Memo. No. 26226 B-7, 13th September 1940

Board and municipal schools—Text-books—Selection.

Memorandum—No. 26226 B-7, Education, dated 13th September 1940.

It has come to the notice of Government that certain local bodies attempt to make a bargain with publishers of books that their books will be prescribed in the schools under their management, if the publishers agree to supply a number of free copies. The free copies are said to be for the use of teachers and for distribution to pupils of the scheduled classes.

Government consider that such a course of action is highly objectionable and improper, and should cease forthwith. Books should be selected for prescription solely on account of their merit and suitability. No offer to supply a number of free copies should be asked for or accepted from publishers. If publishers are willing to give a discount on books purchased by a local body, this discount should be utilized for the benefit of all purchasers of books by selling the books to them at a cheaper rate than the published price.
