Office of the
Director of Public Instruction,
Madras, Dated 4-4-1945.

13515

6 - APR 1945

From
Dr. B. B. Day, D.Sc. (Lond.), F.R.I.C.,
Officiating Director of Public Instruction, Madras.

The Secretary to Government,
Education and Public Health Department.

S i r,

Sub: Grant - Building - Training Schools for men -
Ban to be lifted.

I have the honour to state that as a measure of Post-War Reconstruction, schemes are being considered for the introduction of compulsion in suitable centres so as to bring under instruction 1/24th of the school-age pupils who are not yet under instruction in each district a considerable number of teachers will be necessary to cater to the educational needs of the children who will now be brought under instruction. To begin with, it will be necessary to entertain untrained teachers as a sufficient number of trained teachers are not available immediately. But steps have got to be taken now to provide trained teachers within the next two years according to the requirements of each district. With this end in view proposals were called for from the Inspecting Officers for enlarging facilities for training teachers either by the opening of additional sections in the existing training schools or by opening new training schools.

2. While scrutinizing the proposals submitted by the Inspecting Officers, I have come across a number of cases in which the managements apply for building grant for housing the additional sections or new schools. On the merits of each case, I can approve of building schemes for training schools for Women. But I cannot entertain such schemes in respect of institutions for men on account of the ban introduced in G.O. No. 1915 Education dated 9-12-1941.

3. Realising the need for trained teachers the Government have put down as No. 1 priority in the Post-War Reconstruction Scheme the output of an increased number of teachers. Any private agency which comes forward to co-operate in this scheme should be encouraged....

encouraged by giving it grants under building, equipment and stipends. The Government have in their Memorandum No. 46-1-B Education dated 24-1-45 sanctioned the diversion of an amount not exceeding Rs. 50,000 required for the training of extra teachers from the lump sum provision of Rs. 20 lakhs proposed to be included in this year's Budget Estimate on account of the introduction of compulsory elementary education in selected rural areas. This generous attitude needs also to be extended in respect of building grant to training schools. To this end I request that the ban introduced in G.O. No. 1915 Edue dated 9-12-1941 may be lifted in regard to building schemes for training schools for men. Such a step will not only help in the speedy disposal of building grant applications received by me, but will also serve as a sort of incentive for the managements to open training schools and thus help the department in forming out the large number of trained teachers required to work the compulsory scheme.

4. I request that early orders may be passed on this reference.

I have the honour to be
S i r,
Your most obedient servant,

R. Narasimha

for DIRECTOR OF PUBLIC INSTRUCTION.

GRANT - Buildings - Training Schools for men -
Restrictions - Relaxation - Orders passed.

Read: G.O. No. 1915. Edn. dated the 9th December 1941.
From the D.P.I., C.No. 347.D/45 dated 4-4-1945.

Order/Ms. No. 1532 ... Edn. dated 22-9-1945.

In G.O. No. 1915. Edn. dated the 9th December 1941, the Government decided that no building grant should be given to any college or secondary school for boys (elementary schools excepted) unless a special case was made out showing that a grant was essential to the institution. This ban applied to training schools for men also. In view of the need for training a large number of teachers for working the scheme of compulsory elementary education, the Director of Public Instruction has recommended that this restriction should be removed in regard to building schemes for training

p.t.o.

Edn. & P.H. Department (B).

GRANT - Buildings - Training Schools for men -

Removal of the restrictions imposed in G.O.No. 1915 Edn.,
dated the 9th December 1941.

From the Director of Public Instruction, C.No.347 D/45
dated the 4th April 1945.

Under G.O. No. 1915 Education, dated the 9th

December 1941, no building grant is admissible to ~~Secondary~~
~~for men and boys (elementary schools excepted)~~
Schools for boys unless a special case is made out showing

that a grant is essential to the institution. In view
of the need for increasing the output of trained teachers
to work the compulsory scheme, the Director of Public
Instruction recommends that the restriction referred to
above should be removed in regard to building schemes
for training schools for men.

