Dr.S.R.U.Savoor, M.A., D.Sc., I.E.S.,
Director of Public Instruction, Madras.

To

The Secretary to Government,
Education and Public Health Department.

Sir,

Sub: College - Presidency College, - Employment of additional Professor in Mathematics.

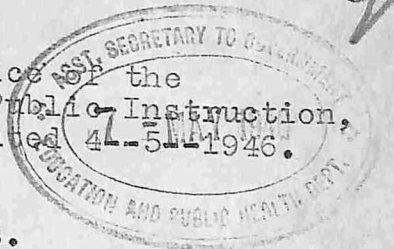

With reference to para 1 of G.O.Ms.No.1354 Edn dated 4-9-1945, I have the honour to request sanction of the Government for the employment of an additional assistant Professor in Mathematics in the College from the beginning of year 1946-47 for the following reasons.

Due to the increase in the strength of the Intermediate classes, and the additions made to the syllabuses of the Intermediate and the B.Sc.(Pass) courses, there will be 92 hours of work a week in the Mathematics Department of the college during the year 1946-47. This cannot be distributed among the existing members of the staff in the Mathematics Department, consisting of 2 Professors and 5 Assistant Professors without detriment to efficiency of work. Even after appointing an additional assistant professor there will be a minimum of 12 hours of work for every assistant professor.

for Director of Public Instruction.

Rd 3/7/46 Memorandum No. 24377 A/ub - 1 Edn. dated 20-5-46

The D.P.I. is requested to
justify more fully his proposal for the employment,
during 1946-47 of an addl. Asst. Professor in Mathe-
matics in the Presidency College, account being taken
of the number of hours of work prescribed by the Univy
for each member of the staff i.e. 14 hours work a
week.

Sir,

Sub: Presidency College, Madras - Employment of additional
Assistant Professor in Mathematics.
Ref: Govt. Memo.No.24377-N/46-1, Education, dated 20-5-46.

36558 p3 ante

I have the honour to state that "14 hours a week" prescribed by the University does not mean that irrespective of the nature of work i.e. elementary work in the intermediate classes or advanced work in the Honours classes, each member of the staff should have the same number of hours of work. It is naturally important in arranging an efficient distribution of work to take into account the relative difficulty of the courses of instruction which a member of the staff is assigned and not merely the formal count of the number of hours shown in the time table.

Further in all the classes from Intermediate to Honours the teaching of Mathematics includes the giving of guidance in the working of problems and this is particularly so for the Honours classes where, owing to the advanced nature of the course, such guidance requires the setting apart of a substantial number of hours per week. The details of work involved in such guidance cannot be shown in the time table. Such guidance is generally arranged by way of tutorial instruction outside class hours. If all this is taken into account it will be seen that the spirit of "14 hours per week" rule is fully complied with.

I therefore request that Govt. may be pleased to sanction the appointment of another additional Assistant Professor in Mathematics for the College.

College Presidency, Madras - employment of
and addl Professor in Mathematics.

PICF C.N: 24377/46, From the DDI, C.N: 817-K (46) 45-46

PICF

The DDI has reported that
during the year 1946-47, there will be 92 hours
of work a week in the Mathematics Dept of the
Presidency College, Madras. He has, therefore
asked for the app^{in the college} of an Addl Asst Professor
in Mathematics in addition to the existing

A

P41-2CF9 (E)

Staff of 2 Professors and 5 Asst Professors. In July
last, the same request was made by the

remained
P41-2CF9 (E)

Director. He then reported that there ^{would} be

P41-2CF9 (E)

94 hrs of work per week in the Maths Dept
during the academic year 1946-47. Though

P45-6NF9 (E)

this Dept supported the request of the Director,
Finance considered that by an application
of the ratio of 14 hours a week for each member

A draft memo is submitted

42-27

of the staff, there was no case for the appointment of an Asst Professor in 1946-47. However, it was ordered in circulation that the question of appointment of an addl Asst Professor might be considered in 1946-47 with ref. to the needs of that year. Instead of the 94 hours ^{of work} a week reported by the Director in July 45, he has now reported that there will be only 92 hours of work a week for the Mathematics Dept. Applying the ratio of 14 hours of work a week for each member of the staff, there is not even sufficient work for the existing staff of 2 Professors and 5 Asst Professors. In the circumstances, the proposal of the Director has to be turned down. For orders. Finance may see.

 A on p1 above is 7 and the no. of hrs they have to handle per week is reported to be 92. The no. of hours of work

Finance E III
 The number of Professors and Assistant in the Mathematics Department of the Presidency College

4/ Prescribed by the University for each member of staff is 14 per week. According to this scale the ^{existing} staff in the College is more than adequate and there seems to be no case for the appointment of an additional Assistant Professor in 'Mathematics'. But please see the letter of the D. P. D on p 5 CF wherein he explains the spirit of the '14 hours per week' rule in justification of his proposal. The factors listed by him might have been taken into account by the University in fixing the '14 hours per week' rule. It is, however, for consideration whether the proposal may be agreed to in this dept. If so, the post may be sanctioned for a period of 1 year in the first instance.

AS Attention is ~~also~~ invited to the extraction

Dr
 removed

(E)

p 5 CF of No 13542 on 4-9-45.

It has clearly been shown that it is not always possible to work up to the maximum limit of 14 hours per week prescribed in the University especially by those engaged with Honours classes, and this is again stressed in D.P.I on p 5 CF. In the circumstances this dept need not object to the proposal to have an addl Asst Professor for the Mathematics dept of the Presidency College. The post may be for one year.
