G.O., No. 353, 19th May 1906.

Government Training College, Rajahmundry.

Recording the Proceedings of the Director of Public Instruction reviewing the report on the working of the — during the year 1905.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper :—

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—the 14th May 1906.

No.—Cur. No. 3748.

I have the honour to submit, for the information of Government, a copy of my Proceedings Dis. No. 3125, dated 11th May 1906, reviewing the report on the working of the Government Training College, Rajahmundry, for the year 1905.

ENCLOSURE.

Proceedings of the Director of Public Instruction, Dis. No. 3125, dated 11th May 1906.

Read—the following paper :—

Letter—from MARK HUNTER, Esq., M.A., Principal, Training College, Rajahmundry.

To—the Director of Public Instruction, Madras.

Dated—the 23rd March 1906.

No.—D. 43.

I have the honour to submit my report on the working of the Rajahmundry Training College during the year 1905.

2. *Staff and distribution of work.*—I was on furlough during the first-half of the year. Mr. Allen was in charge of the College from January 14th to May 1st. M.R. Ry. T. V. Subbarao Pantulu, B.A., retired from the public service on September 25th, vacating the post of Vice-Principal which he had filled with credit ever since the Training College was instituted. M.R. Ry. M. Venkata Ratnam was appointed to succeed him and took charge in October. Other changes in the *personnel* of the staff are shown in appendix A.

3. *Accommodation.*—During the year the College buildings have been considerably extended but the rooms are not yet ready for use. Accommodation is accordingly inadequate. I have submitted a separate report on the question (amongst other things) of buildings for a hostel and primary practising classes.

4. *Furniture and apparatus.*—During the year under report, single desks for the students under training, chairs for masters and an iron-safe were purchased from the annual grant for furniture.

An orrery, a mechanical globe and a selenotrope were purchased, and a sum of money was sanctioned for purchasing a selection of magic lantern slides.

An indent for physical and chemical apparatus and chemicals was submitted.

5. *Strength and attendance*—(i) *Training section*—Appendix B (i).—In the second term 46 normal students, destined for rural schools, joined the College. Excluding this special class, the strength of the Training section was practically the same in 1905 as in the previous year.

Appendix B (ii).—The large increase in the number of Brahman students was due to the admission of rural students. I may observe that these students were selected by the Inspecting officers and not by the Principal. There was a considerable falling off in the number of Christian students, while the number of non-Brahman Hindus slightly increased. As considerations other than those of race and religion necessarily influence selection, fluctuation such as is shown in Appendix B (ii) is to be expected.

Appendix B (iii).—All the Telugu districts were fairly represented. The higher figures in the Gódvári and Kistna columns are again due to the rural class.

Twenty-eight students under training were Local Fund or Municipal stipendiaries.

(ii) *Practising section*—Appendix C (i).—There was some increase in the strength of the Upper Secondary and a very noticeable falling off in the Lower Secondary classes. Consequently the total strength was slightly lower than in the previous year.

The fall in the Lower Secondary department is undoubtedly due to the rivalry of certain Lower Secondary schools in the town, which admit pupils at reduced rates. On this subject, I have already submitted a letter from the Vice-Principal.

Appendix C (ii).—The figures in the table call for no remark.

Appendix C (iii).—The fall in number in the lower classes is noticeable and is undoubtedly due to the circumstances just referred to. On this subject the Vice-Principal reports “the large decrease in the poorer classes is probably due to the high rates of fees charged here. In the Practising department of the Teachers' College, Saidapet, fees lower than the standard rates are being levied, while we actually levy higher fees than the standard rates. To enable the poorer classes to avail themselves of the education given here, I propose to address you in a separate communication on the subject of a reasonable reduction in the rates in accordance with the Educational Rules.” I should myself be most unwilling to recommend any general reduction of fees. The present rules provide for the admission of a certain number of poor pupils at reduced rates.

Appendix C (iv).—The lower figure in the first column (officials) is no doubt due to the transfer of certain important offices from this station, and the removal of a certain number of vakils from the town as a consequence of the recent redistribution of districts. The figures in the remaining columns appear to be without significance.

6. *Selection of normal students for 1906.*—The selection of students in the three higher grades was made, as usual, with a view to secure adequate representation of the different districts and managing agencies. Of the students selected, all those of the Upper Secondary grade and the majority of those of the Collegiate grades, have appointments to return to. The selection to the two lower grades was made almost entirely on the results of a competitive examination in arithmetic and composition in Vernacular.

7. *Results of examinations*—(i) *Training section*—Appendix E (i).—The results of the examination for the Degree of Licentiate in Teaching were distinctly good and far better than those in the previous year.

