R.C.No.283-A/44 dated 24-7-1944.

Sir,

Sub: Government Training School for Women, Palamcottah
- Opening of a Model Elementary School.

I have the honour to submit below for the favourable consideration of the Government a proposal for the opening of a Model Elementary School with standards I to V for the Government Training School for Women, Palamcottah, in connection with Part II of the Budget Estimates for 1945-46.

2. The Government Training School for Women, Palamcottah was originally opened at Tinnevely in 1929 and a staff of 7 Secondary Grade teachers for the Model School also was sanctioned by Government in G.O.No.970 Mis.Edn. dated 6-5-1929. As a measure of retrenchment, in 1931 the model school staff was held in abeyance. The Training School while at Tinnevely was using a mission elementary school as a model school. In 1942, the Training school was transferred to Palamcottah - vide G.O.No.1312 Edn. dated 17-9-1942). In the latter place also the school has been using the local Municipal Elementary school for girls as a model school. Thus the Training School is without a model school of its own since its inception.

3. The Inspectress of Girls' Schools reports that the teachers of Standards I to V in the Municipal Elementary School are only Higher Elementary trained and that when the Training Students go to the Municipal school for practice, the staff of the Training school has to follow them to supervise their practice lessons. The distance between the two schools is reported to be about half a mile. The present arrangement, besides being inconvenient to the pupil teachers, causes undue strain on the staff of the Training section. It is therefore necessary that the Training School should have a model elementary school of its own with standards I to V. In the event of the opening of the model school in the Government Training School, the Secondary Grade Assistants, who will have to be appointed for the standards I to V will not only undertake the supervision of the practice lessons of the training students but share some periods of teaching in the training classes.

4. There is no accommodation for the proposed model school in the building in which the Government Training School is located. The Inspectress has in view a suitable private building at a distance of about one furlong from the Training school. The probable strength of standards I to V of the Model School will be 25, 25, 20, 20 and 20 respectively. Fees will not be collected from the pupils. The expenditure on equipment will be Rs.700/-.

5. There is no recognised elementary school in the locality which will be adversely affected by the opening of the Model School. In the circumstances I request that the Government may be pleased to sanction the opening of a Model Elementary School with standards I to V for the Government Training School for women, Palamcottah from June 1945.

p.t.o.

6. The extra cost on account of the proposal will be as follows:---

Immediate Cost:(a) Recurring for 1945-46.

(i) Employment of 5 Secondary grade Assistants on a scale of pay of Rs.30-3/2-45-2/2-55 for 9 months from June 1945 to February 1946. $30 \times 5 \times 9 \dots$ Rs. 1,350

(ii) Rent for 9 months @ Rs.60/- a month. $60 \times 9 \dots$ Rs. 540

(b) Non-Recurring expenditure in 1945-46 will be Rs.700/- for books and furniture. Total. $\dots$ Rs. 1,890
or Rs.1,900 in round figures.

(b) Ultimate cost:

(i) Average pay of 5 secondary Assistants on a scale of Rs.30-3/2-45-2/2-55. $42 \frac{1}{12} \times 5 \times 12 \dots$ Rs.2,525

(ii) Rent @ Rs.60/- a month. $60 \times 12 \dots$ Rs. 720

Rs.3,245

or Rs.3,200 in round figures.

7. Provision for the proposal will be included in Part II of the Budget Estimate for 1945-46.

I have the honour to be, Sir,
Your most obedient servant,

for Director of Public Instruction.

dated 5-9-1944.

With reference to the Government Memorandum referred to above I have the honour to state that the Executive Engineer has been addressed regarding the reasonable rent for the building in which the Model School is proposed to be opened. I will submit a ~~report~~ further report soon after the receipt of his reply.

2. Along with the opening of the model school I recommend that the post of part-time Music Mistress in the Training School may be converted into a full-time post. The Inspectress reports that no qualified person can be obtained, for the part-time post as it carries only a pay of Rs.24/- a month and that one unqualified person who was holding the post has gone on leave. The post is now vacant. The Inspectress states that there is no

p.t.o.

likelihood of the incumbent returning to the post. The strength of the Higher Elementary Training class is 80 i.e. Juniors 42 and Seniors 38. A full-time post of Music Mistress is essential for the school from the time of the opening of a Model School. I request that the Government may be pleased to sanction the conversion of the parttime post of Music Mistress into a full-time post along with the opening of a Model School.

