Reducing from eighteen to twelve months the period of preliminary training of M. A. Ramunni Paukkar, a candidate for a —.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

Letter—from M. A. RAMUNNI PANIKKAR, 178, Victoria Students' Hostel, Triplicane.
To—the Secretary to Government, Educational Department (through the Director of Public Instruction).
Dated—the 10th November 1906.

I have the honour to acknowledge G.O., Mis. No. 677, Educational, dated 19th October 1906, with which is enclosed copy of G.O., No. 630, Educational, dated 26th September 1906, and to which my attention is directed.

2. With reference to the former, I beg permission to make the following observations :—

Since passing the B.A. degree examination with Chemistry and Physics as optional subjects, I have continued the study of the same subjects for a period of nearly two years and am still pursuing it. I can say, without exaggeration, that, in this period of nearly four years, I have acquired sufficient knowledge of the principles of Chemistry and of analytical operations, to master in a much shorter time than is contemplated in the Government Order, the application of those principles to the tanning industry as carried on in this Presidency, and I submit that six months would be amply sufficient, in view of my previous training, to enable me to learn all that is necessary and useful in connection with the industry.

3. In these circumstances, I respectfully request that Government will be pleased to reduce, in my case, the period of eighteen months of preliminary training laid down in their order to one of twelve months only.

4. I would further submit that the facilities, which I at present enjoy for continuing my studies in the form of a post-graduate scholarship, may be continued during the further period of twelve months to be devoted to the study of the methods of tanning as carried on both in this Presidency and other parts of India, as I anticipate, in the absence of this assistance, it will be highly difficult for me to meet the expenses attendant upon the course of training and residence in a part of India which is quite unknown to me. I would, further, beg permission to observe that such a concession made in my favour will be of immense help to me in keeping my capital intact, thus enabling me to start business soon after the completion of my studies.

II

Endt. N. Ref. on Cur. No. 8442, dated 21st December 1906.

Submitted to Government with reference to G.O., Mis. No. 677, Educational, dated 19th October 1906.

2. In the present application Ramunni Panikkar makes two requests :—(1) that the period of preliminary training prescribed in paragraph 4 of G.O., No. 630, Educational, dated 26th September 1906, may be reduced to twelve months and (2) that the Government scholarship of Rs. 20 per mensem for post-graduate study of which he is in receipt and which would expire in February next may be continued to him during the period of his preliminary training.

I referred the application to the Professor of Chemistry, Presidency College, for his opinion as to (1) whether a course of six months in the application of Chemistry to tanning would be sufficient and (2) whether the candidate's progress has been such as to justify an extension of the scholarship now held by him. Both the questions have been answered by him in the affirmative.

3. I beg to add that I have deferred passing orders on his second request pending the orders of Government on the first.

T. T. LOGAN,
Ag. Director of Public Instruction.

Order—No. 31, Educational, dated 18th January 1907.

The Government are pleased to reduce to twelve months, as a special case, the period of the preliminary training of M. A. Ramunni Panikkar, a candidate for the State Technical Scholarship in connection with the tanning industry. He should, however, be given to understand that the grant of the scholarship will finally depend upon the report furnished on completion of the period of training that he has acquired the requisite training and possesses the necessary aptitude for further instruction in Europe.

2. The Director of Public Instruction has authority himself to deal with the question of the scholarship referred to in paragraph 2 of his endorsement.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 31, EDUCATIONAL, DATED
18TH JANUARY 1907.

[SUBJECT.—*Application for a State Technical scholarship.*]

From the Director of Public Instruction, dated 21st December 1906, No. 8442.

In G.O., No. 677, Educational, dated 19th October 1906, M. A. Ramunni Panikkar, a Graduate in Arts of the Madras University preparing for the M.A. degree examination in Chemistry and an applicant for a State Technical Scholarship, was informed that if he went through satisfactorily the practical courses in two of the institutions* mentioned in paragraph 4 of G.O., No. 630, Educational, dated 26th September 1906, or other approved institutions of the kind and fulfilled the conditions set out in that order, the application for a scholarship to Europe would be favourably considered.

2. Paragraph 4 of G.O., No. 630, Educational, dated 26th September 1906, runs as follows:—

"After passing the examination in branch II-B of the B.A. degree examination, a candidate for the scholarship in connection with the tanning industry should qualify by a course of practical training for a year in a fairly-equipped native tannery where hides and skins are tanned for the export trade, and he should have studied for six months more in a modern tannery such as that of Messrs. Adamjee Peerbhoy at Bombay, the Government Harness Factory at Cawnpore, the North-West Tannery at Cawnpore, which combines tanning operations with the manufacture of miscellaneous leather articles on a large scale, or the experimental tannery established by Government in connection with the chrome-tanning."

3. In the present application Ramunni Panikkar makes two requests:—

(1) That the period of preliminary training—18 months—prescribed in paragraph 4 of G.O., No. 630, Educational, dated 26th September 1906, may be reduced in his case to 12 months, on the ground that having pursued the study of Chemistry for nearly two years after passing the B.A. degree examination he has acquired sufficient knowledge of the principles of Chemistry and of analytical operations to master in a shorter time than is contemplated in the Government order the application of those principles to the tanning industry.

(2) That the Government scholarship of Rs. 20 per mensem for post-graduate study of which he is now in receipt and which would expire in February next, may be continued to him during the period of his preliminary training.

