READ—the following papers :—

I

Memorandum No. 338, Educational, dated 24th July 1906.

The Government understand from Mr. R. Bruce Foote that he has sent to the Government Press for printing the "Catalogue Raisonné" of the collection of prehistoric articles purchased from him by Government in 1904. The Superintendent, Government Press, is requested to have the catalogue put in type and proofs sent to Mr. Bruce Foote and Mr. Thurston. Three copies of the proof may also be forwarded to this office.

Copies should not be finally struck off without the orders of Government.

III

Office-note—from T. FISHER, Esq., Superintendent, Government Press.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 6th October 1906.
No.—Dis. 4910.

In reply to Memorandum No. 481, dated 1st October 1906, the Superintendent, Government Press, submits that proofs of the Catalogue Raisonné are being sent daily in batches of about 24 pages to Mr. Bruce Foote and to Mr. Thurston and the last will be sent to-morrow. As the manuscript is not very good and there may be many corrections, the three copies asked for by the Educational Department have not been sent. It is proposed to wait till the proofs have been corrected by Mr. Bruce Foote before sending these copies.

IV

Office-note—from T. FISHER, Esq., Superintendent, Government Press.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 12th December 1906.
No—Ref. 3748.

In reply to reminder in Memorandum No. 338, Educational, dated 24th July 1906, and in continuation of this office-note No. 4910, dated 6th October 1906, the Superintendent, Government Press, submits that Mr. Bruce Foote has just returned a portion of the Catalogue Raisonné rather heavily corrected, and he has promised to return the others soon. When the whole has been returned corrected three complete copies will be sent to the Educational Department as requested.

2. In this connection I solicit instructions whether the type of the "Check List" which has been locked up for two years may be distributed? It makes 296 octavo pages.

V

Memorandum No. 379, Educational, dated 28th February 1907.

The Government understand from Mr. Thurston that Mr. R. Bruce Foote has, in connection with the printing of the Catalogue Raisonné of the collection of prehistoric articles purchased from him by Government in 1904, made a provisional selection of articles for illustration and that he will make the final selection in a few days, when the illustrations will be ready for reproduction by the Survey Department.

2. The Deputy Director of Revenue Survey is requested to state whether he will be ready to proceed with the work of reproduction as soon as the final selection has been made.

Letter—from H. S. MULLINS, Esq., Acting Deputy Director of Survey.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 9th March 1907.
No.—7-G.

Adverting to Memorandum No. 379, Educational, dated 28th February 1907, I have the honour to state that I am prepared to proceed with the work of reproduction of the illustrations relating to prehistoric articles when the negatives are received.

The process of printing suitable for the illustrations will be decided and reported for approval on receipt of the negatives.

VII

Memorandum No. 620-1, Educational, dated 19th March 1907.

The Deputy Director of Revenue Survey is requested to be so good as to depute, as early as practicable, a competent photographer to the Government Museum for the purpose of making the negatives required in connection with the printing of the Catalogue Raisonné of prehistoric articles purchased by Government from Mr. R. Bruce Foote.

VIII

Letter—from H. S. MULLINS, Esq., Acting Deputy Director of Survey.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 2nd April 1907.
No.—8-G.

I have the honour to report that, as instructed in Memorandum No. 620-1, Educational, dated 19th March 1907, a photographer was directed to report himself to Mr. E Thurston at 10-30 A.M. on the 26th March 1907.

2. The photographer was instructed by Mr. Thurston to obtain instructions from Mr. R. Bruce Foote at his house in Nungambakkam whither he then proceeded. Mr. Bruce Foote informed the photographer that he would visit me in my office on the 27th March 1907.

3. On Mr. Bruce Foote coming to my office, he told me that he was leaving for Yercaud by the evening train that evening.

I await further instructions, as I believe Mr. Bruce Foote has not yet selected which articles he would wish photographed and does not intend returning to Madras until May next at the earliest.

