Letter—from Rev. J. H. WYCKOFF, Manager, Voorhees College, Vellore.
To—the Director of Public Instruction, Madras.
Dated—Vellore, the 19th July 1906.

In accordance with your references on C. No. 6409/5, dated 20th November 1905 and 18th April 1906, I have the honour to forward herewith the revised application for building grant on behalf of the Lower school and hostels of the Voorhees College; also (under separate cover) the revised plan and estimates of the Christian hostel together with the original plan and estimates of the same and the plans and estimates of the Lower school and Hindu hostel. You will kindly note that the changes in the plan of Christian hostel only affect the location of the rooms, and that the total of estimate is the same. The delay in submitting the revised plan was due to the absence of the Mission Building Committee on the Hills and the closing of the College for the midsummer leave.

2. The Executive Engineer has pointed out that the plans of the Lower school and Hindu hostel buildings have not been formally approved by Government. This ought not to occasion delay, as the Executive Engineer himself is the author of the plans. May I request that this defect be rectified at once, and the plans of these two buildings be returned, so that there may be no interruption of the work, which was begun on the 1st of May as per your letter of 18th April.

The plans and estimates of the Christian hostel may be returned later.

II

Ref. on Cur. No. 6409, dated 16th August 1906.

Submitted to Government, Educational, with reference to G.O., No. 723, Educational, dated 7th November 1905, and recommended that the slight alterations in the plan may be approved. In the new plan for the Christian hostel the use to which certain rooms are to be put has not been specified, but I understand from the management that they are to be used as dormitories, and that the two sets of dormitories on opposite sides of the quadrangle are together meant to accommodate not more than 100 pupils.

2. The Manager has been permitted to begin the work.

3. The plans and estimates referred to by the Manager are herewith submitted.

A. G. BOURNE,
 Director of Public Instruction.

Memorandum No. 520, dated 13th October 1906.

With reference to the plans and estimates for the Christian and Hindu hostels and the Lower school attached to the Voorhees College, Vellore, forwarded with his endorsement No. 6409, dated 16th August 1906, the Director of Public Instruction is

requested to ascertain and state the uses to which each room shown in the plans of the three buildings is to be put, and the number of masters or students for whom it is proposed to provide accommodation.

Letter—from the Hon'ble Mr. T. T. LOGAN, B.A., Acting Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 20th December 1906.

No.—Ref. on Cur. No. 6409 of 1905.

With reference to your Official Memorandum, No. 520, Educational, dated 13th October 1906, I have the honour to submit the enclosed three rough plans of the Christian and Hindu hostels and the Lower school attached to the Voorhees College, Vellore, showing the uses to which each room in the buildings is to be put and to state that the number of masters and students for whom it is proposed to provide accommodation is as shown below:—

Building.	Masters.	Students.
(1) Lower school	24	592
(2) Hindu hostel	1 To reside outside the hostel.	50
(3) Christian hostel	1	80

Order—No. 38, Educational, dated 21st January 1907.

The Government are pleased to sanction a maximum grant of Rs. 10,000 towards the cost of constructing the Christian and Hindu hostels and the Lower school attached to the Voorhees College, Vellore, subject to the following conditions:—

- (1) that the work is completed before the 31st March 1908;
- (2) that a certificate of the actual expenditure incurred on the work is submitted before the 31st May 1908;
- (3) that the amount expended on the work does not fall short of Rs. 30,000, as actually verified;
- (4) that all other conditions prescribed in the Grant-in-aid Code have been duly complied with.

2. On the above conditions being fulfilled the grant will be paid as funds become available.

3. The Director of Public Instruction is requested to countersign the estimate for the Lower school before its return to the Manager.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 38, EDUCATIONAL, DATED
21st JANUARY 1907.

[SUBJECT.—*Grant-in-aid for the Voorhees College, Vellore.*]

G.O., No. 723, Educational, dated 7th November 1905.