4. The Director of Public Instruction (the Hon'ble Mr. Logan) who forwards Ramunni Panikkar's application, states that he referred the application to the Professor of Chemistry, Presidency College, for his opinion as to (1) whether a course of six months in the application of Chemistry to tanning would be sufficient, and (2) whether the candidate's progress has been such as to justify an extension of the scholarship now held by him and that both the questions have been answered by the Professor in the affirmative.

5. The Director of Public Instruction further adds that he has deferred passing orders on Ramunni Panikkar's second request, namely, the continuance of the scholarship, pending the orders of Government on the question of reducing the period of preliminary training from 18 to 12 months.

6. Under the Government Scholarship Notification the scholarship of Rs. 20 per mensem for post-graduate study is tenable for two years or such shorter or longer period as the Director of Public Instruction considers necessary. Under this provision the Director of Public Instruction can extend the scholarship to Ramunni Panikkar for a further period of 12 months. But the question for consideration is whether, in the circumstances explained, the period of practical training prescribed in paragraph 4 of G.O., No. 630, Educational, dated 26th September 1906, namely, eighteen months, may be reduced to twelve months in the case of the present applicant, as a special case. The qualifications of the applicant seem to justify an exception being made in his case.

T.K.—4-1-07.

K. RANGASWAMI AIYANGAR—4-1-07.

It seems not a good thing to set off by modifying our conditions in the case of the first candidate, as regards the post-graduate scholarship and its continuance, that question rather depends on what is decided about stipends.

C. G. MACKAY—5-1-07.

M. A. Ramunni Panikkar does not appear to have devoted any portion of his post-graduate course to the practical study of tanning and in these circumstances there seem to be no sufficient grounds to reduce the courses.

2. The Director of Public Instruction may be requested to extend the scholarship till the conclusion of the period of practical training, or until such time as separate stipends may be sanctioned.

H. D. TAYLOR—6-1-07.

As a special case the period may be reduced to 12 months (I am assuming that it has not as yet begun); but of course he will be warned that the grant of the scholarship will finally depend upon the report of him made at the end of the 12 months.

2. The Director of Public Instruction can himself deal with the scholarship.

Educational DEPARTMENT.

Notes with J.O. 31 Edl 18.1.07

C. No. 2107 From the The D.P.I. No. 8442, dated 21st Dec. 1906.

SUBJECT. Application for a State Technical Scholarship.

In G.O. no. 677 Edl dated 19th October 1906, M.A. Ramnami Panikkar, a graduate ^{in Arts of the Maras University} preparing for the M.A. degree examination in Chemistry and an Applicant for a State Technical Scholarship, was informed that if he went through satisfactorily the practical courses in two of the institutions mentioned in para-4 of G.O. no. 630 Edl dated 26th Sept. 1906 or other approved institutions of the kind and fulfilled the conditions set out in that order, the application for a scholarship to Europe would be favourably considered.

2. Para 4 of G.O. no. 630 Edl dated 26th Sept. 1906 runs as follows:-

"After passing the examination in Branch II-B of the B.A. degree examination, a candidate for the Scholarship in connection with the tanning industry should qualify by a course of practical training for a year in a fully-equipped native tannery where hides and skins are tanned for the export trade, and he should have studied for six months more in a modern tannery such as that of Messrs Adanji Peerbhoy at Bombay, the Gout. Harness Factory at Cawnpore, the North-west Tannery at Cawnpore, which combines tanning operations with the manufacture of miscellaneous leather articles on a large

- 1. Messrs Adanji Peerbhoy at Bombay
- 2. The Gout. Harness Factory at Cawnpore
- 3. The North-west Tannery at Cawnpore.
- 4. The Experimental Tannery established by Govt. with Chrometanning

scale, or the experimental tannery established by Govt.
in connection with the Chrome tanning."

cf. page 2

3. In the present application Ramummi Panikkar makes two requests: -

(1) That the period of preliminary training - 18 months - prescribed in para 4 of G.O. no. 630 Edl D, 26th Sept. 1906 may be reduced in his case to 12 months, on the ground that having pursued the study of Chemistry after passing the B.A. degree examⁿ for nearly two years, he has acquired sufficient knowledge of the principles of Chemistry and of Analytical operations to master in a shorter time than is contemplated in the G.O. the application of those principles to the tanning industry.

(2) That the Govt. Scholarship of Rs 20 pm for post-graduate study of which he is ^{now} in receipt and which would expire in Feb. next. may be continued to him during the period of his preliminary training.

cf. p. 4

4. The D.P.I. ^(the Honble Mr. Logan) who forwards Ramummi Panikkar's application, states that he referred the Application to the Professor of Chemistry, Pres. Coll., for his opinion as to (1) whether a Course of six months in the application of Chemistry to tanning would be sufficient and (2) whether the Candidate's progress has been such as to justify an extension of the

Scholarship now held by him and that both the questions have been answered by the Professor in the affirmative.

5. The D.P.I. further adds that he has deferred passing orders on Ramunni Panikkal namely, the continuance of the scholarship, second request, pending the orders of Govt on the ~~first~~ namely, the question of reducing the period of preliminary training from 18 to 12 months.

6. Under the Govt Scholarship notification the Scholarship of Rs 20 p.m. for post graduate study is tenable for two years or such shorter or longer period as the D.P.I. considers necessary.

Under this provision the D.P.I. can extend the ~~term~~ the Scholarship ^{to} Ramunni Panikka for a further period of 12 months, But the question

7. for Consideration is whether, in the Circumstances explained, the period of practical training prescribed in paragraph 4 of G.O. 630 Est. dated 26th September 1906, namely, eighteen months, may be reduced to twelve months in the case of the present applicant, as a Special case. The qualifications of the applicant seem to justify an exception being made in his case.
