will have lapsed to the District Boards concerned and will be available for re-allotment only in 1907–1908. Steps are being taken to arrange for such re-allotment.

3. The six lakhs grant for the current year will be devoted to the following special objects:—

(*a*) Construction of buildings—

(i) for primary schools to be newly established in places where there are n such schools at present.

(ii) for existing primary schools for which there are no proper buildings.

(iii) for primary schools the construction of which was commenced i 1905–1906 but left incomplete at the end of the year.

(*b*) Furnishing and equipment of schools newly constructed.

(*c*) Payment of salaries of masters and servants, if any, employed in new schools, and contingent charges of such schools.

(*d*) Grant to Local Boards for maintenance of existing schools, which for want of funds the Boards would otherwise be unable to keep up and which it is desirable t maintain.

4. The Director will be requested to revise his proposals accordingly at a very early date. In submitting these revised proposals details should be furnished under each of the heads mentioned.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction.
,, Local and Municipal department.
,, Financial department.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 304, EDUCATIONAL, DATED 1st MAY 1906.

[SUBJECT.—*Proposals for the distribution among the District Boards of the grant of six lakhs for education for* 1906-07.]

From the Director of Public Instruction, dated 14th April 1906, *No.* 2777.

LOCAL AND MUNICIPAL DEPARTMENT.

The six lakhs recurring grant for education made by the Government of India is at the disposal of the Educational Department who have to pass orders as to the distribution of the amount. It is therefore submitted that the current letter from the Director of Public Instruction may be transferred un-officially to the Educational Department.

N. CHENGAL RAO—20-4-06.

V. RAGHAVA CHARLU—20-4-06.
H. D. TAYLOR—23-4-06.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

Have we full details as to the cost of completing incomplete works of last year, of providing them with furniture and masters.

There are one or two District Boards (Kurnool, Cuddapah and Rajahmundry) in which proposals for abolition of primary schools in the absence of subsidy have been put forward.

H. D. TAYLOR—23-4-06.

Submitted that we have no details as yet of the actual expenditure from the six lakhs grant or of the amounts required for incomplete works or for the equipment of the schools already constructed. We have called for the information in G.O., No. 33, Educational, dated 19th January 1906. No reply has been received as yet to this G.O.

2. The amounts required for schools opened in April 1906, and shown in paragraph 7 of the Director's present letter may perhaps be disbursed at once. The disbursement of the amount required for buildings to be erected in 1906–1907 may await the reply to G.O., No. 33, Educational, dated 19th January 1906.

3. Now that the Government of India have cut down the Educational grant, a question arises whether a portion of the six lakhs grant should be utilized in paying the subsidy. The object of this grant is "increased expenditure on buildings and outlay incurred through the Agency of Local Boards in connection with primary education". The latter is also the object of the subsidy. In their letter with G.O., No. 125, Financial, dated 11th February 1906, the Government of India gave the payment of the six lakhs as a ground against any further increase in the Educational assignment.

G.O., No. 282, Educational, dated 2nd May 1905.

P. T. THARYAN—24-4-06.

C. A. SOUTER—24-4-06.

The Director of Public Instruction may be asked to reply at an early date to G.O., No. 33, Educational, dated 19th January 1906. Any unexpended balances of the special grant will have lapsed to the District Boards and will be available for reallotment only in 1907–1908. This is being watched in the Local and Municipal Department where a statement of lapsed grant for each district is being separately called for.

2. I do not think that any portion of the *six lakhs* grant should be utilised for subsidy for payment of grant. This properly belongs to the eight lakhs grant. If owing to the reduction of our allotment we find that expenditure is likely to exceed the budget, it will be necessary to apply for an additional allotment later on.

3. The six lakhs grant should be devoted to the following special objects :—

(*a*) Construction of new buildings—

(i) For schools non-existent.

(ii) For existing schools for which there are no proper buildings.

(*b*) Furnishing and equipment of schools newly constructed.

(*c*) Payment of salaries of masters and establishments employed in new schools.