From the Director of Public Instruction, dated 16th August 1906, No. 6409.

In July 1905, the Manager of the Voorhees College, Vellore (Dr. W. I. Chamberlain), submitted an application for a building grant of Rs. 33,333-5-4 towards the cost of buildings for the college including cost of site. The details of the expenditure proposed were as shown below:—

						RS.	RS.
(1) College hall	..	..	..	..	..	..	33,600
(2) Lower school	..	..	..	..	..	..	14,789
(3) Hostels—Hindu	..	..	..	..	..	17,126	..
Do. Christian	..	..	..	..	..	16,523	33,649
							82,038
Less value of materials of old buildings	..						2,038
							80,000
(4) Lands already purchased	..	..	..	..	..	7,650	
„ to be purchased	..	..	..	..	..	12,350	
							20,000
							1,00,000

2. The Government said that they would “be prepared to sanction on the usual conditions the payment of a grant of Rs. 10,000 in respect of the proposed provision of accommodation for the Lower school and hostels, provided the actual *bonâ fide* expenditure on these buildings amounts to or exceeds Rs. 30,000”—G.O., No. 723, Educational, dated 7th November 1905. The estimates for any of the proposed works have not been approved as yet as required by rule 51 (ii) of the Grant-in-Aid Code; nor has the grant been sanctioned.

3. The Manager now resubmits the plans and estimates of the Lower school and the two hostels on behalf of which a grant was *promised*, together with a revised estimate for the Christian hostel. The three estimates are as follow:—

						RS.
Lower school	..	..	..	..	..	14,789
Hindu hostel	..	..	..	..	..	17,126
Christian hostel (revised estimate)	..	..	..	..	..	16,552
Total	..					48,467

These estimates may be forwarded to the Public Works Department for the usual scrutiny. The Director has not countersigned the estimate for the Lower school but he may be asked to countersign it before returning it to the Manager after the Public

Yes. C. G. MACKAY. Works Department has done with it. On the return of the estimates from the Public Works Department the grant of Rs. 10,000 already promised may be formally sanctioned.

4. The Lower school and Hindu hostel buildings were commenced on the 1st of May 1906 with the permission of the Director. In this case the Director has been consulted and aid promised but the plans and estimates have not been approved—please see rule 51 (ii) of the Code.

5. The usual conditions are that the buildings should be completed within a fixed date, that work should be undertaken in accordance with any suggestion the Chief Engineer may have to make, that a certificate of actual expenditure should be submitted within a fixed date and that the total expenditure should not be less than what is provided in the estimate.

Under article 51 of the Grant-in-Aid Code a grant not exceeding one-third of the cost of the buildings is payable.

P. T. THARYAN—29-8-06.

The conditions mentioned in section 51 must be fulfilled.

C. G. MACKAY—30-8-06.

The work appears to have been commenced on 1st May, which was irregular, though sanction was given by the Director.

K 2. Will Public Works Department please check the estimates as early as may be practicable and also certify with reference to rule 51 the number which each class room or dormitory can accommodate.

The nature of the surface and sub-soils is not noted on the plans and no report is submitted. The Manager may be asked to furnish this information.

K.E.V.—7-9-06.

It is not much good sending estimates up for scrutiny if work is begun before your approval has been obtained. In this case work has been begun (three months before the estimate reached this office) and presumably the foundations are finished without any knowledge of what the soil and sub-soil are. Presumably Educational accept the responsibility.

A. G. ROMILLY—11-9-06.

It is not the slightest use asking the question suggested by the technical section. The estimates may be checked as to rates, but beyond this it is useless to go. Please look up and reply to the question at K above.

When returning the plans and estimates to Educational the absurdity of the position will be drawn attention to.

J. P. DAVIDSON—11-9-06.

The following rates are in excess of those in the schedule of North Arcot :—

(12)	Teak venetian windows with iron bars and glazed shutters	2	0	0	1	13	0

Ferro concrete floor is provided for the first floor of the store-room of the Christian hostel—vide pages 43 and 47 of estimate. Also on page 42 teak joists are provided for the same floor—this does not appear necessary.