4. I would suggest that, for the present, the matter be permitted to drop.

IX

Letter—from D. G. HATCHELL, Esq., Director of Survey.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 13th June 1907.
No.—12-G.

In continuation of my letter No. 8-G., dated 2nd April 1907, I have the honour to report that as since arranged by Mr. Bruce Foote, the photographing of the prehistoric articles is being done at the Government Museum from the 29th of last month under his personal supervision, and that about 20 negatives containing more than 300 articles have been taken till now. As the photographing of the articles that have been selected will come to a close in two or three days, Mr. Bruce Foote is anxious to know whether Government have fixed any limit to the number of illustrations to go into the catalogue. As this information is not available in my office, I beg to request that Government will be pleased to furnish it by wire.

Order—No. 382, Educational, dated 15th June 1907.

With reference to his letter No. 12-G., dated 13th June 1907, the Director of Survey is informed that all the specimens originally selected by Mr. Bruce Foote, numbering 460 as estimated by him, may be reproduced unless Mr. Bruce Foote himself should desire to exclude any of them. There is also no objection to the reproduction of any additional specimens which Mr. Bruce Foote may, for special reasons, desire to include.

2. In his letter of 13th March 1907, Mr. Bruce Foote represented that the value of the catalogue now under preparation would be greatly enhanced if it could be accompanied by a good map showing the situation of the many localities of prehistoric and protohistoric interest mentioned in it, the sites at which the various groups of specimens were collected, and the geographical distributions of the several peoples whose works are treated of in the catalogue. The Government consider that such a map would be a very useful auxiliary. The Director of Survey is therefore requested to furnish Mr. Bruce Foote with a skeleton map of India, after consulting that gentleman as to the scale which may be most convenient for the purpose, and to arrange for the requisite number of copies of the same to be struck off, after it has been duly filled in, for publication with the catalogue.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 382, EDUCATIONAL, DATED 15TH JUNE 1907.

[SUBJECT.—*Publication of a Catalogue Raisonné of the prehistorics purchased from Mr. Bruce-Foote.*]

From the Superintendent, Government Press, dated 6th October 1906, *No.* 4910.

In memorandum No. 338, Educational, dated 24th July 1906, the Superintendent, Government Press, was requested—

(1) to have the Catalogue Raisonné of the prehistorics purchased from Mr. Bruce Foote put in type and proofs sent to Mr. Thurston and Mr. Bruce Foote;

(2) to send three copies of the proof to this office and

(3) not to strike off copies without the orders of Government.

2. The Superintendent reports that proofs have been sent to Mr. Thurston and Mr. Bruce Foote in batches, the last batch having been sent on the 7th instant. But as the manuscript was not very good and as the proofs might therefore require many corrections the copies required by Government have not been sent. He proposes to wait for corrected proofs from Mr. Thurston and Mr. Bruce Foote.

3. It is submitted that the papers may, for the present, lie over.

C. G. MACKAY—15-10-06.

From the Superintendent, Government Press, dated 12th December 1906, *No.* 3748.

The Superintendent, Government Press, reports that Mr. Bruce Foote has returned a portion of the Catalogue Raisonné rather heavily corrected and has further promised to return the other soon. The Superintendent further states that when the whole has been returned corrected three complete copies will be sent to this department as requested.

2. The Superintendent also solicits instructions whether the type of the check list which has been locked up for two years may be distributed. It has been decided that the printing of the check list should not be given up but that it may be left to be completed by the museum people when the Catalogue Raisonné has been published—*vide* page 11 of the notes with G.O., No. 581, Educational, dated 3rd September 1906. The Superintendent, Government Press, may therefore be informed that the type of the check list should not be distributed.

Demi-official from C. A. Souter, Esq., I.C.S., Assistant Secretary to Government, Educational Department, to the Superintendent, Government Museum, dated 12th February 1907, No. 1657-1.

