Schools - European - Increase in the rate of boarding grant under Article 156 of the Code of Regulations for European Schools.

In submitting herewith the letter reference 114/414 dated 5-6-1944 from the President of the Anglo Indian and Domiciled European Association of Southern India, addressed to Mr. T. Austin Adviser to His Excellency the Governor of Madras, on the question of increase in the rate of Boarding Grant under Article 156 of the Code of Regulations for European Schools, I have the honour to state that the subject was already considered - vide the Correspondence ending with Memo. No. 30455-A-3 Edn., dated 3-11-43 and my subsequent letter dated 7-4-44 to Sir Norman Strathie, Adviser to His Excellency the Governor.

2. With reference to para 3 of Mr. D'Cruz's letter, it may be stated that he has not given absolutely correct facts in stating that with the existing grant of Rs. 15, clothing, books and stationery have to be provided in addition to food. In all the regular poor schools, in addition to the boarding grant, a special teaching grant is also paid. Further, a grant for books is also paid to all children up to standard IV and in the case of girls upto standard 7.

3. I may also mention, in this connection, that this grant under Article 156 is paid for the twelve months of the year, whereas

Dear Sir,

I have been requested to address you, on behalf of the European Schools of this Presidency, on the matter of an increase of Boarding Grant under Article 156 of the Code of Regulations for European Schools.

I attach herewith a list of ten Schools showing the cost to each institution per child, per month, in 1943. You will observe the figure given, in each case, exceeds Rs.15/-, the grant at present allowed to Schools outside the city.

The cost of living index is, in most cases, above 200. The payment by Government of Dearness Allowance - in the case of the lower paid personnel at a rate of about 75% of the basic salary - proves that Government have realised the serious reduction in the purchasing power of the rupee. Managements of Schools can purchase, with any given sum of money, only about half of what they could in pre-war days. I need hardly stress the national importance of proper nutrition for our school children. But the situation now is that Managements are faced not only with an increase in the price of food-stuffs, but with a definitely reduced nutritive value in what is bought. And feed - a properly balanced diet - is not the only problem that Managements are up against. Clothing, books and stationery have to be provided, all with the fifteen rupees sanctioned for each child, as no extra fees can be charged for children in receipt of grants under Article 156.

May I request you, Sir, to give this matter your kind consideration with a view to enhancing the present grant under Article 156 and making it possible for Managements to deal more successfully with the problem of feeding, clothing and educating the children entrusted to their care. May I suggest that the revised grant should be a minimum of Rs.20/- per month, per child.

I remain,

Dear Sir,

Yours sincerely,

President
President.

most of the children receiving the grant go home for at least two months' holidays, which means that the management can get this extra money for two months without having to feed the children. Again Article 156 of the Code of Regulations for European Schools, expressly states that the grant be made in aid of boarding and school charges. It does not undertake to cover the whole cost of maintaining poor children.

4. The Inspectress of European Schools also reports that she had not received any representation from any of the orphanages or Boarding Homes about the inadequacy of the existing rate of grant and the need for increasing it.

I have the honour to be, Sir,
Your most obedient servant,

P. M.

Boarding grant for Anglo-Indian and European Schools - Increase in the rate.

Ref:- From the Director of Public Instruction, R.C.No.1901-E/43, dated the 27th September 1944.

Although the boarding grant provided in Article 156 of the Code of Regulations for European Schools is not meant to cover the whole cost of maintaining a child, most of the managements have little other resources and depend on the Government grants. It appears to be fairly clear that a rate which was considered sufficient some years ago cannot be adequate now. The Government have provided increased grants for Labour institutions and institutions maintaining Burma evacuees. The grant for providing meals for day school children has likewise been raised in G.O.No.1514-Edn., dated the 8th November 1943. It is also not appropriate to say that there have been no representations from Orphanages and Boarding Homes for an increase in the rate of boarding grants, in view of the letter of the President of the Anglo-Indian and Domiciled European Association of Southern India, dated the 5th June 1944.

