G.O. No. 1417, 22nd July 1946

Stationery—Paper position—Need for continuing economy measures—Impressed.

READ—the following paper :—

Memorandum from the Controller of Printing and Stationery, India, dated 13th July 1946, No. 88-P & S/46.

A review just made has shown that the paper position, especially with regard to Government requirements, is likely to remain tight for some time to come. The entire Government share of the indigenous production has already been covered and there is no margin left for additional provisioning. Additional demands have, however, been received from certain Direct Demanding Officers on the ground of unforeseen requirements, etc

2. It has become necessary to draw the attention of all Direct Demanding Officers to the unsatisfactory supply

position and to urge upon them to restrict themselves to their respective provisions (based on their own estimates) secured to them through the allocations made by the Director-General, Industries and Supplies (Paper Directorate) on the paper mills. Any new demands should be made by effecting such economy as is possible under other heads of consumption, changes from one variety to another being asked for, if necessary, for this purpose. The total allocation on the indigenous mills should not, however, be exceeded.

Order—No. 1417, Education, dated 22nd July 1946.

Copy of the memorandum from the Controller of Printing and Stationery, India, read above is communicated for information and guidance to Heads of Departments, and the departments of the Secretariat. None of the

existing paper economy measures should be relaxed except with the specific concurrence of Government in the Education and Public Health Department.

(By order of His Excellency the Governor)

Deputy Secretary to Government.

MEMORANDUM.

A review just made has shown that the paper position, especially with regard to Government requirements, is likely to remain tight for some time to come. The entire Government share of the indigenous production has already been covered and there is no margin left for additional provisioning. Additional demands have, however, been received from certain Direct Demanding Officers on the ground of unforeseen requirements etc.

2. It has become necessary to draw the attention of all Direct Demanding Officers to the unsatisfactory supply position and to urge upon them to restrict themselves to their respective provisions (based on their own estimates) secured to them through the allocations made by the Director General, Industries and Supplies (Paper Directorate) on the paper mills. Any new demands should be met by effecting such economy as is possible under other heads of consumption, changes from one variety to another being asked for, if necessary, for this purpose. The total allocation on the indigenous mills should not, however, be exceeded.

3. If in any particular case owing to a very substantial increase in the requirements of a Direct Demanding Officer, which could not have been foreseen when the estimates were drawn up, he finds it impossible to meet the situation from
P.T.O.

4

within the existing provision, he should immediately estimate what this minimum additional requirements during the current financial year will be. Procurement of the additional quantity will in that case have to be made by import, since as stated above, no increase in the allocations on the indigenous mills is possible. The Direct Demanding Officer concerned should confirm to this office that the additional requirement may be arranged for by import and for this purpose he should furnish to this office full particulars (viz. quantity, variety, and detailed specifications) of the supply desired. Such demands must reach this office by the 1st August 1946 at the latest after which it will not be possible to entertain any request for additional supply.
