PRIVATE SECRETARY TO THE GOVERNOR
2-MAY 1907
MADRAS

To.

A. Y. G. Campbell Esquire B.A. I.C.S
Private Secretary to His
Excellency the Governor of
Madras.

Sir:

I see from the papers that the Government of India have decided to grant one scholarship annually to an European or Eurasian scholar in India who desires to prosecute his studies beyond the standard of High school Education at an English University. And that each local Government will be invited to nominate a Candidate.

May I ask that His Excellency the Right Honorable the Governor of Madras will be so good as to select my son as the Candidate nominated by the Government of of Madras. He passed the Matriculation Examination of the University of Madras in December last, which gives admittance into most of the English Universities as the Madras University is affiliated with both Oxford and Cambridge - He will be 18 years of age in September next which is also the age of admittance, and is thus qualified for nomination having received all his Education in India - He can satisfy the Government in all other respects as to physic Conduct &c.

As there will doubtless be other young men in the Madras Presidency who will desire nomination. In Considering their and my sons qualification, May I ask, where other things are

equal, my own services to the Madras Government may be taken into Consideration, and for this purpose I enclose "A partial record of my services in the Public Works Department Madras" for His Excellency's kind perusal.

Yours Faithfully

J A Stephens

6

A Partial Record of Mr. J. H. Stephen's Services.

◆ ◆

In the

Public Works,
Madras.

8 5 S.P.

A Partial Record of Mr. J. H. STEPHEN'S services
IN THE
DEPARTMENT OF PUBLIC WORKS,
MADRAS.

In May of 1872 a great cyclone with heavy floods passed over the North Arcot District and 504 irrigation works were reported to have been breached. By G. O. No. 1635, of 6th July 1872, Mr. J. H. Stephens was put in charge of 266 of these breached works, on which a very large revenue depended and which it was expected would have been lost to the Government, but so quickly were these breaches filled, that the Collector of that district in his Adminstration Report of 1872-73, dated 10th May 1873, reported to the Board of Revenue as follows :—

"The remissions (loss of revenue) amounted to only Rs. 5000. Many of these breaches had been closed and water secured to the tanks. Much credit is due to Supervisor Mr. J. H. Stephens of the D. P. W. who I understand was specially deputed to look after these breaches for his prompt measures in closing them." By promptness and system in this work, the Government was saved more than a lakh of Rupees in revenue and the people an incalculable loss. Colonel F. G. Moberly R. E. (afterwards well known in the London School Board) in his No. 143 of 20th December 1872, then recommended Mr. J. H. Stephens for promotion into the higher Engineering grades.

From the above works Mr. J. H. Stephens was sent on to the Caveripâk Tank, then the largest resevoir in Southern India which had suddenly given way risking a large loss of revenue. In a few months, this great reservoir was made quite safe and the Government in G. O. No 123 of 19th January 1874 recorded as follows :— "His Excellency the Governor in Council has read with interest Captain Pennycuick's clear report of the extensive and in some respects difficult work which has been carried out at the Caveripâk Tank and the Satisfactory manner in which Mr. Stephens the Supervisor in immediate charge has superintended the work is noticed with satisfaction." A short time after the Government again recorded their Satisfaction regarding this work in G. O. No. 626 dated 10th March 1874, stating " The Government are glad to learn that the work recently executed at the Caveripâk Tank has been so carefully and successfuly carried out and has stood the test of the Monsoon." Over a lakh of Rupees in revenue was again saved to the Government by the promptness and energy with which this work was carried out and the ryots were rescued from very great loss.