The results of the examinations for Teachers' Certificates have not yet been published. They will be submitted in a supplementary report so soon as they are received.

In Appendix E (ii) and in the corresponding table for the Practising section, I have this year omitted the column for “lecturers responsible”. The column in question, in my opinion, suggests inferences and comparisons, which are frequently, perhaps generally, the reverse of fair.

(ii) *Practising section*—Appendix F (i), (ii) and (iii).—The results in the Matriculation examination were very bad indeed in this as in most other schools. Our percentage of success is, however, higher than the percentage for the whole Presidency, and it may further be remarked that very few pupils of the sixth form were debarred from appearing for the examination. Indeed the results of the school examinations would in no way have warranted such prohibition. It follows that either the members of the staff concerned failed in a remarkable degree to gauge correctly the qualifications of their pupils, or else the University examination was unduly strict. I know of no circumstances favouring the latter supposition and several which render it highly improbable.

Appendix F (ii).—English is this year responsible for the greatest number of failures but “general knowledge” is a formidable rival for this bad eminence. I doubt not that the ultimate causes of failure in both subjects are identical—insufficient knowledge of English which leads inevitably to fatal methods of study and instruction. The Vice-Principal is making efforts to improve the quality of the instruction given in the Practising school.

Promotions in the Practising school were made, as usual, on the results of the annual examination.

8. *Library—Appendix D (i) and (ii).*—Two hundred and nine volumes were added to the library during the year, mainly educational works and general literature.

A very much better use was made of the library by members of the staff and students under training than in the previous year.

9. *Physical training.*—Students under training and pupils of the Practising school were drilled as usual.

Towards the close of the year under review, the gymnastic apparatus belonging to the old Normal school was repaired at a small cost and put up. The pupils of the Practising school are made to practise simple exercises on them at least once a week.

Early in the present year, arrangements were made for the institution of foot-ball, cricket, tennis and badminton clubs, and the boys seem to take very kindly to these games.

10. *College societies.*—The Teachers' association and the Metcalfe junior union have done fairly good work during the year.

11. In accordance with your Circular Proceedings, Cur. No. 4389, dated 12th May 1905, a special class, for the training of students for employment as teachers in rural parts, was formed early in August last with 46 students on the rolls, drawn from the 13 ranges of the Gódvári-Kistna division. Of these one left the college on account of continued illness and another died of fever in January last. Seven of these have passed the Lower Secondary examination and the rest the Primary examination. The course of instruction imparted was in accordance with the syllabus approved by you in Proceedings, Ref. on C. No. 4267, dated 27th November 1905. The students appear to have much benefited by the course.

12. *School garden.*—All the students under training received instruction in elementary botany, horticulture, zoology and practical gardening. Specimens of crops, flowers, fruits, and economic plants are grown in the garden and a sum of Rs. 25 was realised from the sale of vegetables.

The Lower Secondary and the rural grade teachers were taken on school journeys to the local museum, Kadium gardens and the sugarcane farm and factory at Samalkot.

13. *Scholarships—Appendix G (i).*—The scholarships recommended for the last four pupils have not yet been sanctioned.

14. *Finances—Appendix G (ii).*—The total net cost to Government for the maintenance of the college was Rs. 15,130-10-10 against Rs. 12,495 of the previous year and the cost of training each normal student was Rs. 101-8-9 as against Rs. 122-8-0 of last year.

As noticed in the last report the Practising section viewed as a separate institution is more than self-supporting.

15. The Educational rules have been observed.

16. Discipline has been maintained.

17. *History of students.*—The register has been maintained up to date.

18. All the service-books have been verified to date.

19. I have much pleasure in acknowledging the willing and valuable services rendered by the staff during the year.

APPENDIX A.

TEACHING staff.

Appointment.	Name of incumbent.	Permanent or acting on the staff.	Date.	Remarks.
Principal ..	H. J. Allen, Esq., M.A. Mark Hunter, Esq., M.A.	Acting .. Permanent ..	May .. July to Dec. ..	On furlough from January to July. Retired.

Order—No. 353, Educational, dated 19th May 1906.

Recorded.

(True Extract.)

A. BUTTERWORTH,
Ag. Secretary to Government.

To the Director of Public Instruction.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 353, EDUCATIONAL,
DATED 19TH MAY 1906.

[SUBJECT.—*Report on the working of the Government Training College, Rajahmundry, for the year 1905.*]

From the Director of Public Instruction, dated 14th May 1906, No. 3748.

The report calls for no special remarks.

The draft placed below, recording it, is submitted for approval.

P. T. THARYAN—16-5-06.

C. A. SOUTER—16-5-06.

Issue unless it is usual to send such papers to the Honourable Member.