3. A full time post of music mistress was originally sanctioned for the school but kept in abeyance along with other posts as a measure of retrenchment. Subsequently the Government sanctioned the post of a Part-time music teacher in their order No.1192 Edn., dated 7-7-33.

4. The extra cost will be Rs.54/- (or Rs.100 in round figures) in 1945-46 and Rs.219/- (or Rs.200 in round figures) ultimately.

5. I am including the necessary provision in Part II of the Budget Estimate for 1945-46.

Sir,

I have the honour to submit for the favourable consideration of the Government the following proposal for the opening of Higher Standards in the Model School attached to the Government Training School for Masters, Anantapur in connection with Part II of the Budget Estimate for 1945-46.

2. The Model School attached to the Government Training School for Masters, Anantapur is an elementary school with Standards I to V. There is no Higher Elementary School for Boys at Anantapur. The only Higher Elementary School in the vicinity is at Bukkarayasamudram, a village two miles away. The need for a higher Elementary School in Anantapur for the sake of poor pupils is a long felt one. Moreover the Secondary Grade Training students and a teacher have to go to the Municipal High School, a mile

away

away from the Training School, for practice lessons. If the model elementary school in the Training School is raised to a Higher Elementary School, it will meet the needs of both the Training Students and the poor pupils after passing the Fifth Standard.

3. The present strength of the Model Elementary School is as follows:

I Standard	30	IV Standard	19
II Standard	25	V Standard	21
III Standard	22		

It is reported that there is no need for additional accommodation and equipment. There will be an extra expenditure towards the employment of 3 Secondary Grade teachers for the three Higher Standards. The Higher standards may be opened gradually from 1945--46.

The cost of the proposal will be as follows:

Extra cost in 1945--46 - Standard VI.

One Secondary Grade Asst. on Rs. 30-3/2-45
2/2-55 for 8 months: (30 x 8) Rs. 240/- or

Subject: Government Mappilla Girls' High School, Tirur - opening of a model school for the Secondary grade Training Class - Proposal renewed.

The proposal contained in my letter R.C.No.469 A/42, dated 17-8-41 for the opening of Model Elementary School, with standard I to V for the Secondary Grade Training Class in the Government Mappilla Girls' High School, Tirur, was deferred by the Government - Vide Memo. No.26544-I-B Edn., dated 2-11-43. I have the honour to request that the Government may be pleased to reconsider their orders and sanction the above proposal from the school year 1945-46. I consider that there is an urgent need for an Elementary School for the practising purposes of the Secondary Grade Training Class. The strength of the Secondary Grade Training Class in the current year is 48 (i.e. 26 in the Junior class and 22 in the Senior class). Only a few of the Secondary grade trained teachers will seek employment in Secondary Schools. Most of them will have to join the staff of Elementary Schools. It is, therefore, essential that the pupil-teachers should have an Elementary School for practising purposes. The Inspectress reports that the probable strength for the proposed Model School will be as follows:-

P.T.O.

It is reported that

Standard I	...	25
Standard II	...	20
Standard III	...	20
Standard IV	...	16
Standard V	...	16

2. The financial effect of the proposal will be as shown below:

Cost in 1945-46.

Pay of 5 Secondary Grade teachers for 9 months - $30 \times 5 \times 9$		Rs. 1,350
Rent for at Rs. 10/- a month for 9 months - 10×9		Rs. 90
Furniture		Rs. 1,000

Rs. 2,440 or Rs. 2,400 in round figures.

Ultimate cost.

Average pay of 5 Secondary Grade Assistants $42 \frac{2}{9} \times 5 \times 12$... Rs. 2,533 or Rs. 2,500 in round figures.

3. As stated already I recommend that fees need not be collected from the pupils of the model school.

4. I am including the necessary provision in Part II of the Budget Estimate for 1945-46.

From (Name) Sir R.M. Statham, M.A., C.I.E., I.E.S.
(Designation) Director of Public Instruction, Madras.

To The Secretary to the Government of Madras,
EDUCATION & PUBLIC HEALTH Department.

