R.O.C.No. 1142 K.2/46.

Station Madras, Dated the 10th September 1948

From (Name) Dr. S.R.U.Savoor, M.A., D.Sc., I.E.S.,  
(Designation) Director of Public Instruction

To The Secretary to the Government of Madras,  
EDUCATION & PUBLIC HEALTH Department.

Sir,

I have the honour to request that Government may be pleased to sanction the opening of a course in Psychology under Part III of the Intermediate Course in the Government College, Kumbakonam with effect from July 1947.

2. At present the following groups are offered for the Intermediate under Part III.-

- i. Mathematics, Physics and Chemistry
- ii. Physics, Chemistry and Natural science
- iii. Indian History, Modern History and Logic
- iv. Physics, Chemistry and Logic
- v. Mathematics, Indian History and Modern History.

It is reported that no student has been admitted in the current year in Group v and only 2 have been admitted in group iv. The Principal proposes to continue admissions to group iv with effect from next year. The Principal has reported that a large number of students who has taken Physics and Chemistry in their S.S.L.C apply for the -- Natural science group but all could not be admitted to that group as the number of seats is only limited. These

P.T.

students could not also be admitted to the Mathematics group as they are not qualified for it. It is also reported that last year many students who had taken Mathematics as their optional in the S.S.L.C had to be admitted into the Mathematics, Indian History and Modern History group as they could not be provided in the science section. These students were not comfortable in this group. For the benefit of these students the Principal has suggested the opening of Psychology with the following combinations:-

- Mathematics, Psychology and Logic
- Indian History, Modern History and Psychology
- Indian History, Psychology and Logic

The Principal states that Psychology is becoming increasingly important and its scientific application is laid under service in many ways now a days in the field of education. It is a growing subject of study and deserves to be popularised among students as much as other science subjects. Among the combinations, students who take History in their S.S.L.C. Course will be admitted in group (b) and (c) and those who take Mathematics, but could not get admission into the science sections will be admitted into group (a).

3. There is no extra expenditure on account of the opening of the subject as the necessary staff, accommodation and equipment are available in the college. The total number of students who may be expected to offer the above combinations is 65 and the probable fee income on account of the introduction of the subject will be Rs 4000/- a year. An affiliation fee of Rs 100/- has to be paid to the University.

4. I recommend that the opening of the subject may kindly be sanctioned.
