GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

G.O., No. 706, Educational, dated 2nd November 1906.

ABSTRACT.—Approving the proposals of the Director of Public Instruction for the utilization during the current year of the special grant of Rs. 40,000 made by the Government of India in aid of European and Eurasian education and requesting him to furnish further details of the distribution of the total amount among the various institutions.

II

Letter—from the Hon'ble Mr. T. T. LOGAN, B.A., Acting Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 12th November 1906.

No.—Ref. on Cur. No. 4774.

With reference to G.O., No. 706, Educational, dated 2nd November 1906, I have the honour to submit a list of European schools showing the present scale of grants to each of them under the old Grant-in-Aid Code and that now proposed to them under articles 39 and 44 of the Code of Regulations for European Schools. The fixed grants proposed are teaching grants for the triennium commencing from 1st April 1906 and the special grants are mostly in aid of the cost of books, apparatus, appliances, etc., considered necessary for the proper equipment of the schools.

2. With reference to paragraph 3 of the Government Order under reference I beg to state that steps are being taken to disburse the grants assigned to the schools immediately. In the Proceedings sanctioning the grants the managers will be given to understand that the continuance of them at these increased rates will depend on the increase being used to promote the efficiency of the schools and further that the grants may be subject to adjustment should such be found necessary.

3. As desired by Government in paragraph 2 of their order, I submit herewith copy of Mr. Stone's letter No. D/749, dated 25th September 1906, and a copy of consolidated list furnished by him. In this list he does not deal with the technical classes attached to some of the schools. The amount of grant formerly received account of these classes has been calculated in this office and will be included in lump grant assigned to each school.

4. The question of grants to a few more schools is under correspondence.

ENCLOSURES.

(1)

LIST of European schools for aid under the Code of Regulations for European Schools.

Serial number.	Name of institution.	Whether for boys or for girls.	Present grade.	Present grant—salary or fixed under the old Code.	Proposed grant annum.	
					Fixed.	Special.
1	St. Mary's European High school, Madras *	Boys	High	Rs. 3,000	Rs. 3,000	
2	Doveton Protestant College, Madras	Do.	Do.	6,010	9,500	
3	Presentation Convent College, Georgetown	Girls	Do.	2,880	3,500	
4	St. Mary's Orphanage, Georgetown	Do.	Middle	1,610	1,610	
5	Presentation Convent Infant school, Georgetown.	Do.	Primary	850	1,200	

* To take effect from 1st April 1907. Temporary grant of Rs. 250 per mensem was sanctioned already with from 6th July 1906 to 31st March 1907.

• Payment of this grant for 1906-1907 was already sanctioned.

(2)

Letter—from J. H. STONE, Esq., M.A., Inspector of European and Training Schools
To—the Director of Public Instruction.
Dated—Madras, the 25th September 1906.
No.—D. 749.

I have the honour to submit herewith a consolidated list of European schools (boys and girls) eligible for aid under the Code of Regulations for European schools.

2. For convenience of reference my remarks and recommendations are entered in the body of the statement against each school.

3. The number and name of the schools correspond to those in the register of salary grants, etc., sent to me for reference from your office. The following schools are, however, omitted from that register, but I have included them in my list:—

No. 85, Railway school, Bitragunta.

No. 86, South Indian Railway Girls' school, Madura.

No. 87, Railway Girls' school, Negapatam.

They are European schools and appear as such in your Proceedings, Dis. No. 5016, 20th July 1906, paragraphs 7 and 9. No applications have however been received from Inspectresses concerned for a grant in aid of them.

4. The schools have been classified as "Boys' or Girls'" according as they are under inspection or under that of the Inspectresses of Girls' schools.

5. The entry in column 4 shows the present grade of the school. In the case of a few I have noted my opinion that they should be recognized only for a lower grade and recommendations, which will form the subject of a separate communication, are approved, grading may be adopted in the Proceedings sanctioning the grant for such schools.

6. The grant shown as at present drawn for the school is the grant the schools are in receipt of now, omitting all salary grants that have ceased to be drawn owing to staff reduction in its number and the like. The figures therefore in column 5 may not be certain cases either with those given in the register of your office which represent the grant sanctioned for the school or with those given in the financial statement for 1905-1906 which include any arrears of grant drawn. The above remarks apply only to the schools under

charge and to salary grant schools (not fixed grant schools). In regard to the girls' schools I have taken the figures furnished by correspondents in their applications which in several cases have been certified to be correct by the Inspectresses.

7. I have proposed increases to the teaching grant to most of the schools mainly to enable managers to improve their staffs. I cannot however help feeling considerable doubt as to what will result from the raising of salaries that the increased grants will make possible. The supply of qualified European teachers in India is limited and as I presume the Code will improve their prospects all over the country, it is not to be supposed that the supply in Madras will be at all immediately affected by the offer of somewhat better pay. It appears to me that we must be satisfied to see the additional grant going in a large number of cases to the teachers now in employment and trust either to their being induced by the better prospects the profession affords to qualify themselves more fully for it or to their being replaced by others who have been similarly induced. In either case the process must be a gradual one. Perhaps the best way of hastening it will be for managers to employ some of their increase of grant in sending untrained teachers for training.

8. The provision under the head of "special grants" is mostly for equipment of the schools with books, apparatus, furniture and Kindergarten materials, etc. I have not provided in this list for building grants as such grants would not become payable during the current year. I have, however, noted in a supplementary list the amount of expenditure towards which building grants have been asked for.

9. I have not dealt with the question of grants to Technical schools except the Presentation Convent Technical class attached to No. 5, as I presume it will be taken up by the Inspector of Technical schools. I have however included those schools in my list but made no entries against them.

10. It will be observed that the total amount of increased grants proposed both fixed and special is Rs. 37,454. It is intended to open a European school in San Thomé in January next and I expect to be in a position to recommend for it a special grant of about Rs. 700 and a fixed grant of Rs. 150 per mensem or Rs. 450 for the last three months of the current year.

In your Proceedings, Ref. on Cur. No. 3401, dated 13th September 1906, scholarships are offered to pupils in European schools under the Code of Regulations for European schools. If all offered are awarded an additional sum of about Rs. 360 would be required (ten scholarships averaging Rs. 7 per mensem and ten averaging Rs. 11 per mensem) for the last two months of the official year as I presume they will be paid in arrears.

The total amount of increased expenditure involved is therefore Rs. 38,964.

11. I have not assigned any increase of grant to any Railway school except the Madras Railway's new school at Bitragunta. Pending the passing of orders on my No. D. 531, dated 18th July 1906, submitting a letter from the Agent and Manager, Madras Railway Company, the relative needs of the schools of that Company cannot be determined and it may be expected that any system of grading adopted for the Madras Railway schools would be extended to those of other companies so that it is not possible either to estimate their needs.

I find from the tables on your last report that the net cost of its schools to the Madras Railway Company (excluding the new school at Bitragunta) was Rs. 20,340 and that it received grants aggregating Rs. 4,740. The grant to the other railways aggregated Rs. 670 without that paid in aid of the Madura school about which I have no information. If therefore grants to Railway schools were increased by 50 per cent., about Rs. 2,800 is required or about Rs. 1,800 more than the additional Rs. 40,000 from Imperial funds. It appears to me, however, that Rs. 3,606 assigned as special grants will not necessarily be increased expenditure because provision must have been made in the budget for furniture grants and the like in which European schools would naturally share. I hope therefore it will be found possible to raise the grants to Railway schools without trenching on the increases I had proposed for the other schools.

12. I presume that it is intended that the grants shall be fixed for the triennium commencing 1st April 1906. In doing this I would suggest that Managers be informed that in each case the continuance of the grant on the enhanced scale will depend on the department's being satisfied that it is really being used to increase the efficiency of the school.

13. I could not submit this list earlier, because the applications from girls' schools have only been recently received.

14. As several correspondents have been writing to me on the subject I request that the grants be sanctioned at your earliest convenience.

15. I herewith return all the papers sent to me from your office for reference in the preparation of the list and all applications referred to me from correspondents of girls' schools.

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school, (boys' or girls').	Grade of school.	Present grant and salary fixed.	Proposed grant.		Remarks.
					Fixed.	Special.	
1							
8	St. Patrick's Orphanage, Adyar	B	High	Rs. 3,774	Rs. 3,774	Rs.	Principal, Rs. 100, 6 Brothers at Rs. 75, Rs. 450; 1 master Rs. 25; 1 Drawing master, Rs. 30, i.e., Rs. 605 X 12 = Rs. 7,260. No income except from Mission funds. If boarding grants at the enhanced rates are only to be given for 70 children, the increase is Rs. 2,940. I see no reason why the school should be a High school. As a middle school the existing staff will suffice and as there will, in any case, be a considerable increase of boarding grants, I do not think any increase of teaching grant necessary.
9	Stanes' High School, Coimbatore	B	Do.	1,928	4,000	..	This school in proportion to its strength and efficiency has received a small grant hitherto. Its income last year from fees and endowments was Rs. 4,161, and I recommend that the grant should be raised to Rs. 4,000, i.e., an increase of Rs. 2,072 with a view to improvement in the staff.
10	St. Joseph's European Boarding Institution, Coonoor.	B	Do.	2,980	4,250	250	Reckoning the Principal at Rs. 100 and each Brother (4 Brothers) at Rs. 75 and other masters at Rs. 240, I should estimate the cost of the staff at Rs. 7,680 as against Rs. 9,990, the manager's estimate. Taking his estimate for other expenses this would make the cost of the school, Rs. 7,680 + Rs. 2,014 = Rs. 9,694; fee is Rs. 1,254 so that the net cost is Rs. 8,440. The present grant is Rupees 2,980. There is great room for improvement both in staff and appliances. I would therefore raise the grant to Rs. 4,500, of which Rs. 4,250 should be for teaching and Rs. 250 for appliances. The increase is Rs. 1,520.
11	Stanes' High School, Coonoor	B	Do.	1,220	1,600	..	I do not think that this school justifies its continued existence as a High school. The three upper forms are very small and there is no probability of their being larger. Pupils really capable of profiting from higher studies could be provided for in the school at Coimbatore. I therefore recommend the reduction of the Coonoor school to the Middle School grade. Even then the school should have another teacher. I recommend an increase in the teaching grant of Rs. 380.
12	St. Joseph's Poor European Boys' High School, Calicut.	B	Do.	1,200	3,000	200	If this school is to justify its recognition as a High school, great improvements in the staff and appliances must be effected. The school is above the average in strength (about 150 Europeans) and has a fee income of about Rs. 3,000. Its staff last year only cost Rs. 6,000 on the recommendation that its grant should be increased by Rs. 2,000, making a grant of Rs. 3,200 of which Rs. 3,000 is fixed and Rs. 200 special. This is of course on condition that the staff is very greatly improved, particularly by largely increasing the proportion of European teachers.