Sir,

In connection with Part II of the Budget Estimate for 1945-46, I have the honour to submit for the favourable consideration of the Government a proposal to take over the management of the Municipal Elementary School which is now serving as a Model school for the Government Training School for Masters, Bimlipatam and to employ five secondary grade trained teachers in the school.

2. The Government Training School, Bimlipatam is a secondary grade training school. From the beginning it had no Model school of its own. A Municipal elementary school in the locality which is at a distance of one furlong from the Training school has all along been used as the Model school. The Municipal Elementary school has standards I to V and a staff of three secondary grade teachers and two higher elementary grade teachers. The school is not maintained at the proper standard necessary for being used as a Model elementary school by the Government Training school. The two elementary grade trained teachers have to be replaced by secondary grade teachers. The Municipality has been expressing its inability to appoint additional secondary grade teachers for want of funds. The Municipal council has therefore resolved this year to transfer to Government the elementary

elementary school together with the building, compound, equipment and the three secondary grade teachers. It has consented to absorb the two elementary grade trained teachers in the other schools under its management. I consider the proposal of the Municipal Council advantageous to the department from an educational point of view. I, therefore, request that the Government may be pleased to sanction the proposal with effect from the school year 1945-46.

3. The additional expenditure involved in the proposal will be as follows:-

1945-46.

Pay of 5 secondary grade teachers for 9 months -	Rs.

Ultimate cost.

Average pay of 5 teachers - 42 2/9 x 5 x 12 ..	2,500

The Government approve the proposal of the Director of Public Instruction to open in the school year 1945-46 a model school with Standards I to V attached to each of the following institutions:-

- (i) the Secondary grade training class in the Government Mappilla Girls' High School, Tirur;
- (ii) the Government Training School for Masters, Bimlipatam; and
- (iii) the Government Training School for Women, Palamcottah.

2. Sanction is also accorded -

(1) to the employment of a staff of five teachers of the Secondary grade (pay: Rs.30-55) in each of the model schools;

(2) to the conversion of the post of part-time Music mistress in the Government Training School for Women, Palamcottah, into a full-time post of Music mistress; and

As, on the opening of the model school by Government, at Bimlipatam, the Municipal Council proposes to close down the elementary school maintained by it in the locality and place the buildings and equipment at the disposal of Government, no provision is necessary for rent or equipment in respect of this school.

3. The model school of the lower elementary grade attached to the Government Training School for Masters, Anantapur, will be raised to the higher elementary grade: the VI Standard will be opened in the school year 1945-46 and the VII, in 1946-47. A Secondary grade teacher will be employed as each higher standard is opened.

4. All the additional staff sanctioned herein will be on a temporary footing up to the end of the school year 1946-47. The Director of Public Instruction is requested to address Government in due course in regard to the further continuance and the employment of the additional teachers that may be required for the VIII Standard of the model school at Anantapur.

Part II Scheme for 1945-6.

The D.P.S. proposes the opening of a Model Elementary School with standards I to V for the Govt. Training School for women, Palamcottah.

The estimated cost, recurring and non-recurring and cost in 1945-6 are as below:

Name of Expenditure	Ultimate Cost		Cost in 1945-6	
	Recurring Rs.	Non Recg. Rs.	Recurring Rs.	Non Recg. Rs.

Total	3246	700	2884	540
	4026		2434	
	of 4000		2900	

The necessity for the proposal is explained by the D.P.S. in this letter on page 1 of EPH. The proposal may be accepted subject to the following remarks: an estimate.

(Para 3) 16.8.44

(i) The D.P.S. states that the probable strength of standard I-V of the proposed model school will be 25, 25, 20, 20 and 20 respectively. The proposal for the employment of 5 teachers may therefore be accepted.

(Para 4) 16.8.44

(ii) Rent of building: - The D.P.S. has proposed a provision of Rs. 60/- p.m. for the rent of building for accommodating the Model School. The rent of Rs. 60/- p.m. for a building to accommodate the elementary school of five standards appears high. D.P.S. may perhaps be asked to construct the building or if not, to find a building with a reasonable rent. As to the reasonable rent that might be paid for the building.