When the Nellore District was flooded in October 1874, the then Superintending Engineer Mr. R. Smith asked that a Company of Sappers and a large number of Engineers may be sent to him. The only response made by the Government to this request was to send Mr. Stephens to that District by Government Gazette Notification dated 3rd November 1874 when he was placed in charge of the whole of the Northern Delta of the Pennar where most of the damage was done. Three months after, the Chief Engineer inspected the District and in his No. 397-A of the 21st April 1875 para 43 reported to the Government as follows :—" Great Credit is due to all concerned for the energy displayed in repairing damages and re-opening communication. The way in which an enormous amount of work in many directions was accomplished is a remarkable instance of what is possible &c, &c" In G.O., No. 1612 of 9th June 1875 para 4, the Government recorded their satisfaction. Here again the Government was saved a large amount of revenue and the people greatly benefited by prompt, untiring, and systematic action.

At the end of 1876 when the great Famine commenced, the Buckingham Canal was started as the largest and most important relief work of the Madras Presidency to absorb the labour of more than half the Famine area. It was divided into three main divisions for which three specially selected Executive Engineers were required In G.O, No. 3290 of 5th December 1876 the Government selected Captains Rawson, Henderson and Mr. Stephens for the charge of these three special divisions though Mr. Stephens was then only a Supervisor, with any number of Assistant Engineers and upper Subordinates as Sub-Divisional Officers. Afterwards when two senior Executive Engineers were sent from Bengal (Messrs, Brooks and De'Groseliers) Captain Rawson was removed to the Kristna District, Captain Henderson was put in charge of a Sub-Division but Mr. Stephens was retained in charge of an Executive division, showing that at a time of the greatest difficulty the Government was so good as to prefer him to their best Executive Engineers His division of the canal was the only one inspected by Sir R. Temple, the Famine Commissioner, sent out by the Viceroy and in his report Nos. 99 of 3rd March and 103 of 6th March 1877 paras 10 and 11 and memorandum on the Nellore District accompanying the latter para 1, it will be found how highly he speaks about the "arrangements," "System" and "practical ability" with which this work was executed.

When it was resolved that the Consulting Architect to Government of Madras should construct his own designs, an order of Government was issued at the end of 1882 forming a separate executive division for which Mr. Stephens was specially selected, under the orders of the Consulting Architect to Government. He was thus put in charge of all the most important building operations in the City of Madras.

After the completion of the new Opthalmic Hospital and when surrendering a savings of Rs. 4,000 on that work, the Consulting Architect Mr. Chisholum reported to Government very favourably on the manner in which this work was completed by Mr. Stephens, when the Government in G.O., No. 485-W of the 24th February 1886 was so good as to "notice with approval the manner in which the work is reported to have been completed."

At the close of the Administration of His Excellency Sir Grant Duff as Governor of Madras, he wrote a review of the important works carried out during his term of office dated 20th September 1886. On the persual of this review, Colonel Ross-Thompson R.E., the Officiating Consulting Architect to Government wrote to the Chief Engineer and Secretary to Government Public Works Department as follows :—

"In the review minute by His Excellency the Right Honourable the Governor dated 20th September 1886, pages 52 and 53, paras 4, 6 and 9 mention is made of the additions to the School of arts Buildings, the beautifying of Madras by Improvements to the Chepâk Park, Laying out Gardens on the banks of the river Cooum. the formation of the South Beach "Marina," the construction of the new Opthalmic Hospital and the Improvements to the Public Works Offices." I have the honor to bring to your notice that Mr. J. H. Stephens, Honorary Assistant Engineer in the consulting architects division was the officer in immediate charge of these important works and as they reflect Credit upon him, it gives me much pleasure in recommending him to your favourable Consideration." The Government in G. O. No. 3287-W of 13th December 1886 were so good as to note the above recommendations—His Excellency Sir Grant Duff considered the marina one of the above works to be "one of the best in the world." During his tenure of office Mr. Stephens acted as Consulting Architect to Government for a short time.

From 1887 to 1896 the following important works were begun and completed by Mr Stephens.

1. A new wing to the College of Engineering.

2. Inprovements to the Medical College.

3. New Presidency Magistrates Court Black Town.

4. New Gosha Hospital, Chepauk.

5. The New Law Courts Comprising the High Court, Small Cause Courts and the City Civil Court, the largest building in South India.