The question, therefore, requires fuller examination.

Madam,

I have the honour to forward herewith copies of letters I have received from Correspondents of European Schools with pupils drawing grants under article 156 of the Code of Regulations for European Schools. The figures given under per capita cost per mensem for food alone may be summed up as follows:

four schools--above Rs.15/-
two schools--Rs.15/-
three schools--below Rs.15/-

Two schools in Trichinopoly find Rs.15/-insufficient. A third school in the same place finds Rs.10/-sufficient. It would be interesting to learn how a properly balanced diet can be secured for a growing child at a cost of Rs.10 per mensem in these days, however large the number of children may be. I sincerely hope the ideal is not food at the minimum cost with the money available. It would also be interesting to know how many ounces of animal protein figure in the daily or weekly diet sheet of schools, which, at present, show a per capita cost less than Rs.15/-per mensem for food. In this connection, I would suggest that a standardised diet scale be drawn up and all schools with pupils drawing grants under article 156 be required to adhere strictly to this scale. For this, an increase of the present grant will, I respectfully submit, be found necessary.

I have the honour to request therefore that this matter of increasing the present grant under article 156 be brought up again for consideration at the next meeting of the Provincial Board for Anglo-Indian and European Education.

I have the honour to remain,

Dear Sir,

With reference to your letter No.1144/810 dated 31st October 1944 I have the honour to inform you that the cost to the Institution per child per month under Art 156 was Rs.18/-, Rs.18/4/-, Rs.20/10/- for the years 1941, '42 and '43 respectively.

The cost for food alone in 1943 works out to Rs.12/8/- per month, per child or roughly 8 as. a day but this would depend largely on the number of children — cheaper for larger than smaller numbers.

Thanking you,

Yours sincerely,

I am sorry that owing to pressure of school work I was not able to send you earlier the information which you were kind enough to ask for with a view to seeing if the Government Grant for poor children could be enhanced.

The average expenditure per head per month for food alone in 1942-43 was Rs.11-2-3. In 1943-4 the average per head per month for food alone was Rs.15-1-0.

With kind regards,

Dear Mr. D'Cruz,

Ref: No.114A/814 dated 31st October 1944.

In reply to the above circular I would only repeat what I have said - in different words perhaps - often in the past; the Anglo-Indians Grant Allowance needs to be increased, and it is not for want of petition on our part that this is not done. We always seem to be asking, and not receiving!

In the present situation, the food cost alone per child per month comes to more than Rs.15/- and added to this books, clothing, upkeep and all the other necessities of life make a much larger sum as you can understand. I trust that in view of the real help Government is receiving from the Anglo-Indian Community in the present situation, definite notice will at last be taken of our appeal, and something done towards the adequate upkeep and education of our Anglo-Indian children.

Yours faithfully,

Dear Mr. D'Cruz,

Mr. E.H.M. Bower told me that you would like to have information about the cost of boarding. It is very difficult to give an exact figure in the middle of the year as one always has stock in hand at the end of any particular month. The cost of boarding for each child for 1943-44 was Rs.22/5/- a month. The cost from April first up to date is roughly Rs.20/8/-. By cost of boarding I mean the cost of food and the fuel necessary to cook it; no other charges are included.

	Rs.	as.	ps.
Clothing	0	11	6*
Books & Stationery	1	13	7
Boarding Staff	4	3	0

* This figure is unusually low for this year as we were using the existing stocks. The normal figure is Rs.1-4-0 to Rs.1-8-0.

Dear Sir,

I am very thankful for the action you intend taking on our behalf. I do hope it will materialise as early as possible. This is the fourth inquiry about the matter this year. I feel that you will have success if you represent to Government that money spent on Anglo-Indian youth is a good, profitable and wise investment. As many as four hundred and two boys of this Orphanage are in the various defence Services of the Army, Navy, Air Force, Wireless, Frontier Railway Service, A.F.(I.), etc: How many have already given their young lives for India, I cannot yet tell. I guess there are many!

