Sub: - Loan of the services of
Mr. K. Achuthan Nair,
Laboratory Assistant,
College of Engineering,
Guindy to C.S.I.R.

Sir,

I have the honour to invite a reference to letter No. 14-X(II)/45 dated 10.12.45, addressed by the Joint Secretary to the Government of India, War Transport Department, New Delhi, to the Secretary to the Government of Madras, Home Department (copy enclosed).

In pursuance of the future policy of the Government of India outlined regarding the continuation of work hitherto done on the P.P.G plants at the various centres, it had been proposed that the work should be continued and carried under the auspices of the Council of Scientific and Industrial Research at the physical laboratories in Delhi. In order to afford facilities to the Council the Government of India have placed the necessary equipment at its (Council's) disposal. The Council after careful consideration of the proposals made by the Government of India have decided to continue the work and sanctioned the research scheme to give effect to these proposals.

In order to best give effect to the proposed scheme and to secure the maximum degree of utility from the research on the connected problems it is considered necessary to retain the services of Mr. K.A. Nair, a Laboratory Assistant, of the Guindy Engineering College whose services were originally lent to the Council by the Madras Government and were later replaced at the disposal of the Government of India. As the scheme has now been finally transferred to the Council of Scientific & Industrial Research, I am directed to seek the co-operation of the Madras Government in this matter and to request that Mr. Nair's services may be lent to the Council from 1.3.46 uptill 28.2.47. Mr. Nair will be appointed as a Research Engineer on the above scheme and will be governed by the conditions of service as if he were on foreign service to the Council. In this connection a reference is also invited to Government of Madras G.O.M.S. No. 1125 B.D.N dated 20.8.43 in which they were pleased to waive the contribution and other charges. It is accordingly requested that the Madras Govt. may be pleased to lend the services of Mr. Nair for the purpose mentioned above and on the conditions previously agreed to by them.

I have the honour to be,
Sir,
Your most obedient servant,

[Signature]
SECRETARY.

5. The Diwan of Travancore, Trivandrum. (S.India).

Producer Gas Testing Station and
Producer Gas Research -
Continuation of.

After reviewing correspondence received and informal discussions with Provincial Transport Controllers at the time of the recent meeting of the Transport Advisory Council, the Government of India anticipate that, with the possible exception of Madras Province, interest in producer gas as a fuel for motor transport vehicles will suffer a very rapid decline when petrol rationing is removed.

2. They feel, however, that, under the compulsory system developed as a War measure, it has been amply shown that producer gas as an alternative fuel for motor vehicles has rendered a very great service in times of exceptional stress and scarcity of motor spirit. During the past three years, much practical experience has been gained in the construction, fitment and operation of mobile producer gas plants, which has been developed as an entirely indigenous industry, and it is considered that this knowledge should not be dissipated by complete post-war neglect of the subject.

3. With the intention of keeping the public mind alert to the possibility of a motor fuel before the rising generation, it was proposed that a short course on the use of charcoal gas in motor vehicles should be incorporated in the curricula of Engineering courses in

India

COUNCIL OF SCIENTIFIC & INDUSTRIAL RESEARCH

University Buildings,
Delhi, the 10th March 1946.Tele:- 10052-10053
No. B-1-13.The Secretary,
Council of Scientific
& Industrial Research.The Secretary,
Education Department,
Fort St. George, Madras.

Sub:- Loan of the services of
Mr. K. Achuthan Nair,
Laboratory Assistant,
College of Engineering,
Guindy to C.S.I.R.

Sir,

I have the honour to invite a reference to letter No. 14-X(11)/45 dated 10.12.45, forwarded by the Joint Secretaries to the Government of India, War Transport Department, New Delhi, to the Secretary to the Government of Madras, Home Department (copy enclosed).

In pursuance of the future policy of the Government of India outlined regarding the continuation of work hitherto done on the P.G. plants at the various centres, it had been proposed that the work should be continued and carried under the auspices of the Council of Scientific & Industrial Research at the physical laboratories in Delhi. In order to afford facilities to the Council of the Government of India have placed the necessary equipment at its (Council's) disposal. The Council after careful consideration of the proposals made by the Government of India have decided to continue the work and sanctioned the research scheme to give effect to these proposals.