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school, (boys' or girls').	Grade of school.	Present grant and salary fixed.	Proposed grant.		Remarks.
					Fixed.	Special.	
1							
13	Santa Cruz High School, Cochin	..	..	Rs.	Rs.	Rs.	The majority are non-Europeans.
14	St. Joseph's Girls' High School, Waltair	G	High	2,160	2,500	190	As the staff is almost entirely conventual and no increase appears to have been applied for, Rs. 2,500 seems a reasonable figure for the fixed grant or an increase of Rs. 340. A special grant of Rs. 180, being a half grant on Rs. 260 asked for by the Manager, is also recommended.
15	Timpany Memorial Day School, Coenada	..	..	..	..	..	Not aided.
16	St. Philomena's High School, Bellary	G	High	2,500	3,000	..	The average attendance is only 88 and a staff of fifteen teachers is shown; it might be improved by a reduction in numbers and improvement in quality. Five teachers are only of the Lower Secondary grade. With a view to replacing some of them by better qualified ones, I recommend an increased grant of Rs. 500 making a total fixed grant of Rs. 3,000.
17	Presentation Convent School, Vepery	..	..	..	..	..	<i>Vide</i> No. 5.
18	St. Thomas' Convent Girls' High School, San. Thomé.	G	High	1,063	1,810	190	Three of the paid mistresses are Lower Secondary. The average attendance is 92 and there are ten ordinary teachers; a diminution in number and improvement in quality seem desirable. The Manager asks for grant-in-aid of Rs. 377, expenditure on books and furniture. I recommend therefore a special grant of Rs. 190 and with a view to improvement in the staff a fixed grant of Rs. 1,810, an addition of Rs. 397.
19	Bishop Gell's Girls' School, Madras	..	..	..	..	..	<i>Vide</i> No. 7.
20	Madras Collegiate Girls' School, Vepery	G	High	3,000	3,000	300	This school is actually paying more in salaries than my "ideal" rates, and as 174 out of its 247 of average attendance is in the Primary and Infant standards, I do not think any enhanced teaching grant is wanted for it. The correspondent has applied for a building grant and for grant for apparatus. I recommend a special grant of Rs. 300 for Physics apparatus.

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school, (boys' or girls').	Grade of school.	Present grant, salary and fixed.	Proposed grant.		Remarks.
					Fixed.	Special.	
1	2	3	4	5	6	7	8
21	Dorseton Girls' High School, Madras	G	High	3,904	5,104	333	1,533
The High and Middle departments of the school are very small, 14 and 18 being the average attendance for whom there are five teachers including the Headmistress and the other two departments are not large. A lady has recently been appointed Headmistress from Home and I believe that the correspondent expects to increase the size of the school with her help. An enhanced grant of Rs. 305 a month to improve the pay of the staff is asked for and Rs. 333 for library, pictures, etc. In 1904-1905 the school worked at a profit. I recommend an additional fixed grant of Rs. 1,200, bringing the grant up to about Rs. 5,100 and a special grant of Rs. 333.							
22	St. Joseph's Convent Girls' School, Coimbatore.	G	Do.	1,380	1,905	225	750
The average attendance of the school is very small, 37 in 1904-1905. For this number the staff seems unnecessarily large. There are four lower Secondary teachers on it. A reorganization of the staff seems necessary with better pay all round to attract better teachers. The increase indicated by the ideal rates could not be utilized however. The correspondent asks for Rs. 227 for books, etc. With a view to supplying wants of this kind and to give some scope for improving the staff, the grant might be fixed at Rs. 2,130 (an increase of Rs. 626) for teaching and a special grant of Rs. 225, i.e., an increase of Rs. 750.							
23	St. Joseph's Convent School, Coimbatore	G	Do.	900	1,400	..	500
The average attendance was about 50 in 1904-1905 but has risen since to 70 for whom there are nine teachers, of whom three are Lower Secondary. This number seems large. The high section has a merely nominal existence and if recognized should not be allowed to count in assessing grant. With a view to the improvement of the staff, a grant of Rs. 500 might be fixed for it, being an increase of Rs. 500.							
24	Nazareth Convent Girls' School, Ottamund.	G	Do.	1,165	1,860	..	695
An average attendance of about 40, six in the Upper Secondary classes. The staff contains four teachers of the Lower Secondary Grade and certainly wants strengthening. At the same time the average attendance is so small that it is difficult to see why fewer teachers should not do the work. The correspondent has applied for Rs. 550 grant for scientific apparatus. Whether the school will want this when under the new Code is at least doubtful. Grant may be fixed at Rs. 1,860, an increase of about Rs. 700.							
25	St. Stephen's Collegiate Girls' School and Orphanage.	G	Middle	550	1,000	..	450
This school has improved in strength lately and the staff has been considerably improved. The correspondent thinks another teacher necessary. Including a "volunteer" there are now four which satisfies the requirements of the rules and the classes are for the most part so small that I do not think another teacher is an absolute necessity as yet. The expenditure on staff has been raised however from Rs. 106 to Rs. 220 per mensem and the school appears to have no resources except fees and voluntary subscriptions. It is the only school in the Nilgiris for the education of Protestant girls beyond the Elementary (grade). I therefore recommend an increase of Rs. 450, bringing the grant up to Rs. 1,000.							

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school, (boys' or girls').	Grade of school.	Present grant, salary and fixed.	Proposed grant.		Remarks.
					Fixed.	Special.	
1	2	3	4	5	6	7	8
26	St. Joseph's Convent Poor European Girls' school, Calcutta.	G	High	2,400	3,000	200	800
There is an average attendance of about 170 and it is not clear why so many teachers (15) are required. The general level of qualifications of the staff is low and no enhanced grant should be given merely to pay it better. If, however, the correspondent can improve its qualifications and reduce its number, the fixed grant might be raised to Rs. 3,000, an increase of Rs. 600. A special grant of Rs. 200 is also recommended towards the expenditure of Rs. 500 on books and apparatus, which the correspondent asks for.							
27	St. Mary's Poor European Convent Girls' school, Cochin.	G	Do.	1,846	2,300	300	754
The average attendance of the school is about 132. Thirteen teachers seem too many for so few pupils. A less numerous staff might be better paid and therefore better qualified. The correspondent has asked for Rs. 2,000, special grants for science apparatus, piano, stage, etc., but says that he cannot provide anything towards the supply of the apparatus. I doubt the necessity for the apparatus even if the school is a high school under the Code of Regulations for European schools. An increase of fixed grant of Rs. 464 in round numbers is recommended and a special grant of Rs. 300 for a piano being an increase of Rs. 754.							
28	Holy Trinity Church school, Bellary	B.	Middle	870	1,000	..	130
A Headmaster has been appointed and the correspondent has done his best to improve the staff at an additional monthly expense of Rs. 66. The school is a small one however. I think an additional grant of Rs. 130, making a total grant of Rs. 1,000 will meet the case.							
29	St. Joseph's school, Bellary	B.	Do.	500	1,450	50	1,000
As the school is to be only a Middle School so large a staff as nine teachers is hardly necessary. Four of them are however non-Europeans and four are Mistresses with only Lower Secondary qualifications. The correspondent asks for increased teaching grants to the amount of Rs. 280 or Rs. 3,350 a year. This is more than can be provided. I recommend that the grant fixed shall be Rs. 1,450 for teaching and a special grant of Rs. 50 for appliances. The increase is Rs. 1,000.							
30	Railway school, Guntakal	..	..	..	..	..	..
Vide covering letter.							
31	Railway school, Gooty	..	..	..	..	..	..
Vide covering letter.							
32	Railway school, Raichur	..	..	..	..	..	..
Vide covering letter.							