Number of students—

(1) In Christian hostel—

Small rooms—two, each 20'×16'.

Area of room = 16'×20' = 320 square feet.

Capacity of room = 16'×20'×17½ = 5,547 cubic feet.

At 30 square feet per student 10 can occupy each small room and the capacity will be 554 cubic feet for each.

(2) Large rooms—two, each 30'×20'.

Area of room = 30'×20' = 600 square feet.

Capacity of room = 30'×20'×17½ = 1,040 cubic feet.

At 30 square feet per student 20 can occupy each large room and the capacity will be 520 cubic feet for each. The two sets of dormitories will accommodate 100 students, 50 on each side.

(3) Hindu hostel.—The rooms to be set apart for students are not noted on the plan. Assuming the 9 small rooms on each side to be students' rooms, then area of each room = 12'×10' = 120 square feet, at 80 square feet per student each small room will just suffice for one—the capacity will be 12'×10'×13' = 1,560 cubic feet against 900 permissible. These 18 rooms accommodate 18 students. Information may be called for as to what uses the other rooms are to be put.

(4) Lower school.—It is not known if all the small rooms shown on the plan are class rooms; also if the large cross shaped room in front is a class room. Information may be called for as to what uses all the rooms in this building are to be put, as some of them may be for masters, for library, etc.

D.E.—6-10-06.

Correct information as to the uses of each room and the number of students or masters each is proposed to accommodate should be called for. Till this is known it is impossible to state whether sufficient space is allowed.

Two concrete floor is
provided for the 1st floor of the store
room of the Christian Hostel, vide
pages 43 & 47 of estimate. Also

on page 42 each floor is provided for the same floor - this does not appear necessary.

Number of Students.

(1) Inclusion Hostel

Small rooms - two, each 20x16.

area of room = $16 \times 20 = 320$ sq ft

Capacity - do - $16 \times 20 \times 17\frac{1}{2} = 560$ cft.

At 30 sq ft per student 10 can occupy each small room and the Capacity will be 560 cft for each.

(2) Large rooms - two, each 30x20

area of room = $30 \times 20 = 600$ sq ft

Capacity - do - $30 \times 20 \times 17\frac{1}{3} = 1040$ cft

At 30 sq ft per student 20 can occupy each large room and the Capacity will be 1040 cft for each.

The two sets of dormitories will accommodate 100 students, 50 on each side

(3) Hindu Hostel - The rooms to be

set apart for students are not

noted on the plan. Assuming

the 9 small rooms on each side to be

students rooms - then each area

of each room = $12 \times 10 = 120$ sq ft.

at 80 sq ft per student each small room will just suffice for one.

the Capacity will be $12 \times 10 \times 13$

= 1560 cft. against 900 permissible.

These 18 rooms accommodate 18 students.

It is submitted ^{that the} grant of Rs 10,000 provided in G.O. 723 Edl 4745

R. November 1905, may now be formally sanctioned. P.W.D. has certified that the accommodation which it is proposed to provide is according to the allowance provided ~~specified~~ in para 51 of the Grant-in-aid Code.

Vide the P.W.D. note above.

2. The work has been commenced on 1st May 1906 and this procedure has been noticed by the Secretary as irregular - please

see page 3 ^{supra}. It is perhaps because the grant has already been promised by Government that the Director gave the manager permission to commence work. For orders as to whether it should be noticed in the draft.

3. In the ~~usual~~ draft order placed below, the date of completion of the work, ~~and the date of submission of a certificate of actual expenditure incurred on the work have to be supplied.~~

* But para. 51 (ii) of the Granting Code says that "Grant shall not be given for a building ~~+++~~ for which plans and estimates (have not been) approved previously to its erection ++."
