GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—the following papers:—

I

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras.
To—the Secretary to Government, Educational Department (through the Accountant-General and the Surgeon-General).
Dated—the 14th July 1906.
No.—Ref. on Cur. No. 209.

In his report, copy enclosed, on the working of the Medical School, Vizagapatam, for the year 1904-1905, the Superintendent laid stress on the inadequacy of the staff and the need there was of strengthening it; and Surgeon-General Browne to whom the report was referred also remarked that to perfect the system of instruction given in the school the addition of another instructor as asked for by the Superintendent was advisable. Thereupon I called for full particulars showing the number of hours and the number of subjects each of the instructors was teaching or would have to teach next year when all the four classes of the new curriculum would be working: and an extract from this report is submitted showing that it is necessary to relieve each of the four instructors now employed of one subject and that to do so another full-time instructor should be appointed.

The Superintendent says :—

“ The first instructor is much pressed for time especially during my absence on tour having to discharge all my duties at head-quarters in addition to his own.

"In an important charge like that of Vizagapatam with many collateral charges the work in head-quarters is very heavy. The Assistant Surgeon therefore feels the teaching of the two subjects too much for him and will find it more so next year when a third subject is added.

"The second instructor besides his three subjects has to take clinical classes in hospital.

"The third and fourth instructors are full-timed men but no additional work can be entrusted to either of them as the former is managing the several Anatomy classes single handed and the latter has already four subjects to teach".

As for the Superintendent, the time-table does not show his work which, besides correspondence, consists in exercising a general supervision over the work of the students. He goes round the wards in the hospital with the students and imparts clinical instruction. It is not possible for him to do regular lecturing or the entire clinical teaching in any particular subject. Further, the work now being done is what was contemplated in G.O., No. 654, Educational, dated 22nd October 1896. The present acting Surgeon-General who was also consulted on the subject considers that an additional instructor is absolutely necessary.

2. In these circumstances I have the honour to request that Government may be pleased to sanction the appointment of an additional full-time instructor from 1st September next. He should be an officer of the Medical Department holding an appointment included in the cadre of Civil Assistant Surgeons. The reasons for this recommendation are contained in my proposals for the appointment of two additional instructors in the Medical School, Rayapuram, sanctioned in G.O., No. 308, Educational, dated 3rd May 1906.

3. The necessary proposition and reappropriation statements are submitted.

ENCLOSURES.

(1)

[illegible]

Endorsement of the Surgeon-General with the Government of Madras, dated the 27th July 1906, No. 444.

Forwarded.

2. In my opinion another full-time instructor is absolutely necessary.

III

Letter—from W. DOBBIE, Esq., Accountant-General, Madras.
To—the Secretary to Government, Educational Department.
Dated—the 9th August 1906.
No.—T. 191 Vizag./5454.

In forwarding the enclosed proposition statement received with letter Ref. on C. No. 209, dated 14th July 1906, from the Director of Public Instruction, I have the honour to state that the entries in the column "Present scale" have been compared with the registers of this office and are correct.

2. There is no audit objection to the proposal and the re-appropriation being sanctioned by Government.

3. It is requested that a copy of the proposition statement may be forwarded to this office for record if the proposal is sanctioned.

IV

Memorandum No. 397, Educational, dated 20th August 1906.

The Director of Public Instruction is requested to submit statements showing—

- (1) the names, pay and standing of the present Superintendent and Instructors of the Vizagapatam Medical School;
- (2) the number of hours and the subjects each of them would have to teach when all the four classes of the new curriculum are working;
- (3) other work, if any, done by each of them and the time occupied in it; and
- (4) the average size of the classes.

2. The statistics on these points already collected by the Director should also be submitted for reference.

3. The Director is also requested to report the precise nature of the duties performed by the Superintendent, Medical School, Tanjore, and whether he delivers any lectures or undertakes other work of specific instruction, as apart from general supervision.

(By Order.)

C. G. MACKAY,
Ag. Asst. Secretary to Government.

V

Letter—from the Hon'ble Mr. T. T. LOGAN, B.A., Ag. Director of Public Instruction
To—the Secretary to Government, Educational Department.
Dated—the 6th October 1906.
No.—Ref. on Cur. No. 209.

Referring to memorandum No. 397, Educational, dated 20th August 1906, I have the honour to submit copies of two statements, dated 11th September and 25th September 1906, prepared by the Superintendent, Medical School, Vizagapatam, which contain the particulars required in paragraph 1 of the memorandum.

2. In regard to paragraph 2, I submit in original for reference and favour of return—

(i) a statement furnishing particulars of the hours of work—both tutorial and clinical—of each instructor;

(ii) two time-tables; and

(iii) letter No. 15/06, dated 17th April 1906, of the Superintendent.

3. As regards paragraph 3 I beg to state that the Superintendent, Medical School, Tanjore, besides the general supervision exercised by him delivers (i) lectures on Surgery and Ophthalmology in the school for 7 hours a week and (ii) clinical lectures in the hospital wards for 5 hours a week. During the absence of the Superintendent from head-quarters, the First Instructor without prejudice to his own duties delivers lectures on Surgery. The Superintendent of the Medical School, Tanjore, has not got the executive charge of the District Jail, which the Superintendent at Vizagapatam holds, and further the school at Tanjore contains a smaller number of students than either the school at Vizagapatam or the one at Rayapuram as will be observed from the fact that the number of students on the rolls of the Rayapuram, Vizagapatam and the Tanjore Medical Schools on the 31st March last was 198, 46 and 18, respectively.

ENCLOSURES.

(1)

STATEMENT furnishing particulars of the hours of work—both tutorial and clinical—of each instructor.

(3)

Letter—from Captain E. M. ILLINGTON, I.M.S., Superintendent, Medical School, Vizagapatam.
To—the Director of Public Instruction.
Dated—the 17th April 1906.
No.—P.C. 15.

With reference to your Ref. on C. No. 209/6, dated 24th March 1906, I have the honour to state that my work in connection with the school consists of a general supervision of the work of the students. At the hospital I go round the wards with the students, hear them, read their cases, ask them questions regarding them and give them clinical instruction.

2. In this connection I would point out that in the morning I have besides the hospital work to visit the Jail of which I hold the executive as well as medical charge. The work at these two institutions occupies me nearly always till 12 o'clock and very frequently later. During the session I attend my office which is in the Medical School building at 2 o'clock and the work in connection with this takes as a rule two or more hours. It is quite impossible for the Superintendent with his present duties to undertake a regular lectureship or the entire clinical teaching in any particular subject. I gather from G.O., No. 654, of 22nd October 1896, that it is not intended that he should.