16.8.44

16.8.44

16.8.44

As to the essentiality of the proposal during the war period, it may be requested to obtain views in circulation including A.I. as to the essentiality of the proposal during the war period.

For orders as to circulation with reference to Q above.

To decide on the question of essentiality, it appears that to find out if, apart from the existing primary training school, there is also a need for these 'junior teachers' of the standard school, there is also a real necessity for an elementary school in the area. It will then be all right to children for this school without disturbing the elementary schools in the vicinity of the neighborhood.

The answer to this will depend on the no. of school-going children in the locality & the number brought under instruction in the other schools. There is no indication that the D.P.S. has considered this aspect.

It may also be possible to come to an arrangement with the A.P.L. authorities, whereby their school will be 'manned' only by Sec. Grade teachers, the Govt. government, bearing the extra cost. The D.P.S. main object of the existing system seems to be the existence of H.E. Grade teachers in the A.P.L. school now used as the training ground, instead of Sec. Grade teachers. If this can be arranged, and the needs of education in the locality do not demand an elementary school, this proposal will not be necessary.

A reply on these points may be made to the D.P.S. & the position cleared before circ. Maybe perhaps to the head of the D.P.S. on 25/8.

along with the opening of the model school, the part of the music mistress in the Training School may be converted into a full time post. In 1929 a full time post of music mistress had been sanctioned for this school, but it was held in abeyance as a measure of retrenchment. It was revived in 1932 but on a part time basis. The Director considers that a full time music mistress is essential for the opening of the model school. He states that the strength of the Higher Elementary Training Class is 80 and that the present part time music mistress who has gone on leave is not likely to return to duty. The proposal may be supported in this Dept.
2. As regards the rent to be paid for the building for accommodating the school, the D.O.I. states that the owner of the building demands a rent of Rs 65/- p.m. and that the S. Eng. considers this reasonable.
3. The file may be sent to Fin. for remarks with refer to para 1 & 2 above.
Guidance notes on pages 1-2 above and orders in circulation on page 4 above may be perused. The case has been sent to this Dept with reference to A above. Music mistress. At the instance of S.P.G. and S.H. propose to convert the part time post of the music teacher into a full time post. For the reasons stated by D.P.G. in his letter on pp 5-6 cf.

the proposal to convert the post of the part-time music teacher on Rs 24/- into a full time post of music teacher on Rs 30-55 may be agreed to.

3 Rent for the building. The D.P. 9 now states that the owner of the building demands Rs 65 p.m. with reference to the prevailing rates in the locality and that the Executive Engineer considers that the rent is reasonable. This may be agreed to.

Please see E & P.H. note overleaf.

It is observed from para 2 of the D.P.I.'s letter on pp.1-2 C.F. that there is a Higher Elementary School at Bukkarayasamudram, a village two miles away from Anantapur and ^{that} there is also a Municipal High School a mile away. The boys of the Model School at Anantapur after passing the V Standard may well attend the Municipal High School just a mile off, for higher studies. Further, the present strength of the lower standards is not considerable, the strength in V Standard being only 21. There is thus no urgent need for the opening of higher standards in the model school.

E & P.H. however, support the proposal on the ground that the Anantapur District is backward in education. But ~~that~~ ^{therefore} does not seem to satisfy the test of 'essentiality' etc. prescribed in G.O. No.361 Fin. dated 10-7-44 for introduction of Part II Schemes. In the circumstances, E & P.H. may be requested to consider whether the proposal may be dropped for the present.

The case has to be looked at primarily from the viewpoint of the Training School. It does not appear to be Govt's policy to provide ^{higher} Elementary Schools in Municipalities. The question therefore is: whether the proposal is necessary for the purpose of the Govt Training School? Any benefit that results to the inhabitants of the locality is only incidental. Since it is said that the pupils of the Training School have to walk only one mile - to the Municipal High School - to have practice lessons, it does not appear that they are put to much inconvenience. The proposal does not therefore seem to be essential now.

The principle of having the Model School within the Training School premises has also been accepted - cf. page 2 of G.O.No.619-Edn., dated 4-5-1942. School - Govt. Mappilla Girls' High School,
Tinne - Opening of a model school for 15
secondary grade training class.