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school, (boys' or girls').	Grade of school.	Present grant, salary and fixed.	Proposed grant.			Remarks.
					Fixed.	Special.	Increase.	
1	2	3	4	5	6	7	8	9
33	St. George's Cathedral Boys' school, Madras.	B.	Middle	Rs. 510	Rs. 720	Rs. 210	Rs. 210	Seven standards are taught by three teachers. Another teacher is there, however, and I propose therefore that the school should be graded as a Primary school. Christ Church school is so near that it can well meet the need for middle school education in the locality. The correspondent asks for Rs. 15 a month, additional grant towards the pay of the third teacher who is trained. I recommend an increase of fixed grant of Rs. 210 making a grant of Rs. 720.
34	St. Mathias's boys' school, New Town St. Mathias's girls' school, New Town	B. G.	Do. Primary	300 540	1,150	50	360	These schools are to be amalgamated and a total attendance of 80 to 100 pupils may be anticipated in seven standards. The correspondent asks for an increase of grant to better the teaching staff and proposes to employ four teachers. I recommend an increase of Rs. 360 (the boys' school drew Rs. 300 and the girls' Rs. 540 last year) making a fixed grant of Rs. 1,150, which would allow of substantial improvement in salaries and a special grant of Rs. 50.
35	New Town Catholic boys' school, Madras	B.	Middle	480	1,200	740	740	The school contains 60 pupils in six classes and there are three teachers and a Tamil Mushi with pay Rs. 45, 20, 25 and 6, respectively. I recommend with a view to substantial improvement of the staff and with a view to the school's providing for Pudupet Lower Secondary school, an increase of Rs. 740 making the grant Rs. 1,200.
36	St. Antony's Poor European boys' school, Pudupet.	B.	Do.	880	1,096	246	246	As recommended by Mr. Braithwaite the school should be primary. Boys fit for a Lower Secondary education should be transferred to the Roman Catholic school, New Town, easily accessible from Pudupet. The staff ought not, however, to be reduced on this account but improved in quality without the Lower Secondary classes; the school had 88 pupils last December. I recommend an increased teaching grant of Rs. 18 a month = 216 and of a special grant of Rs. 30 a year towards the supply of books, etc., asked for by the correspondent, making an increase of Rs. 246 and a total grant of Rs. 1,126.

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school, (boys' or girls').	Grade of school.	Present grant, salary and fixed.	Proposed grant.			Remarks.
					Fixed.	Special.	Increase.	
1	2	3	4	5	6	7	8	9
37	Madras Civil Orphan Asylum, Kilpauk	B. & G.	Middle	Rs. 4,180	Rs. 5,080	Rs. 900	Rs. 900	The institution had a balance on 1st January 1906 of Rs. 419 according to the figures supplied by the Deputy Director. It will draw an increased grant of Rs. 1,344 as boarding grant in lieu of the old feeding and clothing grants making its grant income— Rs. Annual donation (special allowance from Government) 1,200 Salary grant 4,180 Boarding grant 3,072 Total .. 8,452
38	St. Francis Xavier's English Boys' school, Madras.	B.	Do.	983	1,284	48	300	The correspondent asks for a very considerable increase of grant with a view to improving the staff. They propose to substitute graded salaries for fixed and in most cases to increase the starting salaries and to employ two (or three) new teachers. The immediate additional cost of the scheme would be about Rs. 3,000 and in five years over Rs. 7,000. The Asylum's resources are not susceptible of expansion so that all this increase would have to be met by increased grants. This is obviously impossible in view of the needs of other schools. I think, however, that the staff is underpaid and very susceptible of improvement as to quality and recommend an increased grant for teaching of Rs. 900.
39	Christ Church Poor European Mixed school, Mount Road.	B. & G.	Do.	1,200	1,350	100	250	The school is a large one and would earn Rs. 2,145 under the Code of Regulations for European schools. I recommend the increase asked for by the correspondent—a teaching grant, i.e., Rs. 262 and a special grant of Rs. 48—an increase of Rs. 300 or grant of Rs. 1,282.
40	St. Peter's school, Rayapuram	B.	Do.	820	1,180	30	360	This is a school of 130 or so and would earn under the Code of Regulations for European schools Rs. 2,240. It is better staffed than some and earns a salary grant of Rs. 1,200. The correspondent asks for Rs. 150 to improve the pay of the staff. I recommend this and also a special grant towards the purchase of a piano and other apparatus, making an increase of Rs. 250 or a grant of Rs. 1,450.

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school (boys or girls).	Grade of school.	Present grant and salary fixed.	Proposed grant.		Remarks.
					Fixed.	Special.	
1	2	3	4	5	6	7	9
60	New school, Pallavaram	G.	Middle	500	Rs. 620	Rs. 120	This is a very small school of hardly more than 20 pupils and the present grant is nearly equal to what it would earn on the Capitation system. The correspondent does not ask for an increase, but I recommend one of Rs. 120 as the second assistant is very badly paid, making in all Rs. 620.
61	St. John's Lower Secondary school, Vellore.	G.	Do.	740	860	30	150
							This is a very small school of 26 pupils. I do not see why it should be recognized as a middle school. It has at present no seventh standard and only two children in the sixth. The correspondent asks for an increase of Rs. 300 a year in order to improve the staff. He does not apparently contemplate employing an additional teacher which would be necessary under the Code, if the school is to be a middle school. The school is now drawing Rs. 740, what it would under the capitation system. I recommend an additional fixed grant of Rs. 120 and a special grant of Rs. 30 making in all Rs. 890 (increase Rs. 150).
62	Church of England Girls' school, Cuddalore.	G.	Do.	250	470	30	250
							This very small school certainly need not be of the middle school grade. The correspondent asks for an increase of Rs. 9 per mensem to enable him to rent a better school-house and Rs. 20 per mensem to employ a better staff, also a special grant of Rs. 30 for furniture. I recommend that the grant be fixed at Rs. 470 for teaching and Rs. 30 special (increase Rs. 250).
63	St. Joseph's Poor European Girls' school, Trichinopoly.	G.	Do.	930	1,200	..	360
							The school appears to be staffed by a teaching sisterhood. The correspondent's revised salary rates can hardly be accepted, Rs. 75 a month might be allowed for the manager, and Rs. 50 for each of the other sisters (five) making Rs. 3,900 per annum. In addition to an enhanced teaching grant, the correspondent asks for grants for purchase of books and apparatus including about Rs. 500 for Physics teaching. This seems unnecessary. The other proposed expenditure is trifling. The school will be eligible for increased boarding grants of Rs. 252. As the salaries have hitherto been estimated at very low rates, I recommend an increase of Rs. 300 fixed grant which will bring it up to Rs. 1,200.
64	St. John's Vestry school, Trichinopoly ..	G.	Do.	642	1,200	..	558
							This is a fairly large school (76 pupils). The staff contains three pupil teachers, but I have no information as to how far they are "pupils." The school largely depends upon subscriptions. With a view to the improvement of the teaching staff, which should have at least one more Upper secondary teacher, I recommend an increase of Rs. 558 which would bring up the grant to Rs. 1,200, which is about the amount realized by subscriptions.

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school (boys or girls).	Grade of school.	Present grant and salary fixed.	Proposed grant.		Remarks.
					Fixed.	Special.	
1	2	3	4	5	6	7	9
65	All Souls' School, Coimbatore	G	Primary	..	..	..	..
66	Sacred Heart School, Yeravud	G	Middle	250	250	30	30
							No application for enhancement appears to have been received and the Chaplain states that the school is maintained from church funds. I see no reason to modify this state of things.
67	St. Theresa's Poor European School, Cannanore.	G	Do.	1,592½	1,592½	200	200
							I see no reason why this should be a Middle School, if it is to be one under the Code; the staff must be entirely reorganised at considerable and in the circumstances unjustifiable expense. The allowance of four teachers to 21 pupils is large. The correspondent asks for an increased grant of Rs. 350 a year in diminution of cost to management. I do not think this would increase the efficiency of the school. I recommend a special grant of Rs. 30 to cover the cost of new books necessary. No increase of grant seems called for, if indeed the school can be aided at all under the Code of Regulations for European schools.
68	St. Antony's European Convent Girls' School, Palghat.	..	..	..	..	..	..
69	Convent Girls' School of Our Lady of the Mount, Tangasseri.	G	Middle	1,200	1,440	60	300
							The Inspectress recommends an additional grant of Rs. 240 for apparatus, etc. I recommend a special grant of Rs. 200.
70	Presentation Convent Infant School, Georgetown.	G	Do.	..	..	..	..
							Non-European.
71	Liardet Poor School, Metturcheri, Ootacamund.	G	Primary	440	680	..	240
							There are apparently six salaried teachers in the school, of whom three are of the Lower Secondary and one of the Primary grade. There is therefore considerable room for improvement. The correspondent asks for grants towards the purchase of furniture, books, etc., to the amount of Rs. 385-8-0. For teaching I recommend an increase of Rs. 240 fixed grant and a special grant for the purchase of furniture and apparatus of Rs. 60.
72	St. Mathias's Girls' School, Vepery ..	G	Do.	..	..	..	..
							Vide No. 4.
73	The Holy Apostles' Convent School, St. Thomas Mount.	..	..	..	..	..	..
							The correspondent asks for an additional grant of Rs. 20 a month with a view to starting an industrial class. As his scheme appears to be a well-considered one, I recommend an additional grant of Rs. 240, making in all Rs. 680 per annum.
							Vide No. 84.
							Presumably non-European, as it does not find a place in the report of the Inspectress, Central Circle, on European schools.

