R.C.No.1082 E/44 dated 3-7-1945.

30655

Sir,

Secondary Grade Training - Private appearance
of Higher Elementary grade trained teachers
to the Secondary Grade T.S.L.C. Examination -
question of admitting those trained prior to
1940-41.

In G.O.No.Ms.1758 Education dated 22-11-44 Government permitted Higher Elementary Grade teachers trained in 1940-41 and subsequent years and who had passed the University Matriculation Examination or were otherwise eligible for admission to University Courses of study to appear as private candidates for the T.S.L.C. Examination of the Secondary Grade. As per these orders, all Higher Elementary grade teachers trained prior to 1940-41 are debarred from appearing for the Secondary Grade Examination as private candidates though they might have secured eligibility at the S.S.L.C. Public Examination or passed any other equivalent examination which makes them eligible for University Courses of study.

2. It is felt by Inspecting officers and by other teachers that such a restriction should be placed against teachers who might be anxious to improve their technical qualifications. In this connection, I may point out that a non-graduate teacher who holds the London A.C.P. diploma is permitted to appear for the L.C.P. diploma after some years of teaching though ordinarily only graduates are eligible to appear for the L.C.P. diploma Examination. The concession of permitting Higher Grade teachers trained from 1940-41 to appear for the Secondary Grade Examination as private candidates was restricted to that category of H.E. grade teachers, because a comparison of the New Syllabuses for the Higher Grade and for the Secondary Grade showed that there was much in common between the two syllabuses. The view thus held by the late Director was quite correct, but the case of teachers trained prior to 1940-41 was not then fully considered. As the object of the Government of India is to have only Secondary Grade trained teachers ultimately in all elementary schools, I am of opinion that the Department should encourage any teacher who wishes to improve himself both in his general educational qualifications and in his technical qualifications. As against the improved curriculum of 1940-41, a teacher trained in previous years has got good experience in teaching and in handling classes of young pupils and there is therefore no reason why a teacher trained in the Higher Elementary Grade prior to 1940-41 but who has put in at least 5 years of actual teaching work should not be permitted to appear for the Secondary Grade T.S.L.C. Examination as a private candidate, provided he has passed the University Matriculation or any other Examination qualifying him for admission to University courses of study.

3. I therefore request that Government may be pleased to extend the concession granted in G.O.No.Ms.1758 Edn., dated 22-11-44 to the Higher Grade teachers trained prior to 1940-41 who have put in atleast 5 years teaching work.

For Director of Public Instruction.

To

Secretary,

34896

I humbly beg to submit the following
for your kind consideration & favourable
perusal.

By
M. P. K.

Now I come to understand, according
to the G.O. No. Ms. 1758. Education, dated
22-11-44, that those Ete. higher grade
trained teachers who have undergone training
prior to 1940-'41 can, on passing any
public literary exam. equivalent to SSLC
and gaining teaching experience for not
less than five years, be granted concession
to appear for the Secondary grade exam
without further training.

Therefore I beg to state that I have
passed the Ete. higher grade training exam
in the year 1938, that I have adopted
teaching as my profession for more
than seven years, that I have passed the
Matriculation exam. in the year 1942 &
that I therefore, deserve your Honour's
consideration for the 'Conversion' of my
certificate.

For the mentioned circumstances
I pray your Honour to grant me the
necessary concession as earlier as
possible as to enable me to pay the

~~22~~ ⁴ / examination fee in the due date Co-plaints
and to sit for the ensuing exam. 1946.

1-8-'45

I beg to remain
Honoured sir
yr most obedient servant
David Anulappa.

in the approval herein granted is subject to the condition that no extra expense is caused to the State in the shape of grants - in - aid or otherwise.

Edn. & P.H. Department (C)
From the D.P.I., RC.No.1082 E/44 dated 3-7-45.

T.S. L.C. examination - Secondary grade -
Higher Elementary Grade Teachers - Permission to appear for.

On the recommendation of the former D.P.I. (Sir R.M. Statham) the Government permitted Higher Elementary Grade teachers, who have undergone the higher elementary grade training course introduced in 1940-41 and who have passed the University Matriculation Examination or are otherwise eligible for admission to University Course of study, to appear as private candidates for the T.S.L.C. examination of the Secondary grade. The arguments advanced by the late D.P.I. in favour of granting the above concession were (1) that there was need for more secondary grade trained teachers and (2) that there was much in common between the new syllabuses of the H.E. grade and the Secondary grade training courses.

In the circumstances explained in his letter on the page 1 c.f. the present D.P.I. recommends that the concession may be extended to the higher elementary grade teachers trained prior to 1940-41 under the old scheme, who have at least five years teaching experience.