The D.P.D. proposes the opening
of a model school with standards I to V for the
Secondary grade Trg. class in the Govt. Mappilla
Girls' High School, Tinne. The proposal was
first made in connection with the budget for
1944-45. As it was then ordered to be deferred,
the D.P.D. has renewed the proposal for consideration
in connection with the budget for 1945-46.

2. Attention is invited to the notes on
p. 27-29 of G.O. 712 Eon. of 22.5.43. It would
be seen therefrom that the opening of the model
school was not considered an unavoidable
necessity because the D.P.D. had adduced
no reason why the St. P.D. Ely. School for
girls, which the D.P.D. proposed to take up, for
the model school, should not be used as a
model school for the pupils in the Secy. grade
Trg. Class. The present letter of the D.P.D. is also
silent on the point. It may now be asked.

The draft memo below is for approval.
[Issued as T.M. of 24.10.44]

From the D.P.D. T.M. of 25.10.44
The D.P.D. states that the St. P.D.
Ely. school, being ill-equipped and staffed
with 23. grade teachers, is quite unfit for use
as a model school. In the circumstances, the
proposal of the D.P.D. to open a model school
with standards I to V may be supported in
this dept. The extra cost will be Rs. 2,900 in
1945-46 and Rs. 3,100 ultimately.

The file may be sent to Fin. for remarks.

Finance (E.I).

At the instance of the D.P.I. and P.H. propose to open a model school with standards I to V for the Secondary Grade Training class in the Govt. Mappilla Girls High School, Tirur.

The D.P.I. submitted the proposal as a Part II scheme for 1943-4, but it was deferred on the ground that the opening of the model school is not an unavoidable necessity. This proposal involves

a recurring and non-recurring extra cost as detailed below

Item of expenditure	ultimate cost		Cost in 45-6	
	Recurring	Non-recurring	Recurring	Non-recurring
Pay of 5 secondary grade teachers (30-55) A.P. 42 2/9	2,533	--	1,350	
D.A. at 13 p.m.	780		450	
Rent at Rs 10	120		90	
Furniture		1000		10 0 0
	3,433	1000	1,890	1000
	3,400	1000	1,900	1000

The necessity of the proposal is explained by the D.P.I. in his letter on pp.1-2 C.F. and 5 C.F. E and P.H. Dept. support the proposal. The proposal may be accepted subject to the following remarks:-

(1) The D.P.I. states that the probable strength of standards I to V of the proposed model school will be 25, 20, 20, 16 16 respectively. The strength is small. E and P.H. may be requested to consider whether 5 secondary grade teachers will be necessary and if so what reduction can be made.

(2) D.P.I. proposes to spend Rs 1,000 on furniture. When the D.P.I. applied for the opening of a model school last year, proposed to locate the school in the same building where the Dt. Board was willing to close if Govt. open an elementary school there.

In this connection it may be possible to get the equipment and furniture free of cost if Dt. Board is willing to transfer the school to Govt. management. E and P.H. may be requested to consider whether this is now feasible.

(3) E and P.H. may be requested to take order (including A.1) about the essentiality of the proposal during war time.

A on p.2 ante:- The staff is none too much. An aided elementary school of 5 standards with the no. of pupils specified hereon will be eligible for grant for 5 teachers. It is superfluous to add that when the school happens to be the model section of a training school it should not have a smaller staff: current practice is wholly against such whittling down. The proposed staff may be accepted.

B on p.2 ante:- The Dt. Bd. School is in a rented building. There is no suggestion anywhere that the Dt. Bd. has proposed the opening of this model school and has offered an investment in the shape of furniture & equipment. Govt. want a model school for their training institution and when they provide one, there will apparently be no room for the Dt. Bd. School in it.

52084

46 The Bd: will close down its school and make a remedy
 no exp. - a remedy which the Bd: in any event wants
 as it has never had ~~the~~ plenty of funds in its E. E. Account.
 It does not follow that it is likely to place its furniture
 at Govt: disposal. There are hundreds of Bd: schools
 mostly in need of furniture & it is reasonable to let the
 Bd: make what use it considers fit of its furniture
 released from this particular school. The fact that
 D. P. I. has not referred to it either at N/ 7-9 or in this letter
 is sufficient ^{reason} justification for the assumption that the Bd: furniture
 will not be forthcoming: in any event it is not necessary for Govt:
 to make ^{to suggested} enquiry.