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school (boys or girls).	Grade of school.	Present grant and salary fixed.	Proposed grant.			Remarks.
					Fixed.	Special.	Increase.	
1	2	3	4	5	6	7	8	9
74	St. Andrew's Poor Girls' School, Egmore ..	G	Primary	Rs. 360	Rs. 600	Rs. 60	Rs. 300	The correspondent asks for an additional grant of Rs. 20 a month to improve the staff which is urgently necessary as the Assistant is unqualified and Rs. 5 a month towards other expenses. I recommend this addition, i.e., Rs. 25 X 12 = Rs. 300, making a total grant of Rs. 660. The school has 43 pupils of the poorest class.
75	Fort Catholic Girls' School, Vizagapatam ..	G	Do.	600	600	100	100	The correspondent asks for grant-in-aid of purchasing furniture, maps, books, etc., to the amount of Rs. 150. A two thirds special grant of Rs. 100 is recommended as the school is a poor one.
76	Friend-in-need Girls' School, Madras ..	G	Do.	177	177	..	..	As the school will obtain a considerably enhanced boarding grants, no other increase seems necessary.
77	South Indian Railway Girls' School, Villupuram.	..	..	..	..	..	..	<i>Vide</i> covering letter.
78	St. Mathiah's Girls' School, New Town ..	..	..	..	..	..	..	<i>Vide</i> No. 34.
79	St. Peter's Vestry School, Negapatam ..	B	Do.	260	520	..	260	This school educates about 50 very poor children. Under the capitation grant system, it would draw Rs. 900 or so but for the operation of article 29. As 50 children are taught by two teachers, under the Code of Regulations for European schools, an additional teacher ought to be employed. This is impossible unless the Government provides the whole of his pay. The correspondent asks for some addition to the grant in order to pay the present teachers better as they have served many years at the same pay. I recommend an increased fixed grant of Rs. 260; a total grant of Rs. 620.
80	Paracheri Poor European School, Madras ..	B	Do.	424	424	..	..	The school is well supported by subscriptions and the accounts of 1904-1905 show a balance in its favour of Rs. 491. The correspondent does not ask for any increase, nor do I recommend one.
81	Union Girls' School, Madras ..	G	Do.	400	400	..	..	No enhancement of grant appears to have been applied for. The working of the school in 1904-1905 showed a surplus of Rs. 172. I recommend the continuance of the grant of Rs. 400 per annum.
82	Railway School, Pakala ..	..	..	..	..	..	..	<i>Vide</i> covering letter.

List of schools (boys' and girls') recommended for aid under the Code of Regulations for European schools from 1st April 1906—cont.

Serial number.	Name of school.	Description of school (boys or girls).	Grade of school.	Present grant and salary fixed.	Proposed grant.			Remarks.
					Fixed.	Special.	Increase.	
1	2	3	4	5	6	7	8	9
83	Vypsen Boys' and Girls' School, Cochin ..	B and G	Primary	Rs. 267	Rs. 360	Rs. 50	Rs. 133	The Inspectress of Girls' Schools and myself have both at different times strongly urged the advisability of amalgamating these two schools which are both badly staffed and are held under the same roof in adjoining rooms. I recommend that this amalgamation be made a condition of aid, if not of recognition as a European school. The Inspectress recommends a fixed grant of Rs. 400, Rs. 350 for teaching on condition of improvement in the quality of the joint staff and Rs. 50 for improving the appliances of the school and I concur in this recommendation. As the school has no resources beyond what is contributed by the manager, care will have to be taken to see that he provides additional funds up to the amount of the increase.
84	English Boys' School, Puraawale ..	B	Do.	600	770	30	200	The staff has recently been reduced from 3 to 2 and under the Code of Regulations for European schools must be restored to the former number. The school is also very badly off for books and appliances. On condition that a third teacher is again employed and the school be properly provided with books, etc., I recommend an addition of Rs. 200 (fixed Rs. 170, special Rs. 30) making the grant Rs. 800.
85	Railway School, Bitragunta ..	B	Do.	..	400	..	400	<i>Vide</i> this office No. 207-D., dated 20th March 1906 and Proceedings Ref. on C. No. 2101 of 1906, dated 28th March 1906, of the Director of Public Instruction.

Order—No. 761, Educational, dated 23rd November 1906.

Recorded with reference to G.O., No. 706, Educational, dated 2nd November 1906.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction.

NOTES CONNECTED WITH G.O., No. 761, EDUCATIONAL, DATED
23RD NOVEMBER 1906.

[SUBJECT.—*Scale of grants to European schools.*]

G.O., No. 220, Educational, dated 26th March 1906.

„ „ 417 „ „ 15th June „
„ „ 706 „ „ 2nd November „

From the Director of Public Instruction, dated 12th November 1906, No. 4774.

In G.O., No. 706, Educational, dated 2nd November 1906, the Government approved the proposals of the Director of Public Instruction for the utilization of the special grant of Rs. 40,000 made by the Government of India in aid of European and Eurasian education and requested him to furnish further details of the distribution of the amount amongst the various institutions and to forward at the same time a copy of the report of the Inspector of European and Training schools on the subject of the distribution.

2. The Director of Public Instruction now submits a list of European schools showing how he has distributed the special grant of Rs. 40,000 amongst them. He also submits a copy of Mr. Stone's report on the same subject. It will be seen that the Director of Public Instruction has accepted all of Mr. Stone's recommendations.

3. With reference to paragraph 3 of the Government Order cited above the Director states that steps are being taken to disburse the grants assigned to the schools immediately.

T.K.—16-11-06.

In the list submitted with the Director's letter the total of the grants paid to European schools under the old Code is shown as Rs. 89,079. This amount should therefore be considered as being met from the ordinary budget provision under 22. EDUCATION—(g) GRANTS-IN-AID.

2. The excess which it is now proposed to pay is according to the list Rs. 35,971 (fixed grants) + Rs. 3,610 (special grants), total Rs. 39,581. In the Director's letter printed with G.O., No. 706, Educational, dated 2nd November 1906, the amount was shown as "about" Rs. 39,640.

3. The extra grants which it is proposed to pay to European schools thus total up to only the amount placed at the disposal of this Government by the Government of India for aiding European schools more liberally than before. (G.O., No. 417, dated 15th June 1906.) In the current year's budget, however, a lump provision of Rs. 20,000 was made "to meet extra cost owing to the introduction of the new Code of Regulations for European schools." This amount will now be a saving, but it does not appear that the intention of Government was that it should be saved so long as the total extra cost was below Rs. 70,000 which was estimated by Dr. Bourne to be the extra amount required to pay teaching grants under the new Code—*vide* his demi-official, dated 24th March 1906, on page 17 of the notes with G.O., No. 220, Educational, dated 26th March 1906.

4. It is possible, however, that the lump provision of Rs. 20,000 in the budget, referred to, may be required for the payment of increased boarding and cadet grants. (Articles 40 and 43 of the new Code.) The Director may be asked u.o. about this,

and if the amount is not required for the purpose, should not a supplemental list of special grants be called for? The lapses from the educational budget have been giving trouble and it seems desirable that the Director should work up to his budgets.

No building grants will be payable during the current financial year—paragraph 8 of Mr. Stone's letter.

P. T. THARYAN—16-11-06.

Most of the Rs. 40,000 (35,640) was proposed to go to the improvement of the

This has been approved.

H. D. TAYLOR—18-11-06.

education. But if, as Mr. Stone points out, the supply of qualified teachers is strictly limited and similar inducements are also being offered in other provinces, it is not likely

Over and above the Rs. 35,640.

H. D. TAYLOR—18-11-06.

This file deals only with the special grant of Rs. 40,000. The Rs. 20,000 cannot be mixed up in this file. Separate reference will be made to the Director of Public Instruction on this point.

H. D. TAYLOR—18-11-06.

2. There remain grants which may be made in aid of equipment and maintenance and perhaps the Director may be consulted u.o. whether the Rs. 20,000 or part of it cannot usefully be spent in this way.

C. G. MACKAY—17-11-06.

The present current merely furnishes details of the allotments sanctioned in G.O., No. 706, Educational, dated 2nd November, 1906, proof copy of which is attached.

G. S. F[ORBES].

It may be recorded with reference to that Government Order.

A 2. The Director will be separately asked as to the proposed distribution of the Rs. 20,000.

3. G.O., No. 706, Educational, dated 2nd November 1906, is only a proof copy—the original having gone in manuscript to the Director of Public Instruction. In issuing the printed Government Order, copy of which will be placed on the Editors' table, the first line and a half of paragraph 3 will be omitted.

G. S. F[ORBES].

H. D. TAYLOR—19-11-06.

B I agree, except as to A. My impression is that we entered Rs. 20,000, because India had not definitely settled what we were to get from the special grant. I don't think we intended to give Rs. 20,000 in addition to India's Rs. 40,000. We provided Rs. 89,000 the normal allotment, and it is the Government of India who are coming to help us to increase that normal allotment?

G. S. F[ORBES]—20-11-06.

Please draft accordingly.

2. The point marked "B" should be dealt with in a separate note.

3. G.O., No. 706, Educational, dated 2nd November 1906, will issue as revised and be marked for Editors' table after Financial have signified acceptance—see separate file.

H. D. TAYLOR—22-11-06.

The draft placed below is submitted for approval. After issue, the question about the provision of Rs. 20,000 will be separately taken up.

P. T. THARYAN—22-11-06.

Issue and take up the point at B separately.

C. G. MACKAY—23-11-06.

[G.O., No. 761, Educational, dated 23rd November 1906.]

Attention is respectfully solicited to Dr. Bourne's demi-official on pages 17 and 18 of the notes with G.O., No. 220, Educational, dated 26th March 1906.

2. In the educational budget for the current year the normal allotment for European schools was provided and Rs. 20,000 in addition "to meet extra cost owing to the introduction of the new Code of Regulations for European schools." In his demi-official above referred to Dr. Bourne calculated the normal allotment to be only Rs. 78,429. The actual amount has now been ascertained to be Rs. 89,079—page 9 of G.O., No. 761, Educational, dated 23rd November 1906.

3. In his demi-official referred to, Dr. Bourne thought that Rs. 69,198 more would be required for the payment of teaching grants under rule 37 of the European Code, but that he could distribute Rs. 50,000 extra over and above the Rs. 20,000 provided. It cannot be that this amount is inclusive of the normal allotment which according to Dr. Bourne's calculation at the time was Rs. 78,429. It seems to follow,

C. G. MACKAY.

But there is a difference of Rs. 10,000 between Dr. Bourne's estimate of normal allotment, and the actuals. This must be provided for.