I am directed to ask you to be so good as to let me know what progress Mr. Bruce Foote has made in the selection of specimens to illustrate his "Catalogue Raisonné," and whether he has as yet had any specimens photographed.

Demi-official from E. Thurston, Esq., Superintendent, Government Museum, to the Secretary to Government, Educational Department, dated 13th February 1907.

Regarding your Demi-official No. 1657-1 of the 12th instant, Mr. Foote is away from Madras just now but will, I believe, be back in a day or two. As soon as he returns I will ascertain the state of affairs.

Submitted that the further information promised by Mr. Thurston may be awaited.

Demi-official from E. Thurston, Esq., Superintendent, Government Museum, to the Secretary to Government, Educational Department, dated 18th February 1907, No. 107.

Regarding your Demi-official No. 1657-1 of the 12th instant, I gather that Mr. Foote has been all through the prehistoric collection, and has made a provisional selection of articles for illustration. It will take him a few days to go through these, and make the final selection. Then he will be ready for the work of reproduction by the Survey Department.

We had better ask the Survey Department whether they will be ready to proceed with the work as soon as the final selection has been made.

[Memorandum No. 379, dated 28th February 1907.]

From the Deputy Director of Survey, dated 9th March 1907, No. 7-G.

The Deputy Director of Survey states that he is prepared to proceed with the work of reproduction of the illustrations relating to prehistoric articles when the negatives are sent to him. He adds that the process of printing suitable for the illustrations will be decided and reported, for approval, on receipt of the negatives by him.

2. Please see Mr. Thurston's demi-official on the previous page. The papers may perhaps lie over for a week or two.

P.R.—14-3-07.

This information was called for with reference to the Secretary's remarks on the back of the demi-official.

K. Rangaswami Aiyangar—14-3-07.

Demi-official from R. Bruce Foote, Esq., to H. D. Taylor, Esq., Acting Secretary to Government, Educational Department, dated 13th March 1907. No. 620.

I have now gone through the collection and have set aside the specimens that I would like to have photographed to illustrate the introduction to my catalogue. I have selected them either for their intrinsic beauty or because they are specially instructive types of their kind.

Can I therefore proceed to arrange with the Madras Survey Department to have a competent photographer sent to the museum to make the necessary negatives as was done for the museum catalogue, and will you kindly move Government to decide what number of illustrations may be provided for the work.

A I have set aside 428 specimens to be pictured and a few more should be selected from the specimens which had to be repacked because no provision of table cases had been made. The total number which deserves special illustration will be about 460—a very moderate number out of a total of over 7,000 specimens!

I should be very glad if you would look in at the museum and let me show you the selected specimens as you would then far better understand my wish to have them figured.

My work in completing the catalogue would have been immensely facilitated if the room to contain my collection could have been completed last year, so that the specimens could have been unpacked and arranged finally by *myself* who have studied them so long and closely. The value of my catalogue would be greatly enhanced if it could be accompanied by a good map showing the situation of the many localities of prehistoric and protohistoric interest mentioned in it and I hope Government will sanction one, for on it could be shown the geographical distribution of the several peoples whose works are treated of in the catalogue.

The number of such localities is considerably over 300 !

Mr. Mullins might be asked when he could arrange for the photography.

H. D. TAYLOR—14-3-07.

Please see Mr. Mullins' reply.

K. RANGASWAMI AIYANGAR—14-3-07.

Mr. Mullins may be asked to depute a photographer as soon as he can.

C. A. SOUTER—15-3-07.

Yes. I have asked Mr. Mullins to meet me at the museum on Monday morning.

H. D. TAYLOR—16-3-07.

Demi-official from H D. Taylor, Esq., Acting Secretary to Government, Educational Department, to R. Bruce-Foot, Esq., dated 14th March 1907, *No.* 620-1.

I am to acknowledge receipt of your letter of 13th instant on the subject of the photographs of the specimens selected by you. Orders will be obtained on the various points mentioned in your letter as early as possible.