6/11 Part 3 - p. 2 c. 7: - The school is in a Mappilla area &
 pupils will be mostly Mappilla girls. ~~Excess~~ Fee collection has been
 waived in many model schools - even those attached to men's
 training schools. The Dir: proposal to waive fee collection here is
 nothing unusual and may be accepted.

Secondary Grade Training class attached to the Government Mappilla Girls' High School, Tirur (South Malabar).—The school was opened in July 1943. No provision was made for a model school as it was anticipated that a girls' elementary school which the district board was maintaining in a rented building in the locality could

be used as a practising section. The Director says that the board school is ill-equipped and ill-staffed and quite unfit to be used as a model school. He has therefore proposed the opening of a model school consisting of Standards I to V at the cost of Provincial funds. The district board will close down its elementary school.

Government Training School for Masters, Bimlipatam.—This has been using as model school, a municipal elementary school in the locality, about a furlong distant from the Training school. The school, like the board school mentioned above, is not suitable for model school purposes. Here also, the Director proposes to open a model school consisting of the first five standards at the cost of Provincial funds. The municipal council is willing to abolish its school and hand over the building, equipment, etc., to the Government.

Higher Elementary Training School for Women, Palamcottah.—A municipal elementary school, half-a-mile distant from the training school has been serving as the model section. Apart from the municipal school staff not being of the type appropriate to a model school, the distance causes undue physical strain on teachers undergoing training whenever they have to go to the model school for purposes of taking practice lessons. The Director therefore proposes to provide the training school with a model school of its own consisting of the first five standards.

Secondary Grade Training School for Masters, Anantapur.—This has at present a model school consisting of Standards I to V. The Director proposes the addition of the three higher elementary standards at the rate of one each year from 1945-6 and explains the necessity as follows:—

"There is no higher elementary school for boys at Anantapur. The only higher elementary school in the vicinity is at Bukkarayasamudram, a village two miles away. The need for a higher elementary school in Anantapur for the sake of poor pupils is a long-felt one. Moreover, the Secondary Grade Training students and a teacher have to go to the municipal high school, a mile away from the training school, for practice lessons. If the model elementary school in the training school is raised to a higher elementary school it will meet the needs of both the training students and the poor pupils after passing the fifth standard."

2. The staff and other items of expenditure recommended by the Director in all the four cases follow the usual lines. This Department recommends the proposals in their entirety and the making of provision in the budget for 1945-6, as indicated in the summary at the top.

M. V. SUBRAMANIAN—30-11-44.

[C No. 4744/C]

From the D.P.I. R.C. No. 3784/44 of 29.9.44

Govt. Training School for Masters, Bimlipatam—Taking over the management of the ml. ely. school.

The proposal of the D.P.I. is to take over the management of the ml. ely. school for use as a model school for the Govt. Training School for Masters, Bimlipatam. The ml. ely. school is even now serving as a model school for the Govt. Trg. school, but the D.P.I. ^{states} that the mltg. is not maintaining it at the proper standard, for want of funds. The ml. cl. is reported to have agreed to the transfer of management to Govt.

The extra cost involved in the proposal is Rs. 1,350 in 1945-46 and Rs. 2500 in future years, by way of pay of teachers. The ~~General~~ D.P.I. reports that the cl. has resolved to ^{transfer} the building, compound and equipment also to Govt. It would seem that this would be free of cost as the Director does not say anything about it. For orders whether this dept. may support the Director's proposal. If so, the file may be sent to him for remarks.

The case is similar to the ~~Trust~~ one in the top file. In both cases reliance on a model school maintained by an extraneous agency ~~does~~ not make for efficient maintenance or even efficiency.

of the page 1 of the D.P.I. proposal to take over the management of the Municipal Elementary school, Bimlipatam for use as a model school for the Govt. Training School for Masters, Bimlipatam.

The extra cost on account of this proposal is Rs. 3,312 p.a.