(4)

The following statement shows the subjects on which each Instructor will lecture from July 1905 with the number of hours per week to be allotted to each subject:—

	Hours per week.
First Instructor—	
Surgery ..	5
Medical Jurisprudence ..	3
Ophthalmology * ..	2

VI

Memorandum No. 4254—1, Public, dated 10th November 1906.

With reference to his endorsement No. 444, dated 27th July 1906, recommending the appointment of an additional full-time instructor in the Vizagapatam Medical School, the Surgeon-General is referred to the proposals contained in his letter No. 384, dated 23rd October 1905, and to the orders issued in G.O., No. 1284, Judicial, dated 2nd August 1906, regarding relief to be afforded to the District Medical and Sanitary Officer, Vizagapatam. The Surgeon-General is requested to favour Government with his opinion whether, in case the Jail and Lunatic Asylum at Vizagapatam were placed in charge of a separate Indian Medical Service officer, he could also be placed in charge of the Medical school.

2. The Surgeon-General is also requested to report, in communication with the Director of Public Instruction, whether if an additional full-time instructor be appointed to the Medical school, the Assistant to the District Medical and Sanitary Officer could be relieved of his duties in connection with it.

(By Order)

A. GALLETTI,
Under Secretary to Government.

VII

Letter—from Surgeon-General W. R. BROWNE, M.D., V.H.S., C.I.E., I.M.S., Surgeon-General with the Government of Madras.

To—the Secretary to Government, Educational Department (through the Director of Public Instruction).

Dated—the 20th November 1906.

No.—611.

With reference to memorandum No. 4254—1, Public, dated 10th November 1906, I have the honour to state that in case an Indian Medical Service officer were appointed to the charge of Superintendent of the Jail and also of the Lunatic Asylum as advocated in my letter No. 384 of the 23rd October 1905, I should not be in favour of placing him in charge of the Medical school for this main reason that such officer would not be in charge of the hospital where the all important work of clinical teaching of the students of the school is carried out. The District Medical Officer is the Chief Physician and Surgeon of the hospital and performs most of the major operations that are carried out there and he will also be the most important factor in the clinical work when he has, as I hope to see, sufficient time at his command on his relief of the charge of both jail and asylum. It is very desirable that the District Surgeon should be in close contact with all the students, and so should his Assistant Surgeon be, and I favour the retention of the teaching in the school of one subject by the latter. One subject will not prove to be too much even when the Assistant Surgeon has to be in charge of headquarters during the absence of the District Surgeon on inspection duty in the district, but as now attempted the teaching of several subjects by the Assistant Surgeon has been shown to be an impossibility and the fourth Instructor has become a necessity for the efficient teaching of the students under the tutorial system these lads require. It may be possible later on to associate the Indian Medical Service officer, I desire to see in charge of the jail and asylum, with the teaching of the school, but the success of such association would partly depend on the personality of the officer and of the amount of time at his disposal after the work of the two institutions had been as thoroughly carried out as I should like to see it done; and therefore I would prefer to delay advocating joining this officer in the work of the school until I had seen how he managed the jail and asylum.

VIII

Endorsement T. T. Logan, Acting Director of Public Instruction, R. on
C. No. 209, dated 5th December 1906.

Submitted to Government.

2. I agree with the Surgeon-General in thinking that neither the District Surgeon nor his Assistant should be relieved of his duties in connection with the Medical school.

Order—No. 10, Educational, dated 8th January 1907.

The entertainment of an additional Instructor in the Vizagapatam Medical School is sanctioned. The post will be held by a Civil Assistant Surgeon who will be granted a teaching allowance of Rs. 30 per mensem in addition to his grade pay.

2. Further orders will issue in the Public Department.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction
" Financial Department
" Public Department.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 10, EDUCATIONAL, DATED
8TH JANUARY 1907.

[SUBJECT.—Appointment of a fifth instructor on Rs. 100 grade pay plus Rs. 30 teaching allowance in the Vizagapatam Medical School.]

From the Director of Public Instruction, dated 14th July 1906, No. 203.

The Director of Public Instruction requests sanction to the appointment of a full-time fifth instructor in the Vizagapatam Medical School from the 1st September 1906. It is stated that he should be an officer of the Subordinate Medical Department holding an appointment included in the cadre of Civil Assistant Surgeons with a grade pay of Rs. 100 and a teaching allowance of Rs. 30.

2. The strength of the school at the close of the session 1904-1905 was 39, divided into four classes, and to teach these classes there were four instructors. The first instructor is the Assistant to the District Medical and Sanitary Officer, Vizagapatam, receiving a teaching allowance of Rs. 100 from the school. The second * instructor gives the students clinical instruction also.

* What is his permanent post?

H. D. TAYLOR.

The remaining two instructors are full-time men. These three instructors receive Rs. 100 pay plus Rs. 30 allowance each. There is also a Superintendent for the school (the District Medical and Sanitary Officer) with an allowance of Rs. 150 from the school, but he takes no part in teaching.

Does he not lecture at all? What are his duties?
H. D. TAYLOR.

work. It is stated that each of the first three instructors has three subjects to teach and the fourth, four, and the proposal seems to be to employ an additional instructor and give each of the existing instructors an hour's relief a day.

3. The Director called for full particulars showing the number of hours and the number of subjects each of the instructors was teaching or would have to teach when all the four classes of the new curriculum would be working and satisfied himself that the additional instructor was necessary. It would perhaps have been well if he had submitted the information collected to Government, so that they might see for themselves how many hours' teaching and other work each of the instructors would have in future. Should this information be called for?

Yes, certainly.

H. D. TAYLOR.

4. The first instructor cannot spare more than two hours for school work but should apparently continue to receive the full teaching allowance of Rs. 100 per mensem in addition to his grade pay and charge allowance of Rs. 50— paragraphs 1 and 4 of G.O., No. 749, Public, dated 2nd October 1905.

5. In G.O., No. 308, Educational, dated 3rd May 1906, two additional instructors were sanctioned for the Rayapuram Medical School, but there was no full-time instructor in the school. Including these men and excluding the Superintendent there are six instructors in the school at present. In Vizagapatam it is proposed to have only five.

But how do the numbers and classes compare?

H. D. TAYLOR.

6. If the present proposal is approved, the proposition statement has to be sanctioned in Public.

P. T. THARYAN—14-8-06.

What is the relative strength of the schools and what of Tanjore staff?

C. G. MACKAY—14-8-06.

The strength of the three schools on 31st March 1905 was as follows:—

Page 14 of Vol. II of Public Instruction Report for 1904-1905.	Ráyapuram Medical School	206
	Vizagapatam Medical School	39
	Tanjore Medical School	15

2. The sanctioned staff of these schools is as follows:—

Page 166, Civil Budget estimate for 1906-1907, Page 5 of G.O., Nos. 356-57, dated 14th June 1902, and page 3 of G.O., Nos. 39-40, dated 20th January 1906, also paragraphs 4-6 of G.O., No. 749, Public, dated 2nd October 1905.		Superintendent.	Instructors.	
Ráyapuram ..	1 (200)	6	1 (100) + Teaching allowance.	
			3 (50)	do.
			2 (30)	do.
Vizagapatam ..	1 (150)	4	1 (100)	do.
			3 (30)	do.
Tanjore ..	1 (150)	4	1 (100)	do.
			3 (30)	do.

