ANNAMALAI UNIVERSITY

26th June, 1946.

No. _____

From

THE REGISTRAR,
ANNAMALAI UNIVERSITY,
ANNAMALAINAGAR

To

The Secretary to Government,
34433 Education and Public Health Department,
Fort St. George.

Sir,

I enclose a copy of the Vice-Chancellor's letter to Government on the subject of increase of numbers to be admitted to the Engineering courses at the University, also a copy of the letter to the Hon'ble Minister for Education from the Founder Pro-Chancellor of this University. The proposal has been made to cope with the demand from students of all the three linguistic areas of this presidency to admission in this University evidenced by the larger number of applications and the anxiety evinced in the matter by students eager to prepare themselves for the great task of post-war reconstruction. For both the classes of Engineers and overseers there is a rush. The University proposes to allot 125 seats in all for the 3 branches of engineering and leave for the present the numbers as they are in respect of Overseers and Technologists. The proposal has been made with the consent of the members of the Syndicate in anticipation of their express consent in circulation of papers. It is requested that the increase of 25 in engineering be approved so that the number of engineering and technology students to be admitted this year be 125 and 25, i.e. 150 in all.

I am in receipt of a copy of the order No. 33199 A/46-1 Edn. dated 21-6-1946. The admissions will be regulated for the year 1946-47 by this order also in accordance with the directions in G.O. No. 1892 Edn. d. 20-12-44. The University will gladly cooperate with Government and the other Engineering Colleges if after selection of students for the Colleges arrangements are made for this year to transfer the students of the Telugu districts to either of the new colleges as this will help in minimising the inconvenience and discomfort of students having to travel long distances for education in Engineering subjects.

W. S. V. S. V.
Registrar.

Vice-Chancellor.

3
ANNAMALAI UNIVERSITY
ANNAMALAINAGAR

25th June, 1946. 3

To

The Secretary to Government,
Educational & Public Health Department,
Fort St. George, Madras.

Sir,

34434

Admission to Engineering and Technology courses
at this University.

Last year the University increased its admission to the Engineering and Technological classes to 133 as a large number of applications had been received. This year in spite of the opening of the Sir Arthur Hope College of Engineering at Coimbatore, the number of applications continues to be great. Post-war reconstruction has perhaps been responsible for the increasing numbers. The numbers are such that they could not be accommodated even with the opening of two more Colleges in Andhradesa. The Hon'ble Minister for Education has suggested the admission of more numbers. This University will for its part work out the suggestion by taking 150 students. This is the maximum that this University can take.

Separate orders are awaited on the request of the University about the proportion of Andhra, West Coast and Tamil students to be admitted to the Engineering courses.

Yours sincerely
M. Rethnaswami

Ex. Rajah Sir Annamalai
Chettiar of Chettinad.

The Palace,
Chettinad.
18th June 1946

The Hon'ble Minister for
Education,
Madras.

Dear Sir, 34435

Government's orders (G.O.997 dated 22-7-43)
relating to the admission of students to the Engineering
College of this University require selection of 50% of
its students from the Tamil Area 38% from the Andhra and
11% from the West Coast areas. With the starting of two
more Engineering Colleges at Anantapur and Coconada, it
may be possible to revise this stipulation as it will be
a hardship to the Andhra Students if some of them are
asked to go to distant Annamalai while others are
accommodated at Cocanada and Ananthapur. It may be
reasonable to expect a revision of the percentages.
All three Colleges may be required to choose 70% of its
students from their own area and give ~~42~~ 30% for the two
other linguistic areas of this Presidency. A revision
of the G.O.No.997 dated 22-7-43 on these lines may be
helpful to prevent the flow of students from one area
to another without any special need for such stay in a
place far away from their homes. Such an order will
minimise the

Mr. N. J. Annamalai
Secretary of Chettinad.

The Hon'ble Minister for
Education,
Madras.

Dear Sir,
34435

Government's orders (G.O. 337 dated 22-7-45)
relating to the admission of students to the Engineering
College of this University require selection of 50% of
the students from the Tamil area 30% from the Andhra and
10% from the West Coast areas. With the starting of two
more Engineering Colleges at Ananthapur and Coconada, it
may be possible to revise this stipulation as it will be
a hardship to the Andhra students if some of them are
asked to go to distant Annamalai while others are
accommodated at Coconada and Ananthapur. It may be
reasonable to expect a revision of the percentages.
All three Colleges may be required to choose 70% of the
students from the Tamil area and give 30% for the two
other linguistic areas of this Presidency. A revision
of the G.O. 337 dated 22-7-45 on these lines may be
helpful to prevent the flow of students from the area
to Ananthapur without any special need for such stay in a
place far away from their homes. Such an order will
minimise the

✓ 7 5
inconveniences of long travel in these days of difficult
transport and make for better sense of comfort for these
students at College and closer and more profitable appli-
cation to studies. I have therefore to suggest the issue
of urgent orders to take effect from 1st July 1946 fixing
a percentage of 70 from the Tamils, 15 for the Andras and 15
from the West Coast for the Annamalai University to
its Engineering and Technology classes. Similar orders for
Ananthapur and Coconada Colleges may issue in time
for their starting courses this year in August 1946.
The Vice-Chancellor will be addressing you on the subject.
I am writing only to supplement his request.

With regards,

Yours sincerely,

Sd. S. RM. Annamalai Chetti.

