Subject: Loans - Corporation of Madras - Construction of buildings - Elementary Schools.

Ref: Government Memorandum No.41128 A-4 dated 26-11-45.

If the buildings for which a loan of Rupees Four lakhs has been applied for, are constructed, the Corporation expects to save about Rs.11,000/- per annum which is now being paid as rent for private buildings used for our schools. It may also be stated that the question of savings in rent is not the only consideration as the existing schools are located in residential buildings not well suited for holding classes and the proposal to put up new buildings in place of them will be beneficial to children as they will thereafter receive instruction in well ventilated spacious rooms. The six buildings proposed to be constructed will be worth a monthly rent of Rs.250/- each and the savings in rent should therefore be computed at Rs.18,000/- per year which we would have to pay if the schools are to be

The Corporation has applied for a loan of Rs 4 lakhs for the construction of elementary school buildings on sites already acquired. Out of this loan, a sum of Rs 2 lakhs is required in August 1946 & the balance in November 1946. The annuity on a loan of Rs 4 lakhs repayable in 20 years with interest at 3 1/2 per cent is Rs 28,144. It is stated that the loan will be repaid from the Elementary Education Fund. Apparently the schools are now located in rented buildings & there will be savings in rent charges if the new buildings are constructed. E.P.H. may ascertain from the Commissioner, Corporation of Madras, what the savings in rent charges will be & examine whether the Elementary Education Fund will be able to bear the charge.

Subject to the above remarks, Finance may agree to the loan application being considered in connection with the next year's budget and accept the note on the Part II scheme. The additions indicated in the