(*d*) Grant to Local Boards for maintenance of existing schools, which, for want of funds, the Local Boards would otherwise be unable to keep up and which it is desirable to maintain (*cf.* Rajahmundry, Cuddapah and Kurnool).

In sending in revised proposals for the distribution of the six lakhs, the Director of Public Instruction may be asked to furnish details of proposed distribution under each of the above heads.

H. D. Taylor—25-4-06.

The draft placed below is submitted for approval.

2. Should Financial see it before issue?

3. Should not something be done for the incomplete works of 1905–1906? The work already done on them may be lost if they have to wait till 1907–1908.

P. T. Tharyan—25-4-06.

Perhaps a sub-section (iii) might be added to (*a*), viz., "(iii) for primary schools begun to be built in 1905–1906, but left incomplete at the end of the year."

C. A. Souter—26-4-06.

Yes. I intended to include this as a separate head; it may go in as (*a*) (iii) as suggested.

H. D. Taylor—27-4-06.

Please see addition now made to the draft. May the draft as thus altered issue?

P. T. Tharyan—27-4-06.

C. A. Souter—30-4-06.

Issue sharp please.

H. D. Taylor—1-5-06.

Cur. No. 2777 of 1906

Station Madras, *Dated the* 14th April 1906.

From (Name) The Hon'ble Mr. A.G. Bourne, D.Sc., I.E.S.,

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
Local and Municipal Department.

Sir,

In compliance with G.O. No. 41 L.Mis., dated 12th January 1906, I have the honour to submit proposals for the distribution of 6 lakhs among the District Boards.

2. I regret that it has been impossible to do so at an earlier date and that even now the information which I have received from the Presidents of District Boards on the one hand and from the inspecting officers on the other as to the school buildings which were actually erected during the year ending 31st March last presents discrepancies. The greater portion of the work was actually carried out during the last few weeks of the year and there are apparently many cases in which proposals were abandoned at the eleventh hour and others in which buildings

were

1914

2

were determined upon and erected without the inspecting officers being consulted. This was doubtless necessary in order to avoid a lapse, and as there are so many places where school buildings are required the fact is of no importance except that in consequence of it my proposals for the current year must for the present be a little vague. The difficulty presents itself in this way viz., that when buildings have been erected funds must be made available for maintenance while the balance only of the allotment will be available for new buildings. If however an allotment for the combined objects be now made the distribution between them can be effected later, since the exact amount available for new buildings will be known in the course of a few weeks.

3 There is this further difficulty in apportioning the allotment in the case of each district that I have not submitted any proposals in regard to the maintenance of the new schools. This matter has been lying over pending the approval of Government to the new Grant-in-aid Code.

4. I assume that all the new buildings will be occupied by schools under Board management. I leave out of the calculation all those villages where there is at present a Board School the maintenance of which can be met from the ordinary budget provision and assume that the Boards cannot at present add to their expenditure and I therefore provide all the funds required. I calculate for an average monthly salary for the teachers of ₨. 8 and a yearly capitation allowance of Re. 1 on account of each pupil and estimate the whole at ₨. 10 a month. For most of the schools one teacher will suffice, the cost of any extra teachers required may be met from savings under the head of grants as in some places the existing aided school will be taken over. I cannot do more now than take a rough estimate of ₨. 120 a year for teaching staff. I allow for each school ₨. 30 for a compound wall or fence and a well and ₨. 75 for furniture and ₨. 25 for contingencies.

According

(a) construction of buildings

(i) for primary schools to be newly established in places where there are no such schools at present 13

(ii) for existing primary schools for which there are no proper buildings

(iii) for primary schools ~~begun to be built in~~ the completion of which was commenced in 1905-06 but left incomplete at the end of the year.

(b) Furnishing and equipment of schools newly constructed

(c) Payment of salaries of masters and servants, if any, employed in new schools, and contingent charges of such schools

(d) Grant to Local Boards for maintenance of existing schools, which for want of funds the Boards would otherwise be unable to keep up and which it is desirable to maintain.

4. The Director will be requested to revise his proposals accordingly at an early date. In submitting these revised proposals details should be furnished under each of the heads mentioned.