P. T. THARYAN—14-8-06.

If we do appoint a full-time fifth instructor, is it worth while retaining the first instructor who only works *two* hours a day in the Medical School?

C. G. MACKAY—15-8-06.

The first instructor appears to be the Assistant to the District Medical and Sanitary Officer. Is this the Sanitary Assistant under the new scheme? Has he touring work to do?

2. Do not the Superintendents at Tanjore and Ráyapuram do any teaching or lecturing work? If not, of what do their duties consist?

3. Who is the Second Assistant at Vizagapatam? Apparently he is not a full-time man. If so, what is his permanent post?

4. The Director of Public Instruction should have submitted the statistics as to hours of teaching and other work. These should be called for at once. The figures given by the Director are unintelligible.

5. It is hardly possible to argue from Ráyapuram with 206 pupils to Vizagapatam with 39 pupils. This and the large size of the classes (average 65) was the reason given for increasing the staff at Ráyapuram—*vide* Director of Public Instruction's letter read on page 2 of G.O., No. 308, Educational, dated 3rd May 1906. The classes at Vizagapatam must be small in comparison.

G. S. F[ORBES].

6. The need for an additional instructor at Vizagapatam must be shown on the merits. The staff at Ráyapuram was enlarged because of the larger number of students under instruction. It is now proposed to raise the strength of the staff at Vizagapatam *partly* on the ground that the staff at Ráyapuram was increased—paragraph 2 of Director of Public Instruction's letter.

H. D. TAYLOR—16-8-06.

Submitted that Assistants to District Medical and Sanitary Officers are different from Sanitary Assistants—please see the distribution list of Assistant Surgeons on page 6 of G.O., No. 404, Public, dated 30th May 1906. Under paragraph 110 of the Civil Medical Code "Assistants to District Medical and Sanitary Officers should attend "and assist in the duties of the several medical institutions at *head-quarters*. . . . "They may be deputed by the District Medical and Sanitary Officer to visit localities "attacked by epidemic disease and to supervise sanitary and medical arrangements "at fairs and festivals. They may also be deputed to visit such of the district medical "institutions as require to be inspected more frequently than once a year."

2. The Superintendent of the Ráyapuram Medical School has no teaching work in the school but has clinical teaching in the hospital. He exercises general supervision and carries on correspondence—please see paragraph 2 of the Director's letter on page 13 of G.O., No. 308, Educational, dated 3rd May 1906; also recommendation 3 of the Committee appointed to

G. S. F[ORBES].

Does not the District Medical and Sanitary Officer at Vizagapatam give clinics at the hospital?

consider the question of improving the training of hospital assistants—page 9 of G.O., No. 654, Educational, dated 22nd October 1896. The duties of the Superintendent of the Tanjore School must apparently be the same but we have no definite information.

3. The Second Assistant at Vizagapatam is like the third and fourth assistants a full-time man whose pay and allowance are wholly debited to the school—with this difference that he has to give clinical instruction to the pupils—please see page 2 of G.O., No. 308, Educational, dated 3rd May 1906.

4. The draft placed below is submitted for approval.

P. T. THARYAN—16-8-06.

C. G. MACKAY—17-8-06.

Issue.

H. D. TAYLOR—19-8-06.

[Memorandum to the Director of Public Instruction, No. 397, dated 20th August 1906.]

From the Director of Public Instruction, dated 6th October 1906, No. 209.

In reply to Memorandum No. 397, dated 20th August 1906, the Director submits statements showing the names of the present Superintendent and Instructors of the Vizagapatam Medical School, the number of hours and the subjects each of them have to teach, other work done by each of them and the average size of the classes. From this statement it appears—

(1) that the Superintendent is Captain E. M. Illington, District Medical and Sanitary Officer, Vizagapatam, with medical charge of the Jail and Superintendent, Lunatic Asylum. His pay is Rs. 750 with an allowance of Rs. 50 for the Lunatic Asylum and of Rs. 150 per mensem for being in charge of the school. His service is 11 years. He gives clinical instruction in the wards, does office work and conducts the ordinary duties of a District Surgeon, the whole work occupying him 10 hours a day. He does no teaching work in the Medical School, and from recommendation 3 of the Committee appointed to consider the question of improving the training of Hospital Assistants—page 9 of G.O., No. 654, Educational, dated 22nd October 1896—it does not seem to be intended that he should take part in actual teaching work;

We are not concerned with his general duties as District Medical and Sanitary Officer or Jail Superintendent.

H. D. TAYLOR.

No; if he will, as he does, give clinical instruction in the wards, we cannot expect more in the teaching line.

G. S. F[ORBES].

H. D. TAYLOR.

(2) that the First Instructor is S. Chandrasekhara Mudaliyar, L.M. & S., Assistant to the District Medical and Sanitary Officer, Vizagapatam. His service is 14 years—grade pay Rs. 100 besides charge allowance Rs. 50 and teaching allowance debited to the school, Rs. 100 per mensem. He gives clinical instruction in the surgical wards and is in charge of these wards. Both together occupy him 4 hours a day. He has also lecturing work (in three subjects) for 10 hours a week besides office work and charge of library which occupy him 1 hour a day. When the District Surgeon is on tour he is in charge of all his head-quarter duties entailing 10 hours work a day;

(3) that the Second Instructor is U. Sitaramaswami Naidu, L.M. & S., Civil Assistant Surgeon, service 2 years, pay Rs. 100 + 30 teaching allowance both charged to the school. He has charge of the medical wards and gives clinical instruction, both

At most 5 hours work a day as whole time instructor.

H. D. TAYLOR.

duties occupying him, 2½ hours a day. He has lecturing work (in three subjects) for 12 hours a week besides the charge of the museum which gives him one or two hours' work a week.

(4) that the Third Instructor is V. Venugopal Naidu, B.A., M.B. & C.M., Civil Assistant Surgeon, service under 1 year, pay Rs. 100 + 30 teaching allowance wholly debited to the school. He has no hospital duties, but has lecturing work for 3½ hours a day.

H. D. TAYLOR.

besides 3 hours once a week in taking the students in minor surgery; (5) that the Fourth Instructor is B. Shama Rao, L.M. & S., Civil Assistant Surgeon, service under 1 year, pay Rs. 100 + 30 teaching allowance wholly debited to the school. He is in charge of the maternity ward and gives clinical instruction when there are cases. He has only 17½ hours a week (in three subjects) Say 2½ hours a day.