It may be a good idea
after the selection
for all the colleges
are included to
all the committee to
allow the candidates
a few minutes to
their own linguistic
areas; for example
all selected Regional
Candidates for ATP (at
Mars Tembatue), all

Anshu ¹⁰ selected to
 become a ¹¹ ~~man~~ and all
 Taris selected
 between Annamalai
 & Guibature and
 Nadras. This will
 enable the candidates
 to go back to their
 homes and
 the college are located
 here. All foreign
 candidates may be
 allowed to the college
 need to be in the
 state. Please examine 26.

Letter No. 34433 A/46-1 Edu 2-7-46
Ref.

To

The Registrar,
Annamalai University,
Annamalainagar.

Sir,

Sub:- College of Engineering and Technology,
Annamalai University - Admission of
students.
Ref:- Your letter No. Nil dated 26th June 1946.

I am directed to say that there is no objection to the Annamalai University admitting 25 more candidates to the University College of Engineering and Technology. The Government will not, however, pay any additional grant to the University towards the maintenance of the College on this account of the increase in admissions. The instructions issued in Memo. 33199A/46-1, dated 21-6-46, regarding the filling of 20 percent of the seats in the Engineering and Medical Colleges by selection of students on merit is intended to apply only to the Government institutions and that too only for 1946-47. It is not necessary that the University should observe this principle in making selection of candidates for the University College of Engineering. As regards the suggestion made in the letter that arrangements may be made for the transfer of Telugu students selected to the Engg. College of Vizagapatam at Cocanada and for the allotment of Tamil students to the Annamalai University. I am directed to say that as the selections for the Govt. Engineering Colleges have already been made, the suggestion cannot be accepted now. The University may make its own selections as was done last year. The suggestion may, however, be brought forward sufficiently early in connection with the selection of candidates for 1947-48 so that a Joint Board may be

From the Regr., Annamalai University, dated 26-6-46.
From the V.C., -do- " 25-6-46.

Annamalai Unty. College of Engg. - Admissions.

Pl. see the letters from the V.C. of the Madras University on C.F.3 and the Regr. on C.F.1.

2. The V.C. requests that permission may be given to the Unty. to admit 25 more students in the Unty. College of Engg. and Tech. in July 1946. In the G.O. sanctioning/opening of the Unty. College, the no. of students that should be admitted to the college was not fixed. In July 1945, 133 students were admitted, of which eight were from the Cochin and the Pudukottah states and Secunderabad. There is no objection to the University admitting 25 more students, esply. as it is stated that the members of the Syndicate have been consulted. But as the University is receiving a block-grant towards the cost of maintenance of the college, it may be made clear to it that no increase of the grant will be considered on account of the increase of admissions.

3. The Registrar's letter raises two points:
(1) that the recent order prescribing that 20 per cent. of the total admissions to Govt. Engg. Colleges should be made on merit will be observed by the Unty.; and
(2) that after the students are admitted, the Unty. will be agreeable to transfer the students of the Telugu dts. to either of the 2 new colleges (viz., the Engg. College, Vizagapatam, at Cocanada and the Engg. College, Guindy, at Guindy and Coimbatore).

(1) above: One of the conditions subject to which the opening of the Unty. college was approved by Govt. was that in making admissions to the courses arrangements should be made generally on the lines followed in the Govt. Engg. College, Guindy, in regard to representation of communities, the proportion in which the students are selected

From etc.
to various linguistic areas. It is therefore ^{proper} that the University gives effect to the recent instruction re: 20% of admissions on merit. It may be asked to observe the instruction.

(2) on p.1 ante - Transfer of Telugu students to colleges intended for Telugu area: First of all, it is doubtful whether it is advisable to segregate students in different colleges on a linguistic basis. Secondly, different institutions provide instruction in different branches of Engg. The students may have their liking for a particular course and for a particular college, accg. as he chooses his future career. If the suggestion is to be considered, the D.P.I. will have to be consulted. For orders whether a refce. should be sent to him.

Please see in this connection the note on pp 3-5 NF

27/6/46 S

of go NA 1231201 d. 24-6-46

That no on is getting salary selection for various different.

Q. B. C.

also seen the route see not at all 9-10

I do not think he can go to his preference in merit. See Q. B. C.

D This is no question of segregation. It is certainly more convenient for a boy from Telugu etc to go to a Telugu college, say to Chidambaram. What is now proposed, is that after selection have been made for all colleges together on merit, linguistic and communal considerations, the candidates selected should be apportioned out among the colleges on a practicable according to the linguistic affinity to the place where a college is located, Madras being left as a multi-lingual one, mainly for city and other ethnic provincial cordates. This will result in great advantages to the students concerned, from the point of view of distance and expenses. He may consult the D.P.I.

advising me for an A, B & C.

Q. B. C.

H. (Ch)

(a) and (b). There is no objection to the Engineering College of the Annamalai University admitting 25 more boys but it should be made clear that no increase in the grant will be considered on account of the increase of admissions.

(c). The provision of reserving 20% on merit was intended only for the Govt. Engineering Colleges and only for this year as a temporary measure and so, it is not necessary to insist upon the same rule to the College of the Annamalai University. When we confirm it on a permanent basis, we may ask them to enforce it.

(d). This year, since selections for the Govt. Engineering Colleges are made separately and the selection to the Annamalai University College is made also separately from the Govt. Colleges, it will not be possible to consider the suggestion of allotting Tamil Tamils to the Annamalai University and Telugus to the other Universities. For that, a Joint Board of selection would have been necessary for which there is no time just now. Since the letter of the Vice Chancellor of the Annamalai University has come rather late, this matter may be borne in mind in the future. For this year, the Annamalai University will make its own arrangements for selection.

If it is a matter of allotting some of the boys selected in the Annamalai University to the future Anantapur College, that may be considered later.
