Sir,

Subject:— Education - Elementary - Compulsion - Enforcement of -
Proposals to appoint additional staff etc., - Sanction
requested.

Steps were taken in 1938-39 to enforce compulsion in accordance with the rules framed under G.O.No.206 (Edn.) dated 29-1-1937. For want of adequate staff to serve notices promptly on the parents of defaulting children, the procedure laid down in the Government Order cited above could not be effectively enforced. No doubt, several thousands of notices were served and warnings issued and in a few cases monetary penalties were also levied but the service of notices, the issue of warnings and the levy of penalties were not systematic and prompt and therefore not effective.

Owing to the large scale evacuation in the City in 1942 and the consequent issue of G.O.No.1437 (Edn.) dated 10-10-1942 granting freedom to the parents and guardians living in the Madras City and in the coastal towns in the matter of sending their children or wards to schools, the enforcement of compulsion had to be kept in abeyance. In G.O.No.783 (Edn.) dated 19-5-1944 Government confirmed the notification made in G.O.No.121 (Edn.) dated 31-1-1944 cancelling the exemption given to the guardians, in view of the improved situation, and ordered that compulsion should be enforced in the City in the usual manner. Notices in triplicate have to be written for each parent of a defaulting child and served on the parents concerned. At present the service of notice is being attended to entirely by the Corporation school teachers out of school hours, and after service of notices the counterfoils are sent to the office with the signature and date of service noted on them.. The parent has to send a reply within ten days after the service of notice, and replies received within the time limit have to be forwarded to the concerned Deputy Inspectors of Schools for remarks. The Deputy Inspectors scrutinize the replies of the guardians and furnish their remarks in respect of each case whether action should be taken on the guardians by way of imposing penalties under the rules or whether they should be excused as satisfactory reasons are shown for the absence of their children. In cases where penalties are recommended, penalty notices have to be written in triplicate and served on the parents. In cases where no replies are received from the guardians within the time limit of ten days, penalties should be imposed straightaway. All these items of work have to be done within a period of three months from the date of receipt of the report of default by the Commissioner. The work is voluminous and requires adequate staff, both clerical and executive. The work of taking census of children of school-age year after year is also being attended to by the staff of the Corporation schools and aided schools at the instance of the Deputy Inspectors of Schools. In the interest of efficiency of Corporation schools, it is necessary that the teaching staff should not be burdened with the work of serving notices or collecting fines, as their time and energy could be more profitably spent on teaching children properly. The Council, at its meeting held on 24-10-1944, therefore approved, as an experimental measure for one year, the appointment of the following staff, so that the scheme of compulsion may be worked effectively :-

2 Clerks on Rs.35-2-75 plus Dearness Allowance to prepare the notices, warnings etc.,

4 Attendance Checkers on Rs.35-2-55 plus Dearness Allowance with a cycle allowance of Rs.3/- per mensem to serve notices, collect penalties etc.

An extract from the Minutes of Proceedings of the Meeting of the Council
P.T.O.

Council held on 24-10-1944 on the subject is enclosed. It is requested that as there are more than 12,000 defaulters in each quarter sanction may be accorded for the appointment of the staff proposed above as an experimental measure for one year and to debit the cost to the Elementary Education Fund.

The Council at the meeting held on 24-10-1944 has also passed the following resolution :-

"That the Government be requested to direct the A.R.P. Organisation to prepare lists of all boys and girls who are not attending schools and furnish those lists to the Commissioner of the Corporation of Madras at as early a date as possible".

The school-ages prescribed for boys and girls are given below :-

Non-Muslim boy:

The period of his life from the date on which he attains the age of six to the date on which he attains the age of twelve.

Muslim boy :-

The period of his life from the date on which he attains the age of six to the date on which he attains the age of thirteen.

Non-Muslim girl :-

The period of her life from the date on which she attains the age of five to the date on which she attains the age of ten.

This work will not take more than two weeks and the necessary forms will be supplied by this office.

I request that suitable instructions may kindly be issued to the Director of Civil Defence to undertake a complete census of all children of school going age with the help of the A.R.P. staff under his control.

Sir,

Subject:— Establishment - Corporation of Madras - Elementary
Education Fund - Appointment of Clerks - Sanction
requested.

Ref: G.O.No.Ms.792, Education dated 22-5-1945.

As required in paragraph 13 of the remarks of the Director of Public Instruction P.No.54.B3/44-45 dated 31-1-45 on the budget estimate of the Elementary Education Fund of the Corporation of Madras for 1945-46 forwarded with the G.O. quoted above, I furnish below the following particulars explaining the need for the appointment of 3 more clerks for the office of the Education Department.