H. D. TAYLOR.

13 hours lecturing work in four subjects.

2. It is for consideration whether the work in any case is too much to require the employment of an additional instructor. The strength of the classes varies from 4 to 30.

3. The Superintendent of the Tanjore Medical School has no Jail duties, but lectures on Surgery and Ophthalmology in the school for 7 hours a week and gives clinical instruction in the hospital for 5 hours a week.

P. T. THARYAN—17-10-06.

To judge from the work as now explained, one would not suppose that the second, third or fourth instructor had too much to do, even when the time that they ought to spend in improving their professional knowledge is taken into account. It seems doubtful if a case for a fifth instructor has been made out satisfactorily.

2. The Superintendent in his last report, however, states that the men are overworked and the Surgeon-General agrees. It is possible, of course, to argue that it is not the actual number of hours that matters, but the number of subjects. If we do not grant the instructor asked for, perhaps the Surgeon-General may be asked how he can arrange for the teaching of the extra subject which is now to be taught.

C. G. MACKAY—20-10-06.

I cannot see that an additional instructor is necessary. The second, third and fourth instructors have at most 5, 3½ and 2½ hours' work a day. The District Medical and Sanitary officer is no doubt overworked and his frequent absence on tour in such a large district throws much ordinary routine work on the first instructor.

2. Are there not some proposals in Public to place a separate Medical officer in charge of the Jail and Lunatic Asylum at Waltair?

H. D. TAYLOR—23-10-06.

Submitted that the proposal is in Judicial. The Surgeon-General proposed to put in a Medical officer in charge of the Jail at Waltair and to give him also the charge of the Lunatic Asylum—vide his letter on page 2 of G.O., No. 175, Judicial, dated 1st February 1906. The Government have not passed final orders on the proposal as yet. The Jail buildings are being extended with the view of converting the jail into a second-class central jail. Meanwhile the District Medical and Sanitary officer has been relieved of the executive charge of the jail and a special officer has been appointed for this charge—G.O., No. 1284, Judicial, dated 2nd August 1906.

P. T. THARYAN—26-10-06.

C. G. MACKAY—26-10-06.

If the proposal at "A" is approved, it would seem better to combine that post with the post of Superintendent, Medical school, Vizagapatam. It would be much better for the school that the Superintendent should be an officer who resides permanently in the station. The District Medical and Sanitary officer, Vizagapatam, has to

visit institutions in the agency also, and has little time left for duty at head-quarters. In that case no extra instructor would appear to be necessary.

H. D. TAYLOR—27-10-06.

One proposal in the notes which may require consideration is to replace the Assistant to the District Medical and Sanitary officer by a full-time instructor. An Assistant ought to have enough work of his own without teaching, and he may be called away at any time by epidemic supervision, etc.

2. If the Jail and Lunatic Asylum are put under a separate officer of the Indian Medical Service, it would be well, as suggested, to transfer the charge of the school to him, as a residential officer. Would there be any objection in Public to making this a regular additional duty of the officer. Better find this out and whether the Surgeon-General's proposal is to be accepted.

G. S. F[ORBES]—31-10-06.

The papers may be forwarded u.o. to Public for remarks.

P. T. THARYAN—1-11-06.

[Official memorandum No. 4254-1, dated 10th November 1906.]

To the Educational Department.

EDUCATIONAL DEPARTMENT.

From the Director of Public Instruction, dated 5th December 1906, No. 209.

The Surgeon-General's letter is in reply to a memorandum issued from the Public Department; it may be forwarded to that department u.o.

T.K.—8-12-06.

P. T. THARYAN—8-12-06.

C. G. MACKAY—10-12-06.

To the Public Department.

PUBLIC DEPARTMENT.

The Surgeon-General and the Director of Public Instruction are of opinion that it is undesirable to relieve either the District Medical and Sanitary Officer, Vizagapatam, or the Assistant Surgeon of his duties in connection with the Medical school, and to place the school under the charge of the Medical officer in charge of the Jail and Asylum should one be appointed.

2. The file may, it is submitted, now go back to the Educational Department for submission to the Honourable Member.

N.K.—13-12-06.

C. S. SIMPSON—14-12-06.

A. GALLETTI—15-12-06.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

For orders as to appointment of a fifth instructor on Rs. 130 for the Medical school, Vizagapatam. Please see the last paragraph of the Surgeon-General's letter, wherein he holds out hope that at some future time the officer to be appointed to the charge of the Lunatic Asylum and Jail may be *associated* with the work of the Medical school. But his suggestion does not assume any definite shape.

H. D. TAYLOR—17-12-06.

A fifth instructor is needed and may be appointed.

2. I agree that the District Medical and Sanitary Officer must remain in charge of the students as he is in charge of the hospital, and in any case it would fall upon him to give clinics.

G. S. F[ORBES]—17-12-06.

Please draft for acceptance of Financial.

H. D. TAYLOR—19-12-06.

The draft placed below is submitted for approval. The procedure in this case is that described in paragraph 2 of the Public Department office-note at the bottom of page 5 of the notes with G.O., No. 308, Educational, dated 3rd May 1906.

2. The draft has to be accepted in Public and Financial. Public has to issue further orders on receipt of the Educational order. There is provision in the budget for 1907-1908 for this additional assistant. The budget is with Financial.

Ref on Cur No. 209/06

Station Madras, Dated the 14 July 1906

From (Name) The Hon'ble Mr. A.G. Bourne, D.Sc., F.R.S.,

(Designation) Director of Public Instruction

Madras

To The Secretary to the Government of Madras,
Educational Department.

Through
The Accountant-General
And
The Surgeon-General.

Paper 13-16.

In his report, copy enclosed, on the
working of the Medical School, Vizagapatam for the year 1904-05
the Superintendent laid stress on the inadequacy of the staff
and the need there was of strengthening it; and Surgeon-General
Browne to whom the report was referred also remarked that to
perfect the system of instruction given in the school the
addition of another instructor as asked for by the Superintendent
was advisable. Thereupon I called for full particulars showing
the number of hours and the number of subjects each of the
instructors was teaching or would have to teach next year when
all the four classes of the new curriculum would be working;
and an extract from this report is submitted showing that it is
necessary to relieve each of the four instructors now employed
of one subject and that to do so another full-time instructor

2
should be appointed.

The Superintendent says:-

"The first instructor is much pressed for time especially during my absence on tour having to discharge all my duties at Headquarters in addition to his own.

In an important charge like that of Vizagapatam with many collateral charges the work in Headquarters is very heavy. The Assistant Surgeon therefore feels the teaching of the two subjects too much for him and will find it more so next year when a third subject is added.

B | The second instructor besides his three subjects has to take clinical classes in hospital.

