ABSTRACT.—Informing the Director of Public Instruction that the Government of India have sanctioned a recurring annual grant of Rs. 40,000 in aid of European and Eurasian education, specifying the objects on which the amount is intended to be spent and requesting the Director to submit his proposals for the utilisation of this grant during the year 1906-1907.

Letter—from the Hon'ble Mr. T. T. LOGAN, B.A., Acting Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 22nd October 1906.

No.—Ref. on Cur. No. 4774.

With reference to G.O., No. 417, Educational, dated 15th June 1906, I have the honour to suggest that the recurring grant of Rs. 40,000 sanctioned by the Government of India in aid of European and Eurasian education may be utilized during the current year for the following purposes :—

	RS.
1. Towards improvement of the pay and prospect of teachers, about ..	35,640
2. Towards enhancement of the grants made in aid of the equipment and maintenance of schools, about	4,000
3. Towards the provision of scholarships on a more generous scale, about	360
Total ..	40,000

As regards the first item I beg to state that it will be given in the shape of extra teaching grants and will be added to the present fixed grants to the schools which last for three years, the current triennium having begun from 1st April last. A larger amount cannot be utilized for the last item as owing to the late publication of the Code of Regulations the scholarships (Middle and Primary) can be awarded only from 1st January next and drawn only for two months in the official year. The high scholarships will be awarded on the results of the next Matriculation examination and it is not likely that any of them will be drawn before the close of the official year. In the next two years, however, the expenditure under this head will be larger but the excess may be met by reducing the special grants (item 2) and from savings.

Order—No. 706, Educational, dated 2nd November 1906.

With his letter read above the Director of Public Instruction submits his proposals for the utilization, during the current year, of the special grant of Rs. 40,000 made by the Government of India in aid of European and Eurasian education.

2. The Director's proposals are generally approved. He is requested to furnish further details of the distribution of the total amount amongst the various institutions, forwarding at the same time a copy of the report of the Inspector of European and Training Schools in regard to the proposed distribution.

3. The Director will be requested to see that the estimated amount to be assigned to each institution is disbursed with as little delay as may be practicable, subject to final adjustment, should such adjustment be found necessary.

NOTES CONNECTED WITH G.O., No. 706, EDUCATIONAL, DATED
2ND NOVEMBER 1906.

[SUBJECT.—*Proposals for the utilization of the recurring grant of Rs. 40,000 sanctioned by the Government of India in aid of European and Eurasian education.*]

From the Director of Public Instruction, dated 22nd October 1906, No. 4774.

I

The Director of Public Instruction proposes to distribute during the current year the recurring grant of Rs. 40,000 sanctioned by the Government of India in aid of European and Eurasian education in this Presidency under the following three heads of expenditure recommended by that Government :—

(1) *Improvement of the pay and prospect of teachers*—about Rs. 35,640.—This sum is to be given as extra teaching grants for supplementing the fixed grants under article 39 of the Code of Regulations for European Schools. These fixed grants are calculated on the basis of the grants paid to each school before the introduction of the Code, with suitable additions for ensuring increased efficiency. The grants formerly paid amounted to Rs. 78,000 and it was estimated that over and above this amount about Rs. 70,000 would be required if it was decided to aid European schools under article 37 instead of under article 39 of the Code for those schools. This was, however, only a very rough estimate. For the triennium beginning with 1st April 1906, European schools are aided under article 39 of the Code. As soon as this triennium is over, aid may be given under article 37 the rates in which are more favourable. The Director must have enough information by this time to make an accurate forecast of the amount required for aid under article 37 and he may be asked for an estimate required for this purpose. Meanwhile his present proposal may be approved, but some information as to the claims of the several schools and the distribution of the amount would have been welcome. Under the last sentence of the letter from the Government of India printed with G.O., No. 417, Educational, dated 15th June 1906, there seems to be no objection to the acceptance of the proposal.

(2) *Enhancement of the grants made in aid of the equipment and maintenance of schools*—about Rs. 4,000.—The proposal in this respect may be accepted although it would have been better if information had been furnished as to how the amount was arrived at.