H. D. TAYLOR—11-12-06.

therefore, that the total of Rs. 70,000 which Dr. Bourne said he could distribute is outside the normal allotment. The Director has, however, now distributed only Rs. 40,000. If the Rs. 20,000 is not now utilized it will lapse to the Provincial balance.

4. The Director may perhaps be asked whether the above note is correct; and if it is, how he proposes to distribute the extra amount of Rs. 20,000.

Yes.

H. D. TAYLOR.

P. T. THARYAN—9-12-06.

C. G. MACKAY—10-12-06.

To the Director of Public Instruction.

H. D. TAYLOR—11-12-06.

OFFICE OF THE DIRECTOR OF PUB. INSTRM.

Owing to incomplete returns the normal allotment was underestimated. The correct figure is Rs. 89,079. The extra amount of Rs. 20,000 alluded to in paragraph 4 of the note has already been utilized in bringing the "old feeding and clothing" grant for the current year up to the standard of the, "boarding grant" as laid down in the Code of Regulations for European schools.

Ref on Cur No. 4 7 7 4/06

Station Madras, Dated the 2nd November 1906

From (Name) The Hon'ble Mr. T.T. Logan, B.A.,

(Designation) Ag: Director of Public Instruction

To The Secretary to the Government of Madras,
Educational Department.

Sir,

2 With reference to G.O. No 706 Educational dated 2nd November 1906 I have the honour to submit a list of European schools showing the present scale of grants to each of them under the old Grant-in-Aid Code and that now proposed to them under articles 39 and 44 of the Code of Regulations for European Schools. The fixed grants proposed are teaching grants for the triennium commencing from 1st April 1906 and the special grants are mostly in aid of the cost of books, apparatus, appliances &c. considered necessary for the proper equipment of the schools.

2 With reference to para 3 of the G.O. under reference I beg to state that steps are being taken to disburse the grants assigned to the schools immediately. In the Proceedings sanctioning the grants the managers will be given to

understand that the continuance of them at these increased rates will depend on the increase being used to promote the efficiency of the schools and further that the grants may be subject to adjustment should such be found necessary.

3 As desired by Government in para 2 of their order I submit herewith a copy of Mr. Stone's letter No. D/749 d/25th September 1906 and a copy of the consolidated list furnished by him. In this list he does not deal with the technical classes attached to some of the schools. The amount of grant formerly received on account of these classes has been calculated in this office and will be included in the lump grant assigned to each school.

4 The question of grants to a few more schools is under correspondence.

I have the honour to be,

S i r ,

Your most obedient servant,

Ernest Hemmest

For Director of Public Instruction.

Copy of a letter from J.H. Stone Esquire, M.A., Inspector
of European and Training Schools, Madras No. D/749 d/
25th September 1906.

I have the honour to submit herewith a consolidated
list of European Schools /Boys and Girls/ eligible for aid
under the Code of Regulations for European schools.

2 For convenience of reference my remarks and recom-
mendations are entered in the body of the statement against
each school.

3 The number and name of the schools correspond to those
in the register of salary grants &c. sent to me for reference
from your office. The following schools are however omitted
in that register but I have included them in my list.

No. 85 Railway School, Bitragunta.

No. 86 South Indian Railway Girls' School, Madura.

No. 87 Railway Girls' School, Negapatam.

They are European schools and appear as such in your
Proceedings Dis No. 5016 dated 20th July 1906 paragraphs 7 and
9. No applications have however been received from the
Inspectresses concerned for a grant in aid of them.

4 The schools have been classified as "Boys" or Girls"
according as they are under my inspection or under that of the
Inspectresses of Girls' Schools.

5 The entry in column 4 shows the present grade of the
school. In the case of a few schools I have noted my opinion
that they should be recognized only for a lower grade and if
my recommendations which will form the subject of a separate
communication are approved, the new grading may be adopted in
the Proceedings sanctioning the grant for such schools.

6 The grant shown as at present drawn for the school
is the grant the schools are actually in receipt of now,
omitting all salary grants that have ceased to be drawn owing
to change in staff, reduction in its number and the like. The
figures therefore in column 5 may not tally in certain cases
either with those given in the register of your office which

4

represent the grant last sanctioned for the school or with those given in the Financial statement for 1905-1906 which may include any arrears of grant drawn. The above remarks apply only to the schools under my charge and to salary grant schools /not fixed grant schools/. In regard to the girls' schools I have taken the figures furnished by correspondents in their applications which in several cases have been certified to be correct by the Inspectresses.

7 I have proposed increases to the teaching grant to most of the schools mainly to enable managers to improve their staffs. I cannot however help feeling considerable doubt as to what will result from the raising of salaries that the increased grants will make possible. The supply of qualified European teachers in India is limited and as I presume the Code will improve their prospects all over the country, it is not to be supposed that the supply in Madras will be at all immediately affected by the offer of somewhat better pay. It appears to me that we must be satisfied to see the additional grant going in a large number of cases to the teachers now in employment and trust either to their being induced by the better prospects the profession affords to qualify themselves more fully for it or to their being replaced by others who have been similarly induced. In either case the process must be a gradual one. Perhaps the best way of hastening it will be for managers to employ some of their increase of grant in sending untrained teachers for training.

8 The provision under the head of "special grants" is mostly for equipment of the schools with books, apparatus, furniture and Kindergarten materials &c. I have not provided in this list for building grants as such grants would not become payable during the current year. I have however noted in a supplementary list the amount of expenditure towards which building grants have been asked for.

9 I have not dealt with the question of grants to Technical Schools except the Presentation Convent Technical class attached to No. 5, as I presume it will be taken up by the Inspector of Technical Schools. I have however included

17/12
5
those schools in my list but made no entries against them.

10 It will be observed that the total amount of increased grants proposed both fixed and special is Rs 37,454/-. It is intended to open a European School in San Thome in January next and I expect to be in a position to recommend for it a special grant of about Rs 700/- and a fixed grant of Rs 150/- per mensem or Rs 450/- for the last three months of the current year. 1800

In your Proceedings Ref on Cur No. 3401 /06 dated 13th September¹⁹⁰⁶, scholarships are offered to pupils in European schools under the Code of Regulations for European Schools. If all offered are awarded an additional sum of about Rs 360/- would be required /ten scholarships averaging Rs 7 per mensem and ten averaging Rs 11 per mensem/ for the last two months of the official year as I presume they will be paid in arrears.

The total amount of increased expenditure involved is therefore Rs 38,964/-.

11 I have not assigned any increase of grant to any Railway school except the Madras Railways' New School at Bitragunta. Pending the passing of orders on my No. D.531 d/ 18th July 1906 submitting a letter from the Agent and Manager Madras Railway Company the relative needs of the schools of that company cannot be determined and it may be expected that any system of grading adopted for the Madras Railway Schools would be extended to those of other companies so that it is not possible either to estimate their needs.

I find from the tables on your last report that the net cost of its schools to the Madras Railway Company /excluding the new school at Bitragunta / was Rs ²⁰³⁴⁰ /- and that it received grants aggregating Rs 4740/-. The grant to the other Railways aggregated Rs 670 without that paid in aid of the Madura school about which I have no information. If therefore grants to Railway schools were increased by 50% about Rs 2800 is required or about Rs 1800 more than the additional Rs 40000 from Imperial funds. It appears to me however that Rs 3606 assigned as special grants will not necessarily be increased expenditure because provision must have been made in the budget

Post 17/12 f

11

13 I could not submit this list earlier, because the applications from Girls' schools have only been recently received.

14 As several correspondents have been writing to me on the subject I request that the grants be sanctioned at your earliest convenience.

15 I herewith return all the papers sent to me from your office for reference in the preparation of the list and all applications referred to me from correspondents of girls' schools.

B.I.
12-11-56

List of Schools (boys and girls) recommended for aid under the Code of Regulations
for European Schools from 1st April 1906.

Serial Number	Name of School.	3	4	5	Proposed grant.		7	8	Remarks.
					Fixed	Special			
1.	St. Mary's European High School, Madras.	B	High	Rs. ..	3000	Rs. ..	Rs. 3000		The teachers now employed in the School draw salary grants aggregating Rs. 2200 when on the staff of St. Mary's College. The Principal and first and second assistants to whom salaries of Rs. 350, Rs. 200 and Rs. 200 are assigned in the grant application are men of the Society of Jesus and therefore not actually salaried. Assigning as their actual cost Rs. 100, Rs. 75 and Rs. 75, the salary bill is Rs. 100 + Rs. 75 + Rs. 75 + Rs. 45 + Rs. 80 + Rs. 50 + Rs. 35 + Rs. 20 + Rs. 20 = 545 x 12 = 6540. The expenses of the School are estimated rather high by the Correspondent at Rs. 3426. I would say Rs. 2500 per annum ought to be enough. To meet the total expenditure of Rs. 9940, there is an estimated fee income of Rs. 4200 leaving Rs. 4840 to be provided. Since however the staff should be improved, I recommend a grant of Rs. 3000. How much of this is increase, I don't know, but I presume there will be saving on the staff of St. Mary's College. An increase of Rs. 1000 is perhaps within the mark.
2.	San Thome' European High School, Madras.	B	High	Vide Covering letter.					
4.	Presentation Convent College, Georgetown	G	High	2880	3500		620		The managers ask for an increased grant for these institutions of Rs. 3220 for teaching, Rs. 1000 for books and apparatus and for repairs for the College. Rs. 2220 for the Orphanage and Rs. 1250 for the Infant School on Rs. 7690. These grants the Inspectress recommends without remark but if it were certain that the money could be usefully spent so large a sum could go to these schools. I recommend for the College a grant of Rs. 3500, an increase of Rs. 620 and Rs. 350 for the Infant School being an increase of Rs. 350. Special grants can be met from Provincial funds. As the orphanage will probably get a considerable additional boarding grant, any further increase seems unnecessary.
	St. Mary's Orphanage — do.	G	Middle				350		
	Presentation Convent Infant School.	G	Primary						