The third and fourth instructors are full-timed men but no additional work can be entrusted to either of them as the former is managing the several Anatomy classes single handed and the latter has already four subjects to teach."

As for the Superintendent, the time-table does not show his work which besides correspondence consists in exercising a general supervision over the work of the students. He goes round the wards in the hospital with the students and imparts clinical instruction. It is not possible for him to do regular lecturing or the entire clinical teaching in any particular subject. Further, the work now being done is what was contemplated in G.O. No. 654 Educational dated 22nd October 1896. The present acting Surgeon-General who was also consulted on the subject considers that an additional instructor is absolutely necessary.

P. 2. In these circumstances I have the honour to request that Government may be pleased to sanction the appointment of an additional full-time instructor from 1st September next. He should be an officer of the Medical department holding an appointment ^{included} in the cadre of Civil Assistant Surgeons. The reasons for this recommendation are contained in my proposals for the appointment of two additional instructors in the Medical School, Rayapuram sanctioned in G.O. No. 308 Educational dated 3rd May 1906.

Q. 3. The necessary proposition and reappropriation

Dis. No. 6110.

PROCEEDINGS OF THE DIRECTOR OF PUBLIC INSTRUCTION, dated 19th September 1905.
Medical School, Vizagapatam.

Read the following letter from Major W. VICKERS, I.M.S., Superintendent, Medical School, Vizagapatam, to the Director of Public Instruction, Madras, dated Vizagapatam, 20th June 1905, No. 257 :—

I have the honour to forward the "Administration Report for the year 1904-1905" the third year of the working of the school.

2. *The staff.*—Assistant Surgeon P. P. Pinto who had been away on special duty reverted to his appointment on the 4th May 1904. Having been again placed on special duty elsewhere he handed over charge to Assistant Surgeon U. Seetaramaswamy Naidu at the end of December 1904 (30th December).

Mr. Kesava Pai, having been promoted to Assistant Surgeon's grade and there being no allotment to meet the consequent increase of salary, was relieved by private graduate. Mr. M. Lakshmana Kamath on the 5th August 1904.

Strength.—The school has consisted of four classes of pupils according to their years of study :—

Final year	9
Second year old curriculum	7
„ new curriculum	5
First year pupils	19

Two of these were remanded pupils of last year. Of the first year new admission—two were Native Military pupils, eleven Madras-Burma pupils, a class which has been sent to this school for the first time and the rest four were Civil Medical pupils.

One death occurred among the pupils during the year from pulmonary tuberculosis thus reducing the strength to 39 at the close of the session.

Standards of admission.—Twenty-three of the students are Matriculates and the rest 16 Lower Secondary men. Seven of the latter belong to the Madras-Burma pupils' class while five are District Board and four Native Military pupils.

Distribution of the students according to districts whence drawn :—

Ganjám	7
Vizagapatam	14
Górávari	5
Kistna	3
Nellore	1
Madras	2
Chingleput	1
Tanjore	2
Trichinopoly	1
Tinnevely	1
Mangalore	1
Bellary	1

According to castes :—

Brahmans	10
Hindus of other castes	27
Muhammadians	2

According to social position :—

Sons of officials	7
Sons of petty officials	14
Traders	3
Landholders	10
Artisans	Nil.
Others	5

Examination results.—Of the nine final year seven were sent up; two being too backward were detained. All the seven passed with three in the first class. Of the second year new curriculum pupils all the five passed. None were detained. Of the 13 first year new curriculum pupils sent up, seven passed. The rest six failed in only one subject and total marks. When re-examined at the beginning of the session, more of them should pass as two of the three that failed last year passed at the subsequent re-examination.

Four students were not sent up as they were reported to be backward by the instructors; either they joined late or they were not able to follow the lectures given on account of defective general education.

Shaik Abdul Rahiman, a pupil of the school, won the Mohideen Sheriff and the Price Memorial prizes while the Kannuswamy prize was won by Native Military pupil G. Appalanarasimhulu.

Abdul Rahiman.—I hoped he would also win the Government Gold Medal at the final examination of the Board, but by an unfortunate accident was prevented from appearing for the competitive examination. In addition to those already mentioned two of the second year old curriculum pupils had to be reported by their instructors as deficient in industry or attainments or both. In the majority of cases the reports of the instructors were verified by myself.

The number of lectures given is as follows :—

Subjects.	Number of lectures.	Tutorial.	Examinations.	
Medicine	84	35	30	1 to 4
Surgery	76	30	30	1 to 3-5
Anatomy { Senior	110.	..	32	1 to 3-5
Junior	140	..	40	1 to 4-5
Minor Surgery	30	8	8	1 to 4-75
Chemistry	30	8	8	1 to 4-75
Medical Jurisprudence	51	15	17	1 to 4
Materia Medica	72	26	24	1 to 4
Midwifery	95	39	..	..
Physiology	74	22	20	1 to 4-5
Elementary Hygiene	41	21	13	1 to 4-75
Hygiene	55	15	15	1 to 4-75

Physical training.—The tennis court has been kept up. Owing to the large number of students a Badminton court was also added during the year. The subscriptions from the students had to be supplemented by aid from the Superintendent and the instructors to enable the courts to be maintained. It is hoped that next year students themselves will cover the cost of upkeep of these games.

I think that another tennis court will become a real necessity and gymnasium is much needed.

Library.—Twenty-four books were added during the year there being in all 133 books.

The museum.—There were some interesting and useful specimens received from this and adjacent districts.

Buildings.—His Excellency Lord Ampthill during his last visit laid the foundation stone of the permanent building the plans and estimates of which are under revision, preparatory to being taken in hand.

A hostel was opened in July 1904 with 5 Brahmins and 16 Non-Brahmin students, the fourth instructor residing in charge of it as warden. Maharani Lady Gajapati Row very kindly pays the rent of the building and has helped the students to equip the institution. It is hoped that, as time goes on and the numbers increase, the cost per head of living at the hostel will be reduced as even with the help given it is still rather too high for the means of most students.

The following statement shows the receipts and expenditure :—

Receipts.				RS.	A.	P.
Fees from private pupils	...	...	...	87	8	0
Charges.				Amount.		
Heads.				RS.	A.	P.

Miscellaneous	...	...	...	120	5	1
Total	...	...	...	10,115	5	6

General.—The instructors have spared no pains in the carrying out of their duties and in promoting the welfare of the students. There have also fortunately been fewer changes in the staff than in the previous year. The staff is inadequate and needs strengthening by the appointment of at least one more Instructor as the present men are all overworked the first three having three subjects each to teach and the fourth, four.

N.R.O.C. No. 5815/5, dated 22nd July 1905.

Forwarded to the Surgeon-General with the Government of Madras for favour of remarks and return.