(3) *Provision of scholarships on a more generous scale*—about Rs. 360.—It is stated that in the case of this item a larger amount is not now necessary since the middle and primary scholarships can now be awarded only from 1st January 1907 and will be drawn only for two months in the current financial year and the high scholarships will be awarded on the results of the next Matriculation Examination and it is not likely that any of them will be drawn before 31st March 1907.

The proposal in this respect also may be approved.

P. T. THARYAN—31-10-06.

Perhaps we should call for more detailed information under heads (1) and (2).

C. G. MACKAY—31-10-06.

The Director has not sent on Mr. Stone's detailed proposals, and the information furnished by him is very meagre. The proposals may, however, be approved generally in view of the present financial situation.

Sending Mr. Stone's report.

The Director may be asked to furnish details of the distribution of the amount amongst the various institutions and should be instructed to disburse at once the estimated amounts due to each, subject to final adjustment, should the latter be found necessary.

(3) The salary, fixed and results grants paid out of the usual allotment amounted to Rs. 78,429—Dr. Bourne's demi-official on page 17 of the notes with G.O., No. 220, Educational, dated 26th March 1906. In addition to these a lump provision of Rs. 20,000 was made in the current year's budget to meet the extra cost owing to the introduction of the new Code for European schools—page 145 of the Civil Budget Estimate.

Under the new Code fixed grants are being paid under rule 39 but boarding, cadet and special grants will also be paid under rules 40, 43 and 44 and grants to night schools and building grants will be payable under rules 47 and 50.

Under rule 27 special grants and building grants are payable at whatever time and in whatever manner may in each case be determined. All other grants are annual grants and are payable on or after the 1st April at any time.

FINANCIAL DEPARTMENT.

Has Government of India (Finance) ever told us (Finance) of this special grant or is the matter proceeding between the administrative departments alone—Home in India and Education here? It is usual for Finance (India) to intimate to Finance (Madras) all special additions to the assignment. Put up a precedent please.

C. M. SCHMIDT—15-11-06.

Submitted that no intimation has as yet been received from the Government of India in regard to the addition of 40 lakh to the fixed assignment. It is usual for the Government of India in the *Finance Department* to make such intimations—*vide* G.O., No. 659, Financial, dated 2nd October 1905, and notes connected therewith and paragraph 4 of Finance Department letter A/1781, dated 28th March 1906, on page 3 of G.O., No. 273, Financial, dated 7th April 1906, for precedents. Intimation will perhaps be received later on.

V.G.K.—20-11-06.

There seems to be no objection to the Educational Department draft. We might ask India (Finance) about this addition to the assignment. It is not usual for additions to the fixed assignments to be arranged without the local Finance Department being informed.

C. M. SCHMIDT—21-11-06.

Accepted.

2. I do not think we can write and object. It is an oversight probably, but the Government of India is the same in each Department and if they choose to sanction in Home (Education) we cannot object. We shall see it of course on the budget estimate.

The Director of Public Instruction proposes to distribute during the current year the recurring grant of Rs 40,000 sanctioned by the Govt. of India in aid of European and Eurasian Education in this Presidency under the following three heads of expenditure recommended by that Govt :-

(1) Improvement of the pay and prospect of teachers — about Rs. 35,640.

This sum is to be given as extra teaching grants for supplementing the fixed grants under article 39 of the Code of Regulations for European schools. These fixed grants are calculated on the basis of the grants paid to each school before the introduction of the Code, with suitable additions for ensuring increased efficiency. The grants formerly paid amounted to Rs 78,000 and it was estimated that over & above this amount about Rs 70,000 would

(3) Provision of Scholarships on a more generous scale — about Rs. 360

It is stated that in the case of this item a larger amount is not now necessary since the middle & primary scholarships can now be awarded only from 1st January 1907 and will be drawn only for two months in the current financial year and the High scholarships will be awarded on the results of the next Matriculation Examination and it is not likely that any of them will be drawn before 31st March 1907.
