Enclosures: No. 904-1/46 dated 7th May 1946.

Sir,

Sub: Government Museum- Calico-Stationery article-
Supply of - Sanction -Requested.

I have the honour to state that calico is
urgently needed for binding labels in this Museum. This
is a stationery article available with the Superinten-
dent of Stationery.

A binding paper tape called Dennyson's Passive
Partout in rolls of about 10 yds. each - U.S.A. make -
was used for binding the labels etc. for a very long
time. From the time the war broke out, this article
could not be had in the market. Thus the stock which we
had with us had to be completely exhausted and could not
be replenished. A good lot of labels and a number of
small boxes are to be made now for specimens to be
exhibited in the galleries. For this a trial was made
with calico as an alternative which proved to be satis-
factory. As we are not able to get the binding tape

roll and as calico is found to be the only substitute I have the honour to request that the Government will be pleased to accord sanction for the supply of 20 yards of calico in the first instance, 10 yards of dark tan or chocolate colour, and 10 yards of dark green colour, and for the quantity we indent for later on, from the Superintendent of Stationery, Madras.

I have the honour to be,
Sir,
Your most obedient servant,