6. New wing and laboratory to the Presidency College.

7. New Law College.

8. Improvements to the Government House Madras.

9. A large Number of other works too numerous to detail.

For his work at the Law Courts, His Excellency Lord Wenlock was so kind as to publicly praise him at the opening of those Courts—His Excellency Lord Landsdowne the Viceroy opened the new City Civil Court and praised that work. Their Excellencies Lord Landsdowne and Lord Wenlock and Sir Arthur Collins, the Cheif Justice, each laid a stone in the dome of the New High Court tower, the first stone dome built in South India. His Excellency Sir Arthur Havelock praised the Inprovements to the Government House in the presence of his Military Secetary—The public works members in Council, the Chief Engineers, and most of the higher Officials and Engineers at Madras, inspected and admired and praised these large works during and after construction.

In every one of the above works large savings were made on the estimate and credited to Government. In the Law Courts the savings were so much as Rs. 35,000.

On the breaking out of Famine in 1897, Mr. Stephens was sent to the Kurnool District the worst part of the Famine Area. For his work here, he received the thanks of the Government through the Collector. On the completion of the Famine, Mr. Stephens retired from the Public Works Department on the invalid pension of his grade.

It will be seen from the above record, that Mr. Stephens was specially selected in Large Floods, Great Famines, and in Very Important Architectural buildings and City improvements where a man of marked ability was required, yet in no case was he given any special bonus, or special promotions, though often recommended for the same, and only an ordinary pension.

Rc No. 2807/07

Station Ootacamund, Dated the 3rd May 1907

From (Name) The Hon'ble Mr. T. T. Logan,
(Designation) Ag. Director of Public Instruction,
Madras

To The Secretary to the Government of Madras,
Educational Department.

Sir,

M

In reply to G. O. No 200, Educational, dated 5th April 1907 I have the honour to state that I am unable to recommend from this Presidency any suitable and fully qualified European Candidate for the scholarship notified by the Govt of India in their Resolution No 221/238, dated 19th March 1907.

2. I have consulted the Inspector of European Schools on the point and he, in his turn, has consulted

the

the University Calendar and the heads of Colleges. It may be noted that as the European High School Examination has not yet been held in this Presidency the choice is restricted to graduates. Enquiries were made concerning two European graduates who had taken good degrees and were otherwise eligible; but it was discovered that both of these graduates had already gone to England to continue their studies. It seems, therefore, undesirable to recommend either of these as the scholarship is obviously intended as an inducement to those who would not or could not otherwise go to England. The Inspector of European Schools suggested the names of two students who are now studying for the B.A. degree and whose work is well-spoken of by the Principals concerned. But, apart from the fact that they are not eligible, it seems unnecessary to disturb their studies now as they can be recommended in future years if they do well.

3. It may also be mentioned that an application has been received from Mr. M. Thompson. He is a native of India within the meaning of the Act

and

and completed his twenty-second year on 20th March 1907. He studied in the Presidency College from the beginning of 1902 to the end of 1905 and passed in English and Tamil in December 1904 (third class) and in Mental and Moral Science (second class) in December 1905. He graduated in 1906 and is now a teacher in Bishop Corrie's School. He wishes to study English and physical science in England and intends to devote his life to the Education profession. The Principal, Presidency College, reports favourably on his conduct. It will be noted that he is not fully qualified according to the Govt of India Resolution.

[Memo. no. 1035-1 d/ 3-5-07]

From the D.P.I. no. 2807 dated 3-5-07
" " " " 3280 " 8-5-07

In para. 2 of G.O. no. 200 Educational, dated 5th April '07 the D. P. I. was asked to nominate a duly qualified candidate for the Govt. of India Scholarship, tenable at an English University, for the members of the domiciled European and Eurasian Community which is to be awarded during the Current year.

Pages 12 to 14 of C-f.

2. In his letter of the 3rd instant the D.P.I. reports that he has consulted the Inspector of European Schools in the matter and the Inspector, the heads of Colleges and that in the result he is "unable to recommend from this Presidency any "suitable and fully qualified European candidate "for the scholarship".

