GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—the following paper:—

Letter—from the Hon'ble Mr. T. T. Logan, B.A., Acting Director of Public Instruction.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 23rd January 1907.
No.—Ref. on Cur. No. 9526 of 1906.

I have the honour to address you on the subject of the application of the new Educational Rules to the four districts of Anantapur, Bellary, Cuddapah, and Kurnool. It will, I find, be impossible for the present for the secondary schools in these districts to comply with the requirements relating to qualifications and number of teachers laid down in rules 23 and 28.

2. Teachers qualified for secondary schools are not available locally in any numbers and managers cannot afford to pay the salaries necessary to attract qualified men from more forward districts; moreover I doubt whether the more forward districts will be able to do more than supply their own needs under the new rules.

3. The Inspector of the Second Circle informs me that the application of rules 23 and 28 will result in the closing of four—possibly five, out of eleven High schools and of nine out of ten Lower Secondary schools in the Ceded Districts. It would be undesirable to let so many schools go out of existence even though their efficiency is not all that can be desired. The terms of rule 23 are such as to leave me a certain discretion in the matter of the qualifications of the staff but rule 28 does not give me much discretion and I accordingly request that Government may be pleased to permit me for the next five years to extend the proviso in the second paragraph of that rule to *all* secondary schools in the Ceded Districts which seem to me to require it.

Order—No. 78, Educational, dated 15th February 1907.

In the circumstances stated the Director of Public Instruction will be permitted, until further orders, to exercise his discretion in the matter of enforcing the provisions of rule 28 of the new Educational rules, in the case of secondary schools situated in the Ceded Districts. He is however requested to submit a special report on or before the 1st April 1908 as to how the requirements of the Educational rules in the respects mentioned in his letter have been complied with in those districts.

Ag. Secretary to Government.

NOTES CONNECTED WITH G.O., No. 78, EDUCATIONAL, DATED 18th FEBRUARY 1907.

[Subject.—*Relaxation of the provisions of Rule 28 of the Madras Educational Rules in the case of Secondary schools in the Ceded districts.*]

Previous papers.

G.O., No. 46, *dated 26th January* 1904.
„ „ 509 „ *13th July* 1906.

From the Director of Public Instruction, dated 23rd January 1907, *No.* 9526.

Rule 23 of the new Educational Rules says:—

"The headmaster in every secondary school and at least three other teachers in the case of "schools containing all the three Forms IV, V and VI should ordinarily hold collegiate "trained teachers' certificates.

"The other teachers should ordinarily hold trained teachers' certificates of not lower grade "than secondary.

"The drawing master should hold a technical teachers' certificate in drawing of not lower "than the intermediate grade. The gymnastic instructor shall hold a gymnastic teachers' certi-"ficate."

2. Rule 28 states:—

"There should be a teacher for every class in addition to the headmaster (exclusive of "pundits, munshis, writing-masters, drawing masters, gymnastic instructors, sewing mistresses "and sewing masters).

"Provided that in schools containing no class above the fourth class, the headmaster may, "with the concurrence of the Director, be treated for the purpose of this rule as one of the class "masters."

3. The Director of Public Instruction (the Hon'ble Mr. Logan) states that he finds it will be impossible for the present for the secondary schools in the four districts of Anantapur, Bellary, Cuddapah and Kurnool to comply with the requirements relating to qualifications and number of teachers laid down in rules 23 and 28 quoted above. He points out that teachers qualified for secondary schools are not available locally in any numbers and that managers cannot afford to pay the salaries necessary to attract qualified men from more forward districts, and he further doubts whether the more forward districts will be able to do more than supply their own needs under the new rules.

4. Mr. Logan further states that the application of rules 23 and 28 will result in the closing of four, possibly five, out of eleven high schools and of nine out of ten Lower Secondary schools in the Ceded districts and that it would be undesirable to let so many schools go out of existence even though their efficiency is not all that can be desired. He observes that, although the terms of rule 23 "are such as to leave him "a certain discretion in the matter of the qualifications of the staff", rule 28 does not give him much discretion.

5. He therefore requests that Government may be pleased to permit him for the next five years to extend the proviso in the second paragraph of rule 28 to *all* secondary schools in the Ceded districts which seem to him to require it.

6. The Ceded districts are the most backward districts as regards secondary education. The number of Upper Secondary pupils in these districts on the 31st March 1906 was as follows:—

"Kurnool 180, Bellary 179, | Anantapur 108, and Cuddapah 191 } —*vide* statement 52 on page 103 of volume II of the Public Instruction report for 1905-1906."

7. When the old Grant-in-Aid Code was in force, teachers employed in the Ceded districts enjoyed certain concessions in respect of the rates of salary grants drawn by them. Please see G.O., No. 46, Educational, dated 26th January 1904.