In order to best give effect to the proposed scheme and to secure the maximum degree of utility from the research on the connected problems it is considered necessary to retain the services of Mr. K.A. Nair, Laboratory Assistant, of the Guindy Plant in the Madras Government and were later replaced at the disposal of the Government of India. As the scheme has now been finally referred to the Council of Scientific & Industrial Research, I am directed to seek the co-operation of the Government in this matter and to request that Mr. Nair's services may be lent to the Council from 1.3.46 until 30.2.47. Mr. Nair will be appointed as a research assistant on the above scheme and will be under the direction of the Council. In this connection a reference is also invited to Government of Madras G.O. No. 1125 B.D. dated 20.8.45 in which they were pleased to waive the contribution and other charges. It is accordingly requested that the Madras Govt. may be pleased to lend the services of Mr. Nair for the purpose mentioned above and on the conditions previously agreed to by them.

I have the honour to be,
Sir,
Your most obedient servant

Development of new ideas have been
as Testing Laboratories at Delhi,
Bombay, and Trivandrum.

Central Government consider that it is in the main
tenance of these laboratories, after the compulsion to use pro-
ducer gas plants is finally removed, that the interest in this
important subject, in connection with both the motor industry
and also small industrial and pumping plants for factories and
irrigation, can be sustained.

6. It is suggested, therefore, for the consideration of
the Provincial/State Government that, while the maintenance of
the Testing plant and research laboratory at present installed
in -

The Madras College of Engineering, Guindy, Madras.
The University College of Science, Calcutta;
The Victoria Jubilee Technical Institute, Matunga, Bombay,
The School of Engineering, Nagpur;
The College of Engineering, Travancore University,
Trivandrum;

may no longer remain within the jurisdiction of the Provincial
State Transport Department, the Provincial/State Government
may review the possibility of continuing the use of the plant
in an Engineering college or other educational institution, with
an adequate staff to operate it with the object of instructing
students in its use and, if possible, undertaking any work
in the producer gas field, so that, if urgent demand
arises through shortage of petrol or other liquid
ready means to put into operation this alternative
utility in motor vehicles may be in existence.

⑥

7. Arising from this proposal is the consideration of the continuation of the Producer Gas Standing Research Committee which was constituted as a result of a resolution passed at the Conference of Producer Gas Testing and Technical Officers held in Delhi in October 1944.

8. In pursuance of the policy of keeping alive the interest which has been developed in producer gas as a fuel for motor transport the Central Government have decided to offer all the material belonging to them in Delhi to the Council of Scientific and Industrial Research so that, when this work is no longer a concern of the War Transport department, the Master Station may continue its interest and investigations. It is likely that this offer will be accepted.

9. The Government of India will be glad to know if the Madras/Bombay/Bengal/C.P. and Berar/ and Trivandrum Government will be agreeable (1) to maintaining the Producer Gas Testing Plant and (2) to the officer-in-charge of the Plant in their Province/State being an ex-officio member of the Producer Gas Standing Research Committee if it is found possible to keep it in being. It has been proposed that, if and when the post of Chief Technical Adviser, War Transport Department is retrenched, the officer in charge of the Master Gas Testing Station in the Laboratories of the Council of Scientific and Industrial Research, Delhi, should be appointed ex-officio chairman of that Committee and the opinion of the Provincial Government on this point also is invited.

Sub :- Loan of the Services of Mr.K.Achutan Nair,
Laboratory Assistant, College of Engineering,
Guindy to the Council of Scientific and
Industrial Research.

Sir,

I have the honour to invite a reference to noti-
fication G.O.No.M.S1073 Edu. dated 31-5-1946 regarding the
extension of the loan of services of Mr. K.Achutan Nair to the
Council of Scientific and Industrial Research and to state
that the sanction for the loan accorded in the above quoted
orders expired on 28-2-47. The investigation on the Producer
Gas Test Plant, for which his services were originally asked
for by the Council, are, however, still proceeding and it is
considered that Mr.Nair's services would be essential for
continuing the work.

The Council would, therefore, be extremely grateful
if the Government of Madras would very kindly sanction a
further extension of the loan of Mr. Nair's services for a
period of one year more, commencing from 1-3-47 F.N. on the
conditions as have already been approved by the Government of
Madras.

I have the honour to be,
Sir,
Your most obedient servant,

R.P. Nair
Secretary.