3. In para 3 of his letter the Director mentions one Mr M. Thomson who is a graduate of the Madras University and who is now a teacher in Bishop Carrie's Grammar School and says that "he is not fully qualified according to the Govt. of India Resolution". He completed his 22nd year on the 20th March 1907; but a candidate for the scholarship should not be more than 22 years of age.

Page 14 of C-f.

Para 3(i) of the G. of I. Resn. on p. 2 of G.O. 200 Edl. d 5-4-07. S

4. In his Endt. of the 8th ~~may~~ instant, the Director reports on the application of Mr Stephens which was referred to him under Endt. No. 1035-1 dated 3rd May 1907. He states that Mr Stephens is not a graduate of an Indian University; that he has passed only the Matriculation Examination; but that there is

Page 16 of C-f.

Page 11 of C-f

nothing to show that he has been for the preceding two years a student of a recognized school or that he is of good physique. The Director further doubts whether Mr Stephens, as a resident of the Civil and Military station of Bangalore could be recommended by the Madras Govt.

Why not: if he is a British born subject?
817

5. In these circumstances, the Govt. of India may, it is submitted, be informed that this Govt are unable to recommend a suitable and fully qualified European candidate for the Scholarship.

6. A draft is placed below for approval.

T.K.
9.5-07.

Sec.

The Chances probably were that this Presidency would not in any case have got the first choice.

1057.

A further application has been received with DPI's recommendation on behalf of Moreton Willmott, who has been educated for 5 years at St Joseph's College Darjeeling & is stated to have passed third at the Bengal High School Examination held in Nov 1906. This requires verification. The candidate's father Mr Willmott, has settled at Cocanada, where he is now Hony. Magistrate, after retiring from service in Hyderabad State

PRIVATE SECRETARY TO THE GOVERNOR
13 MAY 1907
MADRAS

My dear Campbell.

Stephens the Engineer of the C. & M. Station Bangalore Municipality has written to me to ask me to do anything I can to promote the chances of his son getting nominated to a scholarship for European or Eurasian boys. I am-

-derstand he has already written officially on the subject. As Stephens was my right hand man during the two years I was in Bangalore I hope it will not be taken amiss if I say a word in his favour.

I have the greatest respect for him. He has a most honourable record both in Madras & Bangalore: is a first class Engineer & a most painstaking & valuable official. He is now getting old & I know is none too well off. It would

Clu

be of the very greatest assistance to him, if his son could get ~~this~~ this scholarship – the boy has I believe got the necessary qualifications – & I feel sure Government could not make a better choice than the son of such a well-tried servant as J. H. Stephens.

I hope you will do anything you can for him: Yours sinc. E Kind.

Cbs 1857. Hb 18.5.7

LETTER:-- No. 310, d 22-5-07.

To

The Secretary to the Government of India,
Home Department.

Sir,

With reference to paragraph 3(i) of the Resolution of the Government of India, No.221/238, Education, dated 19th March 1907, I am directed to submit the name of ~~Mr. M.~~ Malcolm Thompson for the favourable consideration of the Government of India in connection with the scholarship to be awarded this year for members of the domiciled European and Eurasian community.

prefile

2. Mr. Thompson is a native of India within the meaning of Statute 33 Vict. cap.3, section 6. He attained his 22nd year on the 20th March last and has been declared to be physically fit for residence in England.

P417. Univ. Calendar 1906

3. Mr. Thompson is a Graduate of the University of Madras. He studied in the Presidency College from 1902 to 1905 and took his degree in Mental and Moral Science in 1906. He is at present employed as a teacher in Bishop Corrie's Grammar School at Madras. He wishes to study English and Physical Science in England and intends to devote his life to education.

4. The Governor in Council is of opinion that Mr. Thompson is ~~just the~~ a ~~sort of person~~ person on whom a scholarship may well be bestowed and strongly recommends his candidature.
