Memo. 42508 C - 1 Edn dt 29.12.42

The last (fifth) edition of the Local Rules and Orders made under enactments applying to the Madras Presidency was issued in two volumes as corrected up to 1.10.1923. Vol. I was published in 1924 and Vol. II in ~~is~~ 1926. Since then, annual supplements have been issued to each of the two volumes indicating the additions, alterations or omissions made by later rules and orders. It has been found necessary to bring the publication up to the end of 1941 and with this end in view, the manuscripts relating to Volume I embodying the entries up to the end of 1941 have been prepared. In these manuscripts, Part II of the existing volume (which produces *in extenso* certain rules and orders) has not been included as it does not serve any useful purpose.

The manuscripts relating to

pp 1-15 C.F. The Ancient Monuments Preservation Act, 1904 (Act VII)

p 16 C.F. The Births, ~~B~~ Deaths & Marriages Registration Act, 1886 (Act VI)

are forwarded herewith. The Supdt. Archaeological Survey, Southern Circle / Registrar General of Births, Deaths & Marriages is requested

Sir,

--- p 4 ante

With reference to the correspondence resting with your Memo No.42508-C/42-2, dated 15-2-1943, I have the honour to state that I am in camp now and so I could not pay my full attention to this important case. I find that many orders issued by the Government of Madras under Section 3(1) and 3(3) of the Ancient Monuments Preservation Act, 1904 are not to be seen in the list forwarded to me for verification. Some of my records are in Madras and I am unable to lay my hands on all the items in the list. I consider this publication as very important and as such minute verifications are absolutely necessary. I have got no informations about the notifications published in the Fort St. George Gazette, but I think Government Orders authorising the publications of the notifications in the Gazette will serve the purpose, as I see in the existing Vol.I of the Publication.

2. The list of protected ancient monuments in the Province of Madras is now under revision in my office and this list received from your office helps me in scrutinising all the items or serial numbers more closely. To me it appears the work will take about 5 or 6 weeks more as my staff is very limited.

Sir,

In continuation of my letter No.29-C/67, dated 20-2-1943, on the subject cited above, I have the honour to state that my office has not got a copy of the last (fifth) edition of the Local Rules and Orders made under enactments applying to the Madras Presidency (now Province). In order to scrutinize the entries in the manuscripts relating to the Ancient Monuments Preservation Act, 1904 (Act VII of 1904) I like to refer to the publication. I would, therefore, request you to be so good as to send me, for reference and return, a copy of the last edition (Fifth) of the Local Rules and Orders. The only copy that is available in this office is the Fourth edition (printed in 1913 by the Superintendent, Government Press, Madras). The Superintendent, Government Press informed me in 1939 that the Volume I (latest edition) was out of stock. I have addressed him to send me the annual supplements to Vol.I to the end of 1941, relating to the Ancient Monuments Preservation Act of 1904. On receipt of the Annual supplements from the Press and the Volume I of Local Rules and Orders from the Government, I shall be able to scrutinize the entries in the manuscripts forwarded

(2) Manuscripts relating to Protected Ancient Monuments - dealt with under The Ancient Monuments Preservation Act, 1904 (VII of1904) - Scrutiny of the -----.

Sir,

With reference to the correspondence resting with your reminder Memo No.9165-C/43-3, dated 2-6-43 I have the honour to state at the outset that sufficient attention could not possibly be paid by me fully on this important work indicated in the subject heading No.2 mentioned above. The staff of my office is very limited and on top of it my Head clerk went on leave for over two months. He has just resumed his duties. The work is well in hand.

p.12 ante

2. In this connection I find that the main work is to scrutinize the manuscripts (printed and pasted with up to date additions and alterations in your office). with the list of protected ancient monuments published by the Government of India. I am sorry to state that this latter list cannot possibly be taken as a correct one in view of innumerable mistakes appearing on almost all the pages. This shows that the entries in the list (as distinct from the list of Ancient Monuments selected for conservation in the Madras Presidency - revised up to April 1917) of protected ancient monuments were not carefully verified with the various Orders of Government and the Gazette Notifications. This unhappy state of affairs was brought to the notice of the Director General of Archaeology in India, who

16

advised to revise the list published by the Government of India. The work of revision was taken up, but its progress was very slow in view of the want of assistants. The limited hands (only three) cannot possibly cope with the ever increasing work of this Southern Circle since my arrival here in 1937. I have completed the list of protected ancient monuments and brought it up to date.

