Requesting the Director of Public Instruction to issue instructions for the strict enforcement of the conditions of Grant-in-aid for — and to report by the 30th June 1907 whether each school now classed as a European school satisfies the Code of Regulations framed for them in every detail.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

Memorandum No. 316-1, Educational, dated 13th February 1907.

The Director of Public Instruction is requested to be so good as to state whether all the schools mentioned in the list of European schools submitted with his letter Ref. on Cur. No. 4774, dated 12th November 1906, recorded in G.O., No. 761, Educational, dated 23rd November 1906, satisfy the conditions of the new Code of Regulations for European schools.

(By Order.)

C. A. SOUTER,
Asst. Secretary to Government.

II

Letter—from the Hon'ble Mr. T. T. LOGAN, B.A., Acting Director of Public Instruction.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 28th February 1907.
No.—Ref. on C. No. 4774.

I have the honour to submit my reply to Government memorandum No. 316–1, Educational, dated 13th February 1907, requesting me to state whether all the schools mentioned in the list of European schools forming an enclosure to my letter No. R.C. 4774, dated 12th November last, satisfy the conditions of the Code of Regulations for European schools.

2. The principal conditions of recognition and aid contained in the Code of Regulations for European schools correspond, with one important exception, to the conditions of the Madras Educational Rules and Grant-in-aid Code.

3. All the European schools admitted to aid had either been formerly recognized and aided under the Rules and Code or had formed parts of institutions so recognized and aided, had been regularly under inspection and satisfied the conditions of recognition and aid. The exception mentioned above is the condition in article 7 (*d*) which did not appear in the Grant-in-aid Code. At the beginning of the financial year—before the issue of the Code of Regulations for European schools—several of these schools contained more than 15 per cent. of non-Europeans. The attention of the Managers was drawn to the new rule and they were all made to understand that it would be strictly enforced from the beginning of the second term of 1906 and that no aid under the Code of Regulations for European schools would be given to schools in which it was violated. The aid was accepted under these conditions. Further, the Inspector of European and Training Schools and the Inspectresses have reported on the number of Europeans and non-Europeans at the time of inspection of these schools and there has been so far only one case in which the number of non-Europeans exceeded 15 per cent. of the total strength. The excess was slight and had occurred through one or two European pupils leaving during the term. The Manager of the school was given to understand that the grant would be withdrawn unless the rules were observed, and the percentage has since been reduced to 15. With regard to certain other points the schools do not fulfil the requirements of the Code in every particular. The new curriculum has not been introduced fully into the schools in all the sections. The high sections are generally pursuing the University Matriculation course which is one of the many courses possible under the Code of Regulations for European schools, but the middle sections could not very well adopt a new curriculum in the middle of the year and I am awaiting the reports of the inspecting officers to see how far it is now being followed. The agreements between the teachers and managers prescribed in article 63 are being drawn up, and the inspecting officers are dealing with the certification of teachers under article 64. The work however is far from complete.

4. Broadly speaking I may say that all the schools admitted to aid satisfy the general conditions of the Code for admission to aid. Until the inspection work of the schools up to March 31st is completed I shall not be able to say whether each school satisfies the Code in every detail.

Order—No. 137, Educational, dated 13th March 1907.

The Code of Regulations for European schools gives very special concessions and the conditions of grant should therefore be most strictly enforced in the matter especially of the proportion of "European" scholars. Any institution which does not satisfy these conditions must be dealt with under the ordinary Grant-in-aid Code. The Director of Public Instruction will be requested to issue instructions accordingly.

2. He is also requested to report, not later than the 30th of June 1907, whether each school which has now been classed as a European school satisfies the Code in every detail.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction.

[Memorandum No. 316-1, Educational, dated 13th February 1907.]

From the Director of Public Instruction, dated 28th February 1907, No. 4774.

Article 7 (*d*) of the Code of Regulations for European schools runs thus—

> "No grant is made to any school in which the number of non-Europeans exceeds 15 per cent. of the total number of scholars, or such smaller percentage as the Local Government may by special order prescribe for any particular school or place."

2. The Director of Public Instruction reports that the principal conditions of recognition and aid contained in the Code of Regulations for European schools, with the exception of the condition in article 7 (*d*) quoted above, correspond to those prescribed in the original Educational Rules and the Grant-in-Aid Code and that all the European schools formerly admitted to aid have, therefore, in one way or other satisfied the conditions of recognition and aid under the Rules and Code.

3. The Director states that before the issue of the new Code of Regulations for European schools, several of these schools contained more than 15 per cent. of non-Europeans, that he made the managers of such schools understand that the new rule would be strictly enforced from the beginning of the second term of 1906 and that its violation meant forfeiture of their claim for any grant and that as a result of this there has so far been, as reported by the Inspector of European and Training Schools and the Inspectresses of Schools, only one case in which the number of non-Europeans exceeded 15 per cent. of the total strength.

4. Mr. Logan adds that all the schools admitted to aid satisfy the general conditions of the Code for admission to aid, but that until the inspection work of the schools up to March 31st is completed, he will not be in a position to say whether each school satisfies the code in every detail.

5. Orders are solicited whether the papers may be recorded and the Director asked to submit a detailed report on the matter soon after the 31st March 1907, when he expects to have the necessary details.

I would give him up to 30th June.
H. D. TAYLOR.

P.R.—7-3-07.

K. RANGASWAMI AIYANGAR—7-3-07.

C. A. SOUTER—7-3-07.

Honourable Member for information.

H. D. TAYLOR—7-3-07.

The European Code gives very special concessions and therefore the conditions of grant must be most strictly enforced in the matter especially of the proportion of "European" scholars. If the conditions are not satisfied then it must be dealt with under the ordinary Grant-in-Aid Code. The Director should issue instructions accordingly.