A. BUTTERWORTH—17-5-06.

Please see G.O., No. 404, Educational, dated 13th June 1905 : the last year's report was circulated to the Honourable Member (Sir James Thomson).

P. T. THARYAN—17-5-06.

This is not an Administration Report in the usual sense.

Submitted; it is perhaps advisable to send all Administration Reports to the Honourable Member.

G. S. F[ORBES].

C. A. SOUTER—17-5-06.

To the Honourable Member for approval of order "Recorded". Probably the Honourable Member would prefer not to see all these College annual reports. When any important question arises in connection with them they will of course be sent to the Honourable Member.

A. BUTTERWORTH—18-5-06.

Yes, quite so.

G. S. F[ORBES]—18-5-06.

Issue.

A. BUTTERWORTH—19-5-06.

PROCEEDINGS OF THE DIRECTOR OF PUBLIC INSTRUCTION, dated 11th May 1906.

Training College, Rajahmundry.

Read the following letter from MARK HUNTER, Esq., M.A., Principal, Training College, Rajahmundry, to the Director of Public Instruction, Madras, dated 23rd March 1906, D. No. 43 :—

I have the honour to submit my report on the working of the Rajahmundry Training College during the year 1905.

2. *Staff and distribution of work.*—I was on furlough during the first-half of the year. Mr. Allen was in charge of the College from January 14th to May 1st. M.R.Ry. T. V. Subbarao Pantulu, B.A., retired from the public service on September 25th, vacating the post of Vice-Principal which he had filled with credit ever since the Training College was instituted. M.R.Ry. M. Venkata Ratnam was appointed to succeed him and took charge in October. Other changes in the *personnel* of the staff are shown in appendix A.

3. *Accommodation.*—During the year the College buildings have been considerably extended but the rooms are not yet ready for use. Accommodation is accordingly inadequate. I have submitted a separate report on the question (amongst other things) of buildings for a hostel and primary practising classes.

4. *Furniture and apparatus.*—During the year under report, single desks for the students under training, chairs for masters and an iron-safe were purchased from the annual grant for furniture.

An orrery, a mechanical globe and a selenotrope were purchased, and a sum of money was sanctioned for purchasing a selection of magic lantern slides.

An indent for physical and chemical apparatus and chemicals was submitted.

5. *Strength and attendance*—(i) *Training section*—Appendix B (i).—In the second term 46 normal students, destined for rural schools, joined the College. Excluding this special class, the strength of the Training section was practically the same in 1905 as in the previous year.

Appendix B (ii).—The large increase in the number of Brahman students was due to the admission of rural students. I may observe that these students were selected by the Inspecting officers and not by the Principal. There was a considerable falling off in the number of Christian students, while the number of non-Brahman Hindus slightly increased. As considerations other than those of race and religion necessarily influence selection, fluctuation such as is shown in Appendix B (ii) is to be expected.

Appendix B (iii).—All the Telugu districts were fairly represented. The higher figures in the Gódvári and Kistna columns are again due to the rural class.

Twenty-eight students under training were Local Fund or Municipal stipendiaries.

(ii) *Practising section*—Appendix C (i).—There was some increase in the strength of the Upper Secondary and a very noticeable falling off in the Lower Secondary classes. Consequently the total strength was slightly lower than in the previous year.

The fall in the Lower Secondary department is undoubtedly due to the rivalry of certain Lower Secondary schools in the town, which admit pupils at reduced rates. On this subject, I have already submitted a letter from the Vice-Principal.

Appendix C (ii).—The figures in the table call for no remark.

Appendix C (iii).—The fall in number in the lower classes is noticeable and is undoubtedly due to the circumstances just referred to. On this subject the Vice-Principal reports "the large decrease in the poorer classes is probably due to the high rates of fees charged here. In the Practising department of the Teachers' College, Saidapet, fees lower than the standard rates are being levied, while we actually levy higher fees than the standard rates. To enable the poorer classes to avail themselves of the education given here, I propose to address you in a separate communication on the subject of a reasonable reduction in the rates in accordance with the Educational Rules. I should myself be most unwilling to recommend any general reduction of fees. The present rules provide for the admission of a certain number of poor pupils at reduced rates.

Appendix C (iv).—The lower figure in the first column (officials) is no doubt due to the transfer of certain important offices from this station, and the removal of a certain number of vakils from the town as a consequence of the recent redistribution of districts. The figures in the remaining columns appear to be without significance.

6. *Selection of normal students for 1906.*—The selection of students in the three higher grades was made, as usual, with a view to secure adequate representation of the different districts and managing agencies. Of the students selected, all those of the Upper Secondary grade and the majority of those of the Collegiate grades, have appointments to return to. The selection to the two lower grades was made almost entirely on the results of a competitive examination in arithmetic and composition in Vernacular.