3. Now while scrutinizing the Manuscripts received from you I have noted various entries in them which are not to be seen in my list just completed as mentioned in para 2 above. Thus it becomes very difficult to find out authority for their entries in the manuscripts. It is also clear that the form of the manuscripts was based on the list published by the Government of Madras in 1917 as P.W.D. Circles appear in them. These entries are not necessary now. I am therefore, thinking of having a personal discussion with you as early as possible on the subject.

4. If any Pass is required now-a-days to go to the Fort St. George for official business, one may please be sent to me.

I have the honour to be,

Sir,

pp17-18 ante With reference to your Memo. No.9165-C/43-7, date 16-10-43 regarding the subject indicated above I have the honour to state in continuation of my letter No. pp15-16 ante 29(1)-1195 dated 15-7-1943 that, as reported in para 3 p16 ante of my above letter, I find it difficult to omit so many entries in the printed Manuscripts under scrutiny without any authority.

pp1-2 of (R) Memo No 24853-2C dated 4.8.42

2. You know that various protected ancient monuments appearing in the Gazette Notifications were deleted from the "List of ancient monuments selected for conservation in the Madras Presidency - Revised up to April 1917". The Gazette Notifications were not withdrawn by Gazette notifications as required under the Act. I would, in these circumstances, request you to be so good as to let me know whether I should remove such protected ancient monuments from the manuscripts under my scrutiny. Personally I think the executive orders issued by the Government of Madras directing the deletion of protected ancient monuments, were to stop spending any Government money

-2-

on them and not any thing else. I think the protection remains in tact. I shall be glad to know whether my view point is correct. This is a great point which requires final orders of Government. A

3. I have completed the work of revision of the list of protected ancient monuments and I find now that the existing printed list requires modification.

4. I have got an idea as to whether it would not be better to change the form of printing as shown in the manuscripts under scrutiny. The various entries are arranged in order of date in each district. I think it would be better if the protected ancient monuments are shown in a tabular form as in the list. This last method is adopted by other Local Governments in their similar publications. In these circumstances, I would B request you to be so good as to let me know whether I should stick to the existing form as in the manuscripts under scrutiny.

Sir,

pp 23-24 ante

With reference to Government Memorandum No.9165C/43-9 Edn., dated the 29th January 1944 on the subject cited above, I have the honour to state that I am now away on tour in connection with the inspection of conservation works. I will be returning to my headquarters by the end of the 2nd week of March. Then I shall be able to devote my personal attention to the above subject. As additions and alterations will be too many for the manuscripts, I shall arrange to send a neat typed manuscript, in the existing solid form of printing in regard to the entries under the Ancient Monuments Preservation Act,1904, by the 15th of April 1944.

Dear Mr. Coorey,

Please refer to your D. O. letter No.9165-C/43-10-Edn., dated 17-4-'44 regarding the subject indicated above.

My only two clerks in this office could not make any headway in this difficult task which I left with them during my absence from headquarters on tour. The whole printed matter has been typed and corrections are being inserted in their respective places. I have done similar verifications and corrections in other Archaeological Circles in India, but my only two clerks in this Southern Circle do not clearly understand the work. However, I am at it and I expect to finish it by the end of this month by attending to it daily. Excuse me for the delay

28

because I have got bare minimum clerical staff in my office after several retrenchments to cope with my Circle works.

Yours sincerely,

G. Chandra

Dear Mr. Coorey,

p 27 ante

Please refer to my D.O. letter No.29(1)-654, dated 4th May 1944 on the subject cited above.

2. My clerks have not yet been able to make any headway in the work regarding the subject especially in view of the fact that May and June are heavy months for works in my office. A huge lot of estimates, required to be returned approved and incorporated in the registers to facilitate the correct preparation of the Revised Programme of Conservation works due to the Director General of Archaeology in India in they month i.e. June 1944, come in the way of their work of corrections.