5.	(a). Presentation Convent College, Vepery	G	High	2030	2930	900	The Managers ask for very considerable increased grants in aid of salaries. The school are large ones. The Presentation College would earn Rs 4,103 under the Capitation System of the Code of Regulations for European Schools and the Middle School, Rs 2,007 against grants of Rs 2,030 and Rs 1,020. The sums asked for by the Managers could not, I think, be very largely exceeded but I recommend the increase of the above grants to Rs 2,930 and Rs 1,420. The Technical School has hitherto received no aid. I would suggest for it Rs 2,000 per annum which is one-third of the cost of teachers as estimated by the Managers.
	(b) Presentation Convent Middle School	G	Middle	1020	1420	400	
	(c) Presentation Convent Technical Class.	G	Special		1200	1200	

6.	St. Aloysius' High School, Vizaggapattam.	B	High	2400	4250	250	2100	The Estimated Cost of the Staff of Rs 11960 - allowing Rs 60 a month for the maintenance of each Father (10 including the Principal) which seems enough in a tropical station and an extra Rs 15 for the Principal and adding Rs 1200 for the Salaries of staff we get Rs 8580. The other expenses are estimated at Rs 1260 making a total probable expenditure of Rs 9840. Of this Rs 2100 is left over Rs 7740 to be provided by the Managers. The Correspondent asks for an additional grant of Rs 2400. I recommend an addition of Rs 2100 making a fixed grant of Rs 4500, of which Rs 4250 should be for teaching and Rs 250 for appliances, in the supply of which there is considerable room for improvement.
			High	6084	4200		1410	Increase Fixed Grant - Rs 1850 Special Grant - Rs 250

7.	(a) Bishop Corrie's Grammar School, Madras.	B	High	6084	7500		1416	The Managers have submitted a well-considered Scheme for improving the staff of these Schools which are now amalgamated. Their estimate of receipts and expenditure when this Scheme is put into effect is probably on the whole a just one, though I should hope a larger fee income than Rs 5000 will be realized. Allowing for the loss consequent on the removal of native pupils, I should expect an income of approximately Rs 6000. The estimate for scholarships seems low however as under the Woolley Fund that Rs 440 has apparently to be distributed. The present grant for the two schools is Rs 6084 and the Managers ask for Rs 8000. Since at the present estimate the income from services other than Government grants will approach Rs 8000, I would recommend the grant asked for if funds allow. In view of the claims of other schools however, I recommend only Rs 7500 for teaching grant, being an increase of Rs 1416.
	(b) Bishop Gell's Girls' School, Madras.	G	High					

8.	St. Patrick's Orphanage, Adyar	B	High	3774	3774			Principal Rs 100, 6 Brothers at Rs 75, Rs 450 1 Master, Rs 25, 1 Drawing Master Rs 30 i.e. 605 x 12 = 7260. No income except from Mission funds. If boarding grants are enhanced rates are only to be given for 70 children, the increase is Rs 2940. I see no reason why the school should be a High School. As a Middle School the existing staff will suffice and as there will in any case be a considerable increase of boarding grants I do not think any increase of teaching grant necessary.
			High	1050	1500			
			High	2174	3700			

9. Stanes' High School, Coimbatore. B. High 1928 4,000 260 13476 2072 This School in proportion to its strength and efficiency has received a small grant hitherto. Its income last year from fees and endowments was Rs 4,161 and I recommend that the grant should be raised to Rs 4,000 i.e. an increase of Rs 2072 with a view to improvement in the staff.

10. St. Joseph's European Boarding Institution, Coonoor. B. High 1928 4,250 250 1520 1520 Reckoning the Principal at Rs 100 and each Brother (4 Brothers) at Rs 75 and other Masters at Rs 240, I should estimate the cost of the staff at Rs 7680 as against Rs 9990, the Manager's estimate. Taking his estimate for other expenses (Rs 1254) make the cost of the School Rs 7680 + Rs 2014 = Rs 9694; fees are Rs 1254 so that the net cost is Rs 8440. The present grant is Rs 2980. There is great room for improvement both in staff and appliances. I would therefore raise the grant to Rs 4,500, of which Rs 4250 should be for teaching and Rs 250 for appliances. The increase is Rs 1520.

11. Stanes' High School, Coonoor. B. High 1928 1600 1220 380 380 I do not think that this School justifies its continued existence as a High School. The three upper forms are very small and there is no probability of their being larger. Pupils really capable of profiting from higher studies could be provided for in the School at Coimbatore. I therefore recommend the reduction of the Coonoor School to the Middle School grade. Even then the School should have another teacher. I recommend an increase in the teaching grant of Rs 380.

12. St. Joseph's Poor European Boys' High School, Kealicut. B. High 1928 3000 200 2000 2000 If this School is to justify its recognition as a High School, great improvements in the staff and appliances must be effected. The school is above the average in strength (about 150 Europeans) and has a fee income of about Rs 3000. Its staff last year only cost Rs 5000 on the Manager's estimate. It ought to cost nearly twice that as all the teachers are detached except the Principal. I recommend that its grant should be increased by Rs 2000 making a grant of Rs 3200, of which Rs 3000 is fixed and Rs 200 special. This is of course on condition that the staff is very greatly improved, particularly by largely increasing the proportion of European teachers.

13. Santa Cruz High School, Cochiti. The Majority are Non-Europeans.

14. St. Joseph's Girls' High School,
Waltham.

As the staff is almost entirely
Conventual and no increase ap-
pears to have been applied for,
Rs 2500 seems a reasonable figure
for the fixed grant or an
increase of Rs 340.
A Special grant of Rs 130 being
a half grant on Rs 260 asked for
by the Manager is also recommended.

15. Limpany Memorial Day School,
Cocanada.

Not aided.

16. St. Philomena's High School,
Bellary.

The average attendance is only 88
and a staff of fifteen teachers is
shown; it might be improved by
a reduction in numbers and im-
provement in quality. Five teachers
are only of the lower Secondary
Grade. With a view of replacing
some of them by better qualified
ones, I recommend an increased
grant of Rs 500 making a total
fixed grant of Rs 3000.

17. Presentation Convent School, Vepery.

3000

3000

300

300

This school is actually paying more in salaries than my 'ideal' rates and as 174 out of the 247 of average attendance is in the Primary and Infant Standards, I do not think any enhanced teaching grant is wanted for it. The Correspondent has applied for a building grant and for grant for apparatus. I recommend a special grant of Rs 300 for Physics apparatus.

Loveton Girls' High School,
Madras.

The High and Middle departments of the school are very small, 14 and 18 being the average attendance for whom there are five teachers including the Headmistress and the other two departments are not large. A Lady, has recently been appointed Headmistress from Home and I believe that the Correspondent expects to increase the size of the School with her help. An enhanced grant of Rs 303 a month to improve the pay of the Staff is asked for and Rs 333 for library, Pictures etc. In 1904-05 the School worked at a profit. I recommend an additional fixed grant of Rs 1200, bringing the grant up to about Rs 5100 and a Special grant of Rs 333.

22. St. Joseph's Convent-Girls' School,
Coimbatore.

The average attendance of the school is very small, 37 in 1904-05. For this number the staff seems unnecessarily large. There are four Lower Secondary Teachers on it. A re-organisation of the Staff seems necessary. If the better pay all round to attract better teachers. The increase indicated by the ideal rates could not be utilised however. The Correspondent asks for Rs 227 for books etc. With a view to supplying wants of the staff and to give some scope for improving the staff, the grant might be fixed at Rs 230 (an increase of Rs 52.5) for teaching and a special grant of Rs 22.5 i.e. an increase of Rs 750.

23. *St. Joseph's Convent-School,
Concord.*

The average attendance was about 50 in 1904-05 but has risen since to 70 for when there are nine teachers, of whom three are Lower Secondary. This number seems large. The High Section has a merely nominal existence and is recognized should not be allowed to count in assessing grant with a view to the improvement of the staff as a middle school. I think that a grant of Rs 1400 might be paid for it, being an increase of Rs 500.

24. Nazareth Convent-Girls' School,
Colacmund.

An average attendance of about 40, to in the Upper Secondary Classes. No. 244 contains 4 teachers of the lower secondary grade and certainly wants strengthening. At the same time the average attendance is so small that it is difficult to see why fewer teachers should not be employed.

25.

St. Stephen's Collegiate Girls' School and orphanage.

G.

Middle

550

500

450

This School has improved in strength & size and the Staff has been considerably improved. The Correspondent thinks another teacher necessary - including a volunteer there are now four which satisfies the requirements of the rules and the classes are for the most part so small that I do not think another teacher is an absolute necessity as yet. The expenditure on staff has been raised however from Rs 106 to Rs 220 per annum and the School appears to have no resources except fees and voluntary subscriptions. It is the only School in that Village for the Education of Protestant Girls beyond the Elementary Grade. I therefore recommend an increase of Rs 450 bringing the grant up to Rs 1000.

26.

St. Joseph's Convent Poor European Girls' School, Calicut.

Gr.

High

2400

3000

200

800

There is an average attendance of about 170 and it is not clear why so many teachers (15) are required. The general level of qualifications of the staff is low and no enhanced grant should be given merely to pay it better. If however the Correspondent can improve its qualifications and reduce its number, the fixed grant might be raised to Rs 3000, an increase of Rs 600. A special grant of Rs 200 is also recommended towards the expenditure of Rs 500 on books and apparatus, which the Correspondent asks for.

27.