Now for the information you need:-

(i) For food alone the average cost per capita for July, August, September and October is Rs.14/8/- per mensem.

(ii) The cost of Stationery, books and clothing amounts to Rs.2389/3/-.

(iii) There are various other items of expense to be met and the Rs.15/- goes nowhere. But yet, we are thankful for even this Rs.15/-.

Yours faithfully,

Boarding grant to Anglo-Indian and European Schools - Increase.

The Code of Regulations for European Schools in force in this Province provides inter alia for the payment of a grant in aid of boarding and school charges of orphans and destitute children. Article 156 of the Code prescribes for the purpose a grant not exceeding Rs.15 p.m. in the City of Madras and Rs.12 p.m. in the mufassal, for each child. With the sanction of the Governor-General, the rate of grant for the mufassal was raised to Rs.15 with effect from 1-7-1942, the increase to be in force while the high prices of articles continued. The case of for an increase of the City rate was not considered as the institutions in the City of Madras had then been transferred to mufassal stations. A few of them have since returned to Madras.

Boarding grants to European Schools - Increase
in rate.

Please see page 1 N.F. of (D) wherein the question
of increasing the boarding grant to European Schools
was noted on. The D.P.I. still considers that there
is no case for an increased grant. For orders
whether the request of the President of the Anglo-
Indian and European Association of S. India may be
rejected. A reply may be given pointing out P at pp 1-3

increased rate will apply both to the city and
the municipal. The ^{additional} cost estimated for annum
is Rs. 65,000 in the case of Secondary Schools
and Rs. 900 in the case of primary schools.
The Director's proposal may be supported in this
draft. The file may be sent to Finance for
remarks before circulation.

Please see A.1's minute on page 2 above, E.P.H.

Dept's note on pp.3-4 above, memo. to the Director of Public Instruction on pages 7-8 C.F. and the Director's reply on page 19 C.F. The further note of E. and P.H. on pp.4-5 above may also be perused.

In view of the representations received from the Correspondents of European Schools about the inadequacy of the present rate of boarding grant viz. Rs 15 p.m. per child, ~~(of the circumstances stated in para. 2 on p. 3 above)~~ this Department may agree to the proposal of the D.P.I. and E. and P.H. Dept. that the grant may be increased from Rs 15 p.m. (fixed temporarily in G.O. 252 Bdn.d. 16-2-43) to Rs 18 p.m. This increase may ~~be temporary to remain in force whilst prices continue to be high, as was ordered in (2).~~ ~~of the war, as the present level of prices is not likely to come down appreciably until the war ends.~~

2. The above proposal is estimated to involve a total recurring expenditure of Rs 65,900 p.a. As the cost exceeds Rs 25,000 p.a., the proposal requires the prior sanction of the Governor-General under the Section 93 Situation. His sanction cannot be presumed in this case under ~~the~~ the rules in force.

3. The proposal has to be treated as an item of new service, as the ~~exp~~ expenditure involved is large - of Secretary's note at flag (I). E.P.H. may be requested to take orders in full circulation and to obtain, after receipt of the Governor-General's sanction to be applied for, the authorisation of H.E. the Governor for a supplementary statement of expenditure.

4. The proposal may be sanctioned with effect from

the first of the month in which the Governor General's sanction is received. It does not appear necessary to give retrospective effect from 1-1-1945, as recommended by the D.P.I. For orders.

The Gov. Genl. has approved the proposal. A draft order is subd. for approval. It may come after perusal by Finance.

[As the increase in rate is only temporary, it does not seem necessary to issue an amendment to the Col. of Regulations for European Schools.

A supplementary staff of a p. will be subd. later for the authorization of H.E. the Governor.]
