Sir,

Subject:— Proposals for employment of demobilised war personnel.

The Corporation of Madras has on its teaching staff nearly 1350 teachers for imparting secular instruction, of whom 19 are L.Ts and 255 are Secondary Grade Teachers and the rest Viz., 80% are Elementary Higher Grade Teachers including a small number of about 40 Elementary Lower Grade trained teachers who were entertained several years ago. As the efficiency of Corporation Schools depends largely upon the recruitment of teachers with proper and sufficient qualifications, efforts were made to recruit better qualified people.

2. But for the past two years considerable difficulty has been felt in securing teachers with better qualifications, particularly Secondary Grade Teachers. The same difficulty was experienced even by aided schools in the City and elsewhere. In order to tide over this difficulty and to ensure a regular supply of better qualified and Secondary Grade Teachers for Corporation Schools, proposals for starting a Secondary Grade Training School under the management of the Corporation with a subsidy from the Government were made in December 1944. The late Sir R.M. Statham, Director of Public Instruction wrote to say that he would support the proposal. The proposal is now before the Standing Committee (Taxation & Finance) of this Corporation.

3. Now that the war is over, it is likely that candidates who passed S.S.I.C. Examination or appeared for that examination might be available from among the discharged men for service as teachers. The Corporation has already begun to enforce compulsion rigorously in the City and there will be greater admissions in Schools involving the employment of more teachers. I, therefore, suggest the following

p.t.o.

proposals for consideration so that about 80 demobilised war personnel may be recruited for training as teachers:-

(i) Persons between 20 and 30 years discharged from war service with S.S.L.C. (passed) qualification may be admitted to the proposed training school. This educational qualification may be relaxed in the case of war returned personnel belonging to the Scheduled Classes and the Muslim Community and other educationally backward communities provided they have read in Form VI of a recognised High School for a full school year.

(ii) The period of training for the selected candidates may be reduced to nine months and the existing rule that they should undergo two years training may be suspended for this purpose.

(iii) The selected candidates may be paid stipends by the Government at double the existing rate as an incentive. As the period of proposed training is for only nine months instead of 2 years in the case of S.S.L.C. Candidates, Rs.24/- per mensem is considered a suitable rate in these days of high prices of food stuffs etc.

(iv) Those who come out successful in the T.S.L.C. Examination will be absorbed in the Corporation Schools on their signing a bond to serve the Corporation as a teacher for a period of five years.

4. This Special Teachers' Training Institution will serve the purpose of not only training teachers, but will also help to mitigate the hardship that may be caused to the demobilised personnel in securing employment. The Corporation will have not only better qualified teachers but also will be in a position to employ about 80 war personnel annually for the next few years. I request that Government will be pleased to sanction the proposal for starting a Training School by the Corporation and to meet the full cost of stipends and half the cost of running the school.

The cost of maintaining a Training Institution for nearly candidates is given in the statement appended. The proposed Training

2. The secondary training class attached to the Government Training school for Masters, Madras has been held in abeyance for want of candidates. When candidates become available, it will be possible to admit 40 or even 80 candidates in the Madras training school.

3. The Corporation of Madras, has never felt the need for advertising secondary grade teachers' vacancies. On account of higher salaries offered by the Corporation of Madras, qualified teachers flock to the Corporation even from outside Madras.

30 OCT 1945
4. As regards the demobilized men, Government has sent us the number of candidates to be trained according to languages and arrangements are being made to open necessary centres. There is no necessity for the Corporation to open a training school for demobilized men.

5. As regards stipends, recommendations have already been sent to government to increase the rates by 50 percent. Whatever the increase may be, the teachers to be trained in the proposed training school cannot be given stipends higher than those given to students in other training schools.

Sir,

Sub: Corporation of Madras - Opening of a Secondary
Training School for training demobilised war
personnel.

Ref: Govt. Memorandum No.44349-A2, dated 14-11-45 and
No.44349A-4, Education, dated 3-12-45.

In the first of the Govt. Memoranda quoted above I have been
asked to re-examine the proposal of the Corporation in consulta-
tion with the Board of Revenue and I have accordingly addressed
the Secretary, Board of Revenue in the matter.

As, however, a reply is required before the 10th instant,
I again invite the kind attention of Government to my letter
Roc.No.1.S.0/45, dated 4-10-45 wherein, I have stated that in
regard to Secondary Grade Teachers' Training there is no necessity
for the opening of Special Training Classes for the demobilised
personnel and that there is ample room for the admission of
such personnel provided they have the required qualifications
prescribed for Secondary Grade Training. I may further add that
the Secondary Training Section in the Govt. Training School, Madras,
is held in abeyance for want of candidates. In these circumstances,
I still consider that there is no necessity whatever for the
Corporation of Madras to open a Secondary Grade Training School
either to meet its own requirements or to train up demobilised
soldiers.

I have the honour to state that the Regional Director of Resettlement and Employment has furnished me with a list of candidates which -- contains only 9 S.S.L.C. holders reported to have been selected by the Collectors of the several Districts for Secondary grade teachers' Training. Of these only one candidate is desirous of undergoing training in Madras District.

In view of this, there is no necessity, as already stated in my letter dated 6th December 1945 for the Corporation of Madras for the opening a separate training school.

that there is no need for the opening of a secondary grade training school by the Corporation. If the members of the Board of Govt. which has been consulted by the Director are to be avoided it may be too late to consider the proposal as a Part II scheme for 1946-47. Perhaps the