2. I am afraid the work in question will take over a month now. My office staff is most insufficient and I am going to place the case to our new Director General of Archaeology in India when he visits this Southern Circle shortly, when I will probably be able to see you in your office.

Yours sincerely,

I have been transferred from Calcutta to this Circle with effect from 1st August 1944, (Mr. Chandra having retired). On receipt of your letter I looked into the matter, and have now to admit that it has become a muddle for various reasons. I have to make certain proposals, which, I believe, are better done after a discussion with you.

I am due at the Annamalai University from the 24th instant onwards for a course of lectures and am passing through Madras on the 21st.

Can I meet you at the Secretariat on the 21st instant at 10 A.M? I have engagements on that day with the Public Works Department, Religious Endowments Board and the Archaeological Society of South India as well from 11 A.M. onwards. If 10 A.M. does not suit, I can suggest 31st August 1944, when I return through Madras.

Please let me know your convenience before the 20th, when I leave Chandragiri on tour.

- (a) the format is retained,
- (b) the classification is Atlas-war,
- (c) the references are to the Government Orders taken out from our records (not Notifications),
- (d) the monuments are brought up to 1942 (instead of 1941) as monuments protected subsequent to 1941 are a few, and
- (e) monuments deleted but in respect of which protection continues are indicated by asterisks.

3. In view of, a different orientation adopted in the copy under reference, and more subject-matter and the modification relating to deleted monuments, it is requested that this may be printed.

4. As also agreed when we met I propose to

The Superintendent, Archaeological Survey of India, Southern Circle, Chandragiri, desires to get printed at the Madras Government Press, Madras, 30 copies of a comprehensive list of protected monuments under the Ancient Monuments ~~Press~~ Preservation Act, 1904. The list is considered to be a valuable Record because of its reference value to scholars, teachers, the H.R.E. Board, exploratory surveys and cultural societies such as the Archaeological Society of South India and Universities and it does not therefore seem desirable to postpone the printing of the list for the duration of the war. The manuscript covers 118 pages each page 1'-5" x 1'- and 300 sheets of Double Foolscap paper will approximately be required for printing the required number of copies. As "Ancient and Historical monuments" is a Federal subject, I am directed to request that you will be so good as to accord y sanction for the printing of the list at the Government P Madras. The cost of printing will be debited to the Cent Government.

When we discussed the above subject in connection with the printing of Local Rules & etc., I thought we agreed to get the list printed by your Government in view of its utility to Universities, Educational Institutions and the Hindu Religious Endowments Board also. But from your reference in question I find that the cost has to be debited to the Central Government. I have no idea what the cost

of printing and the cost of paper will be. I was under the impression that I had interested you sufficiently in the list so as to persuade you to arrange its publication by your Government like the Local Rules & Orders. Please let me know if this can be arranged so; otherwise the list will have to take its turn with our other archaeological publications (Federal) held up for the duration of war.

With reference to your letter No. 9165-C/43-17, dated the 6th November 1944, on the above subject, I have the honour to say that with a view to effecting economy in the consumption of paper, the Government of India in the Department of Labour undertook the scrutiny of all the publications of the Central Government in 1942. The publication referred to above was not sanctioned by them for printing. I would, therefore, suggest that a reference may please be made to the Department of Labour through the Department of Education, Health and Lands, if its printing is considered essential under war conditions.

2. If the Government of India agree to its printing, necessary sanction to its execution at the Government Press, Madras, will be accorded.

U.O. Note No.6931/41-32 dated 30th October 1942.

SUBJECT:-- Books and Publications - Local Rules and Orders - Revision up to the end of 1941 - Volume I.

The last (Fifth) edition of the Local Rules and Orders made under enactments applying to the Madras Presidency was issued in two volumes as corrected up to 1-10-1923. Volume I was published in 1924 and Volume II in 1926. Since then, annual supplements have been issued to each of the two volumes indicating the additions, alterations or omissions made by later rules and orders. It has been found necessary to bring the publication up to the end of 1941 and with this end in view, the manuscripts relating to Volume I embodying the entries up to the end of 1941 have been prepared. In these manuscripts, Part II of the existing volume (which reproduces in extenso certain rules and orders) has not been included as it does not serve any useful purpose.