I should be glad to come round and see the selected specimens at the museum some morning, if you would let me know what hour would suit you best. Any time between 7-30 and 9 A.M. on Monday next would suit me if convenient to you.

Demi-official from R. Bruce-Foote, Esq., to H. D. Taylor, Esq., Acting Secretary to Government, Educational Department, dated 15th March 1907.

Thanks for saying you will come to the museum to see the prehistorics. Monday morning at 7-30 would suit me extremely well and I will be there accordingly.

My specimens are lying in the south room of the Connemara Library.

Demi-official from C. A. Souter, Esq., Acting Assistant Secretary to Government, Educational Department, to R. Bruce Foote, Esq., dated 6th April 1907, *No.* 819-1.

As the Survey Department is quite ready to proceed with the work of reproduction of the illustration of the prehistorics as soon as the negatives are put into its hands, I am directed to ask you to be so good as to let me know when you propose to return to Madras.

From the Director of Survey, No. 12-*G*., *dated* 13*th June* 1907.

Mr. Hatchell reports that the photographing of the prehistoric articles is being done at the Government museum and that the work is likely to be finished in two or three days. He observes that Mr. Bruce Foote is anxious to know whether Government have fixed any limit as to the number of illustrations to go into the catalogue and requests orders by wire.

2. Attention is solicited to the portion marked **A** in Mr. Bruce Foote's demi-official of the 13th March 1907, from which it will be observed that he estimated the total number of specimens which deserved special illustration at 460. The Government do not appear to have passed any orders limiting the number of illustrations to go into the catalogue.

K. RANGASWAMI AIYANGAR—14-6-07.

I inspected the specimens selected by Mr. Bruce Foote on Monday 18th March in company with Messrs. Bruce Foote, Thurston and Mullins. Mr. Thurston saw no objection to photographing the entire selection.

The Director of Survey may be told that the entire number of specimens selected by Mr. Bruce Foote, 460 in number, as estimated by him may be reproduced unless Mr. Foote himself should desire to exclude any of them.

Or include any more. The number for reproduction is not large out of the total.

G. S. F[ORBES].

2. No orders have been passed on the point referred to in the last paragraph of that letter, viz., as to the printing of a map with the catalogue showing the localities at which the prehistorics were collected (see paragraph 1 of my demi-official of 14th March 1907, which office should not have overlooked).

A very useful auxiliary.

The Director of Survey may be asked to furnish a skeleton map of India to Mr. Bruce Foote.

Seen. I think we ought to point out to Educational that the Deputy Director, Revenue Survey, being under the Board of Revenue, the official memoranda of 28th February 1907 and 19th March 1907 ought to have come to Revenue for acceptance before issue.

2. Who is paying for these illustrations? Is their cost being met out of the Rs. 4,000 provided in the budget under 3-B. Land Revenue—Survey and Settlement—Supplies and Services? If so, what are they to cost? Has any estimate of cost been framed?

A. G. Cardew—18-6-07.

The catalogue is not intended for the Revenue Department. It is in respect of certain collection of prehistorics placed in the Madras Museum and under the ruling in G.O., No. 405, Revenue, dated 22nd April 1903, the cost of printing illustrations at the Survey office will apparantly be recovered from the Educational Department.

K.R.N.—19-6-07.

Will Educational please answer Secretary's queries.

D. T. Chadwick—19-6-07.

To the Educational Department.

Educational Department.

The catalogue is to be published at the expense of Government as a reference to the collection of prehistoric antiquities purchased from Mr. Bruce Foote and placed in the Government Museum. The cost of the illustrations will be met from the museum budget. No estimate of the cost has been prepared; but the actual cost will be recovered by the Survey Department from the Superintendent, Government Museum, under G.O., No. 405, Revenue, dated 22nd April 1903, and the expenditure debited against the budget of the Government museum.

