D.O. Director of Public Instruction,
Madras, 26th April 1945.

My dear Sir, Thomas,

You may remember that when I was acting as Director of Public Instruction last summer I obtained your permission to supervise and direct the researches which were being carried on in the Presidency College chemical laboratories on two schemes sanctioned by the Board of Scientific and Industrial Research of the Government of India.

Both the two schemes--(a) "Manufacture of glandular products from slaughter-house waste" and (b) "Electrolytic manufacture of dye-intermediates"--have now been sanctioned by the Board of Scientific and Industrial Research for another year commencing March 1945, and I request that I may be permitted to continue the supervision of these researches in the chemical laboratories of the Presidency College, while acting as Director of Public Instruction.

PTO.

2.

I may say, in this connection, that I have been sharing the Presidency College House with the Principal at some inconvenience to myself, mainly with the object of being near the College laboratories and the research workers who receive instructions from me and whose work I am often able to supervise in the evenings.

Yours sincerely,

M. S. S.

Sir Thomas Austin, KCIE., ICS.
Adviser to H.E. the Governor,
Fort St. George.