1. The clerical staff of the office of the Educational department consists of 6 clerks, one Shorthand-typist and one Accountant whose pay is met from the Elementary Education Fund, and 3 clerks and one Section Manager whose pay is borne from the General funds of the Corporation. The work connected with the management of 155 Corporation Schools (73 boys' schools, 49 girls' schools, 20 Muslim Boys' Schools and 13 Muslim Girls' Schools) and 8 playgrounds, maintained from the Elementary Education Fund is attended to here. The employees of the schools both inferior and superior number about 2,000 and the work connected with their appointments, increments, leave, promotion, transfers, pension and gratuity is attended to by 3 clerks, two for the boys' Section and one for the girls' section. The latter attends also to the work regarding recognition of schools. Of the remaining three clerks whose pay is met from the Elementary Education Fund, one attends to correspondence relating to 105 buildings taken on rent for occupation by schools, printing of forms, supply of stationery to schools, supply of furniture and equipment to schools. He scrutinizes all indents from schools and attends to proposals for opening new schools etc. One additional clerk to assist

tion to prepare lists of all boys and girls who

for consideration whether the
modification in the scale of pay suggested by Rs
200 should be incorporated in the draft. The
justification for doing so would be that
the E. E. Fund is controlled by Govt. and
that it would be open to them to
say that expenditure on such and such scale alone can
be related to Govt.
With ref. to P. No. B. 2. C. 2, now being
the A. R. P. staff has been increased, it is sub-
perhaps necessary to pass orders in that matter.
2-2-45

this clerk and another to assist the establishment clerk, girls' section is necessary. Out of the remaining two clerks, whose pay is met from the Elementary Education Fund, one attends to compulsion work and the other to miscellaneous items of work, such as permission to use school buildings, statistics, scouting, correspondence from parents, Court correspondence, alienation of land ^{and} revenue and other references from the public and officers. The Accountant attends to the passing of nearly 700 bills a month, prepares the budget, maintains the appropriation register and attends to correspondence relating to acquisition of lands, grants and contributions and prepares establishment and other bills. For audit objection work alone, one clerk is required to settle the monthly objections and reply to the further remarks as otherwise the work will fall heavily in arrears. Payment of pensions and gratuities requires the services of a separate clerk.

(2) Summary of duties of the 3 clerks whose pay is met from the General Funds of the Corporation.

The work connected with the High Schools, public playgrounds, 42 reading rooms and administration report etc. is attended to by 2 clerks and the third clerk attends to tappal work, registration of papers received from schools and other offices.

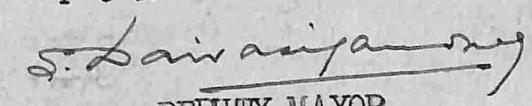

(3) In 1944, 5954 currents were received in Education Department although many of the routine papers and returns from schools were not given numbers. The volume of work of the Education Department has increased with the opening of new schools year after year and particularly during the last two years with the opening of twelve new schools. As the office of the Educational Officer is understaffed, the clerks have to work late every day and very often on public holidays too. At least three more clerks are required for the present as stated in my letter E.D.C.No.B.1.5153/44 dated 12-1-45 in order to improve the efficiency of the office work in the Education Department and accordingly provision has been made in the Elementary Education Budget for 1945-46.

In the circumstances explained above, I request that the

appointment of 3 more clerks on the existing scale of pay of Rs.35-2-75 per mensem plus Dearness Allowance may kindly be sanctioned.

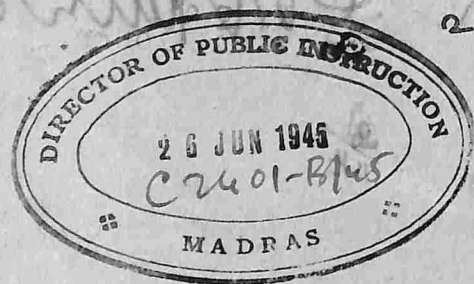

For Commissioner.

2. In Director's Endorsement Rc.No.4086-B/44, dated
24-6-45, the appointment of 2 clerks and 4 attendance checkers
was recommended. For the ordinary work, the Corporation
is eligible for 8 clerks according to the scale permitted
by Government. But the Corporation has 10 clerks. Thus
with the 2 clerks recommended in Director's Endorsement
referred to above the Corporation will have 4 clerks and 4
attendance checkers for the work connected with compulsion.
Hence the present proposal is not supported.