A. G. BOURNE,
Director of Public Instruction.

Read—the following letter from Surgeon-General W. R. BROWNE, M.D., V.H.S., I.M.S., Surgeon-General with the Government of Madras, to the Director of Public Instruction, Madras, dated Ootacamund, 11th August 1905, No. T. 385 :—

With reference to your endorsement N.R.O.C. No. 5815/5, dated 22nd July 1905, herewith returned with its enclosure, I have the honour to observe that the report shows an improvement both in the numbers attending the school during its third year of work and in the success of the students at the several examinations.

2. From the tabular statement on the point it is evident that due attention has been paid this session to the directions regarding the stricter following of the tutorial system of Instruction in the several classes. To perfect the system the addition of another Instructor as asked for by the Superintendent is advisable.

3. At my visit to the school in November last I was glad to note that a hostel had been established—mainly owing to the generosity of Maharani Lady Gajapati Row and that its accommodation was being fully made use of. I echo the hope of the Superintendent that with increasing numbers decreasing charges may be found feasible, for it is very desirable that all the students should find their home in a properly-supervised hostel.

4. The Superintendent and staff deserve commendation for the work carried out in the school during the session.

Proceedings, Dis. No. 6110 of 1905.

Recorded.

2. There was a marked increase in the strength of the school during the year. The results of the examination of the final year and second year new curriculum pupils were excellent, all the examinees having come out successful; the first year pupils, however, failed to acquit themselves satisfactorily, only 7 passing out of 13 that appeared.

3. The hostel, which was newly opened during the year, worked with a fair amount of success, and the thanks of the department are due to Maharani Lady Gajapati Row for the aid given by her towards its upkeep.

4. The net cost of the institution to Government during the year was Rs. 10,027, and the average annual cost of educating each student was Rs. 250, or twice as much as it was in the Royapuram Medical school.

5. The Superintendent is requested to be good enough to address the Director separately regarding the employment of an additional instructor.

(Signed) A. G. BOURNE,
Director of Public Instruction.

From (Name) The Hon'ble Mr. T. T. Logan, B.A.,

(Designation) Asst. Director of Public Instruction.

To The Secretary to the Government of Madras,
Educational Department.

Sir,

Referring to Memorandum No. 397, Educational, dated 20th August 1906, I have the honour to submit copies of two statements dated 11th September 1906 and 25th September 1906 prepared by the Superintendent, Medical School, Vizagapatam, which contain the particulars required in para 1 of the memorandum.

2. In regard to para 2 I submit in original for reference and favour of return.

(i) a statement furnishing particulars of the hours of work - both tutorial and clinical - of each instructor

(ii) two time-tables

and

(iii) letter No. 15/06 dated 17th April 1906 of the

Name.	Designation	Pay including allowances	The number of hours and the subjects each of them would have to teach when all the 4 classes of N. C. are working.		Other work done by each of them and the time occupied in it.	Average size of the classes.

P.O. No 15 of 06

Medical School,
Vizagapatam, 17th April 1906.

From

Captain E. M. Illington M.C.
Superintendent, Medical School,
Vizagapatam.

To

The Director of Public Instruction,
Madras.

Sir,
With reference to your Ref. on C No 209/6
dated 24th March 1906, I have the honor
to state that my work in connection
with the School consists of a general
Supervision of the working of the students.
At the hospital I go round the wards
with the students, hear them read their
cases, ask them questions regarding them
and give them clinical instruction.

In this connection I would point out
that in the morning I have besides the
hospital work to visit the Jail of
which I hold the executive as well as
medical

medical charge. The work at these two institutions occupies me nearly always till 12 O'clock and very frequently later. During the Session I attend my office which is in the Medical School building at 2 O'clock and the work in connection with this takes as a rule two or more hours. It is quite impossible for the Superintendent with his present duties to undertake a regular lectureship or the entire clinical teaching in any particular Subject. I gather from G. O. No 634 of 22nd October 1896 that it is not intended that he should.

I have the honor to be,

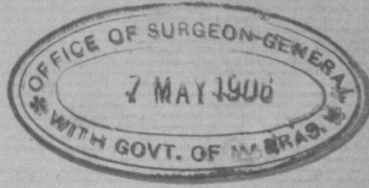

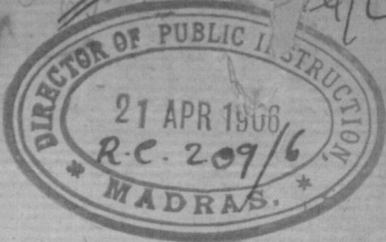

Sir,

Your most obedient servant,

Edmund Kingston

Captain I.M.S.

Superintendent.

The following Statement shows the Subjects on which each instructor will lecture from July 1905 with the number of hours per week to be allotted to each Subject.

First Instructor		Hours per week	Total
Surgery	5	}	10
Medical Jurisprudence	3		
* Ophthalmology	2		

Charge of and clinics in the Surgical wards. 17½ hours per week.

Second Instructor		Hours per week	Total
Medicine	5	}	12
Physiology	4		
Hygiene	3		

Charge of and clinics in the Medical wards. 15 hours per week.

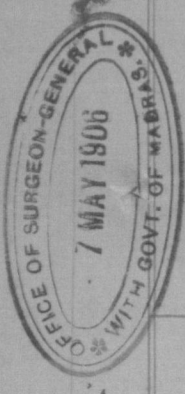

Third Instructor		Hours per week	Total
Anatomy and Dissections	15½	}	17½
Operative Surgery	2		

Instruction in Minor Surgery at Hospital for 3 hours on Saturday morning.

* From next Session.

From (*Name*) Surgeon-General W.R. BROWNE, M.D., V.H.S., C.I.E.,
I.M.S.,

(*Designation*) Surgeon-Genl. with the Govt. of Madras.

To The Chief Secretary to the Government of Madras.

(THROUGH THE DIRECTOR OF PUBLIC INSTRUCTION, MADRAS).

Si,

With reference to Memorandum No. 4254-1, dated 10th November 1906, I have the honor to state that in case an Indian Medical Service Officer were appointed to the charge of Superintendent of the Jail and also of the Lunatic Asylum as advocated in my letter No. 384 of the 23rd October 1905, I should not be in favour of placing him in charge of the Medical School for this main reason that such Officer would not be in charge of the Hospital where the all important work of clinical teaching of the students of the School is carried out. The District Medical Officer is the Chief Physician and Surgeon of the Hospital and performs most of the major operations that are carried out there and he will also be the most important factor

in

in the clinical work when he has, as I hope to see, sufficient time at his command on his relief of the charge of both Jail and Asylum. It is very desirable that the District Surgeon should be in close contact with all the students, and so should his Assistant Surgeon be, and I favour the retention of the teaching in the School of one subject by the latter. One subject will not prove to be too much even when the Assistant Surgeon has to be in charge of head-quarters during the absence of the District Surgeon on inspection duty in the District, but as now attempted the teaching of several subjects by the Assistant Surgeon has been shown to be an impossibility and the fourth Instructor has become a necessity for the efficient teaching of the students under the tutorial system these lads require. It may be possible later on to associate the Indian Medical Service Officer, I desire to see, in charge of the Jail and Asylum, with the teaching of the School but the success of such association would partly depend on the personality of the officer and of the amount of time at his disposal after the work of the ~~two~~ Institutions had been as thoroughly carried out as I should like to see it done; and therefore I would prefer to delay advocating joining this officer in the work of the School until I had seen how he managed the Jail and Asylum.

