Sir Thomas Austin - Vide p.4 n.f. of G.O.No.897 Edn., dated 30-4-1946. The D.P.I. has already been informed of the schemes for which provision has been made in the Budget. It is for consideration whether the entire amounts or any portion thereof can now be deleted from the Budget.

(ii) Building Grants to the Loyola College, Madras, towards construction of a new Chemistry laboratory-- Rs.2 lakhs:--

The circumstances under which this provision has been made in the Budget are explained in Part II Scheme note on pages 11--12 n.f. of G.O.No.695 Edn., dated 1-4-1946. It will be noticed that the amount is for construction of a Chemistry laboratory with facilities for advanced research and that the College has applied to the University for affiliation in B.Sc.(Hons). B.Sc.(Hons) in Chemistry is now provided only in the Presidency College and additional provision for B.Sc.(Hons) should ordinarily be welcome.

Further, the Principal of the Loyola College has already been informed that provision for the scheme has already been made in the Budget. In his letter dated 6th November 1945, the Principal stated that the management proposed to start construction of the building in July 1946 and to finish it by June 1947. In the circumstances, it seems that it will be a great disadvantage to the management of the College, if payment of the grant for building is deleted from the Budget.

(iii) Additional Buildings for Q.M.C.- The estimated cost of the proposed construction is ^{Rs. 1,30,000} ~~1 lakh and 30 thousand~~ of which provision for Rs.1,00,000/- has been made in the B.E. for 1946-47. The proposal ^{for} ~~of~~ the construction of additional buildings was a long standing one; and it was necessitated to provide accommodation for the new course in B.Sc. (Home Science) and B.A.(Geography) introduced during the period of war.

of war. The University granted affiliation to B.Sc.Home Science course on the distinct understanding that permanent buildings should be put up as soon as war ^{was} ~~is~~ over. ~~The scheme has been included in list II Schemes of economic importance to be started in 1946-47. The Govt. of India have also approved the scheme for payment of advance grants to this Govt. for works executed during the for the period ending 31-3-1947.~~ For orders.

(iv) Construction of a separate building for the primary department in the Lady Willington Training College, Madras:--

The proposed construction is estimated to cost ^{Rs. 1,10,000} ~~one~~ lakh and ten thousands. The buildings are intended to provide two nursery classes and to provide for the middle and upper school which is cramped and does not admit of development of teaching methods on modern lines without adequate space. As the proposed construction is intended for nursery classes, it is for consideration whether the proposal may be deferred.

(v) Presidency College, Madras:--

The proposal is to effect certain improvements to the buildings of the Presidency College at a cost of Rs.37,000/-. There is no serious objection for the proposal being deferred for this year.

(vi) Grants for public libraries.--

A provision of 1,00,000/- has been included in the B.E. for 1946-47 for payments of grants to public libraries maintained by District Boards, Municipal Councils, Panchayats and private associations. The grant to be paid for each library will not exceed Rs.200/-. Provision for this grant has been made considering the importance that libraries will have during the post-war period, especially in the scheme of adult education and the need for their efficient functioning. Orders have already been issued in G.O.No.770 Edn., dated 9-4-1946, calling on the local bodies and private associations to submit their applications for the grant to the

Item (vii) - Construction of additional buildings for the Govt. Museum:-

This scheme is estimated to cost Rs.4 lakhs. The reasons for which it was approved and a provision of ^{Rs.2} ~~two~~ lakhs made in the B.E. for 1946-47 will be found in the notes on p.p.36--38 of G.O.No.993, P.W.D. dated 2-4-46. The scheme has been sanctioned for execution in the G.O. cited above and there seems to be no objection to this scheme being deferred as suggested by H.P.M.

For orders.

(Viii)- Scheme relating to Compulsory Elementary Education:-

1. A provision of Rs.44,00,000/- has been made in the current year's budget towards the cost of introduction of compulsory elementary education in selected villages in each district. In 1945-46 the Govt. decided to introduce a scheme of compulsory elementary education and provided a sum of Rs.20,00,000/- for the purpose. The Director was asked to select village in each district for introducing ~~compulsion~~. It was estimated that about 1.70 lakhs of children will be brought to schools ultimately.

2. The continuance in 1946-47 of the scheme of compulsion introduced in 1945-46 was estimated to cost Rs.22 lakhs. This sum was provided in the Part I Estimates. The Govt. of the day decided to extend the scheme of compulsory education to other areas in each district and sanctioned an additional allotment of Rs.22 lakhs for the purpose. It was estimated that, with this provision, it would be possible to bring under instruction 2 more lakhs of children ultimately. The D.P.I. has been asked to select centres in each district for the extension of the scheme of compulsory education ^{in consultation} with the P.D.Bs, and submit proposals to Govt. The proposals are being received district by district. The scheme relating

to

may be retained

No harm in deferring to

to S.Kanara has been approved by Govt. Schemes relating to some other districts are under examination.

3. In the note on p.1 ante, it is stated that H.P.M. has expressed the view that the schemes may be held back this year. For the reasons explained in para.2 above, it is doubtful whether the scheme can be held back at this stage. As already indicated in paras 1 and 2 above, villages have been selected in each district for implementing the scheme. For orders.

SCHEMES SANCTIONED AFTER THE BUDGET WAS APPROVED BY H.E. THE GOVERNOR-GENERAL.

(i) Additional buildings for Government Muhammadan College, Madras. - B.Sc. Course:-

The provision made in the current year is Rs. ^{4,00,000} ~~10,000~~. The buildings are intended to accommodate the B.Sc course opened in Government Mdn.College, Madras, the sanction ^{for which was} accorded in G.O.No.708 Edn., dated 1-4-1946. As the construction of the building is expected to be finished by June 1947, temporary arrangements have been made for the present, to enable the new course to be started in July 1946. If the work is postponed, it means that the temporary arrangements will have to be continued for another year. For orders.

(iii) - Additional buildings for Govt.Arts College, Coimbatore.

The estimated cost of construction is Rs.1,90,000/-. It is intended to put up an additional buildings for the Govt. Arts College, Coimbatore, in connection with the raising of the status to the First Grade College. The University has insisted that the building should be completed as early as possible; ~~and~~ that the grant of affiliation to the B.Com & B.A.(Geography) courses was refused in 1945-46 for want of adequate buildings.

may be postponed, if there is no other course

Unless the buildings are constructed this year, the University will raise strong objections to the continuance of the courses in the existing buildings. The scheme is ~~also~~ included in the list of schemes expected to fetch advance grants from the Govt. of India. For orders.

Most of the schemes have been announced and commitments have also been made. Excepting items V and VII which may be allowed to wait, all the other schemes are highly urgent and desirable, and to delete the provision for them will cause heartburning and discontent among a large number of institutions in the Presidency, and will retard educational progress to a considerable extent.