2. It is observed that G.O., No. 233, Educational, dated 29th March 1906, which ordered that the illustrations of the catalogue should be reproduced by the Survey Department was accepted in Revenue—please see page 5 of K.W. G.O., No. 233, Educational, dated 29th March 1906.

T.K.—26-6-07.

The memoranda of the 28th February and 19th March 1907, respectively, related merely to matters of detail which were arranged for in pursuance of G.O., No. 233, Educational, dated 29th March 1906.

K. Rangaswami Aiyangar—29-6-07.

C. A. Souter—1-7-07.

It is at any rate desirable that we should have an estimate of the cost so that budget provision may be made next year, or funds made available in the current year, if no special provision exists in the museum budget.

2. If Revenue Department desires to see intermediate official memoranda in regard to details of a general scheme which has already obtained the approval of that department, the fact will be noted for future guidance.

3. I may note that I personally went with Mr. Mullins to inspect the specimens. Mr. Bruce Foote is, as Mr. Cardew is probably aware, somewhat uncertain in his movements and hard to catch, and it was necessary for me to improve the shining hour while it was possible to do so.

I submit that Educational may go ahead. The cost will not be debited to 3-B., but will be met from the allotment for the Government Museum. It is hardly necessary for Revenue to see intermediate official memoranda.

D. T. Chadwick—3-7-07.

Yes. We don't wish to obstruct Educational's difficult task in this matter. I note, however, that the number of illustrations was nearly doubled between G.O., No. 233, dated 29th March 1906, and O.M. No. 382, dated 15th June 1907.

Dear Mr Taylor

Can I therefore proceed to arrange with the Madras Survey Department to have a competent photographer sent to the Museum to make the necessary negatives as

[Please see pair on page 8]

as was done for the Museum Catalogue, and will you kindly move Government to decide what number of illustrations may be provided for the work.–

A

I have set aside 428 specimens to be pictured and a few more should be selected from the specimens which had to be repacked because no provision of table-cases had been made. The total number which deserves special illustration will be about 460, a very moderate number out of a total of over 7000 specimens!

I should be very glad if you would look in at the Museum and let me show you the selected specimens as you would then far better understand my wish to have them

figured.

My work in completing the Catalogue would have been immensely facilitated if the room to contain my collection could have been completed last year so that the specimens could have been unpacked and arranged finally by *myself* who have studied them so long and closely.

The value of my catalogue would be greatly enhanced if it could be accompanied by a good map showing the situation of the many localities of prehistoric and protohistoric interest mentioned in it and I hope Government will sanction one for on it could be shown the geographical distribution of the several peoples whose

works are treated of in the catalogue.

The number of such localities is considerably over 300!-

~~Memo~~ 382 d/ 15.6.07

Copy at once

With reference to his letter No. 12/ G. dated 13th June 1907, the Director of Survey is informed that all the Specimens originally selected by Mr. Bruce Foote, numbering 460 as Estimated by him, may be reproduced, unless Mr. Bruce Foote himself should desire to exclude any of them, ~~or to include any more~~. There is also no objection to the reproduction of any ~~more~~ additional Specimens which Mr. Bruce Foote may for special reasons desire to include.

2- In his letter of 13th March 1907 Mr Bruce Foote represented that the value of the catalogue now under preparation, would be greatly enhanced if it could be accompanied by a good map showing the situation of the many localities of prehistoric and protohistoric interest mentioned in it, the sites at which the various groups of specimens were collected, i.e. the geographical distributions of the several peoples whose works are treated of in the catalogue. The Govt. consider that such a map would be a very useful auxiliary

~~2~~ The Director of Survey is ~~also~~ therefore requested to furnish Mr. Bruce Foote with a skeleton Map of India, after consulting that gentleman as to the scale which may be most convenient for the purpose, and to arrange for the ~~the~~ requisite ~~same~~ ~~to be for~~ number of copies of the same to be struck off, after it has been duly filled in, for publication with the catalogue.