The necessity for the proposal is explained by

D.P.I in his letter on pp.1-2 C.F. E and P.H support the

(1) The D.P.I. does not state in his letter on pp.1-2 C.F. the probable strength of each class from Standards I to V. It is submitted that E and P.H may be requested to obtain the strength of each class in the elementary municipal school at Bimilipatam and whether the employment ~~of~~ for 5 teachers is necessary. There seems to be three secondary grade teachers and it is not clear whether there is sufficient strength in the respective classes for the employment of 5 additional teachers.

(3) Orders of the Govt. including A.1 may be obtained whether the scheme will be considered as 'essential'

28/10/1955
Since the only defect in the Municipal Elementary School which is at present serving as background material is that it has got two Elementary grade trained teachers, it is suggested that they may be replaced by secondary grade men & that the difference in cost may be borne by the Govt. It does not seem to be necessary to take over the entire School. EdPH may consider this.

The suggestion at 'A' above may be put to the
D. P. I. A draft memo is submitted.

The suggestion may be attractive on grounds of cost to Govt.: But ~~supposing~~ ~~even~~ that is doubtful, as noted on in the top file, each Board and in a model school shd. have its own teachers. If Govt. contemplate subsidizing the sch. to provide bus., the subsidized will not be too different from

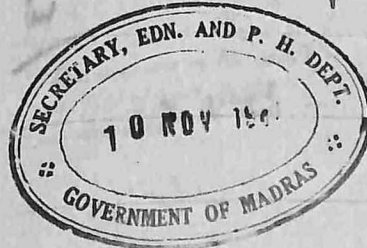

An even more important point is the maintenance of the school in a state of efficiency appropriate to a Model school. That implies something more than the provision of an adequate staff: ~~is~~ ^{really} a Model school ^{or} attached to [^] training institution will have the benefit of proper supervision and control by the head of the combined institution - holder of a Collegiate Trained Teacher's Certificate. While these general considerations might be urged in support of the Director's proposal, it is possible to hold the view that the proposal does not strictly answer the test of urgency or essentiality.

Orders may be taken in circulation.

I beg to remain,

Sir,

Secondary Grade Training class attached to the

Govt. Mappilla Girls' High School, Tirur (S. Malabar): This
School was opened in July 1943. No provision was made for a Model
School as it was anticipated that a girls' elementary school
which the District Board was maintaining in a rented building
in the locality could be used as a practising section. The
Director says that the Board school is ill-equipped and ill-
staffed and quite unfit to be used as a Model School. He
has therefore proposed the opening of a Model School consist-
ing of Standards I to V at the cost of Provincial funds.

The District Board will close down its school.

Govt. Training School for Masters, Bimlipatam:

This has been using as a Model School a Municipal elementary
school in the locality, about a furlong distant from the
Training School. The school, like the Board school men-
tioned above, is not suitable for Model School purposes.
Here also, the Director proposes to open a Model School con-
sisting of the first five Standards at the cost of Provincial
funds. The Municipal Council is willing to abolish its
school and hand over the building, equipment, etc. to the
Government.

Higher Elementary Training School for Women,

Palamcottah: This has been using a Municipal elementary
school, half-a-mile distant from the Training School. Apart
from the Municipal school staff not being of the type appro-
priate to a Model School, its distance causes undue physical
strain on teachers undergoing training whenever they have to
go to the Model school for purposes of taking practice lessons.
The Director therefore proposes to provide the Training
School with a Model School of its own consisting of the first
five Standards.

Secondary Grade Training School for Masters,

Anantapur: This has at present a Model School consisting
of Standards I to V. The Director proposes the addition
of Higher Elementary standards and explains the necessity

as the rate of
one each year,

as follows:-

"There is no Higher Elementary School for Boys at Anantapur. The only Higher Elementary School in the vicinity is at Bukkarayasamudram, a village two miles away. The need for a Higher Elementary School in Anantapur for the sake of poor pupils is a long felt one. Moreover, the Secondary Grade Training students and a teacher have to go to the Municipal High School, a mile away from the Training School, for practice lessons. If the Model Elementary School in the Training School is raised to a Higher Elementary School it will meet the needs of both the Training students and the poor pupils after passing the Fifth Standard."

2. The staff and other items of expenditure recommended by the Director follow the usual lines. This Department recommends the proposals in their entirety and the making of provision in the budget for 1945-6, as indicated in the summary at the top.
