Sir,

Sub: Printing of High Court Records.

There are now above 50,000 manuscript pages exclusive of Criminal cases and Privy Council Appeals pending printing in the Government Press. This represents well over three months' work for the Press.

2. About 5,500 manuscript pages in Civil cases and 750 pages in Criminal cases are sent to press on an average every week. About 1000 cases are now under preparation and more are expected to be ready in the next three months. The Government Press is at present printing only about 500 pages a day or about 2650 pages a week. To have sufficient work for the Judges of the High Court it is necessary that a minimum of about 750 pages of printed matter a day should be provided by the press. Otherwise there will be shortage of work for the Courts. The number of ready cases now on hand will be barely sufficient for three months.

3. The Superintendent, Government Press, was asked to make necessary arrangements to expedite printing of cases pending in the press and to supply us with at least 750 pages a day. The Superintendent states that the present state of work in the Press any appreciable increase over 500 pages a day is not possible, that during the next six months the Press is going to be very busy with the printing of Electoral Rolls which will have priority over all other work, that it will be advisable to get some work to the extent of about 250 pages a day printed at a private

private Press for a period of three months, and that he will do his best to maintain, if not to exceed, the present out-turn of 500 pages a day.

4. The appointment of the two additional Judges has been continued for the next two years. The bulk of the old arrears has been wiped out thus depleting our stock of ready cases. It has therefore become necessary to insist on a large output from the press if the Judges are to be kept occupied. The Hon'ble the Chief Justice considers that resort should be had to private printing to the extent to which the Government Press is unable to cope with our requirements.

5. The Free Press of India Ltd., who did part of the printing work in 1942 and 1943 is now willing to undertake the work for a minimum period of six months on the same terms. It will be possible to guarantee them this minimum period while at the same time giving the Government Press as much as they can possibly turn out. Their work on the last occasion was very satisfactory.

6. I request therefore that the Government may be pleased to sanction the entrustment of part of the High Court printing work to the Free Press of India Ltd., for a period of six months. I request that orders may be issued as expeditiously as possible.

I have to state that, due to non-receipt of spare parts and matrices from England and non-availability of Linotype Operators to arrange for a third shift and as the Press will be busy for some time due to the printing of Electoral rolls, I have no objection to the High Court getting their cases printed in the Private Presses.
