Copy of letter from the President, District Board, Malabar, Ref. C. No.1591, dated 6th March 1906.

The Director of Public Instruction in his Proceedings No.7055/ dated 2nd November 1905 suggested the desirability of taking credit in the next year's budgets of all District Boards in the Presidency for allotments out of the recurring grant of six lakhs sufficient to provide for all developments in connection with the extension of elementary education. As the Proceedings was received too late to admit of the amount required for the District being provided in the budget for 1906-1907, I have the honour to request that Government will be pleased to sanction an allotment of Rs.35,000 for this District, out of the six lakhs for next year.

Endorsement of the Director of Public Instruction, N. Dis. on C. No.1677, dated 20th March 1906.

Submitted to Government.

2. Proposals for the distribution of the special grant of 6 lakhs for 1906-1907 will be submitted shortly.

Copy of letter from the Director of Public Instruction Ref. on C. No.2346, dated 2nd April 1906.

With reference to memorandum No.804, Local and Municipal dated 27th March 1906, I have the honour to submit a copy of this office Proceedings Dis.No.7055 of 05, dated 2nd November 1905.

Dis. No. 7055 of 1905.

Proceedings of The Director of Public Instruction, dated 2nd November 1905.

Read the following letter from E.L. Vaughan, Esq., I. C. S., President, District Board, Cuddapah, to the Director of Public Instruction, Madras, dated 22nd October 1905, Ref. on C. No. 53- Government:-

A large number of school buildings are under construction in this district as elsewhere in the Presidency with the special grant made by Government for the purpose and a similar recurring grant was promised for next year.

2. I have the honour to request that you will be good enough to inform me whether provision in the next year's budget should be made for construction of new buildings or for improving the old Board buildings wherever they exist. In either of these cases, a question arises as to how the buildings in places where there are no schools at present should be utilized next year. The Boards in this district can neither pay for school masters nor equip the schools with furniture, &c., nor without assistance can they keep them in proper order.

3. I think we should make provision for establishment, furniture, books and general maintenance of these new schools in the ensuing year's budget.

4. As the budget is under preparation, I request you will please give instructions at a very early date.

From the Hon'ble Mr. A. G. Bourne, D.Sc., F.R.S., Director of Public Instruction, Madras, to the President, District Board, Cuddapah, dated 2nd November 1905, Dis. No. 7055.

With reference to your letter, Ref. on C. No. 53- Government., dated 22nd October 1905, I have the honour to state that it is desirable that local boards should take credit in their budget

proposals

proposals for an allotment out of the recurring grant of six lakhs sufficient to provide for all developments in connection with the extension of elementary education, whether in the way of building new school-houses, of improving existing ones, or of providing for the establishment, the few articles of furniture which are essential, and the general maintenance of the new schools now under construction.

Provision should be made in the budgets for the corresponding expenditure which should be distinguished from the expenditure proposed for existing primary schools

C. No.1202 L., from the D.P.I., No.2346, d/2-4-1906.

The Director of Public Instruction has submitted a copy of his Proceedings Dis. No.7055 of 1905.

2. On a reference from the President, District Board, Cuddapah, the Director of Public Instruction stated, in his Proceedings, that it was "desirable "that Local Boards should take credit in their "budget proposals for an allotment out of the "recurring grant of six lakhs sufficient to pro-"vide for all developments in connection with

the

"the extension of elementary education, whether in "the way of building new school houses, of improving existing ones, or of providing for the establishment, the few articles of furniture which "are essential, and the general maintenance of the "new schools now under construction" and that "provision should be made in the budgets for the "corresponding expenditure which should be distinguished from the expenditure proposed for "existing primary schools."

Page 55-56 of file below.

3. In their Order No.33 Edl., dated 19th January 1906, the Government sanctioned the Director's proposal to utilize in the construction of buildings the balance of the special grant of six lakhs for 1906-07 that will be left after providing for the equipment and maintenance of the schools newly brought into existence and requested the Director to submit detailed proposals for the provision of funds required for these schools.

4. It is understood that these proposals have not been received; no distribution of the six lakhs grant has therefore been sanctioned.

5. It is submitted that the President may be informed that separate orders will issue in regard to the distribution of the six lakhs grant.

Yes - but Educational should see. It is undesirable that D.P.I. should suggest to District Boards that provision may be made in their Budgets for special grants. This is likely to lead to complications and also to extravagance on the part of District Boards which have to be specially restrained in this respect.

The D.P.I. can of course call for any information or statistics from Presidents that he himself may

require, but any proposals for distribution or allotment should come through Government.

Last year D.P.I. was specially permitted a latitude in his correspondence and action for fear that the grants might lapse. There is no need for this in the current year.