8. In these circumstances, it is for consideration whether the request of the Director of Public Instruction to extend the proviso in the second paragraph of rule 28 to all secondary schools in the Ceded districts which seem to him to require it during the next five years may be granted.

T.K—1-2-07.

Rule 22 of the new Educational Rules says that "the recognition of secondary schools shall vest in the Director, who shall, before according recognition, satisfy himself, as to the matters therein specified, besides other matters specified in chapter III.

2. Rules 23 and 28 occur in chapter III, and it is incumbent on the Director of Public Instruction to satisfy himself that the requirements of these rules are fulfilled before according recognition to schools. Rule 23 which deals with the qualification of teachers appears however to lay down what seem to be the ordinary requirements of teachers, but the rule 28 which prescribes the proportion of teachers to pupils appears to be peremptory. Looking at the difference in the wording of these rules, it appears that rule 23 leaves some discretion to the Director of Public Instruction, while rule 28 does not. But paragraph 12 of G.O., No. 509, Educational, dated 31st July 1906, approving the revised Educational Rules says that, "in introducing the changes which "the new rules will effect, the Director should ascertain which of the existing lower "and Upper Secondary schools desire to remain as secondary schools and which of them "can undertake to comply within a reasonable time with the rules which now find a "place in chapter III." The Government further observe—

"The management should be informed in definite terms at the next inspection what action "should be taken and should be required to take such action before the following annual inspec-"tion. Any school the management of which has by that time failed to do what was in the "opinion of the Director feasible, should be removed from the list of secondary schools."

3. From the above it is observed that considerable latitude is given to the Director of Public Instruction in the matter of introducing the changes inaugurated by the new Educational Rules, and his proposal to defer the enforcement of rules 23 and 28 in the four districts for a period of five years may, it is submitted, be approved.

K. RANGASWAMI AIYANGAR—2-2-07.

It would, I submit, be mistaken policy to enforce the rules strictly in the Ceded districts yet awhile. The sudden withdrawal of so many schools can lead only to discontent. The Director of Public Instruction may be told that he may exercise his discretion in the matter as he proposes.

But without any special limit of time.

Very well: He may exercise his discretion till further instructions. A special report should however be submitted before 1st April 1908, on how far the requirements of the Code in the respects mentioned have been complied with in the Ceded districts. A secondary school which is really inefficient is better abolished than kept

on to offer instruction which is useless, wasting the best years of the pupil's school life and deluding their parents with the idea that their children are receiving a sound education.

SUBJECT.

Relaxation of the provisions of Rule 28 of the Madras Educational Rules in the case of Secondary Schools in the Ceded districts.

Rule 23 of the ~~Madras~~ New Educational Rules says:—

"The headmaster in every Secondary School and at-

"containing all the three forms IV, V and VI should
"ordinarily hold collegiate trained teachers' certificates.
"The other teachers should ordinarily hold trained
"teachers' certificates of not lower grade than secondary.
"The drawing master should hold a technical
"teachers' certificate in drawing of not lower than the
"intermediate grade. The gymnastic instructor shall
"hold a gymnastic teachers' certificate."

2. Rule 28 states—

"There should be a teacher for every class in addition
"to the headmaster (exclusive of pandits, munshis,
"writing-masters, drawing-masters, gymnastic instructors,
"sewing mistresses and sewing masters).
"Provided that in schools containing no class above
"the fourth class, the headmaster may with the con-
"currence of the Director, be treated for the purpose
"of this rule as one of the class masters."

3. The D.P.I. (the Hon'ble Mr. Logan) states

that he finds it will be impossible for the present for the secondary schools in the four districts of Anantapur, Bellary, Cuddapah and Kurnool to comply with the requirements relating to qualifications and number of teachers laid down in rules 23 and 28 quoted above, He points out that teachers qualified for secondary schools are not available locally in any numbers and that managers cannot afford to pay the salaries necessary to attract qualified men from more forward districts, and he further doubts whether the more forward districts will be able to do more than supply their own needs under the new rules.

4. Mr. Sopan further states that the application of rules 23 and 28 will result in the closing of four, possibly five out of eleven high schools and of nine out of ten lower secondary schools in the Ceded districts and that it would be undesirable to let so many schools go out of existence even though their efficiency is not all that can be desired. He observes that although the terms of rule 28, "are such as to leave him a certain discretion in the matter of the "qualifications of the staff", that rule 28 does not give him much discretion.

5. He therefore requests that Govt. may be pleased to permit him for the next five years to extend the proviso in the second para of

rule 28 to all secondary schools in the ceded districts which seem to him to require it.

7. The ceded districts are the most backward districts as regards secondary education. The number of upper secondary pupils in these districts on the 31st March 1906 was as follows:- Kurnool 180, Bellary 179, Anantapur 108 & Cuddapah 191- vide statement 52 on page 103 of Vol II of the Public Instruction report for 1905-1906.
