The Director of Public Instruction, Madras.

Sir,

In continuation of my letter R.C. 1354 of 06 dated 11th March 1907 furnishing proposals for the utilisation of the special grant for education in this district for 1907-08, I have the honour to state I am issuing orders in anticipation of sanction to start the construction of rural school buildings for Rs. 10,000. I am adopting this course in order to avoid the difficulty experienced in previous years to spend the allotment and complete the works. On account of the starting of works late in the year, they were completed at a considerable pressure brought to bear on the Tahsildars entrusted with the execution of works and in the anxiety to prevent lapse, works had to be done very hurriedly. I am slo issuing orders in anticipation of sanction to start schools in three places having no schools, where buildings were put up in 1906-07. If you consider that this district may not get sufficient money to put up buildings for Rs. 10,000 and maintain 15 schools newly opened in 1906-07 and three schools to be opened in 1907-08, I request I may be informed of the same so that I may in time revoke my orders in

regard to the starting of buildings and new schools during
1907-08. No building will be raised at any site not already
selected at the conference or in consultation with the Taluk
Board Presidents.

Enclosures.

SIR,

With reference to your letter R. C. No. 1354/06, dated 15th April 1907, I have the honour to inform you that the proposals are yet due from several District Boards and that particulars as to the amount of contribution that will have to be made to local boards for revising the establishments in Board elementary Schools in accordance with rules 81 and 82 of the Educational Rules have not yet been received from Government. Moreover the amount available for distribution has been reduced to five lakhs. In these circumstances it will not be possible for me to say at present what allotment can be proposed for your Board. Schools for which buildings were constructed during 1905-06 and 1906-07 must be maintained and the contribution required therefore will be proposed but the amount that may be set apart for new buildings can only be determined after all the proposals have been received and tabulated.

I have the honour to be,
S i r,

Your most obedient servant,

Submitting for the information of Government a copy of letter from the President, District Board, Kurnool, regarding rural schools and a copy of my reply thereto.

This illustrates the way in which the Presidents of District Boards go on. The President, District Board, Kurnool, should be informed that if he starts new school buildings without allotments he will do so at his own risk and that no schools can be built at places where Board schools do not already exist.

With reference to his letter of the 10th inst. No. 1224 of 1907 dated the 10th April 1907, the Principal Secretary to Government, Madras, is informed that if he is satisfied that any new building is required for the purpose of the office, he may proceed to acquire the site and construct the building at his own cost. It is noted that no such building has been constructed at present. It is suggested that the site should be acquired and the building constructed at once.