I have the honor to be,

Sir,

Your most obedient servant,

H. R. Browne.

Surgeon-General,

Surgeon-General with the Government of Madras.

Copy of Government Memorandum No.4254-1, dated the 10th November 1906, from the Public Department.

With reference to his endorsement No.444, dated 27th July 1906 recommending the appointment of an additional full-time instructor in the Vizagapatam Medical School, the Surgeon-General is referred to the proposals contained in his letter No.384, dated 23rd October 1905 and to the orders issued in G.O.No.1284, Judicial, dated 2nd August 1906 regarding relief to be afforded to the District Medical and Sanitary Officer, Vizagapatam. The Surgeon-General is requested to favour Government with his opinion whether in case the Jail and Lunatic Asylum at Vizagapatam were placed in charge of a separate I.M.S., Officer, he could also be placed in charge of the Medical School.

2. The Surgeon-General is also requested to report, in communication with the Director of Public Instruction, whether if an additional full-time Instructor be appointed to the Medical School, the Assistant to the District Medical and Sanitary Officer, could be relieved of his duties in connection with it.

NOTES.

C. No. 1317, from the Director of Public Instruction, No. 209, d/14-7-1906.

Subject.

Appointment of a Fifth Instructor on
Rs.100 grade pay plus Rs.30 teach-
ing allowance in the Vizagapatam
Medical School.

Para.2 of letter,
page 2 of current.

Proposition state-
ment.

Page 13 of current.

*What is his permanent
post? M2*

*Does he not lecture at all?
What are his duties?*

M2

Page 15 of current.

The Director of Public Instruction requests
sanction to the appointment of a full time Fifth
Instructor in the Vizagapatam Medical School from
the 1st proximo. It is stated that he should be
an Officer of the Subordinate Medical Department
holding an appointment included in the cadre of
Civil Assistant Surgeons - with a grade pay of
Rs.100 and a teaching allowance of Rs.30.

2. The strength of the school at the close of
the session 1904-05 was 39 divided into four classes
and to teach these classes there were four Instruc-
tors. The first Instructor is the Assistant to the
District Medical and Sanitary Officer, Vizagapatam,
receiving a teaching allowance of Rs.100 from the
school. The second Instructor gives the students
clinical instruction also. The remaining two
Instructors are full time men. These three Instruc-
tors receive Rs.100 pay plus 30 allowance each.

There is also a Superintendent for the school (the
District Medical and Sanitary Officer) with an
allowance of Rs.150 from the school but he takes no
part in teaching work. It is stated that each of
the first three Instructors has three subjects to
teach and the fourth, four, and the proposal seems to

What

What is the relative strength of the schools and what of Tanjore staff ?

C.G.M.
14-8-06.

The strength of the three schools on 31st March 1905 was as follows:--

Page 14 of Vol.II of Public Instruction Report for 1904-05.

Rayapuram Medical School	206
Vizagapatam "	39
Tanjore "	15

2. The sanctioned staff of these schools is as follows:--

Page 166 C.B.E. for 1906-07,

Page 5 of G.O. Nos.356-357 dated 14-6-02 and page 3 of G.O.Nos.39-40 dated 20-1-06. Also paras.4--6 of G.O.No.749 Public, dated 2-10-1905.

14/8/06

See if we do appoint a full time fifth instructor, is it worth while retaining the first instructor, who only works two hours a day in the medical school?

Ch
15.8.06

The First Instructor appears to be the Art. of the 64-20. Is this the Penitentiary Art. under the new scheme? Has he too much work to do?

2. Do I not the Sup^t at Tanjore and Rarapuram do any teaching or lecturing work? If not of what do their duties consist.

3. Who is the 2^d Art. at Vizagapalan. Apparently he is not a full time man. If so, what is his permanent post?

4. D.P.S. should have submitted the statistics as to hours of teaching and other work. These etc. he called for at once. The figures given on p. 14 of file are unintelligible.

5. It is hardly possible to argue from Rarapuram with 206 pupils to Vizagapalan with 39 pupils. This and the large size of the classes (average 65) was the reason given for increasing the staff at Rarapuram. - vide portion marked A. - ~~page 2~~ of D.P.S. letter read on page 2 of 80. 205 of 11.3.1906. The classes at Vizagapalan must be small in comparison.

24. 9

But the no. of subjects Surgery, anatomy, rudimentary hygiene will be the same in both.

The idea of an addl. instructor at Rayapalam must be shown on the merits. The staff at Rayapuram was enlarged because of the larger number of ^{students} ~~patients~~ under instruction. It is now proposed to raise the strength of the staff at Rayapalam partly on the ground that the staff at Rayapuram was increased. (Para 2 of DP2 letter on page 2 of file)

HB
16-5-00

Submitted that Assistants to District Medical and Sanitary officers are different from Sanitary Assistants - Please see the distribution list ^{of Assistant Surgeons} on page 6 of G.O. No 404 Public dt 30th May 1906. under para. 110 of the Civil Medical Code

- " Assistants to District Medical and Sanitary officers should
- " attend and assist in the duties of the several medical institutions
- " at head quarters. They may be deputed by the District
- " Medical and Sanitary officers to visit localities attacked by
- " epidemic disease, and to superintend sanitary and medical
- " arrangements at fairs and festivals. They may also be
- " deputed to visit such of the district medical institutions as
- " require to be inspected more frequently than once a year.

2. The Superintendent of the Rayapuram Medical School has no teaching work in the school but has clinical teaching in the hospital. He exercises general supervision & carries on correspondence. please see para. 2 of the Director's letter on page

Does not the DMSO at Rayapuram give clinics at the Hospital?
877

Bella ad.
I have added a paragraph

Q. 13 ggo. no 308 vol d. 3rd May 1906 - also recommendation
3 of the Committee appointed to consider the question of
improving the training of hospital assistants - page 9
P. ggo. no 654 vol d. 22nd October 1896. The duties of
the Superintendent of the Danjore School ^{should}
apparently be the same but we have no definite information.