St. Mary's Poor European Convent Girls' School, Cochin.

Gr.

High

1846

2300

300

754

The average attendance of the School about 132. Thirteen teachers seen to many for so few pupils. It has numerous staff might be better paid and therefore better qualified. The Correspondent has asked for Rs 2000 special grants for Science apparatus, Pianos, staff etc. but says that he cannot provide anything towards the supply of the apparatus. I doubt the necessity for the apparatus even if the school is a High School under the Table of Regulations for European Schools. An increase of fixed grant of Rs 454 in round numbers is recommended and a special grant of Rs 300 for a Piano being an increase of Rs 754.

28.

Holy Trinity Church School, Bellary

B

Middle

870

1000

130

A Headmaster has been appointed and the Correspondent has done his best to improve the staff at an additional monthly expense of Rs 66. The School is a small one however. I think an additional grant of Rs 130, making a total grant of Rs 1000 will meet the case.

29.	St. Joseph's School, Bellary.	B	Middle	500	1450	2518	27267	1000	As the School is only to be only a middle school so large a staff of nine teachers is hardly necessary. Four of them are however non-Europeans and four are natives with only four Secondary qualifications. The Correspondent asks for increased teaching grants to the amount of Rs 280 or 336 a year. This is more than can be provided. I recommend that the grant fixed shall be Rs 1450 for teaching and a special grant of Rs 50 for appliances. The increase is Rs 1000.
30.	Railway School, Guntakal.								

31.	Railway School, Gooty.								
32.	Railway School, Raichur.								

Seven standards are taught by three teachers. Another teacher is therefore required by the Code. The three forms are always very small, however, and I propose therefore that the school should be graded as a Primary School. Christ Church School is so near that it can well meet the need for middle school education in the locality. The Correspondent asks for Rs 15 a month, additional grant towards the pay of the third teacher who is trained. I recommend an increase of fixed grant of Rs 210 making a grant of Rs 720.

These Schools are to be amalgamated and a total attendance of 80 to 100 pupils may be anticipated in seven standards. The Correspondent asks for an increase of grant to better the teaching staff and proposes to employ four teachers. I recommend an increase of Rs 860 (the boys' school drew Rs 800 and the girls Rs 540 last year) making a fixed grant of Rs 1150, which would allow of substantial improvement in salaries and a special grant of Rs 500.

The School contains 60 pupils in six classes and there are three teachers and a Tamil Munshee with pay Rs 45, 20, 25 and 6 respectively. I recommend with a view to substantial improvement of the staff and with a view to the school providing for Pudukottai Lower Secondary School, an increase of Rs 740 making the grant Rs 1200.

As recommended by Mr. Braitwaite the school should be primary. Boys fit for a Lower Secondary Education should be transferred to the R.C. School, New Town, easily accessible from Pudukottai. The staff ought not, however, to be reduced on this account but improved in quality without the Lower Secondary classes. The school had 83 pupils last December. I recommend an increase of teaching grant of Rs 18 a month = 216 and of a special grant of Rs 30 a year towards the supply of books etc. asked for by the Correspondent, making an increase of Rs 246 and a total grant of Rs 1126.

37. Madras Civil Supply Schemes, Kilpauk.

B and C.	Middle	4180	5080	2508	900	The institution had a balance on 1.1.05 of Rs 419 according to the figures supplied by the Deputy Director. It will draw an increase of Rs 1344 as boarding grant in lieu of the old feeding and clothing grants making the grant in come Annual Donation (Special Allowance from Government) Rs. 1200 Salary Grant 4180 Boarding grant 3072 <u>8452</u> The Correspondent asks for a very considerable increase of grant with a view to improving the staff. They propose to double the salaries for fixed and in most cases for (3) new teachers. The increase additional cost of the scheme would be about Rs 3000 and in 5 years over Rs 7000. The Agency's resources are not acceptable of expansion, as that all the increase would have to be met by the grant. This is obviously impracticable in view of the much of other schools. I think however, that the staff is underpaid and every acceptable of improvement as to quality and I recommend an increased grant for teaching of Rs 900.
----------	--------	------	------	------	-----	--

38. St. Francis Xavier's English Boys' School, Madras.

B	Middle	982	1234	48	300	The School is a large one and would earn Rs 2145 under the Code of Regulations for European Schools. I recommend the increase asked for by the Correspondent a teaching grant i.e. Rs 250 and a special grant of Rs 48 — an increase of Rs 300 or grant of Rs 1282.
---	--------	-----	------	----	-----	--

39. Christ Church Poor European Mixed School, Mount Road.

B and C.	Middle	1200	1350	100	250	This is a School of 130 or so and would earn under the Code of Regulations for European Schools Rs 2249. It is better staffed than some and earns a salary grant of Rs 1200. The Correspondent asks for Rs 150 to improve the pay of the staff. I recommend this and also a special grant towards the purchase of a piano and other apparatus, making an increase of Rs 250 or a grant of Rs 450.
----------	--------	------	------	-----	-----	--

40. St. Peter's School, Rayapuram.

B	Middle	820	1180	30	390	The Correspondent estimates the cost of the staff at Rs 5940. I should put it at Rs 3600. Other expenses are Rs 555. To meet the expenditure of Rs 4155, is a fee in come of Rs 455 leaving Rs 3700 to be provided by Managere's funds and grants. The School had 90 pupils on the rolls last year and cannot, I think, be expected to increase greatly in strength. I recommend an increase of Rs 300 fixed grant and Rs 30 special grant, making in all Rs 1210.
---	--------	-----	------	----	-----	---

41. St. Mark's European School, Rayapuram.	B	Middle. 600	900	31663	31666	300	The School although not very large - 70 pupils - realises a pretty good income. It receives a grant from the Madras Railway Company. I think an increase of fixed grant from Rs 600 to Rs 900 will be sufficient.
42. St. Joseph's Boys' School, Perambur	B	Middle 440	800	30	390.	300	The staff of the School much needs strengthening. I recommend an increase of Rs 300 for his part - and of Rs 30. Special grant particularly for additions to the library, making in all an increase of Rs 390 and a grant of Rs 30. [The School ought not to be aided at all. The Children should attend the Madras Railway School and facilities should be given in it for their religious instruction. Similar arrangements work successfully on the Kolar Fields and in Army School.]

900

200

This is a school of about 60 pupils and would earn under the Capitalization System Rs 1600. The Correspondent asks for an increase of Rs 200 fixed grant and Rs 100 per mensem. I think the additional funds will be well applied. I recommend the increase. The grant will then be Rs 900.

60. New School, Pallavaram.

G.

Middle

500

620

120

This is a very small school of hardly more than 20 pupils and the present grant is nearly equal to what it would earn on the Capitalization System. The Correspondent does not ask for an increase but I recommend one of Rs 120 as the second assistant is very badly paid, making in all Rs 620.

61. St. John's Lower Secondary School,
Vellore.

Gr.	Middle	740	860	30	150
-----	--------	-----	-----	----	-----

This is a very small school of 26 pupils. I do not see why it should be recognised as a Middle School. It has at present no Seventh Standard and only 2 Children in the Sixth. The Correspondent asks for an increase of Rs 300 a year in order to improve the staff. He does not apparently contemplate employing an additional teacher which would be necessary under the Code, if the school is to be a Middle School. The school is now drawing Rs 740, that it would under the Capitation System. I recommend an additional fixed grant of Rs 120 and a special grant of Rs 30 making in all Rs 890 (increase Rs 150).

62. Church of England Girls' School,
Cuddalore.

Gr.	Middle	250	470	30	250
-----	--------	-----	-----	----	-----

This very small school certainly need not be of the Middle School grade. The Correspondent asks for an increase of Rs 9 per mensem to enable him to rent a better school house and Rs 20 per mensem to employ a better staff, also a special grant of Rs 30 for furniture. I recommend that the grant be fixed at Rs 470 for teaching and Rs 30 special (increase Rs 250).

63. St. Joseph's Poor European Girls' School,
Trichinopoly.

Gr.	Middle	930	1290		380
-----	--------	-----	------	--	-----

The school appears to be staffed by a teaching sisterhood. The Correspondent revised salary rates can hardly be accepted. Rs 75 a month might be allowed for the Manager, and Rs 50 for each of the other teachers (5) making Rs 390 per annum. In addition to an enhanced teaching grant, the Correspondent asks for grants for purchase of books and apparatus including about Rs 500 for Physics teaching. This seems unnecessary, the other proposed expenditure is trifling. The school will be eligible for increased boarding grants of Rs 252. As the salaries have hitherto been calculated at very low rates, I recommend an increase of Rs 300 fixed grant which will bring it up to Rs 1290.

64. St. John's Vestry School, Trichinopoly.

Gr.	Middle	642	1200		558
-----	--------	-----	------	--	-----

This is a fairly large school (76 pupils). The staff contains 3 pupil teachers but I have no information as to how far they are "pupils". The school largely depends upon subscriptions. With a view to the improvement of the teaching staff which should have at least one more upper secondary teacher, I recommend an increase of Rs 558, which would bring up the grant to Rs 1200, which is about the amount realised by subscriptions.

No application for enhancement appears to have been received and the Chaplain states that the School is maintained from Church Funds. I see no reason to modify this state of things.

65.	All Souls School, Coimbatore.	G. Primary	106,145	30,76	30,291	
66.	Sacred Heart School, Yercaud.	G. Middle	250	250	30	I see no reason why this should be a Middle School, if it is to be one under the Code: the Staff must be entirely reorganised at considerable and in the circumstances unjustifiable expense. The allowance of 4 teachers to 21 pupils is large. The Government asks for an increased grant of Rs 350 a year in diminution of Govt to increase the efficiency of the School. I recommend a special grant of Rs 30 to cover the cost of new books necessary. No increase of grant seems called for, if indeed the School can be aided at all under the Code of Regulations for European Schools.