The Ancient Monuments Preservation Act, 1904

(Act VII of 1904, MSS. pp 481-495).

2. The manuscripts relating to the enactment(~~s~~) specified in the margin may be forwarded to the Edn. & P.H. department for scrutiny of the entries therein in consultation with the head of the department, if necessary. In this connection the attention of the department may be invited to the following points:--

(1)*Volume I contains the rules and orders under Parliamentary Statutes and Central Acts applicable to this Province.

(2) Rules and orders issued under enactments alone fall within the scope of this publication but not those issued under statutory rules.

(3) Entries relating to rules and orders that are spent or have been superseded should be eliminated.

(4) The queries entered in pencil against some of the entries may kindly be settled. The more important of the queries relate to the entries under repealed and re-enacted measures. In the case of these measures, the rules and orders issued under the provisions of the repealed Act have been brought under the corresponding provisions of the re-enacted Act, having regard to the scope of section 24 of the General Clauses Act, 1897. This has to be checked.

3. In view of the present need for economy in the consumption of paper, a duplicate set of the manuscripts has not been prepared. Consequently, the manuscripts sent to the department will have to be sent to the Press. It is thus necessary to handle them with care. Additions and alterations may be entered legibly in the manuscripts themselves if this can conveniently be done, or alternatively, on separate sheets of paper indicating clearly where they have to be carried out in the manuscripts.

P. APPU NAIR,
Secretary to Government.

The work of revising the Local Rules and Orders has been in progress for nearly a year. The question whether this work should be continued or not was examined by this department on receipt of the Government of India's instructions. It was considered that the work should not be discontinued as considerable time and labour had already been spent on it/ as the work is nearly completion. This fact was also intimated to E.& P.H. in their file bearing Current No.30611 B/42Edn. The work which has progressed much may therefore be proceeded with. Otherwise all the time & energy spent on it would go waste.

In the first four editions of the Madras Local Rules and Orders, the tabular form of printing was adopted in accordance with the instructions of the Government of India who considered that there should be uniformity in all provinces. In 1922, when the question of issuing the 5th edition was decided upon, the S.G.P. suggested to Government that considerable economy might be effected by adopting a solid style of setting instead of the tabular form hitherto followed. The Government of India were addressed to accord sanction to the change of form proposed. In their letter dated 5-10-1922 the Government of India agreed to the adoption of the solid form. It seems therefore unnecessary to change the existing solid form of printing in regard to the entries under the Ancient Monuments Preservation Act, 1904. The need for economy is greater now than before.

CNo 44879 from the Supdt, Archaeological Survey of India, Southern Circle, No 29(1)-/440 d 8.9.44. pp.48-49 CF

The Supdt of Archaeological Survey has sent to Govt a list of monuments prepared by him and requests that it may be printed in lieu of the list prepared by Legal.

(T)

(L)

In paras 2 and 3 of his letter on p48 Cf he has indicated the main features of his list. It may be sent to Legal ho; but the Supdt may be informed that the printing of Local Rules and Orders has been deferred - vide 'M' on p 2 ante:

M / 16/9/44

2. The Supdt proposes to send to Govt separately a big and comprehensive list of monuments and requests that arrangements may be made for printing it. This is a non-essential work and has to be deferred for the duration of the war.

This is a valuable record & should I think, be printed. Ask Supdt how many copies he wants & how much paper will be involved.
16/9/44

3. A draft memo is subd for approval. After issue, the case may be returned to Legal.

Please see notes from the bottom of p. 6 above. 'Ancient and historical monuments' is a federal subject - item 15 in List I of the Seventh Schedule to the G. of I. Act. The proposal to print (at the Madras Govt Press) 30 copies of the list of protected monuments under the Ancient Monuments Preservation Act, 1904 ~~would~~ ~~seem~~ therefore seem to require the sanction of the (Controller of Printing) Govt of India - vide also para 8 of the Printing Manual. The cost of such printing, when ~~if~~ sanctioned by the Central Govt will be a legitimate charge on that Govt however small. There would perhaps ~~seem to~~ be no objection to this Govt purchasing a few copies of the printed list for their use, if necessary. Fin. may therefore suggest that the above list need not be printed at the cost of this Govt.