2. The Government have recently sanctioned
the opening of additional sections in certain Government
training schools. If any private management comes forward
to co-operate in the scheme for training teachers and if
the construction of additional buildings in the institu-
tions is considered necessary for the purpose, the ~~efforts~~
~~in that direction should naturally receive~~
~~application for a building grant may be considered as a~~
~~encouragement~~
special case. There seems to be no need to relax the
condition generally in the case of Training Schools for
men. The Director may be informed that the Government

would

B/1

The grant applies to
training schools for
men and a special
case for grant is
understood to exist
where the manage-
ment is not in a
position financially to
provide the half share
of the cost of a build-
ing

(Secondary and higher
elementary grades) A no general relaxation is necessary and
schools for men. The Government consider that it would
be sufficient for the present to relax the restriction
only in suitable cases ~~in such building schemes~~ as
Orders of Government should be obtained for the
inclusion of the schemes in the approved list.

would be prepared to consider such applications on their merits and that he may forward the application received with his recommendations for consideration as a special case under G.P.No. 1915 Education, dated the 9th December 1941. For orders.

18/9/45

The ban in (B) was imposed ^{in 1941} for the purpose of conserving funds for elementary education.

The decision was taken at a meeting of H.E. the Government & his Ad. Sec. and there was then no thought of substituting as a wholesale policy of substituting compulsion and apparently it was thought that for producing the teachers reqd. to man the ely. schools that would ordinarily be working (without compulsion in an expanded state) the training school places already available were sufficient. Conditions have now changed. The committee

B/12221

on post-war education has recommended that the no. of higher ely. & Sec. training schools should be doubled & this applies to men as well as women schools. Similarly, when the bifurcated Sec. school comes to be introduced it would be necessary to provide building grounds for Sec. schools. (private managers & local bodies). Esats have recommended that the D.P.I. has been asked to estimate cost. There remains now the

case of colleges for men (Htg & Prof.). Also the Sub-committee recommendation was that there should be more Htg & Tg colleges for women and also for men. In practice, more men's Htg colleges are springing up & it is not clear whether the position B/1 can be maintained for long. For the present, it is perhaps sufficient to relax G.O. (B) in suitable cases, in the case of Tg. Schools for men. Even then, it is for order whether the relaxation should be up to respect of two Sec. grade only or higher ely. also.

Fin. (Exp.B.) Dept

Please see the letter from the D.P.I. on p.p. 1-2 c.f. and the note of E. & P.H.

The question for consideration is whether the ban on the building grants imposed by G.O.No.1915, E. & P.H. D/ 9-12-41 should be lifted. The note for the cabinet on p.p. 15 - 17 n.f. of the G.O. sets out the policy of the Govt. in the matter of sanctioning building grants to educational institutions before the issue of the G.O. For the reasons given in his letter on p.p. 1-2 c.f. the D.P.I. recommends that the ~~ban~~ may be lifted in regard to building schemes for training schools for men.

E. & P.H. propose that for the present it is sufficient to relax the G.O. in suitable cases, in the case of secondary grade and Higher Ely. grade training schools for men.

2. The ban on building grants was imposed in G.O.No.1915, E. & P.H. dated 9-12-41 with a view to conserve all available funds for elementary education. The expenditure in 1941-2 on building grants was estimated at Rs.3.03 lakhs. The extra expenditure to Govt. resulting from the acceptance of the proposal of E. & P.H. is not likely to be large. Moreover, there will be a demand for trained teachers ^{connected with the scheme for expansion of} to work in Postwar Schemes and elementary education.

compulsory elementary education introduced from the current year.

Finance may therefore, agree to the proposal of E. & P.H.

E. & P.H. may be requested to circulate the case to A1.

The proposal is to relax the restriction imposed in Go no 1915 2du dated 9.12.41 that no building grant should ordinarily be given to any college or Secondary School for boys, in suitable cases, in respect of training schools for men as it is necessary to provide a large number of trained teachers for implementing the scheme of compulsory elementary education. As the postwar Education Committee has recommended that the number of higher elementary and secondary training schools should be doubled, it is proposed to relax the restriction referred to above, in the case of both secondary and higher elementary grade training schools.

The file may be circulated to A2 + A1.

W
18/9/45 A2. A1.

There are only two classes of training schools - secondary and higher elementary. The decision was that the relaxation should apply to both. The expression 'training schools for men' will cover both the classes of institutions. So necessary, the words 'secondary and higher elementary grades' may be inserted in the draft as shown in pencil.