The subjects of study for the H.E. grade training under the old scheme para be found at para/3 on page 10 of G.O.No.1581 L.E. dated 4-9-33; and the curriculum for the elementary and secondary grade training classes under the new scheme is on page 3 of G.O.No.624 Edn., dated 9-4-40. As observed by the late D.P.I., the new syllabus for the elementary training course contains two new subjects which where were not included in the old syllabus. They are (1) School administration and (2) Child nature and education. As against this improved curriculum introduced in 1940-41, the present Director states that the teacher trained prior to 1940-41 should naturally be considered to have had good experience in teaching and in handling classes of young pupils.

The proposal seems acceptable. Subject to approval, a draft order is submitted.

11/8/45

18.8.45

We come back to the position vis-à-vis in, 1933 - 18 of 15.81 18.9.33 - except that H.E. trained teachers having the same training experience who have qualified for a unit: come can have the same grade trained teachers' certificate, only by passing the teachers' certificate exam. of the grade without of course undergoing the training course of last year & last year's teaching experience of last year as H.E. teachers.

Is it for appl?

in common between the new syllabus of the H.E. grade and the old one.

Does 'improvement of certificates' mean automatically any enhancement of pay in any type of institution? With reference to that point, does the proposal entail any likelihood of extra financial liability to the various types of managements, and to Government by way also of increase in commitments under grants or subsidies?

M.V.S., 22-8-45.

Government schools: The Educational dept. does not maintain elementary schools under its direct management, except as model schools of training institutions or in backward areas such as the Agency tracts and the 'Islands'. All the teachers in the model sections should be of the secondary grade. In the other cases the staff is sanctioned as so many secondary grade teachers or so many higher elementary grade teachers. The acceptance of the Director's proposal will not mean automatic increase of cost under Government institutions.

Local body schools: The qualifications specified in rule 12 of the rules of recognition apply to these schools in common with others. The teacher of the lowest qualification is of the higher elementary grade. In certain cases, teachers of the secondary grade are required to be employed by the rule. The

(pp 16-17 of the pamphlet rules re. sch. schools)

(D) last sub-para of rule 3 of G.O. No. 749-L.S.M., dated 25-2-1935, lays down that, if secondary grade teachers are employed in posts in which they need not be employed under the rule, they should be given only the pay appropriate to teachers of the higher elementary grade. There is, therefore, no risk of an automatic increase of cost here, either. In any event Govt. are under no obligation to, and do not in practice, pay more than the scale of pay for the employment of better qualified teachers in local Aided schools. The recognition rule mentioned above prescribes the qualifications. But there is nothing in the rules of aid corresponding to "P" above. The rules merely prescribe rates of grant, according to qualifications. It is possible, however, that the Department exercises some check over the employment of teachers of superior qualifications where teachers of inferior qualification are sufficient, merely with a view to earning increased grants. But it does not appear necessary to go into that question in this context; for, in practice, they have not had an over-production of secondary grade teachers, and even the proposal now made is not likely to bring about an alarming increase in their supply, for the reason that a higher elementary grade teacher, before he gets the secondary grade certificate, has to pass through two hurdles - (1) the passing of the University Matriculation examination or its equivalent, and (2) the passing of the teachers' certificate examination of the secondary grade. Nevertheless, the proposal is likely to mean some increased expenditure under grants-in-aid. In that view, Finance may

But it may be make a condition of the acceptance of the proposal that no extra exp. be incurred under grants-in-aid.

27.8.45 5/7/45 J. M.

E.P.H. No. No. 30655/45-1 28/8/45

3885347

Please see Mr. D.P.'s letter in the C.F. and the notes on 1-2 above. 2. The proposal is to permit higher elementary trained teachers, trained prior to 1940-41, to appear privately for the Secondary grade T.S.L.C. Examination. The E.P.H. Dept. have examined the proposal and propose to accept the D.P.'s recommendation. The file has been sent to Finance in view of the fact that some increased expenditure under

grants-in-aid may be necessary.

3. Under the rules for grant-aid to aided elementary schools, teaching grants will be calculated for each higher elementary grade teacher and secondary grade teacher as follows:-

	Rate per year in Rs.	
	Untrained teacher	Trained teacher
Higher elementary grade	108	168
Secondary grade	144	216

Therefore if a secondary grade teacher is employed in a school where in the place of a higher elementary grade teacher a higher rate of grant will be payable by Govt. By accepting the present proposal of the D.P.J. more H.E. grade teachers might qualify for as secondary grade teacher and this would mean increased grant. E & P H.

However suggest that it may be made a condition of acceptance the proposal that no extra expense should be caused under grants-in-aid or otherwise. In view of this stipulation the proposal may be agreed to in principle.

X above: It is really difficult to enforce this condition. If the management of a private school chooses to employ a secondary grade trained teacher (where a higher elementary grade teacher would have sufficed) & claimed a grant at the higher rate it may not be possible to deny his claim. In view, however, of the fact that cases of this kind may not be many - see E & P H note on p. 3 above - the addl. cost to Govt. is not likely to be much. The draft order may be accepted.
