One of the main reasons for the increase in the rates of the Teachers' Certificate in Physical Education for Men and Women is the increase in the cost of the examination. The examination is held at the end of the year and the cost of the examination is very high. The cost of the examination is the main reason for the increase in the rates.

Sir, SUBJECT:- Madras Educational Rules - Amendment - Teachers' Certificates in Physical Training for men and Women.

Ref:- Government Memo. 6083-C/45-1. Edn., dated 23-3-45.

I have the honour to state that the increased rates of fees for admission to the Teachers' Certificate in Physical Education for Men and Women were approved in G.O.No.1853, Edn., dated 9-12-44, with effect from the examination of 1945. Rule 153 of the Madras Educational Rule, as it stands at present, refers to the old rates of fees. The rule has, therefore, to be amended to be in conformity with the increased rates of fees approved by Government.

NOTE BY THE ADMINISTRATIVE DEPARTMENT.

In 1927-28, Domestic Science was included as an optional subject in the L.T. Degree course in the Lady Willingdon Training College, Madras. In 1929 the need for the employment of a full-time lecturer in Domestic Science in the College was brought to the notice of Government. But no separate lecturer was appointed. Arrangements were however made under which Miss Park, Lecturer in Domestic Economy for European Schools, was asked, as a temporary measure, to give instruction in the subject to the L.T. students in the college on the payment to her of a special pay of Rs. 35 a month for the additional work. This temporary arrangement was continued from year to year until the end of the academic year 1933-34. Since that date the course has been temporarily suspended. (The special pay granted to Miss Park was abolished with effect from 1st April 1932 on the recommendation of the Retrenchment Committee.)

2. In the meanwhile, in November 1932 the Director of Public Instruction proposed that a full-time lecturer in 'Domestic Science' should be appointed. He also suggested that, as it was not likely that any one with the requisite qualifications would be available in India, an officer of the Educational department might be selected to undergo a course of training in Domestic Science in England. Owing to financial stringency, the proposal could not be accepted. The Director was however asked to bring forward the proposal as a Part II Scheme for 1934-35. The Director accordingly revived his proposal, but it was again postponed owing to financial stringency and the part-time arrangement was continued.

3. In 1936, the Director of Public Instruction again examined the question of making adequate arrangements for the teaching of Domestic Science in the College and in June 1936, he made the following report:—

"I feel that it is undesirable in the interests of efficient work to combine the work of the Lady Willingdon Training College with that of the European Special Subjects Centre. It is not possible for the lecturer without undue strain, to discharge the duties of both institutions satisfactorily and I think that the Lecturer in Domestic Economy should confine her activities to the post for which she was recruited, and not make an attempt at doing two jobs, normally requiring the services of two persons. The need for a full-time lecturer in this subject for the Lady Willingdon Training College has been fully represented to Government. It is needless to emphasize that Domestic Science is a very important subject for girls, and that it is

The following shall be substituted, namely:—
 "The fee to be paid by each candidate for admission to the list is Rs. 6/- in the case of the Teachers' Certificate in Physical Trg. (lower grade) and Rs. 10/- in the case of the Certificate in Physical Trg. (Higher grade) and in the case of the Diploma in Physical Education (for women)."