13. The Second Assistant at Vizagapatnam is like the
third & fourth Assistants a full time man whose pay &
allowance are wholly debited to the school - with this
difference that he has to give clinical instruction to the
pupils - please see the extract at A on page 29 ggo. no

Q. 308 vol d. 3rd May 1906 - also at B on page 29 ggo. no

4. The draft placed below is submitted for approval.

- (1) that the Superintendent is Captain E. M. Illington, District
Medical and Sanitary Officer, Vizagapatnam with medical
charge of the Jail and Superintendent, Lunatic Asylum.
(Rs 50 for the Lunatic Asylum and of
his pay is Rs 750 with an allowance of Rs 150 per mensem
for being in charge of the school. His service is 11 years.
He gives clinical instruction
in the wards, does office work & conducts the ordinary duties
of a District Surgeon, the whole work occupying him
10 hours a day. He does no teaching work and from
recommendation of the Committee appointed to consider the
question of improving the training of Hospital Assistants - page
9 of 1905-06 B.S. 2nd of 1905? October 1896 - it does not seem
to be intended that he should take part in actual teaching work.
- (2) that the First Instructor is Mr. S. Chandrasekhara
Amudaliyar, I.M.S., Assistant to the District Medical
& Sanitary Officer, Vizagapatnam. His service is 14 years -
grade pay Rs 100 besides charge allowance Rs 50 & teaching
allowance debited to the school, Rs 100 - per mensem. He
gives clinical instruction in the surgical wards & is in charge
of these wards. Both together ^{occupy} him 4 hours a day. He has
also lecturing work ^(in three subjects) for 10 hours a week besides office work
& charge of library which occupy him 1 hour a day -
When the District Surgeon is in town he is in charge of all his head
quarters duties ^{amounting} to 10 hours work a day.
- (3) that the Second Instructor is Mr. N. R. Narayanaiah
Nayudu I.M.S., Civil Assistant Surgeon. Service 2 years -
pay Rs 100 + 30 teaching allowance both charged to the school -
He has charge of the medical wards & gives clinical instruction,
both duties occupying him 2 1/2 hours a day. He has lecturing

Para. 370 meters
letter - page 21 of document.

work ~~for~~ (in three subjects) for 12 hours a week besides the charge of the museum which gives him one or two hours' work a week.

(4) That the third Instructor is Mr. P. V. Venugopal
Nayudu, B.A. M.B. & Ch., Civil Assistant Surgeon -
Service under govt. pay Rs 100 + Rs 30 teaching allowance
wholly debited to the school. He has no hospital duties but
has lecturing work for $17\frac{1}{2}$ hours a week (in three subjects)
besides 3 hours a week in taking the students in
minor surgery.

(5) that the fourth Instructor is Mr. B. Shama Rao
L.M.S. Civil Assistant Surgeon. Service under 1 year - pay
Rs 100 + 30 teaching allowance wholly debited to the School.
He is in charge of the Maternity ward & gives clinical
instruction when there are cases. He has only 13 hours
lecturing work in four subjects.

2. It is for consideration whether the work in any case is too much to require the employment of an additional instructor. The strength of the classes varies from 4 to 30.

3. The Superintendent of the Tanjore Medical School has no gail duties but lectures on Surgery & Ophthalmology in the school for 7 hours a week & gives clinical instruction in the hospital for 5 hours a week.

PH
171076 Lucy

To judge from the work as now explained, one would not suppose that the 2nd, 3rd or 4th instructors had his

note words

45

much to ^{do} ~~do~~, even when the time that they ought to spend in improving their professional knowledge is taken into account. It seems doubtful if a case for a 5th Instructor has been made out satisfactorily. The Superintendent in his last report, however, states that the men are over-worked and the Surgeon-General agrees. It is possible, of course, to argue that it is not the actual number of hours that matters, but the number of subjects. If we do not grant the Instructor asked for, perhaps the Surgeon-General may be asked how he can arrange for the teaching of the extra subject which is now to be taught.

Wm
20-10-06

I cannot see that an additional Instructor is necessary. The 2nd, 3rd, & 4th Instructors have at most 5, 3 1/2 & 2 1/2 hours work a day. The 5th & 6th is no doubt overworked. The frequent absence or leave in such a large branch shows much ordinary routine work on the part of Instructors. Are there not some proposals in Dublin to place a separate Medical Officer in charge of the Tail & Hunter branches at Walton?

Lecturing for 3 1/2 ^{or 4} hours is as much as can be expected: there are tutorial duties in addition also? S.F.

Submitted that the proposal is in Judicial. The Surgeon General proposed to put in a medical officer in charge of the jail at Wallain and to give him also the charge of the Lunatic Asylum - vide his letter on page 2 of G.O. no 175 Judd dt 1st February 1906. The Govt have not passed final order on the proposal as yet. The jail buildings are being extended with the view of converting the jail into second class central jail. Meanwhile the District Medical & Sanitary Officer has been relieved of the incentive charge of the jail and a Special Officer has been appointed for this charge. G.O. no 1284 Judd dt 2nd August 1906.

If the proposal at 'A' is approved, it would seem better to combine that post with the post of Sup^t. Medical school. Vizagapatnam. It would be much better for the School that the Sup^t. should be an officer who resides permanently in the Station. The D.M. & S. Vizagapatnam has to visit institutions in the Agency also, and has little time left for duty at head quarters. In that case no extra ^{Inspector} ~~action~~ would appear to be necessary.

One proposal in the rates which may require considⁿ is to replace

the Ant. to the ... a full time
instructor. An ass't might be
have enough work of his
own without teaching, & he
may be called away at any
time by epidemic supervision

If the Jail & Lunatic Asylum
are put under a separate
officer of the P.M.S. it would be
well as suggested, to transfer
the charge of the School to
him as a residential officer.
Would there be any objection
in principle to making this
a regular add'l duty of the
Officer. Better paid this out
& whether the S.P. proposal
is to be accepted

In the U.S.

The Surgeon-General and the Director of Public
Instruction are of opinion that it is undesirable to
relinquish either the D. Medical and Sanitary Officer, Vijaya-
petam or the Assistant Surgeon of this district in connection
with the Medical School, and to place the school under the
charge of the Medical Officer in charge of the Jail and
Asylum should one be appointed.

2. The file may, if submitted, now go back (us) to the
Ed. Dept. for submission to H. M.

In order as to appointment of a fifth Instructor
 or R. 130 for the Medical School. V. 130 ap. 130.

p. 35 c. 10

Please see the last paragraph of the S. G. letter,
 wherein he holds out hope that at some
 future time the officer to be appointed
 to the charge of the ~~the~~ Lunatic Asylum and
 Jail may be associated with the work
 of the Medical School. But his suggestion
 does not assume any definite shape.

H. M.

17. 11. 16

A fifth instructor is needed
 & may be appointed
 I agree that the D. U. S. B. must remain
 in charge of the students as he
 is in charge of the Hospital,
 & in any case it will fall
 upon him to give clinics