The Inspectress recommends an additional grant of Rs 240 for apparatus etc. I recommend a special grant of Rs 200 to cover the cost of new books necessary and a special grant of Rs 200 to cover the cost of apparatus etc. I recommend a special grant of Rs 200 to cover the cost of apparatus etc.

74. St. Andrew's Poor Girls' School,
Egmore.

The Correspondent asks for an
additional grant of Rs 200 a month
to improve the staff which is in-
geniously necessary as the Assis-
tant is unqualified and Rs 50 a
month towards other expenses. I
recommend this addition i.e. Rs.
 $25 \times 12 = Rs 300$ making a total
grant of Rs 660. The School has
43 pupils of the poorest class.

75. Fort Catholic Girls' School,
Vizagapatam.

The Correspondent asks for grant
in aid of purchasing furniture,
maps, books etc. to the amount of
Rs 150. A $\frac{2}{3}$ Special grant of
Rs 100 is recommended as the School
is a poor one. Rs 50 is granted
 $50 \times 12 = Rs 600$ making a total
of Rs 700. The school is a
very poor one and the
Correspondent asks for an
additional grant of Rs 200 a month
to improve the staff which is in-
geniously necessary as the Assis-
tant is unqualified and Rs 50 a
month towards other expenses. I
recommend this addition i.e. Rs.
 $25 \times 12 = Rs 300$ making a total
grant of Rs 660. The School has
43 pupils of the poorest class.

76. Friend-in-Need Girls' School,
Madras.

As the School will obtain a
considerably enhanced boarding
grants, no other increase seems
necessary.

[illegible]

81.	Union Girls' School, Madras.	B. Primary	400	400			No enhancement of grant appears to have been applied for. The working of the School in 1904-05 shewed a surplus of Rs 172. I recommend the continuance of the grant of Rs 400 per annum.
82.	Railway School, Pakala.				Vide Covering letter.		
83.	Uppen Boys' and Girls' School, Cochin.	B and G. Primary	267	350	50	133	The Inspectress of Girls' Schools and myself have both at different times strongly urged the advisability of amalgamating these two schools, which are both badly situated and are held under the same roof in adjoining rooms. I recommend that this amalgamation be made a condition of aid, if not of recognition as a European School. The Inspectress recommends a fixed grant of Rs 350 for teaching on condition of improvement in the quality of the staff and Rs 50 for improving the appliances of the School and I concur in this recommendation. As the School has no resources beyond what is contributed by the Manager, care will have to be taken to see that he provides additional funds up to the amount of the increase.
84.	English Boys' School, Purasawalkam.	B. Primary	600	770	30	200	The Staff has recently been reduced from 3 to 2 and under the Code of Regulations for European Schools must be restored to the former number. The School is also very badly off for books and appliances. On condition that a third teacher is again employed and the School be properly provided with books etc, I recommend an addition of Rs 200 - (Fixed Rs 170, Special Rs 30) making the grant Rs 500.
85.	Girls' School, Madras.	B. Primary	800	1100	300	300

EDUCATIONAL DEPARTMENT.

C. No. 1864 From the D. P. I. No. 4774, dated 12-11-1906.

SUBJECT. Scale of grants to European Schools.

In G.O. no. 706 Ed. dated 2nd Nov. 1906, the Govt. approved the proposal of the D.P.I. for the utilization of the special grant of Rs 40,000 made by the Govt. of India in aid of European and Eurasian education and requested him to furnish further details of the distribution of the amount amongst the various institutions and to forward at the same time a copy of the report of the Inspector of European and ^{Training} ~~Technical~~ Schools on the subject of the distribution.

2. The D.P.I. now submits a list of European Schools — pages 7 to 9 of the current file — showing how he has distributed the special grant of Rs 40,000 amongst them. He also submits a copy of Mr. Stone's report on the same subject. It will be seen that the D.P.I. has accepted ^{all} Mr. Stone's recommendations. ~~in toto~~

3. With reference to para 3 of the G.O. cited above the Director states that steps are being taken to disburse the grants assigned to the Schools immediately.

7/4
16/11/06

In the list submitted with the Director's letter

2 P 11

^{total of the}
the Grants paid to European schools under the old Code is shown as Rs 89,079. This amount should therefore be considered as being met from the ordinary budget provision under 22. Education & Grants in aid.

2. The excess which is now proposed to pay is according to the list Rs 35,971 (fixed grants) + Rs 3,610 (special grants) = total Rs 39,581. In the Director's letter printed with G.O. no 706 dt 2nd November 1906 the amount was shown as "about" Rs 39,640.

3. The extra grants which is proposed to pay to European schools is then total up to only the amount placed at the disposal of this Govt by the Govt of India for aiding European schools more liberally than before. In the current year's budget, however, a lump provision of Rs 20,000 was made to meet extra cost owing to the

introduction of the new Code of Regulations for European Schools. This amount will now be a saving but it does not appear that the intention of Govt was that it should be saved as long as the total extra cost was below Rs 17,000 which was estimated by Dr. Bourne to be the extra amount required to pay teaching grants under the new Code - vide his O.O. dt 24th March 1906 on page 17 of the notes with G.O. no 220 dt 26th March 1906.

4. It is possible, however, that the ^{lump provision} sum of Rs 20,000 in the budget, referred to, may be required for the payment of increased boarding & cadet grants. The Director may be asked to enquire about this and if the amount is not required for the purpose, should not a supplemental list of special

Page 145 of the C.B.E.

articles 40 & 43 of the new Code.

grants be called for? The lapses from the Educational Budget have been giving trouble and it seems desirable that the Director should work up to his budgets.

No building grants will be payable during the current financial year - para. 8 of Mr. Stone's letter on page 4 of current.

PH

Secy.

Sum of Rs 40,000 (35,640)

was proposed to go to the improvement of the pay & prospects of teachers, which according to the Annual Report appears to be the most urgent need in European Education. But if as Mr. Stone points out the supply of qualified teachers is strictly limited & similar inducements are also being offered in other provinces, it is not likely that better pay will attract a better class of teachers at least immediately, so that no additional expenditure for this purpose need be made apparently.

There remain grants which may be made in aid of equipment & maintenance and perhaps the Director may be suggested to further the Rs 20,000 or part of it cannot usefully be spent in this way.

17/11/16

This has been approved

15/11/16

Over above the Rs 35,640

Rs 20,000

This file deals only with the Special Grant of Rs 40,000. The Rs 20,000 can be mixed up in the file. Separately it will have to be dealt with after the Rs 40,000

4. P. 5

The present current merely furnishes details of the allotment sanctioned in P.O. 20828 of 2nd Nov 1906, proof copy of which is attached

Z

It may be recorded with reference to that P.O.

87

The Division will be separately asked as to the proposed distribution of the Rs 20000.

AM

I agree, except as to it. My impression is that we entered Rs 20,000, because India had not definitely settled what we were to get from the Penal Court. I don't think we intended to give Rs 20,000 in addition to India's Rs 40,000 we provided Rs 89,000 the normal

2. The Director will be separately asked as to the proposed distribution of the Rs.20,000.

H.D.T.
19-11-06.

H.M.

I agree, except as to A.

My impression is that we entered Rs.20,000, because India had not definitely settled what we were to get from the special grant. I don't think we intended to give Rs.20,000 in addition to India's Rs.40,000. We provided Rs.69,000 the normal allotment, and it is the Government of India who are coming to help us to increase that normal allotment?

G.S.F.
20-11-06.

The point marked "K" should be dealt with in a separate note.

H.D.T.
22-11-06.

V. Attention is respectfully solicited to Dr. Bourne's D.O. on pages 17 & 18 of the note with G.O. no 2202 of 26th March 1906.

2. In the Educational budget for the current year the normal allotment for European schools was provided and Rs 20000 in addition "to meet extra" owing to the introduction of the new Code of Regulations for European schools. In his D.O. above referred to Dr. Bourne ^{calculated} thought that the normal allotment was only Rs 78,429. The actual amount has now been ascertained to be Rs 89,079 - page 9 of G.O. no 761 of 23rd November 1906.

3. In his D.O. referred to Dr. Bourne thought that Rs 69,198 more would be required for the payment of teaching grants under rule 37 of the European Code, but that he could distribute Rs 5000 extra over and above the Rs 20000 provided. It cannot be that this amount is inclusive of the normal allotment which according to Dr. Bourne's calculation at the time was Rs 78,429. It seems to follow therefore that the total of Rs 70000 which Dr. Bourne ^{claimed} he could distribute is outside the normal allotment. ^{The Director} has however now distributed only Rs 40000. If the Rs 20000 now utilized it will lapse to the Provincial balance.

4. The Director may perhaps be asked whether the above note is correct, and if so how he proposes to distribute the ^{extra} amount of Rs 20000.

Secy. *Wm*
10/12/06

But there is a difference of Rs 10000 between Dr. Bourne's estimate of normal allotment, & the actuals. This must be provided for.

W.B.
11-12-06

G.B.

9/12/06

1/10/10

An oval-shaped ink stamp from the 'LOCAL & MUNICIPAL SECRETARIAT.' The date '13 DEC 1906' is stamped in the center. The words 'LOCAL & MUNICIPAL' are curved along the top inner edge, and 'SECRETARIAT.' is curved along the bottom inner edge. Small floral or star-like symbols are positioned on the left and right sides of the oval.

The extra amount of Rs 20,000 alluded to in para 4 of the note has already been utilized in bringing the old 'feeding & clothing' grant for the current year up to the standard of the 'boarding grant' as laid down in the Code of Regulations for European Schools.