7. *Results of examinations*—(i) *Training section*—Appendix E (i).—The results of the examination for the Degree of Licentiate in Teaching were distinctly good and far better than those in the previous year.

The results of the examinations for Teachers' Certificates have not yet been published. They will be submitted in a supplementary report so soon as they are received.

In Appendix E (ii) and in the corresponding table for the Practising section, I have this year omitted the column for "lecturers responsible". The column in question, in my opinion, suggests inferences and comparisons, which are frequently, perhaps generally, the reverse of fair.

(ii) *Practising section*—Appendix F (i), (ii) and (iii).—The results in the Matriculation examination were very bad indeed in this as in most other schools. Our percentage of success is, however, higher than the percentage for the whole Presidency, and it may further be remarked that very few pupils of the sixth form were debarred from appearing for the examination. Indeed the results of the school examinations would in no way have warranted such prohibition. It follows that either the members of the staff concerned failed in a remarkable degree to gauge correctly the qualifications of their pupils, or else the University examination was unduly strict. I know of no circumstances favouring the latter supposition and several which render it highly improbable.

Appendix F (ii).—English is this year responsible for the greatest number of failures but "general knowledge" is a formidable rival for this bad eminence. I doubt not that the ultimate causes of failure in both subjects are identical—insufficient knowledge of English which leads inevitably to fatal methods of study and instruction. The Vice-Principal is making efforts to improve the quality of the instruction given in the Practising school.

Promotions in the Practising school were made, as usual, on the results of the annual examination.

8. *Library*—Appendix D (i) and (ii).—Two hundred and nine volumes were added to the library during the year, mainly educational works and general literature.

A very much better use was made of the library by members of the staff and students under training than in the previous year.

9. *Physical training*.—Students under training and pupils of the Practising school were drilled as usual.

Towards the close of the year under review, the gymnastic apparatus belonging to the old Normal school was repaired at a small cost and put up. The pupils of the Practising school are made to practise simple exercises on them at least once a week.

Early in the present year, arrangements were made for the institution of foot-ball, cricket, tennis and badminton clubs, and the boys seem to take very kindly to these games.

10. *College societies*.—The Teachers' association and the Metcalfe junior union have done fairly good work during the year.

11. In accordance with your Circular Proceedings, Cur. No. 4389, dated 12th May 1905, a special class, for the training of students for employment as teachers in rural parts, was formed early in August last with 46 students on the rolls, drawn from the 13 ranges of the Gódavari-Kistna division. Of these one left the college on account of continued illness and another died of fever in January last. Seven of these have passed the Lower Secondary examination and the rest the Primary examination. The course of instruction imparted was in accordance with the syllabus approved by you in Proceedings, Ref. on C. No. 4267, dated 27th November 1905. The students appear to have much benefited by the course.

12. *School garden*.—All the students under training received instruction in elementary botany, horticulture, zoology and practical gardening. Specimens of crops, flowers, fruits, and economic plants are grown in the garden and a sum of Rs. 25 was realised from the sale of vegetables.

The Lower Secondary and the rural grade teachers were taken on school journeys to the local museum, Kadium gardens and the sugarcane farm and factory at Samalkot.

13. *Scholarships*—Appendix G (i).—The scholarships recommended for the last four pupils have not yet been sanctioned.

14. *Finances*—Appendix G (ii).—The total net cost to Government for the maintenance of the college was Rs. 15,130-10-10 against Rs. 12,495 of the previous year and the cost of training each normal student was Rs. 191-8-9 as against Rs. 122-8-0 of last year.

As noticed in the last report the Practising section viewed as a separate institution is more than self-supporting.

15. The Educational rules have been observed.

16. Discipline has been maintained.

17. *History of students*.—The register has been maintained up to date.

18. All the service-books have been verified to date.

19. I have much pleasure in acknowledging the willing and valuable services rendered by the staff during the year.

APPENDIX A.

TEACHING staff.

Appointment.	Name of incumbent.	Permanent or acting on the staff.	Date.	Remarks.
Principal ..	H. J. Allen, Esq., M.A. Mark Hunter, Esq., M.A.	Acting .. Permanent ..	May .. July to Dec. ..	On furlough from January to July. Retired.

Proceedings, Dis. No. 3125 of 1906.

Recorded.

2. The Director notices with pleasure the measures taken to improve the nature knowledge of the teachers under training.

3. The condition of the Practising school does not appear to be altogether satisfactory. The matter will be separately dealt with.

(Signed) A.G. Rowne,
Director of Public Instruction.
